KEY INFORMATION FOR THE PERIOD 01/01– 30/09/2026

1) In the first nine months of 2026, the best financial performance results to date as at the end of the third quarter of the business year were recorded in terms of total and operating revenue and operating profitability, both at the level of the Company and most of the sectors, with particularly strong growth in sectors with year-round business activity. Furthermore, the Company has continued strengthening its financial and balance sheet position through the reduction of total liabilities, a high share of self-financing, capital growth and the growth of asset value, absence of net debt, and significant increase in net financial assets.

The business circumstances were primarily marked by an unstable geopolitical environment at the global level and pronounced macroeconomic instability in key Croatian tourism markets, as well as strong inflation, which resulted in stagnating demand in the tourism sectors in Croatia, especially in the pre-season, with a significant impact on the performance of the Company's tourism sectors, primarily the hotel and camping sectors. Also, due to the business reorganisation of the "Park Soline" campsite carried out by the Company in 2026, a loss of revenue from fixed

lease payments was recorded compared to the previous year, which the campsite successfully compensated for. Given the previously described business circumstances, the Company considers the results achieved in terms of revenue, operating profitability and financial position, some of which are the best to date, to be successful.

2) In the reporting period, total revenue was generated in the amount of EUR 30,973,218.12, recording an increase of 3.71% compared to the same period in 2025, when it amounted to EUR 29,866,273.38, as a result of an increase in operating revenue.

Operating revenue amounted to EUR 30,760,687.59, a 3.90% increase compared to EUR 29,605,398.77 in operating revenue generated in the same period of 2025, as a result of an increase in operating revenue across all sectors, except for the camping sector, which recorded slightly lower revenue. The increase in operating revenue is primarily the result of revenue increase recorded by sectors with year-round business activity (the nautical, real-estate and DMC Ilirija Travel sectors), accompanied by a slight rise in revenue of the hotel sector.

The nautical sector's operating revenue amounted to EUR 9,631,678.12, an increase of 10.40% compared to the same period in 2025, when it amounted to EUR 8,724,670.87. The growth in the nautical sector's revenue, both in absolute and relative terms, has made the greatest contribution to the Company's operating revenue, driven by strong revenue growth across all its segments (Marina Kornati, nautical fair and catering). Moreover, the real-estate sector generated revenue in the amount of EUR 1,819,817.18, recording a 6.17% increase, while revenue generated by DMC Ilirija Travel in the amount of EUR 1,078,142.57 grew at a rate of 5.70%. Also, the hotel sector generated revenue in the amount of EUR 9,797,481.59, recording a slight increase of 1%. However, in absolute terms, its contribution to the Company's operating revenue is far more significant. The increase in revenue of the hotel sector was mostly the result of increased activity in the third quarter of the business year (July–September), which successfully offset the stagnating demand from the first half of the business year, making the revenue achieved all the more significant.

The camping sector generated revenue in the amount of EUR 8,416,530.84, slightly lower than

in the same period of the previous year, when it amounted to EUR 8,471,961.17, as a result of a 7% drop in catering revenue. Revenue of the camping sector in the accommodation segment (the "Park Soline" campsite) was at the same level as in the previous year which means that the campsite successfully compensated for the total loss of revenue from fixed lease payments (agencies), and at the same time offset the impact of lower catering revenue on the overall performance of the entire camping sector.

3) Total expenses amounted to EUR 20,682,036.42, a 2.84% decrease compared to the same period in 2025, when they amounted to EUR 21,286,256.18, as a result of a decrease in operating expenses by 3.17% and financial expenses by 15.80%.

Operating expenses for the reporting period amounted to EUR 17,958,919.57 and are 3.17% lower than in the same period of 2025, when they amounted to EUR 18,547,503.09, which is the result of timely management and planning of costs at the operational levels of business, including their maximum optimisation to necessary and essential expenses. For the most part, the decrease in operating expenses is the result of a decrease

in salary costs, although they are 6% lower in absolute terms they have contributed most to the decrease in operating expenses, and this was accompanied by a 7% reduction in other costs and a 3% reduction in the costs for raw materials, materials and energy.

4) In terms of operating profitability, the Company achieved growth in all key profitability indicators – operating profit, profit, EBITDA and EBIT – both at the Company level and across most sectors (hotel, nautical and real-estate sectors), while the camping sector maintained profitability at the same level as the previous year. Profitability indicators at the Company level have not only achieved strong double-digit growth but are, in absolute terms, the best to date as at the end of the third quarter of the business year.

Operating profit was generated in the amount of EUR 12,801,768.02, a 15.77% increase compared to the same period of 2025, when it amounted to EUR 11,057,895.68, while profit amounted to EUR 10,291,181.70, constituting an increase by 19.94% compared to last year's profit of EUR 8,580,017.20. Also, EBIT was generated in the amount of EUR 10,560,984.95 and recorded an

increase of 18.66% compared to the same period of the previous year, when it amounted to EUR 8,900,463.99.

EBITDA was generated in the amount of EUR 13,014,298.55, higher by 14.98% compared to the same period of the previous year, when it amounted to EUR 11,318,770.29. Moreover, the adjusted EBITDA, i.e. EBITDA plus one-time revenue which was not realised in the reporting period (absence of revenue from agencies) as a result of campsite business reorganisation as an adjustment to new legislation, amounted to EUR 13,150,114.78, a 13.80% increase compared to the adjusted EBITDA from the same period in the previous year, when it amounted to EUR 11,555,559.61.

The growth in profitability indicators is the result of revenue growth in almost all sectors, with the exception of the camping sector, whose revenue is at the same level as in the corresponding period of the previous business year, and of reductions in total and operating expenses, particularly in salary costs, costs for raw materials and materials, and other costs.

5) Total liabilities for the reporting period

amounted to EUR 11,418,735.19, which is 22.96% lower compared to EUR 14,820,882.22 from the same period in 2025, as a result of a decrease in long-term liabilities by 18.68% and short-term liabilities by 32.97%.

6) In addition to reducing its long-term liabilities, the Company further strengthened its financial and balance sheet position through strong growth in net financial assets, which as at the end of the third quarter of the business year amounted to EUR 7,465,567.66, an increase by EUR 4,678,326.80, or 167.85%, compared to the same period in 2025, when net financial assets amounted to EUR 2,787,240.86. Furthermore, in this reporting period the Company again maintained its net-debt-free status (short-term and long-term liabilities towards banks, minus cash at bank, in hand and deposits), with net debt amounting to EUR 0.00.

7) Capital and reserves amounted to EUR 65,018,204.18, representing a 5.84% increase compared to the same period in 2025, when they amounted to EUR 61,433,008.30, due to an increase in profit from the current business year by 19.94% and profit from previous years by 14.38%.

8) As at 30 September 2026, own source of funds (equity and reserves) made up a high 85.06% of total assets, which is at the same level as the corresponding period of the previous business year. Therefore, the Company maintained continuity in strengthening its balance sheet position during the reporting period.

9) The Company also achieved growth in key capital market realisations, with the increase in both the final share price and the average share price of the Company, designated as ILRA. The final share price amounted to EUR 34.80, representing an increase of 26.09% compared to EUR 27.60 in the same period of the previous year, which also increased the market capitalisation expressed by using the methodology of multiplying the number of shares by the final price, which amounted to EUR 83,989,382.40 in the reporting period. The average share price amounted to EUR 28.91, representing an increase of 4.82% compared to the same period of the previous year, when it amounted to EUR 27.58, which was also reflected in the increase in market capitalisation expressed by using the methodology of multiplying the number of shares by the average share price,

which amounted to EUR 69,773,938.08.

10) In the reporting period, the Company acquired 1503 own shares, constituting 0.062% of the share capital, after which it had 6219 own shares, constituting 0.257% of the share capital.

