# Ericsson Nikola Tesla continues collaboration on JIS

Ericsson Nikola Tesla signed a two-year frame agreement with the State Geodetic Administration (DGU) and the Ministry of Justice and Public Administration (MPU) related to the maintenance services of the Joint Information System of Land Registry and Cadaster (JIS).

The agreement relates to the following services: basic maintenance, adaptive and perfective maintenance of JIS, special services, support of digital geodetic technical report and import of cadastral municipalities into JIS and establishing the Land Records Database. The agreement is worth more than HRK 38 million (VAT excluded).

Ericsson Nikola Tesla's cooperation with DGU and MPU on JIS has been ongoing since 2007. The private part of JIS is used by more than 2,000 employees of DGU and MPU in their daily work, while the citizens and certain groups of key users (geodetic surveyors, lawyers, notaries public, ...) access the public part of JIS. JIS is a system where alphanumeric and graphics are integrated and represents a unique solution in the Republic of Croatia, where two institutions are linked by an information system on the level of data and business processes.
