THE IMPACT OF THE RUSSIAN INVASION OF UKRAINE ON THE COMPANY'S OPERATIONS

The war in Ukraine and the sanctions imposed on Russia have an impact on the world economy, and therefore on the European and Croatian economy, and indirectly on the Company's operations. The largest EU economies have minimal GDP growth rates, so lower Croatian GDP growth rates are expected. Due to the invasion of Russia in Ukraine and the interruption of the operation of their ports, there were significant disruptions of traffic routes through the ports of the Black Sea, as well as finding alternative traffic routes. The secondary effect of the conflict is visible in market disruptions in the supply of energy products, disruptions in the food market, and the growth of the inflation rate, which has an impact on the Company's operations, partly in the increase in operating costs. The company intends to continuously monitor costs, and with quick business decisions to influence the achievement of cost efficiency, which will result in more profitable operations.