11) At its session held on 26 February 2026, the Company Management Board adopted the Q4 2025 financial statements (unaudited, unconsolidated), the Annual Report and the 2025 Annual Financial Statements (audited, unconsolidated), and a draft decision on dividend distribution was prepared. Also, at its session held on the same day, the Supervisory Board adopted the Company's 2025 Annual Report and 2025 Annual Financial Statements (audited, unconsolidated), and a draft decision on dividend distribution in the amount of EUR 0.84 per share was prepared.

12) The General Assembly, held on 22 April 2026, took note of the Company's Annual Report for 2025 together with the Audit Report for 2025, Report of the Supervisory Board on the Performed Supervision of the Company's Operations for 2025, and the Management Board's Report on the Acquisition of Own Shares in 2025. The General Assembly adopted the Decision on the Approval

of the 2025 Report on the Remuneration of Management Board and Supervisory Board Members, the Decision on Confirmation of the Previously Approved Decision on the Remuneration of Supervisory Board Members, the Decision on Granting Discharge to the Company's Management Board for the financial year 2025, Decision on Granting Discharge to the Members of the Supervisory Board for the financial year 2025, and the Decision on the Appointment of the authorised auditing company "UHY RUDAN d.o.o.", Ilica 213, Zagreb, PIN (OIB): 71799539000 as the Company's Auditor for 2027.

Also, the Decision on the Use of Company Profit for the 2025 Financial Year was adopted at the General Assembly, according to which the achieved net profit in the 2025 financial year (after tax) in the amount of EUR 3,722,948.30, is distributed as follows:

- EUR 1,699,579.82 into the retained profit, and
 - EUR 2,023,368.48 for dividend distribution.
- The dividend per share amounts to EUR 0.84.

13) On 18 May 2026, the Company concluded the Contract on the Maritime Domain Concession

with the Zadar County for a period of 5 years, which regulates the commercial use of the beach in front of the Ilirija, Kornati and Adriatic hotels, the beach facility and the outdoor swimming pool in Biograd na Moru.

14) Investments in the first half of 2026 amounted to EUR 1,893,129.77, and referred mostly to the hotel and camping sectors and catering facilities with the aim of continuously raising the standards and quality of service and products, especially of accommodation capacities and public amenities of accommodation facilities, with further investments made in catering amenities.

1.2 CHRONOLOGICAL OVERVIEW OF THE COMPANY'S DEVELOPMENT

Year 1957 | The Company was incorporated and domiciled in Biograd na Moru, where it operates today, although the beginnings of the company date back to 1934 when the first hotel called ILIRIJA in Biograd na Moru was built. These are also the first beginnings of organized tourism not only in Biograd but also in the entire Biograd Riviera, by which the Company becomes the pioneer and the leader of all tourism activities in the Biograd region.

Years 1969-1972 | The construction of new hotel facilities (Hotel Kornati**** and Hotel Adriatic***), the overall reconstruction and construction of hotels Ilirija**** and building an annex to the hotel Villa Donat ****/*** in Sv. Filip and Jakov.

Year 1976 | Start of construction of the first nautical tourism port in Croatia, according to the first building permit in the Republic of Croatia for the construction of the first nautical port issued by the former Municipality of Biograd na Moru, number: UP/I-03-4-318/1977 as of 10th March 1977, Hotel port Ilirija-Kornati, situated in Biograd na Moru, with a total of 100 berths and the purchase the first charter fleet of 40 vessels, by which the Company became a pioneer of development of the nautical tourism.

Year 1986 | Extended nautical capacities of the Company by constructing the nautical tourism Port Marina Kornati, located in Biograd na Moru, with total port area (aquatorium) of 131.600 m² with a total capacity of 705 berths on land and sea. Today, Marina Kornati is among the Top 3 Croatian marinas according to the number of berths, technical equipment, quality of service, cleanliness and neatness.

Year 1988 | The construction of Tennis center, located in a pinewood Soline right next to the old town center Biograd na Moru (400m from the hotel, 150m from the main beach), on an area of 48.000 m² with 20 tennis courts (14 clay and 6 artificial grass tennis courts).

Year 1988 | The construction of Aquatic Center, that is, a beach facility as a part of a unique, technological and functional unit of the existing hotel capacities, that is basically an Olympic outdoor swimming pool with many additional amenities, as a supplement to the existing and basic hotel amenities. Built as a swimming, beach and sports, entertainment and hos-

pitality facility with bleachers with the capacity of 4,000 seats and a terrace of 1.000 m², whereby it represents a center for holding almost all sports, entertaining and dance events in the City Biograd na Moru.

Year 1989 | Construction of an annex to the hotel Kornati**** and administrative building of the Company.

Year 1991-1992 | Completion of the remaining part of the port area, i.e. the capacities of the Port of Nautical Tourism Marina Kornati, by building docks in the southern and western aquatorium.

Year 1993 | The Croatian Privatization Fund, makes a decision on the transformation of HTP Ilirija into a joint stock company.

Year 1999 | The Company was privatized and is in major ownership of the company Arsenal Holdings d.o.o. from Zadar, which is in major ownership of Mr. Davor Tudorović.

Year 1999 | The Company starts boat show organized as Spring Open Days, mainly intended for companies that operate in the marina, as the first such event in North Dalmatia. Wishing for Biograd na Moru, to be top nautical event, at which all sectors of the boating and charter business will be presented in a short period, the Open Days grew into a boat event - Biograd Boat Show. Since 2004 Biograd Boat Show has been organized as the first autumn boat show in Croatia.

Year 2000 - 2026 | During this period, i.e. as at 30/09/2026, the Company invested EUR 98,372,970.24 in construction, reconstruction, extension, upgrading, renovation and adaptation of accommodation facilities and establishments of the Company in order to enhance the quality, improve the overall service and standards in all sectors of the Company, develop new products, improve and increase the categorization of the accommodation facilities and nautical capacities, expand hospitality facilities with an aim to create a high-quality, recognizable and competitive tourism product and enhance the quality of the offer of the destination itself together with the purchase of the City Galleria Business and Shopping Centre, which resulted in a growth in total revenue and newly created value in the mentioned period in the amount of EUR 221,999,204.68.

Year 2002 | The National Audit Office carried out the audit of transformation and privatization of ILIRIJA d.d. and issued an unqualified opinion on the transformation and privatization in full, with an emphasis that the process was carried out in accordance with the legislation and that no irregularities were determined that would affect the legal implementation of the process of transformation and privatization.

Year 2003 | The Company's shares were listed on the Zagreb Stock Exchange in the quotation of public joint stock companies.

Year 2005 | As part of the Company's business system, the multimedia center Arsenal in Zadar, built in the 17th century at the time of the Venetian Republic, following the completion of the revitalization and renewal according to the concept of "indoor town square," began conducting business activities.

1.7 COMPANY BUSINESS MODEL

The Company has been present on the domestic and international tourism markets for over six decades and in 2016, with the acquisition of the City Galleria Business and Shopping Centre, it became a company with a wide range of activities, the portfolio of which is composed of 5 sectors:

- **Hotel sector** – 4 hotels, 435 rooms, 910 beds
- **Nautics** – 805 berths, 2,000 persons
- **Camping** – 1,383 pitches, 4,149 persons
- **Destination management company/DMC Ilirija Travel** – through which 310 special events for 44,119 persons were organised in 2025
- **Real-estate segment** – City Galleria Business and Shopping Centre in Zadar, one of the two largest shopping centres in the wider Zadar region

ILIRIJA d.d. is one of few tourism companies in the Republic of Croatia with such a diverse offer that includes all the segments of the Adriatic or Mediterranean tourism offer in its portfolio (hotel, nautical and camping sectors), additionally strengthened by the destination management company Ilirija Travel and the real-estate sector. With regards to such a diverse portfolio, it is worth noting that the Company manages all business processes (management and operations) within the sector or facility.

