MANAGEMENT REPORT
for the 2nd quarter of 2023

- The **throughput** for the period ended 30 June 2023 amounted to 2,578,741 tons, evidencing a **decrease of 11%** in comparison to the same period in the prior year (2022: 2,901,984 tons). This is primarily attributed to a decline of 19% in bulk cargo throughput when compared to the second quarter of 2022. It is necessary to note that the Russian-Ukrainian crisis which emerged in 2022 contributed positively to the Company's operations as a result of the disruption noted across global logistics flow chains and it continues to contribute positively during 2023 albeit to a lesser extent. The total throughput of the Company continues to evidence high growth when compared to the levels of throughput prior to the crisis (58% growth when compared to the same period in 2021).

- Although throughput notes a decline of 11% when compared to the same period in the prior year, **Income from sales** amounted to 18,068 thousand euros, evidencing an **increase of 11%** in comparison to the same period in the prior year (2022: 16,335 thousand euros). This is primarily attributed to growth in warehousing income. **Income from trading** evidenced no change from quarter 1 of 2023 and amounts to 14,003 thousand euros, a **67% decrease** when compared to the same period in the prior year (2022: 42,209 thousand euros). The cargo vessel is expected to dock at the beginning of the 3rd quarter of 2023. Global commodity prices continue to demonstrate a declining trend when compared to the same period in the prior year, the effect of which impacts and will continue to impact income from sales (and the related cost of sales).
- Operating expenses amounted to 23,725 thousand euros (2022: 51,224 thousand euros), of which 13,452 thousand euros relates to the cost of goods sold (2022: 41,655 thousand euros). **Operating expenses excluding the cost of goods sold** evidence a **7% growth** in comparison to the prior year. This increase can be attributed to the significant growth in the **cost of raw materials and consumables (26%), utility charges (29%), and maintenance and certification costs (26%)**.
- Financial costs have increased due to an increase in interest charges as a result of the short-term debt financing assumed during the back end of 2022. In addition, the effect of negative exchange rate differences related to USD/EUR conversions impacted on the overall increase in financial costs during the quarter.
- EBITDA margin excluding the impact of trading** for the period ended 30 June 2023 amounted to **45%** while the EBITDA margin for the same period in 2022 amounted to 42%.

The Russian-Ukrainian crisis and impact of sanctions imposed against Russia on the business

The Russian-Ukrainian crisis contributed positively to the Company's operations as a result of the disruption noted across global logistics flow chains. It continues to contribute positively during 2023 albeit to a lesser extent. Namely, intensified congestion was noted in the northern ports with the Black Sea being positioned close to the warzone. This resulted in a heightened increase in vessel insurance costs which further contributed to the growth in overall costs of logistics across that route, coupled with already prominent congestion present. Consequently, the challenges redirected additional business by means of driving additional throughput to the Company. This can be seen when comparing current period throughput to the period prior to the crisis - an **increase of 58%** in throughput was noted when comparing quarter 2 of 2023 to quarter 2 of 2021. Although an 11% decrease in overall throughput was noted in quarter 2 of 2023 as compared to quarter 2 of 2022, operating income excluding trading income evidences an **11% growth** when compared to quarter 2 of 2022.

MANAGEMENT REPORT
for the 2nd quarter of 2023

The Russian-Ukrainian crisis and impact of sanctions imposed against Russia on the business (continued)

The Company did not execute any financial transactions with any Russian financial institution and does not have financial exposure to same.

While the impact of the sanctions against Russia demonstrated a positive impact on the income from port activities, a significant increase in costs relating to raw materials and supplies was noted, together with marked volatility in capital markets (e.g., increased operating costs, challenges in the supply and demand chain, high inflation, etc.).

