COMMENT BY KATIJA KLEPO, PRESIDENT OF THE MANAGEMENT BOARD

This quarterly report is the first under the mandate of the new Management Board, which, with a clear focus on increasing efficiency and resilience, continues the development of AD Plastik Grupa on stable business foundations. The automotive market, after the pandemic, has entered a stabilization phase, but it is still under strong pressure. Inflation and consumer caution are slowing down sales growth, while complex geopolitical circumstances, trade tensions and increasing competition from Chinese manufacturers create additional uncertainty in the European automotive industry. At the same time, accelerated electrification and investments in sustainable technologies change the structure of the market and place new demands on manufacturers and their suppliers. In such an environment, AD Plastik Group continues to act responsibly and adaptively, with a primary focus on the quality, innovation and sustainability of its solutions. Our priorities are strengthening competitiveness and creating added value through the development of people, knowledge and technologies. Strategically, we are focused on the improvement of production processes through automation, greater efficiency and the development of internal competences, including the application of advanced technologies and digitization of processes.

Operating revenue in the reporting period amounted to EUR 115.20 million, which represents an increase of 3.3% compared to the previous year. Revenue from own production increased by 5.6%, with the highest growth of 8.4% recorded in the parent company. EBITDA increased by 56.2% and amounted to EUR 13.98 million, or 12.1% of operating revenue. Net profit amounted to EUR 9.30 million, or 8.1% of the Group's operating revenue. In the same period, the Group's indebtedness was further reduced, which strengthened the company's financial stability.

In the upcoming period, the strategic focus will be on further developing partnerships and strengthening sustainability through additional portfolio diversification.

New contracted projects, which will enter full serial production in the coming periods, confirm significant room for growth and additional revenue stability. At the same time, continued deleveraging and responsible cost management further strengthen our financial position and create a solid foundation for future development.

We are confident that consistency, knowledge, readiness for change and flexibility remain the foundation of our competitiveness and sustainable growth. With dedicated and reliable business operations, we continue to focus on sustainable growth and value creation for all our stakeholders.

FINANCIAL RESULTS FOR THE FIRST NINE MONTHS OF 2025

AD Plastik Group is comprised of the following companies during the reporting period:

- AD Plastik d.d., Croatia
- AD Plastik Tisza Kft., Hungary
- ADP d.o.o., Serbia
- AD Plastik d.o.o., Slovenia
- AO AD Plastik Togliatti, Russia
- ZAO AD Plastik Kaluga, Russia

(hereinafter: AD Plastik Group or Group)

In the third quarter, AD Plastik Group continues with positive financial trends and revenue growth, primarily revenue from serial production, while achieving improved profitability, capacity utilization and increased operational efficiency.

The Group's operating revenue in the first nine months amounted to EUR 115.20 million, which is 3.3% higher than in the same period last year, while in the parent company it was also 3.3% higher, amounting to EUR 87.85 million. The structure of revenue makes a significant positive difference visible in the profitability indicators, so the Group's EBITDA grew by 56.2% and amounted to EUR 13.98 million, while in the parent company it was higher by 81.4% and amounted to EUR 10.00 million. The Group's EBITDA margin amounted to 12.1%, and the parent company's EBITDA margin was 11.4%. These margin developments were primarily driven by the growth in revenue from serial production of new projects, with a simultaneous decrease in revenue from tools.

The Group's net profit is as much as 16 times higher than in the same period last year and amounted to EUR 9.30 million.

In addition to the previously mentioned growth in the EBITDA margin, the strong growth in the Group's net profit was largely contributed by the growth in the share in the profit of the affiliated company in Romania as well as positive exchange rate differences related to the strengthening of the Russian ruble and the Hungarian forint. The net profit of the parent company in the first nine months of the current year amounted to EUR 3.80 million and, in addition to the previously mentioned positive effects, was also influenced by the effect of a lower voted dividend of the affiliated company in Romania compared to the previous year.

In the upcoming period, a continuation of the positive trend of growth in production volumes is expected on new projects that have entered serial production, which should have a positive effect on revenue from own production, capacity utilization, efficiency and overall profitability. However, the risk of a stagnant automotive market, both in Europe and in Russia, is still present.

In the reporting period, the Group successfully continued to deleverage, which is best reflected in the net financial debt indicator, which decreased by 24.7% compared to the end of last year, or by a significant EUR 9.96 million. The majority of this debt reduction comes from the parent company, whose net financial debt was lower by EUR 9.38 million, with an increase in the cash position. It is worth mentioning once again that a restructuring of part of the financial debt was successfully carried out in the first quarter of this year, reducing the repayment pressure in the current year and improving the maturity structure of liabilities. With further deleveraging and more favourable interest rate movements, a positive impact on financing costs is expected to be visible in the upcoming period.

The achieved results confirm the Group's ability to effectively adapt to market conditions and challenges and emphasize the importance of strategic orientation that enables improved operational efficiency, stable financial position, cost efficiency and continuous development of new business activities, all as a foundation for long-term and sustainable growth of the Group.