Diverse tourism and real-estate portfolios are based on the resources of the region and on a continuous investment in the improvement of the existing contents and products as well as the development of new ones, which is also the foundation of the Company's business and development policy. The presence on the market spanning more than six decades as well as knowledge and experience gained, enable the Company to maximize its economic, financial, market and human resources potential. **By developing a complementary and integrated product through the destination management company, the Company strives for achieving one of its strategic goals – year-round business operations of its tourism sectors**, with an emphasis on the hotel and camping sectors, through high-standard extension of the high season to pre-season and post-season and creating added value for both the Company and the destination, or the wider community. Through the destination management company, the Company also contributes to the development and recognizability of the destination by organizing events and by offering contents and programs it organises in its own facilities.

2 CORPORATE STRATEGY AND GOVERNANCE

2.1 VISION, MISSION AND FUNDAMENTAL VALUES

Vision - is to permanently secure position among the 3 leading tourism companies in the region of the North Dalmatia and among the 20 leading tourism companies in the Republic of Croatia in the key segments of the Croatian tourism offer (hotel sector, nautics and camping), be and stay the leader of the tourism and economic development of our region and destinations such as Biograd na Moru, Zadar and Sv. Filip i Jakov thereby developing the whole year's business by offering the complementary and selective forms of tourism offer in the destinations where we conduct business.

According to the foregoing, **the mission** is: increasing the assets and achieving the financial results of the business operations, which will ensure long-term business and financial stability, establish an optimal level of quality and competitiveness in business at the level of the overall Croatian tourist offer, with continuous investment in human resources and ensuring optimal employment level, ensuring and complying with sustainable development principle which is manifested in recognizing and satisfying the needs of tourists, protecting and restoring natural and cultural heritage and preserving the environment, i.e. creating a responsible and sustainable tourism offer.

Fundamental values:

Respect and integrity – equality of treatment and attitude towards all our stakeholders constitute the basic values of our Company.

Quality – top quality product, professional service and individual approach to clients constitute the basis of the relationship towards our guests, at the heart of the Company's service.

Sustainability and responsibility – in business, investment, relationships with our employees, business partners, clients (guests), the local and regional community, with shareholders and in day-to-day business, through the integration of economic, social and environmental aspects into the Company's decision-making processes and corporate strategy as well as by creating added value for all stakeholder groups through the achieved business results. Balancing the said aspects is the basis of the Company's success and sustainable development.

Transparency – in business and communication with all stakeholders of the company, while adhering to the principles of timely and true information as a prerequisite for the strengthening of the market position of the company and its further growth.

2.2 ORGANIZATIONAL STRUCTURE

2.3 RISKS AND RISK MANAGEMENT

The Company assesses risks at all levels of significance to the Company, i.e. at the macro and micro levels and according to the criterion of likelihood of their occurrence. The Company assesses the risks for each of the business sectors according to the criterion of likelihood of risk occurrence and consequences or impact of each individual risk on the Ilirija d.d. business processes and system as a whole.

The Company's risk management process involves the following essential steps:

- Identification of potential risks;
- Assessment of the likelihood of occurrence of the Company's risk;
- Assigning responsibilities and taking actions in order to eliminate and/or reduce risks;
- Monitoring and reassessment of risks in order to avoid their negative impacts;
- Exchange of information on the activities undertaken and the results of actions between the business process managers and the Company's Management Board through the lines of communication established by the prescribed procedures.

The company recognizes the following types of risks in its operations:

- 1) Economic and financial risks
- 2) Regulatory risks
- 3) Tourism activity risks
- 4) Global risks and risks of the macroeconomic environment

1 Economic and financial risks

In terms of credit risk, i.e. the obligation to repay loans used by the Company, taken out with a currency clause, which were dependent on the movement of the Croatian kuna exchange rate against the euro, the introduction of the euro as the official currency eliminates the said risk. Indebtedness of the Company with the commercial bank is for the most part subject to fixed interest rates. Taking this into consideration, the Company is not exposed to interest rate risk on that basis. For the purpose of reducing credit risk, the Company strives to reduce its overall credit liabilities to an adequate, i.e. optimal level in order for them to be lower than its own sources of funds. In its operations, as one of the foundations of its business and financial security, the Company strives to have as little net debt as possible, thus significantly reducing the existing credit

risk. Financial assets that may potentially expose the Company to credit risk are cash and trade receivables. Trade receivables pertaining to certain customers may entail credit risk, depending on the level of turnover realised with certain customers and the general state of liquidity in the country. Trade receivables are reported with reference to real values. The Company actively monitors and manages trade receivables, at the same time taking especially into account the difficult macroeconomic situation, and applying measures of collection in instalments; and, if necessary, eventually undertaking measures of enforced collection, including by activating security instruments for the purpose of collection of its claims. An adjustment of the value of trade receivables is indicated when there is objective evidence that the Company will not be able to collect all of its claims in accordance with the agreed terms. Apart from the aforementioned, the Company has no exposure to any other significant credit risk.

Liquidity management implies maintaining a sufficient amount of money in order to settle the Company's liabilities. One of the primary Company goals in a challenging business environment caused by an unfavourable macroeconomic environment is to maintain its current liquidity. The Company is, therefore, under-

taking activities to diversify its existing and secure new financing sources (if necessary), it is trying to minimise and optimise all of its operating costs, and is willing to and capable of actively cooperating with all significant creditors by settling the liabilities they had at the time when challenging business conditions materialised.

The continuous growth of strong inflationary pressures primarily caused by increases in the prices of primary energy products (oil, gas, electricity), which subsequently spread to consumer goods and services (especially food and beverages), along with the current geopolitical instability essentially generated strong inflation impacts not only on business entities of European Union countries, but also on their society in general. If they remain strong, inflationary pressures could affect purchasing power and new demand generation, and slow down economic activities in the euro area. In the Republic of Croatia, the prices of goods and services for personal consumption, measured by the consumer price index, were on average 4.7% higher in September 2026 than in September 2025. As for the energy costs, mainly electricity as the primary energy source, the Company managed to protect itself from significant increases in electricity prices in time, namely with a multi-year contract, which mitigated

the impact of the increase in electricity prices on total operating costs. The very intense increase in food and beverage costs constitutes a strong generator of inflation growth and at the same time accounts for a significant share of the operating expenses and significantly affects the prices of services in the hospitality and tourism industry. Therefore, by actively monitoring food and beverage prices and cooperating with key suppliers, the Company strives to minimise such prices as much as possible, i.e. ensure stability and security of the supply along with the highest possible procurement cost control. On the other hand, through dynamic daily management of accommodation unit prices, it aims to achieve the maximum level of competitiveness possible, as well as intense and systematic demand monitoring, and a quick and strong response to market trends, while at the same time striving for a timely response to potentially negative challenges and impacts such as inflation.

Bookkeeping values of the following items of financial assets and financial liabilities reflect their respective fair values: money, investments, trade payables, other receivables and other liabilities, loans granted to employees, long-term liabilities.

2 Regulatory risks:

As one of the most significant risks in business operations of tourism companies, Ilirija d.d. included, the Company points out unresolved property rights issues concerning tourism land and legal investments in the maritime domain and the related issues of protection of acquired rights based on legitimate investments and of legitimate expectations of companies performing their activities on the maritime domain or tourism land.

The Company is exposed to changes in tax and other regulations within the legal system of the Republic of Croatia. In particular, this applies to the regulations pertaining to the maritime domain and tourism land, in which domain the company has made significant investments crucial for its business, while not all rights guaranteed by the Constitution in the field of acquired rights before, during and after conversion, the protection of legal capital investments, and the legitimate expectations regarding legal investments have been fully realised under Articles 48 and 49 of the Constitution of the Republic of Croatia.