The Company has assessed the associated risks arising from the aforementioned as follows:

- Increase in the cost of transport, raw materials and supplies, energy and fuel (when compared to the prior year), which is further transferred to other costs.
- Given the significant increase in costs and compounded by logistical challenges faced, the Company has noted a significant increase in requests for advance payments by suppliers while the delivery time for receipt of goods from suppliers has been prolonged. Consequently, the Company has had to proactively plan and manage its financial resources to meet known current needs and unforeseen circumstances, including the need for increased advanced payments. Taking all this into account, the Company's liquidity was impacted which gave rise to the need for additional financing.

The Company actively participates in the market in order to better position itself in these circumstances.

Investments at a glance

During 2022, the Company contracted the purchase of a new mobile port crane worth 4 million euros. The crane was delivered at the end of June 2023 and is expected to commence operations during the 3rd quarter of 2023. In the 3rd quarter of 2023, the Company refinanced the purchase of the crane using a long-term structured loan which unlocked additional liquidity.

In addition to the above, during 2022, the purchase of port transport equipment with a total value of 2.1 million euros was contracted. From a total of 15 items contracted, 8 items have been delivered at the date of writing this report.

Projects in progress:

- Special cargo terminal Dračevac;
- Solar power plant "Port of Ploče - Bulk cargo terminal" - 20 Kw;
- Photovoltaic power plant – 803 Kw.

Projects in planning phase:

- Construction of a power plant on the ground;
- Procurement and installation of a ship unloader on the new bulk cargo terminal.

MANAGEMENT REPORT
for the 2nd quarter of 2023

Trade receivables and the Company's liquidity outlook

Trade receivables as at 30 June 2023 amounted to **17.3 million euros**, which evidences a decrease of **28%** when compared to the same period in the prior year. **84%** of the total trade receivables are **not yet due**, of which **72%** relate to **trading goods not yet dispatched**.

Cash and cash equivalents **increased** by **45%** from 4,490 thousand euro on 31 December 2022 to **6,526 thousand euro** on 30 June 2023. **Irrevocable letters of credit** are presented in the balance sheet as "other financial assets". Irrevocable letters of credit cannot be unconditionally used for everyday transactions (readily convertible), and as such do not meet the definition of cash equivalents according to IAS 7. These amounted to **12,493 thousand euro** on 30 June 2023, and evidence a **decrease** of **10%** when compared to 31 December 2022. On 30 June 2023, the letters of credit recognised in the balance sheet relate to the purchase of trading goods (94%) expected to dock at the beginning of quarter 3 of 2023 while the remaining 6% relates to an advance on the purchase of the new mobile port crane (referred to above).

The Company continues to maintain a satisfactory level of liquid assets sufficient to meet all liabilities as they fall due.

Human resources

The **employee headcount** has **increased** from 400 employees as at 30 June 2022 to **412** employees as at 30 June 2023. Employee costs have **increased** by **7%** as compared to the same period in the prior year. The average gross salary per employee amounts to 1,592 euros in quarter 2 of 2023, while the same amounted to 1,455 euros in the prior year, evidencing a 9.4% increase in average gross salary year-on-year.

Conversion of share capital from HRK to EUR

On 14 June 2023 the General Assembly of the Company was held where the conversion of the Company's share capital was approved in accordance with the provisions of the Companies Act (OG 111/93, 34/99, 121/99, 52/00, 118/03, 107/07, 146/08, 137/09, 125/11, 152/11, 111/12, 68/13, 110/15, 4 0/19, 34/22, 114/22, 18/23). According to the decision of the General Assembly, the share capital conversion amounts to 22,417,251.00 EUR (169,186,800.00 HRK) and comprises 422,967 ordinary shares with a nominal value of 53.00 EUR (400.00 HRK). The reduction of the share capital amounts to 37,696.24 EUR and will be recorded in the Company's capital reserves. The effect of reducing the share capital value due to the conversion adjustment does not affect the original share rights of the shareholders i.e., the shareholders are entitled to shares with a reduced nominal value in proportion to their previous shareholding in the share capital.

The Company's Management Board is in the process of registering the decision of the General Assembly in the court register of the Commercial Court in Split and in the depository of the Central Clearing Depository Company (SKDD). The decision enters into force on the day it is formally registered in the court register.