The Group's net financial result shows a positive impact of the strengthening of the Russian ruble and the Hungarian forint, unlike the same period last year when exchange rate differences had a negative effect.

In the parent company, a significant contribution to the financial result, in the amount of EUR 1.85 million, comes from the decision on dividend payment in the affiliated company in Romania, which is nevertheless EUR 0.76 million less than in the first nine months of last year.

Although financing costs remain at higher levels, the continuation of the de-leveraging process and the expected further decline in interest rates during the year should result in their reduction.

CAPITAL	98.907	108.936	110,14	91.545	95.348	104,15

The continuation of the deleveraging that began at the end of last year is also evident in the first nine months of the current year. The Group's net financial debt amounted to EUR 30.39 million, representing a decrease of EUR 9.96 million compared to the end of the previous year. At the same time, the parent company's net financial debt decreased by EUR 9.38 million and amounted to EUR 28.22 million.

The NFD/EBITDA indicators of the Group and the parent company have also improved significantly. At the Group level, this indicator now amounts to 1.65, while at the parent company level it is 2.33. Further improvement is expected through continued deleveraging and increased profitability. The Group's indebtedness ratio was reduced from 0.45, as of December 31, 2024, to 0.40, while it

decreased from 0.42 to 0.39 in the parent company. Most of the significant investments related to new projects, including development, specific equipment and returnable packaging, were realized in previous periods, so the planned investments for the current and next years are considerably lower, which will also affect the trend in indebtedness.

As previously reported, activities related to the optimization of the structure and maturity of the financial debt, which began last year, were successfully completed in February. Through a partial debt restructuring, the repayment of EUR 9.39 million in liabilities initially planned for 2025 was deferred to subsequent years, thereby balancing the repayment schedule of existing loans and further improving the company's financial position.

MARKET TRENDS

The Group's revenue generated in the European Union and Serbia markets in the first half of 2025 amounted to EUR 100.64 million, representing a growth of 4.2% compared to the same period of the previous year. Such a development was expected, primarily due to the already mentioned higher revenue from serial production. The share of these markets in the Group's total revenue was 87.4%. Revenue from the Russian market amounted to EUR 14.56 million and account for the remaining 12.6% of the Group's revenue. Although business operations in this segment remain separate, it is important to emphasize that the Russian companies remain self-sustainable and financially independent of the parent company.

After a strong post-pandemic recovery in 2023 (+13.7% compared to 2022), the European new passenger car market experienced only modest growth in 2024. Around 10.63 million new cars were registered in the European Union, which is 0.8% more than in 2023. The total European market (EU + EFTA + UK) reached 12.96 million new vehicles (+0.9% year-on-year) - still almost 3 million fewer than in 2019 before the pandemic. High vehicle prices, inflationary pressures and changes in mobility habits have led to new car sales remaining subdued despite improved vehicle availability.

In the first half of 2025, new car registrations declined by around 1.9% compared to the first half of 2024. By August 2025, the market was practically at the level of the previous year, meaning that year of 2025 will probably have ended at around the same volume as 2024. High interest rates and the slowdown in the European economy have affected weak demand for new vehicles, especially in key countries such as Germany and France.

In 2024, almost all major markets except Spain and Poland either stagnated or declined. Spain stood out with growth of 7.1% (thanks to the acceleration of the replacement of the aging vehicle fleet), while Germany recorded a slight 1% decline, and France a larger decline of 3.2%. Italian market remained almost at the same level (-0.5%). The trends in 2025 by country

are similar: Germany and France continue to record a decline in total registered vehicles, while Spain and Poland maintain their growth.

Overall, the European new vehicle market has no longer been growing significantly in the last two years, implying that peak in demand may have shifted downwards compared to 2019 volumes.

Although the total number of vehicles sold has been stagnating, the powertrain mix is changing rapidly. In 2024, the share of battery electric vehicles (BEV) in the European Union reached 13.6% of the total market (compared to 14.6% the year before), while the share of diesel cars dropped to 11.9%. Hybrid vehicles have become the second most popular option (30.9% share in 2024), right behind petrol cars (33.3%). This trend continues and intensifies in 2025, so in the first 8 months of 2025 hybrids already account for 34.7% of new cars in the EU, and BEVs 15.8%. At the same time, sales of petrol cars have declined to 28.6% of the total market as buyers increasingly choose hybrid models which offer the ideal balance between traditional and electric powertrains, allowing for greater flexibility and lower emissions. Despite the turbulence, the Volkswagen Group still holds a leading position with a 27.1% market share. Stellantis holds 14.2% market share, while the Renault Group holds 10.3% share in the EU market.

In the long term, the European automotive industry has been undergoing a new phase of transformation. Regulatory requirements, environmental awareness and technological innovation are shaping consumer preferences, but the market continues to face challenges - from energy prices to infrastructure availability.