Tourism land – unresolved issue

Pursuant to the Act on Tourism and Other Construction Land Not Evaluated in the Conversion and Privatisation Process (hereinafter: the Act), adopted in July 2010, the Company submitted to the Republic of Croatia, within the legally prescribed deadline, i.e. in January 2011, an application for a concession on tourism land for the "Park Soline" campsite in Biograd na Moru for a period of 50 years. Due to unclear provisions of the Act, no decision has been rendered during its validity regarding the Company's application. In the meantime, in May 2020 a new act on non-evaluated construction land was adopted, and thus the Act on Tourism and Other Construction Land Not Evaluated in the Conversion and Privatisation process ceased to have effect. The new Act provides for the right of tourism companies to submit an application for leasing construction tourism land for a period of 50 years. In March 2021 the Company submitted the appropriate application for leasing construction land in the campsite for a period of 50 years to the competent authority of the Republic of Croatia, that is, to the Ministry of Physical Planning, Construction and State Assets. Under the provisions of the Act on Non-Evaluated Construction land, a company shall become the

owner of buildings, land under buildings and land in the campsite that were evaluated and entered into the value of social capital in the conversion and privatisation process, while the Republic of Croatia shall become the owner of buildings and land in the campsite that were not evaluated and entered into the value of social capital in the conversion and privatisation process (so called Parts of the campsite owned by the Republic of Croatia). In the meantime, on 1 April 2022 the Company, in accordance with Article 18 of the Act on Non-Evaluated Construction Land, on 1 April 2022 Land, obtained from the Centre for Restructuring and Sales, the Certificate of Conformity of the Geodetic Survey Report, which confirms the conformity of the Park Soline Campsite Geodetic Survey Report with the decision of the Croatian Privatisation Fund of 12 July 1996, by which the real property concerned was evaluated in the process of conversion of the socially-owned enterprise "Ilirija" Biograd na Moru and on 9 April 2026, it also obtained a Certificate of Conformity for of the Geodetic Survey Report, issued by the competent Ministry of Physical Planning, Construction and State Assets of the Republic of Croatia. The said geodetic survey report was submitted on 22 April 2026 for inspection and approval by the competent cadastral department for Biograd na Moru.

Furthermore, the legislator also adopted the Ordinance on the Arrangement of Leases on Parts of the Campsites Owned by the Republic of Croatia (OG 16/24) (hereinafter: Ordinance on the Arrangement of Leases) which, as a by-law, has been in force since 9 February 2024, and which determines the methods and conditions of payment of fees for the lease of unvalued parts of the campsite. The Republic of Croatia, through the departmental Ministry of Physical Planning, Construction and State Assets, in a letter dated 22 April 2024, **invited ILIRIJA d.d. to pay the lease fee based on the aforementioned Ordinance, and Ilirija d.d. was calculated lease fee for the period from the date of entry into force of the Act on Unvalued Construction Land until 31 December 2023. (05/2020 – 12/2023) in the total amount of EUR 538,912.31.** The amount determined in this way, in accordance with the Ordinance on the Arrangement of Leases, represents 50% of the lease fee for the “Park Soline” campsite, while the remaining 50% of the lease fee shall be calculated according to the decision from Article 17.1 of the Act on Unvalued Construction Land, i.e. the conclusion of a 50-year lease agreement in accordance with the Act. For the next period starting from 2024, the competent Ministry **determined the annual lease fee for the “Park Soline” campsite in the amount of EUR 171,624.15, payable in 12 equal**

monthly instalments, and has issued the lease fee invoices to ILIRIJA d.d. ILIRIJA d.d. duly pays the aforementioned annual lease fee, which amount in accordance with the Ordinance on the Arrangement of Leases, represents 50% of the lease fee.

Also, the Company published on its website and on the website of the Zagreb Stock Exchange the “Study of the uniqueness and sustainability of the “Park Soline” campsite in Biograd na Moru as an economic and functional-technological unit within the business system of Ilirija d.d.”, which addresses all relevant issues concerning the “Park Soline” campsite in the context of the application submitted by Ilirija d.d., in accordance with the Act on Non-Evaluated Construction Land, for exercising the right to a long-term lease of the “Park Soline” campsite for a period of 50 years. The purpose of the aforementioned Study is to enable all stakeholders, entities and public bodies that are directly or indirectly involved, within their respective spheres of competence, in resolving the issue of campsite land that was not evaluated in the process of conversion and privatisation of socially-owned enterprises, an integral and comprehensive overview of all aspects of the existing “Park Soline” campsite in Biograd, from complex relations regarding property rights, issues of spatial planning and the need to respect the campsite

as an integrated business and functional unit of tourist land and buildings. The Company maintains that, in accordance with the Act on Non-Evaluated Construction Land, it meets the requirements stipulated by the Act for exercising the right to lease construction land in the Campsite for a period of 50 years.

Maritime domain

The Company is a concessionaire of the Kornati nautical tourism port in Biograd na Moru (hereinafter: Marina Kornati) for a period of 32 years, counting from 13 January 1999, and in accordance with Article 22 of the Maritime Domain and Seaports Act (Official Gazette Nos 153/2003, 100/04, 141/06, 38/09, 123/11 and 56/16, hereinafter referred to as: ZPDML 2003) on 17 October 2017 the Company submitted to the Government of the Republic of Croatia, through the competent Ministry of the Sea, Transport and Infrastructure of the Republic of Croatia, a request for modification and amendment of the Decision on Concession and the Concession Agreement, that is, for extending the term of the concession by a period of 50 years, i.e. until the year 2049 (extension of the concession term if new investments are economically feasible for it), primarily considering the same or similar cases from the recent Croatian practice where, upon a request for the extension of the concession term submitted by other

companies engaging in nautical tourism and competing with Ilirija d.d., the concession term for marinas was extended to them by a period of 50 years.

As no meritorious decision was made on the said request, on 11 July 2018, Ilirija d.d. delivered to the Ministry of Maritime Affairs, Transport and Infrastructure a letter informing them of having procured an amendment to the construction permit for the reconstruction of the marina, as part of the new investment included in the request for an extension of the concession licence validity. Moreover, on 6 October 2021, the Company delivered a letter to the Ministry of Maritime Affairs, Transport and Infrastructure and the Ministry of Finance of the Republic of Croatia, so as to initiate the adoption of the decision regarding an extension of the concession licence validity.

In the meantime, on 2 November 2021, the Company received a statement from the Ministry of Finance of the Republic of Croatia, as a body which, along with the competent Ministry of the Sea, Transport and Infrastructure of the Republic of Croatia, is involved in the procedures for extending the terms of concessions, in which they essentially point out that in order to conduct the procedure for extending the concession contract, the competent Ministry of the Sea, Transport and Infrastructure, while looking

at the problems of the nautical tourism system, needs to establish whether the decision on the concession or the contract related to it may be changed without conducting a new procedure for awarding the concession, in order not to violate the principle of market competition with other concessionaires in the Republic of Croatia.

