for the 4th quarter of 2024

Luka Ploče Group comprises: Luka Ploče d.d. ("Company"), Pomorski servis Luka Ploče d.o.o., Luka šped d.o.o., Pločanska plovidba d.o.o. and New Concrete Technologies d.o.o.

- The throughput for the period ended 31 December 2024 amounted to 3,957,688 tons, evidencing a decrease of 17% in comparison to the same period in the prior year (2023: 4,779,698 tons).
- The total decrease in throughput is primarily attributed to a decline of 29% in bulk cargo throughput when compared to 2023 driven mainly by a 42% decline in coal handling when compared to the same period in the prior year.

The primary drivers of the decline in coal handling can be attributed to the following:

- 1.) The decision of our business partner ArcelorMittal, Zenica to shut down its coking plant that operated as part of the greater steel factory operations in Zenica, concluded at the beginning of the 2024 financial year. As a result, ArcelorMittal, Zenica replaced coal as a cargo type in its operations with coke, which it in part imports through the port of Ploče. The throughput of coke handled at the port of Ploče is less than the troughput of coal which was handled at the port in previous years.
- 2.) A catastrophic natural disaster occurred on 4 October 2024 in Bosnia and Herzegovina that resulted in human casualties and extensive material damage to infrastructure. The storm accompanied by extreme rainfall resulted, amongst others, in large-scale damage to the transport infrastructure that connects the port of Ploče with its users in the region. Given the extreme damage to the railway infrastructure around Jablanica and Konjic, railway traffic was suspended with immediate effect. As a consequence, the delivery and shipment of cargo by rail to and from the port of Ploče was suspended. Since this railway connection is the only means of rail carriage to and from the port of Ploče via which the bulk of throughput is transported to and from Bosnia and Hercegovina and Serbia, the impact of this event resulted in a significant decline of throughput in the port during quarter 4 of 2024.

On 31 January 2025 the reconstruction of the destroyed railway infrustructure was completed and railway traffic recommenced after almost 4 months since the devastating floods afflicted the area of Donja Jablanica. While railway traffic was suspended, cargo for the BiH market was transported by road with trucks. With the completion of reconstruction of the railway line, all conditions have been met to allow for normal dispatch of cargo to and from customers in BiH and Serbia via the port of Ploče.

Luka Ploče Group INTERIM MANAGEMENT REPORT for the 4th guarter of 2024

'

Total throughput during the 4th quarter of 2024 amounted to 659 thousand tons, evidencing a decrease of 35% in comparison to the 4th quarter of 2023, and a decrease of 53% in comparison to the 4th quarter of 2022.

- General cargo throughput evidenced an increase of 15% primarily attributed to the increase of throughput relating to steel billets and steel coils. Liquid cargo throughput has remained constant when compared to the prior year.
- Income from sales amounted to 33,350 thousand euro, evidencing a decrease of 12% in comparison to the same period in the prior year (2023: 38,084 thousand euro). The decrease in income from sales is lower than the decrease in throughput due to cargo structure.
- Income from trading amounted to 66,304 thousand euro, evidencing a **71% increase** when compared to the same period in the prior year (2023: 38,862 thousand euro). This can be attributed to the increase the quantity of trading goods year-on-year: during 2024 throughput from trading activities amounted to 321 thousand tons while, for the same period in the prior year, throughput from trading activities amounted to 164 thousand tons.
- **Operating expenses excluding depreciation and amortisation** amounted to 87,479 thousand euro (2023: 60,490 thousand euro), of which 64,403 thousand euro relates to the cost of goods sold (2023: 37,278 thousand euro). **Operating expenses excluding the cost of goods sold** have remained constant in comparison to the same period in the prior year.
- **EBITDA margin excluding the impact of trading** for the period ended 31 December 2024 amounted to **32%** while the EBITDA margin for the same period in 2023 amounted to 40%.

Liabilities to banks amounted to 13,499 thousand euro on 31 December 2024.

- The Company has a long term HBOR loan which was contracted in 2018 at a fixed interest rate, amounting to 9.69 million euro.
- The Company has a long term HPB loan, which was contracted at a variable interest rate linked to the EURIBOR and amounted to 3.67 million euro.
- Pločanska plovidba d.o.o. has a long-term loan from PBZ with a variable interest rate amounting to 134 thousand euro.

Cash and cash equivalents increased by 24% from 18,492 thousand euro on 31 December 2023 to 22,880 thousand euro on 31 December 2024.

The Group continues to maintain a satisfactory level of liquid assets sufficient to meet all liabilities as they fall due.

Human resources

Employee headcount has **decreased** by 44 employees from 480 employees as at 31 December 2023 to **436** employees as at 31 December 2024. Staff costs have **increased** by **3.6%** as compared to the same period in the prior year. The **average gross salary per employee** amounted to **1,527 euro** in 2024, while the same amounted to **1,469** euro in the prior year, evidencing an increase of **3,9%**.

The Russian-Ukrainian crisis and impact of sanctions imposed against Russia on the business

Taking into consideration the previous 3 years, we note that the Russian-Ukrainian crisis has contributed positively to the Company's and Group's operations as a result of the disruption noted across global logistics flow chains driving additional throughput to the Company and for the Group over this period. Total throughput continues to demonstrate a slight increase to throughput prior to the crisis (annual throughput in 2021): evidencing a 2% increase in throughput in 2024; a 23% increase in throughput in 2023; and a 43% increase in throughput in 2022, when compared to same in 2021.

The Group did not execute any financial transactions with any Russian financial institution and does not have financial exposure to same. There were no transactions with Russia during 2024.

The Group has assessed the associated risks arising from the aforementioned as follows:

- Increase in the cost of transport, raw materials and supplies, energy and fuel (when compared to previous years before the conflict), which is further transferred to other costs.
- Given the significant increase in costs and compacted by logistical challenges faced, the Group has noted an increase in requests for advance payments by suppliers while the delivery time for receipt of goods from suppliers has been prolonged.

for the 4th quarter of 2024

Although the above-mentioned risks still exist, a reduced inflationary pressure on the Group's operations has been observed when compared to 2022 and 2023 (e.g. in terms of commodity prices and energy prices). However, the pressure of heightened macroeconomic factors is still visible when considering the Group's operations and that of our business partners especially given the catastrophic natural disaster in Bosnia and Herzegovina which occurred at the beginning of the 4th quarter resulting in the suspension of railway traffic for cargo intended for the markets of Bosnia and Herzegovina and Serbia until completion of the reconstruction of the railway infrastructure on 31 January 2025.

The Group continues to maintain a satisfactory level of liquid assets sufficient to meet all liabilities as they fall due.
