Ericsson Nikola Tesla signed new contracts worth more than EUR 24 million

Zagreb, May 22, 2026

Ericsson Nikola Tesla has signed a series of new contracts in the areas of digital transformation, mission-critical systems and business communication systems.

A public procurement contract has been concluded with the Ministry of Health for support services, corrective maintenance and adaptive maintenance of the CEZIH Subsystem 1 over a 24-month period. In addition, contracts have been concluded with several hospitals for services in the area of hospital information systems.

ENT and HEP d.d. have signed a two-year framework agreement for the upgrade and maintenance of the switching system, which includes maintenance services, design, upgrade implementation and specialist training. A two-year framework agreement has also been signed with HEP ODS for the maintenance of MINILINK-Slavonija microwave links.

With the Ministry of Tourism and Sport, services have been contracted for the development and implementation of an application solution for business integration (BI) in the tourism sector. Services have been contracted with Croatian Roads for expert technical support within the NAPCORE-X project. With the Ministry of Justice, Public Administration and Digital Transformation, an agreement has been concluded for the maintenance of the Once Only Technical System (OOTS) for service exchange at the European Union level.