Considering the statement of the competent authorities and the expressed views, in order to successfully complete the procedure for extending the concession licence for Marina Kornati, Ilirija d.d. sent a supplement of the existing request for extension of the concession licence validity for Marina Kornati to the Ministry of the Sea, Transport and Infrastructure on 28 December 2023, in which it essentially offered: a new increased amount of investment in the maritime domain (superstructures and substructures), new increased investments in the green transition, including the decarbonisation and digital transformation in accordance with Regulation (EU) 2020/852 of the European Parliament and Council of 18 June 2020, on establishing a framework for facilitating sustainable investments and amending Regulation (EU) 2019/2088 Official Journal of the European Union, L 198/13, in the total amount of new investments of: EUR 5,705,066.00, for which the Company has most-

ly obtained valid building permits and which ensure orderly and legal performance of marina activities with regard to existing technical, technological and environmental requirements for operation in the period until the expiry of the concession. Also, the Company proposed new amounts of concession fees with reference to previous revalued investments in Marina Kornati, which, in the period from 2000 until the end of 2023, amounted in total: EUR 16,013,277.44, all in order to show the actual absolute value of the investments to date. Furthermore, on 15 July 2025, in response to the opinion of the Ministry of Finance dated 29 May 2025, the Company submitted to the competent ministry a revised Economic Feasibility Study for Marina Kornati, including a valuation of the existing concession and an amended request for extending the concession until 2047, and elaborated on the legal basis for the extension in accordance with the Maritime Domain Act, the Concessions Act and Directive 2014/23/EU. Following the submitted regulated request for the extension of the concession period until 2047 and the revised economic feasibility study, the Ministry of Finance of the Republic of Croatia submitted its opinion dated 25 September 2025 with certain recommendations and suggestions that primarily relate to the methodology for

calculating individual indicators that are taken into account in the concession award procedure. Acting in accordance with the opinion of the Ministry of Finance, on 12 December 2025 Ilirija d.d. submitted to the Ministry of the Sea, Transport and Infrastructure a modified and supplemented revised economic feasibility study, which accepted the suggestions of the Ministry of Finance of the Republic of Croatia and the amended request for the extension of the Kornati Marina concession period, now until 2046. No decision has been rendered yet on the mentioned amended request for an extension of the concession licence validity for Marina Kornati dated 12 December 2025.

As regards the Ilirija-Kornati Hotel Port in Biograd na Moru, the Company delivered to the Republic of Croatia (Zadar County) on 19 January 2011 a request with detailed explanations for an extension of the concession licence validity for a period of 20 years, but the competent authority of the regional self-government unit has not reached a decision on this Request by Ilirija d.d. Furthermore and with regard to the above, in February 2015, the Company once again, pursuant to Article 22 of the Maritime Domain and Seaports Act (new investment), submitted a request to the Zadar County regarding an

extension of the concession licence validity for the Ilirija-Kornati Hotel Port, for a period of 30 years in total, but a decision has not been made regarding this request by Ilirija d.d. The company has been paying the concession fee in the agreed amount for all facilities this whole time.

As regards a beach facility with an outdoor swimming pool in Biograd na Moru, the Company submitted to the concession grantor, Zadar County, a request for an extension of the concession licence validity for a total of 30 years (until 2028) with all the necessary documentation, back on 20 October 2008 (before the expiry of the concession licence validity). The competent authority has not decided on this request. After the entry into force of the Maritime Domain and Seaports Act (Official Gazette No 83/2023) on 18 June 2025, the Company submitted to the Zadar County a request for obtaining a concession upon request for a period of 5 years, for commercial use of the beach in front of the Ilirija, Kornati and Adriatic hotels, the beach facility and the outdoor swimming pool Ilirija in Biograd na Moru, performed by Ilirija d.d. hotels, with a four-star rating, built outside of the maritime domain, and connected infrastructurally with the beach with facilities, built and developed beach facility and the outdoor swimming pool, and investments were made in the construction, development and infrastructure by Ilirija d.d.,

i.e. the hotels, in accordance with Article 63, paragraph 1, point 2 of the Maritime Domain and Seaports Act. The Zadar County Assembly accepted the application by Ilirija d.d. and on 3 March 2026 adopted the Decision on Awarding Ilirija d.d. a Concession on Maritime Domain for the Purpose of Commercial Use of a Public Beach with Facilities in a section belonging to the cadastral municipality of Biograd na moru, with a total area of 21786 m². The Contract on the Maritime Domain Concession was concluded on 18 May 2026 for a period of 5 years.

Also, on 24 June 2022, the Company published on its website and on the website of the Zagreb Stock Exchange the research paper of Assoc. Prof. Iva Tuhtan Grgić, PhD, from the Faculty of Law in Rijeka "Acquired rights and legitimate expectations of former holders of the right of use of the maritime domain for an indefinite period as well as for a limited period for as long as economic activity is being carried out", which precisely on the example of Ilirija d.d. addressed the issues of legal capital investments on the maritime domain, conversion of socially-owned enterprises that had part of their assets on the maritime domain, issues of acquired rights and legitimate expectations of former holders of the right of use of the maritime domain, and conversion of the right of use into a time-limited concession. In par-

ticular, as it is stated in the aforementioned research paper, the companies that had the permanent right of use of the maritime domain, acquired on the basis of final administrative decisions of municipal assemblies, had indisputably acquired rights and legitimate expectations that they would be able to use these rights in the future under the same conditions under which they were acquired. However, by decisions adopted on the basis of the legislation in force at the time, the aforementioned right of permanent use of the maritime domain was subsequently converted into the right of commercial use of the maritime domain based on a time-limited concession. This violated the interests of companies, shareholders and acquirers of shares in these companies, by grossly encroaching on the acquired rights and legitimate expectations that they will be able to use the acquired rights within the same scope as when they acquired them, and those same rights are protected by the provisions of the Constitution of the Republic of Croatia (Articles 48(1) and 49(2) and (4)) and Article 1 of Protocol No. 1 to the Convention for the Protection of Human Rights and Fundamental Freedoms.

On 14 July 2023, the Croatian Parliament adopted a new Maritime Domain and Seaports Act, which entered into force on 29 July 2023. It is evident that the new Act has

a series of new provisions, and a certain amount of time will need to pass before we are able to fully assess its effect on complex matters in the area of legal investments in the maritime domain before and after the conversion, evaluation and entering in the share capital of former socially owned enterprises, as well as on acquired legal and legitimate expectations of companies who legally perform economic activity on maritime domain.

3 Tourism activity risks

In addition to the listed and described potential and possible risks in the Company's business operations, we believe that it is of the utmost importance to give a systematic overview of other key obstacles or restrictions with regard to the development of Croatian tourism in general, and thus of tourism companies, Ilirija d.d. being one of them.

With regard to the forgoing, we present an overview of the key obstacles, that is, of the risks and restrictions with regard to development of and investments in Croatian tourism:

(I) the unresolved issue of ownership since the moment of conversion, that is, property-legal, physical plan-

ning-urban and economic use and utilization of the construction tourism land in campsites and around hotels,

(II) inadequately resolved or unresolved issue of conversion on the maritime domain, i.e. issues regarding acquired rights, legitimate investments and legitimate expectations in the maritime domain, having in mind, in particular, the contracted permanent right of use of the maritime domain, while companies which took part in the conversion process, as is the case with our Company, carry out economic activity on the maritime domain, contrary to the provisions of Article 49 and Article 50 of the Constitution,

(III) VAT rate on services in tourism and hotel industry is much higher than in competitive countries, which consequently makes Croatian tourism less competitive, hinders and slows down further investments both in the construction of new accommodation facilities and in improvement of the existing services and standards, affects new employment and salaries in tourism and hospitality,

(IV) insurmountable obstacles regarding existing bureaucracy, administrative barriers, frequent changes of regulations,

(V) complex and time-consuming procedure of issuing spatial plans and issuing building and operating permits,

(VI) inadequate management of the area by regional or local self-government,

(VII) cancellation of previously acquired rights in urban and spatial plans through conversion of use primarily of construction and tourism land for other non-commercial and non-economic purposes,

(VIII) fiscal and parafiscal charges unsuitable to seasonal business activities with frequent changes in fiscal regulations.