Consumers are more cautious than ever, but their interest in more environmentally friendly vehicles is not waning. 2025 is expected to bring growth in sales of electric vehicles, thanks to a wider range of more affordable models and the market's adaptation to new environmental standards, but also increased competition as new manufacturers enter the European market.

EAPS results have been included in the results of AD Plastik Group by the equity method. EAPS's operating revenue in the first nine months increased by 42.8% compared to the same period last year and amounted to EUR 121.65 million. This level of revenue confirms that new projects have reached full production volumes. The strong growth in revenue had a positive impact on capacity utilization, operational efficiency and overall profitability, which is confirmed also by the net profit amounting to EUR 11.76 million, which records an increase of 183.4%.

After the successful renewal of the machinery park in previous years, capital investments are again at lower levels and amounted to only EUR 0.3 million. EAPS has no financial liabilities towards AD Plastik d.d., nor liabilities towards external entities. As of September 30, 2025, its cash on account amounted to EUR 22 million. The majority of EAPS's revenue is generated in the Romanian market, while a smaller portion of its revenue is generated in the markets of Turkey, Morocco, Brazil, Colombia and Argentina.

SHARE

The value of the ADPL share as of September 30, 2025 was EUR 17.5, which represents an increase of 85% compared to the end of 2024, or an increase of 63% compared to the value of the ADPL share on June 30, 2025. The Crobex index grew by 19.0% in the period from the end of the year to September 30, 2025.

ADDENDUM 1: ALTERNATIVE PERFORMANCE MEASURES

In addition to the financial performance measures defined by International Financial Reporting Standards (IFRS), AD Plastik Group also uses certain alternative performance measures in its reports, considering them useful for business performance analysis for investors. Alternative performance measures show comparative periods so that the company's results can be compared over different periods.

EBITDA AND EBITDA MARGIN

EBITDA (Earnings before Interest, Taxes, Depreciation and Amortization) represents the operating profit (operating revenue minus operating expenses) increased by amortization of tangible and intangible assets. The company also presents an EBITDA margin that represents a percentage of EBITDA relative to operating revenue.

NET PROFIT MARGIN

It is calculated by the ratio of realized net profit and operating revenue. The company uses this measure to track its profitability relative to operating revenue.

NET DEBT AND NET DEBT IN RELATION TO EBITDA

Net debt represents the sum of short-term and long-term liabilities to banks and short-term and long-term loans to non-banking companies, minus cash and cash equivalents. AD Plastik Group uses the ratio of net debt to EBITDA as an indicator of

financial stability and the company's ability to repay its financial obligations. When calculating the indicators on a quarterly basis, the EBITDA realized in the last four quarters is taken into account.

AD Plastik Group (in EUR 000)	31 Dec 2024	30 Sept 2025
Non-bank loans	2,282	26
Noncurrent liabilities to banks	17,850	19,931
Current liabilities to banks	24,475	16,462
Cash	-4,262	-6,033
Net financial debt	40,345	30,385

AD Plastik d.d. (in EUR 000)	31 Dec 2024	30 Sept 2025
Non-bank loans	1,904	26
Noncurrent liabilities to banks	16,178	18,806
Current liabilities to banks	22,562	14,287
Cash	-3,046	-4,902
Net financial debt	37,598	28,218

ROE

This measure is used to monitor the realized return on equity. It is calculated on an annual and quarterly basis. When calculating the indicators on an annual basis, the ratio is the net profit of the current period and the average value of equity (the average value of equity at the end of the reporting period and equity at the beginning of the reporting period). At the quarterly level, it is calculated by the ratio of net profit for the last four quarters and the average value of equity (average value of equity at the end of the reporting period and equity at the end of the same period of the previous year).

CAPEX

Capital investments are indirect cash flow position and they are related to payments for tangible and intangible assets. This measure is used as an indicator of the use of funds to achieve future economic flows and ensure the distribution of funds in accordance with the Group's strategy.

INDEBTEDNESS RATIO

The indebtedness ratio is the ratio of total liabilities to total assets. This measure is used to monitor the company's financial risk in terms of growth of liabilities in relation to assets.

MARKET CAPITALIZATION

Market capitalization is the total market value of the company, and it is calculated as the product of the total number of shares and the last share price on the day of the reporting period.

	31 Dec 2024	30 Sept 2025
Last price in the period (EUR)	9.5	17.5
Number of shares (000)	4,200	4,200
Market capitalization (in EUR 000)	39,728	73,493

EPS AND P/E

These measures are used so that investors can analyze the value of the share. Earnings per share (EPS) are calculated by dividing net profit by the weighted average number of shares. The quarterly calculation uses the net profit realized in the last four quarters.

	31 Dec 2024	30 Sept 2025
Net profit of last 4 quarters (in EUR 000)	2,132	10,854
Average weighted number of shares (000)	4,161	4,165
EPS (EUR)	0.51	2.61

P/E	18.5	6.7
------------	-------------	------------

P/E is the ratio of price to earnings per share (EPS). The price represents the share price on the last day of the reporting period, and in the quarterly calculation, net profit represents the realized profit in the last four quarters.
