Subject: Dalekovod's Bid Selected in Sweden, Project Worth Over 100 Million Euros

Svenska kraftnät, the Swedish national electricity transmission company, has announced—following an evaluation process—that Dalekovod d.d. has been selected, according to the tender criteria, for the construction of a 400 kV transmission line on the Odensala – Kappetorp section near Stockholm, with a total length of 36 km.

The implementation of the project, worth over 100 million euros, includes the dismantling of the existing 220 kV line and the construction of a new 400 kV line along the same 26 km route, as well as the reconstruction and construction of a new 10 km section of the 400 kV transmission line between Odensala and Skoby.

The project is planned to be carried out from 2026 until early 2030.