(IX) skilled labour shortages were significantly pronounced in 2026 in the Republic of Croatia, namely at the level of most economic activities, and with a special emphasis on hospitality and tourism taking into account the seasonal nature of Croatian tourism, as well as the fact that it is an extremely labour-intensive industry; therefore, skilled labour shortages (with a special emphasis on occupations in high demand) could affect the success of the peak season, and thus ultimately of the entire business year.

Bearing in mind all of the above, the Company has recognized risks pertaining to the said skilled labour shortages, and it undertakes a series of activities to retain working-age, highly qualified and professional employees at all levels for business operations, namely with the aim of retaining full employment, raising the level and quality of services, and achieving smooth operation of business processes through activities aimed at improving the financial standing of employees, investing in their education, and further developing human resources by hiring young, highly educated persons from different professions.

4 Global risks and the macroeconomic environment

Considering the global nature of the hospitality and tourism industry, different events and activities at the global level can significantly affect the operations of tourism companies. As such, the said industry is influenced by geopolitical risks with strong implications for security and stability at the global level, the security, political and economic instability of the region, i.e. of the countries in the immediate vicinity of the Republic of Croatia, the global economic crisis, global health threats such as pandemics and epidemics, as well as the climate impact risk.

In today's globalised world, the said risks affect the free movement of people, goods and capital, i.e. national economies and operations of economic entities.

In addition to the aforementioned risks referred to in points 1 – 3, the most significant global risks for the Company's operations are: the health risk, the geopolitical risk, the climate impact risk, the macroeconomic environment, and information system security.

Health risk

Since 2020, the world faced an unpredictable, serious and extremely dynamic risk related to the epidemiological situation, i.e. the COVID-19 illness, which has had an extremely negative impact on business entities in almost all industries, albeit the most severely affected ones are certainly the travel industry, tourism and hospitality, all of which form an integral part of the Company's core business. The COVID-19 risk is also the biggest and most serious risk that the Company has faced so far, to which the Company responded with a number of measures and activities by reorganising its business processes and operations in order to safeguard the health and well-being of guests and

employees, maintain financial stability and current liquidity for the duration of the COVID-19 pandemic, preserve assets and capital as well as business operations and activities, and retain full employment. The Company has successfully achieved all of its goals. The Company continues to implement different preventive activities within its business processes and operations in order to reduce and always be able to control health risks, just like it did during the COVID-19 pandemic. However, the Company is also aware of the related limitations and the unpredictability of easily transmissible infectious diseases and the threatening consequences of their spread.

Geopolitical risk

Due to the war in Ukraine, geopolitical risk with strong implications for European and global security and the macroeconomic environment has been present since February 2022. Therefore, the Company also reports on such risks and their consequences on its operations. The Company does not have any kind of an ownership relationship with entities from Russia and Ukraine. Moreover, it does not have any assets in Russia and/or Ukraine, and it has not made any investments in entities from Russia and Ukraine or entities materially related to entities from Rus-

sia and Ukraine. Thus, the Company is neither exposed nor are there any potential consequences in this respect. Moreover, the Company has no exposure to entities from Russia or Ukraine since it does not do business with legal entities from Russia or Ukraine. The Company does business as a company specialised for hospitality and tourism has a business relationship with natural persons from Russia and Ukraine using the Company's services such as accommodation in its facilities (hotel, camping and nautical sectors). The share of guests from Russia and Ukraine in the Company's total turnover is insignificant, and losing it does not represent a risk to the Company. Should the crisis, that is, the war, spread from Ukraine to other European countries or lead to destabilisation of the countries in the Balkans, this would surely have a negative effect on Croatian tourism as a whole, and thus also on the Company. Croatian tourism generates most of its turnover from the European outbound market, which could be significantly reduced in case the Russian-Ukrainian crisis, that is, the war, spreads across Ukrainian borders and causes major geopolitical instability in the wider European region. The Company will counteract any potential negative effects of the Russian-Ukrainian crisis by adjusting its business processes and activities to the new circumstances, with the aim of strengthening the resilience of its business system.

Climate impact risk

The Company bases its business policy on management in line with the principles of sustainable and responsible development, with particular focus on environmental protection, as the environment is the fundamental resource of the tourism industry. Environmental protection represents a significant segment of the Company's integrated management systems and is a part of its strategic decisions and business processes.

The consequences of climate change are becoming increasingly influential when it comes to almost all activities. In the tourism sector and within the Company, they have been recognised as climate impact risks requiring an interdisciplinary approach and management. The Company continuously monitors its impact on the climate, i.e. its greenhouse gas emissions and other environmental impacts, namely in accordance with all applicable legal regulations and prescribed limit values.

The Company has previously recognised its impact on the environment and decided on a systematic approach with a series of activities it carries out.

They mainly pertain to the preservation of natural resources (water, air, soil, and coast), biodiversity, energy management, and waste management, which ultimately confirms the Company's focus on sustainable development and growth. The identified risks included the dangers brought on by climate change both at the global level and at the level of the Company's operations. We also noticed that extreme weather conditions can affect tourist demand and cause direct material damage to the Company's assets.

Climate change, which has a significant impact on the tourism industry globally, also poses a potential risk to the Company in terms of significantly increasing the incidence of extreme weather conditions (storms, hurricanes, etc.), as well as strengthening their intensity and unpredictability, and can cause extraordinary and unpredictable damage and threats for its business. Temperature variability, i.e. dangerous heat waves, reduce the attractiveness of our offer in holiday capacities. This directly affects arrivals and quality of stay. Rising sea levels put the infrastructure in the immediate vicinity of the coast at risk. The same also applies to the marina, arranged beaches, and beach facilities. Unpredicta-

ble windstorms or hurricane-force winds can cause direct damage to almost all our capacities. The Company pays maximum attention to overcoming such sudden and extreme climate and weather conditions by ensuring preventive, technical and spatial, as well as functional and organisational elimination of sudden and accidental risks of any nature to the highest degree possible. Other business risks, such as large-scale fires, accidental pollution of the coastal and marine aquarium, which are all beyond the Company's control but may potentially jeopardise the Company's business safety, are the circumstances which the Company attends to insofar as it can actively contribute to lowering their impact on the Company's long-term business viability as much as possible, being aware of the fact that the Company's impact here is reduced to measures which cannot be of key importance for the elimination of all the risks posed to the Company.

Macroeconomic environment

The unfavourable macroeconomic environment, i.e. significant economic uncertainties resulting partially from the global pandemic that affected supply chains, and partially from the Russian-Ukrainian

war and the American-Iranian conflict in the Middle East, led to disruptions in the supply of basic energy products in the euro area and resulted in a significant increase in the prices of all energy products (oil, gas, electricity), and ultimately strong inflationary pressures. An uncertain macroeconomic environment can affect the Company's business activities by reducing the demand for its services as it significantly contributes to the deterioration of the business climate in the key outbound markets for Croatian tourism. This could also result in a slow-down in economic activities and a decrease in purchasing power and standards, as well as, ultimately, in a decrease in travel demand, which would definitely affect the achievements of Croatian tourism companies, including our Company. The company is aware of the challenges and risks arising from the unfavourable macroeconomic environment, and it undertakes a number of activities aimed at preserving its core business objectives (economic viability and security, financial stability, preservation of the Company's fixed assets and capital, and preservation of the Company's business operations and activities), as it did in previous years, namely based on: (I) commercial resilience – based on the Company's ability to quickly and efficiently adapt to the current

market circumstances of doing business by adjusting its marketing and sales activities in all Company sectors, (II) operational resilience – based on the ability to adjust operational business processes to the current circumstances whilst maintaining maximum service and amenity quality and minimising possible negative effects, and (III) financial resilience – based on the Company's ability to maintain financial stability of the business system by maintaining liquidity, assets and business activity through the realisation of revenue ensuring the Company's business stability until key global and macroeconomic uncertainty factors end.

