Ericsson Nikola Tesla contracts worth over MEUR 6

Ericsson Nikola Tesla contracted new jobs in the field of digital transformation and mobile networks worth more than MEUR 6.

Bidding Consortium Ericsson Nikola Tesla d.d. and Infodom d.o.o. has signed a two-year framework agreement with the Ministry of Tourism and Sports thus continuing the digitalization process in the tourism sector. With this agreement, we continue to develop digital platforms that improve communication between citizens and public administration, increase the efficiency and transparency of services, and encourage the development of tourism and hospitality activities. The central portal for supporting tourism development, the mTourism mobile application and the eTourism information system are key tools in this process, enabling the modernization of the sector and improving user experience.

A contract was signed with the State Geodetic Administration for the upgrade of the Joint Information System of Land Registry and Cadaster. New contracts have also been signed for the hospital information system and the integrated business information system. Moreover, contracts have been signed for work related to the ESG data management platform, as well as communication systems for business users.

In the area of mobile networks, a three-year contract was signed with BH Telecom regarding microwave systems (Mini Link).

Communications Ericsson Nikola Tesla