Information system security with a particular focus on cybersecurity

The increase in threats to the information security of business systems on a global level together with the increasing and more complex digitalisation of business processes make the information systems of companies more exposed to various forms of security threats. As a result, the Company, in order to raise the level of information security and resilience with a particular focus on cybersecurity, maintain the stability and continuity of operations and pre-

serve information and data, actively works to protect the security of the information system by the strengthening and adapting information system security standards and practices, training employees, performing regular system updates, controlling supply chains of digital services and implementing new security technologies.

3.1 HOTEL SECTOR

The hotel sector capacities consist of 435 accommodation units (hotel rooms and apartments), with a total of 910 beds located in Biograd na Moru (Ilirija****, Kornati****, Adriatic***) and Sv. Filip i Jakov. Filip i Jakov (hotel Villa Donat***/*), mainly classified as four-star hotels.

Hotel accommodation is located in Hotels and Villas Ilirija Resort in Biograd and Sv. Filip i Jakov. The hotels are located on the coast, not far from the town centre and beach that has been awarded the Blue Flag, and are, owing to their ideal location and infrastructure, intended for holiday and congress tourism. In addition to modern and technically equipped conference halls and meeting rooms intended for conferences, seminars, presentations, workshops and meetings, there are numerous supporting amenities such as the Wellness & Beauty Centre Salvia, an outdoor Olympic swimming pool, fitness center, à la carte restaurants and coffee bars.

Within the Ilirija Resort there is a conference centre consisting of 8 halls, with a total capacity for 30 to 250 people, and there is also a luxurious garden with terraces ideal for banquets, receptions and entertainment, as well as outdoor swimming pools, a beach, and as of May 2018, an indoor pool.

ILIRIJA RESORT – HOTEL & VILLAS

The Ilirija Hotel is the largest four-star hotel of the Ilirija Resort, with a capacity of 157 rooms and 326 beds, equipped with a 200-seat restaurant, a terrace with 70 seats and an aperitif bar with 50 seats. It is located by the seashore, right next to the old town centre, and it is surrounded by beautiful nature, the sea and a pine forest, as well as numerous facilities offering various amenities.

The design and atmosphere of the four-star **Kornati Hotel**, with a capacity of 106 rooms and 230 beds, also featuring a restaurant having a capacity for 220 people, a terrace for 50 and a bar for 40 people, is linked to and evokes the images of the most beautiful Croatian national park The Kornati Hotel is unique thanks to its connection with the nautical tourism port, the Ilirija-Kornati Hotel Port, which is located in the very centre of Biograd, and right next to the hotel there is also a beach.

The three-star **Adriatic Hotel** has a capacity of 100 rooms and 210 beds, a restaurant with a capacity of 230 people, a terrace with a capacity of 300 people and a bar with a capacity of 110 people. It is located in

a pine forest, almost on the beach, and right next to it there is the Aquatic Centre, ideal for family fun and for a number attractive summer sea activities.

The **Villa Donat Hotel** is located in the town of Sv. Filip i Jakov, and it consists of a villa with 16 superbly and modernly furnished rooms. It is a four-star hotel, and it has a three-star annexe. Its total capacity includes 72 rooms and 144 beds, a restaurant with 120 seats, a terrace for 50 and an aperitif bar for 20 persons, as well as an outdoor pool. The hotel is located near the main beach and the town centre, and it is reminiscent of the rich history of the area.

3.2 NAUTICAL SECTOR

The Company began developing its nautical sector in 1976 when it concluded a contract on the purchase of 40 ELAN vessels from Slovenia, that is, in 1977 with the construction of the first nautical marina in Croatia (Kornati Hotel Port) with 100 berths and the organisation of the first private charter fleet on the Adriatic with more than 40 vessels for the needs of boaters. Therefore, ILIRIJA d.d. is rightly considered to be a pioneer of nautical tourism on the Adriatic. The Company's current nautical sector consists of Marina Kornati and the Kornati Hotel Port, with a total of 805 berths at sea and on land, which can accommodate up to 2000 boaters in one day, and its number of berths, modern technical equipment, quality of service and cleanliness (blue Flag) make Marina Kornati one of the three leading Croatian marinas, visited by over 60,000 boaters a year.

In 2020 the Ministry of Tourism and Sport carried out the procedure of recategorisation of the Marina Kornati Nautical Tourism Port in which it established that Marina Kornati meets the requirements prescribed for the four-anchor category. Subsequently, the Marina Kornati Nautical Tourism Port received the four-anchor (star) category rating.

Marina Kornati has received numerous awards, notably the Special Award as part of "XVI Tourism Flower – Quality for Croatia 2012", organised by the Croatian Chamber of Commerce and Croatian Radiotelevision, for the best marina in the category of marinas with over 450 berths. In 2013, in "XVII Tourism Flower – Quality for Croatia 2013", it received an award in the category of the largest marinas, while in 2014 and 2015, as part of the same project, it ranked second in the "Best Large Marina" category. In 2017, in "XXI Tourism Flower – Quality for Croatia" it ranked third in the category "Large Marina". In 2018, Marina Kornati was granted two acknowledgements: (I) a special acknowledgement from the Jutarnji list Nautical Patrol for the greatest progress achieved in the tourism season 2018 and for outstanding contribution to the development of Croatian nautical tourism and (II) in the "XXII Tourism Flower – Quality for Croatia" it ranked third in the category "Large Marina".

In 2019, it was awarded recognition as part of the "XXIII Tourism Flower – Quality for Croatia" competition, by the Croatian Chamber of Commerce and Croatian Radiotelevision, it ranked 2nd in the category of large marinas. The Jutarnji list Nautical Patrol awarded Marina Kornati a special recognition for its outstanding

contribution to the organization and success of the nautical patrol, while in 2021 it recognised the marina for its outstanding contribution to the development of nautical tourism during the COVID-19 pandemic. In 2023, the Company won the Zadar County Tourist Board annual award “For its contribution to nautical tourism and for having been organising the Biograd Boat Show for 25 years”.

Ilirija d.d. is also the organiser of the leading nautical fair in Croatia, “BIOGRAD BOAT SHOW”, which has been continuously held in Marina Kornati for 28 years in a row.

3.3 CAMPING SECTOR

The four-star "Park Soline" campsite is located in Biograd na Moru within the borders of the populated area, but as a separate physical planning-urban and economic entity in the south-east part of the town of Biograd na Moru, right by the main beach in the coastal length of approx. 1.5 km, with a 450-meter beach positioned right in front of the campsite.

The campsite covers an area of 20.00 ha, and includes 1,383 accommodation units with a total capacity for up to 4,149 persons. It is situated in an outstanding natural environment of a predominantly high pine forest which provides shade to 90 % of the campsite. By adhering to the principles of sustainability and environmental protection and considering the natural features of the area by using indigenous plant species, the horticultural landscaping of the campsite has been completed to the level of an arboretum, which is a remarkable and rare example in Croatia of creating added value for a tourism camping product.

With its enriched offer of restaurants, a newly built promenade along the entire campsite and a beach leading to the centre of Biograd, the "Park Soline" camp is the right choice for a family holiday. In addition to entertainment activities for children and

evening entertainment, as well as an attractive sports offer guaranteeing active holidays, you can relax on long promenades and recreational trails in a healthy environment, which makes the camp a great choice for all nature lovers.

The "Park Soline" campsite is the largest and the only high-quality four-star campsite in Biograd na Moru, which accounts for 77% of the total campsite accommodation capacities and sets the highest standards of equipment and landscaping in the destination. Since this campsite is the most valuable part of the camping offer in Biograd na Moru, it directly influences the image of this destination and its positioning on the domestic and foreign tourism market.

The value of investments made in the "Park Soline" campsite from 2000 until the end of business year 2025 amounted to approximately EUR 32.64 million and owing to these investments the number of overnight stays increased from 4,556 in 1996 to 334,242 in 2025. The value of own works for the said period accounts for over 30% of the investments, meaning that the total value of investments in the "Park Soline" campsite for the said period amounted to approximately EUR 42,43 million.

3.4 ILIRIJA TRAVEL

Ilirija Travel – destination management company: by developing new services and amenities, a high-quality, integrated and complementary tourism product has been created in response to the contemporary tourist demand, and driven by technological, social and market factors and trends of an increasingly demanding market. Among the most important cornerstones when it comes to the offer and implementation of these special programmes and products are business operations conducted in our own additional facilities such as the following:

Event ship „Nada“ a 36-metre multifunctional yacht with a capacity for 140 persons, with a restaurant, kitchen and bar provides guests with excellent services pertaining to food and beverages during navigation. Congresses, seminars, special events, unique business meetings, gala receptions and banquets, unique weddings, exclusive day and night cruises and incentive events are only some of the exciting amenities that the “Nada” event boat offers, while adapting to the individual requirements of clients.

Arsenal is a zero-category monument and multimedia centre located in Zadar, built in the 17th century and revitalized in 2005 as an indoor city square, or as

the centre of public, cultural and entertainment life of the region, where over 100 public and private events are organized every year.

Diffuse Hotel Ražnjevića dvori AD 1307 a diffuse multipurpose functional facility located in Polača, in the municipality bearing the same name, in the heart of Ravni kotari and halfway between Biograd na Moru and Benkovac, is the first facility of its category in the Republic of Croatia. This set-up, based on the traditional farm facility, is a great example of an innovative tourism product conceived as a combination of the traditional and the contemporary.

Villa Primorje, built in the second half of the 19th century, is a typical traditional Dalmatian stone manor house with an outbuilding. Newly renovated, luxuriously decorated and equipped according to the latest standards for facilities of this type and category, it has its own restaurant offering the opportunity to organize a number of events, a Mediterranean garden with a promenade, while since the 2017 tourist season the offer also includes an outdoor swimming pool. Offers of trips, special offers according to the requirements of clients, sports programs, MICE etc.

3.5 HOSPITALITY

The Marina Kornati restaurant located in the Marina Kornati, with a capacity for over 350 persons, which along with the Captain's Club having a capacity for 70 persons can receive up to 420 persons, meets the needs of boaters when it comes to hosting various and numerous events in the Marina Kornati. In addition to restaurant services, the Captain's Club also provides services for numerous presentations of nautical products and serves as an ideal place for organization of smaller conferences and events.

The restaurant Park Soline is located in the Park Soline camp****, right by the sea, about a ten minute walk away from the centre of the town of Biograd na Moru, and its food offer is based on Mediterranean cuisine. This restaurant, with a capacity for 280 persons, offers the possibility of organizing various events – family festivities, banquets and soirées, as well as meetings. Within the restaurant, there is also a Dalmatian tavern with a fireplace, a coffee shop and a wine bar arranged as a wine cellar, which provides you with the opportunity to buy and taste the highest quality red and white wine made from indigenous Croatian grape varieties.

The Donat beach bar is located in the building-magazine within the protected cultural and historical unit of the town of Sv. Filip i Jakov, which is also entered in the Register of Cultural Goods of the Republic of Croatia. To-

day, it is categorized as a beach bar/cocktail bar with a capacity for 140 persons.

The Lavender lounge bar located within the Adriatic Hotel located right by the beach, known for its Mediterranean design, fully adapted for relaxation, with a beautiful view of the Pašman Canal, is a place offering the possibility of organizing numerous events of different nature (MICE, weddings, banquets, cocktail bar, nightclub, etc.).

The beach facility Beach Club Ilirija, with an outdoor saltwater swimming pool, a beach / sunbathing area surrounding the outdoor pool, and a catering facility, is located directly in front of the Company's hotel complex in Biograd na Moru, forming with it an indivisible, connected and integrated infrastructural, functional and economic unit. This year's extensive renovation and modernisation of the entire facility, aimed at significantly improving the quality of amenities and services as well as bringing them in line with current trends in the tourism and hospitality industry, made the facility an even more attractive destination to enjoy on the beach. In addition to the new range of catering services, the facility also offers various sports activities (swimming, water polo and other sports facilities), and it can be used as a venue for larger events with a capacity of up to 1000 guests.

3.6 ADDITIONAL FACILITIES

Manifestation: Biograd Boat Show - the largest international autumn nautical fair in the Republic of Croatia and the largest nautical fair held on water in South East Europe, bringing together all key representatives of the nautical industry and tourism. The nautical fair was first organised in 1999 as spring Open Days, mainly intended for companies that operate in the marina, as the first such event in Northern Dalmatia.

Given its status as the cradle of nautical tourism, the aim was to organise a first-rate nautical event in Biograd na Moru at which all sectors of nautical and charter activities would be presented, whereby the Open Days grew into Biograd Boat Show. Since 2004, the event has been organised as an autumn nautical fair, which contributed to the improvement of the nautical offer and the extension of the tourist season. The Biograd Boat Show was admitted to the International Federation of Boat Show Organizers (IFBSO) at the 50th session of the Federation held in Istanbul, Türkiye, in June 2014, and in 2015 it became its gold member.

The fairs of former members of the Federation were mainly organized in major world centres, and the fact that the Biograd Boat Show is organized in a town of

only 5,000 residents makes this success even greater and represents a great acknowledgement not only to the Company as the organizer, but also to Croatian nautical industry and tourism. Today the leading international autumn nautical fair has established itself as the biggest Croatian nautical event and in the last three years it has grown into a nautical industry congress in the Republic of Croatia.

Thanks to its partnership with all the relevant entities, the Biograd Boat Show encompasses "5 fairs in one": the Biograd Boat Show exhibition fair, the Biograd B2B business fair, the Days of Croatian Nautics by the Croatian Chamber of Economy congress fair, the Croatia Charter Expo leading charter fair and, for the first time, the Croatia Luxury and Adventure Travel Show – a luxury and exclusive tourism fair, thereby connection in one place all the key segments of the nautical industry and tourism and continuing to contribute to their further development and affirmation.

In 2025, the fair (which marked its twenty-seventh anniversary) was attended by over 400 registered exhibitors, with 500 vessels at sea and on land and more than 50 premier vessels presented on an expanded exhibition area at sea and on land, while over 150

registered charter companies, agencies and brokers actively participated in the charter fair with over 500 accredited participants from more than 40 countries.

Sports facilities:

Located in the pine forest Soline near the old town centre, the **Ilirija Tennis Centre** covers a surface area of 48,000 m² and consists of 20 tennis courts and multi-purpose courts (14 ground and 6 artificial grass courts) with night lighting, a restaurant facility, locker rooms and associated facilities.

3.7 CITY GALLERIA BUSINESS AND SHOPPING CENTRE

City Galleria Business and Shopping Centre is located in a heavily residential area in the immediate centre of Zadar. It is one of the two largest shopping centres in town and the wider Zadar region, completed and opened to the public in October 2008, with a total gross surface area of more than 28,500 m² spread over a total of six floors (two garage and four retail floors). The gross surface area of the centre consists of the associated underground garage with a total surface area of 10,863.50 m², 9,443.62 m² of net rentable area, as well as ancillary rooms and corridors. As at 30 September 2026, the occupancy of the centre amounted to 99.76% of total capacities.

The centre features the following facilities: an underground car garage with more than 400 parking spaces on two floors, an outdoor and indoor market, a supermarket, speciality shops, clothing and sports stores, service amenities, cafes, office spaces and 6 multiplex cinema halls.

The unique features of the City Galleria Business and Shopping Centre were recognised on the international level during the 2010 International Property Award, a prestigious competition in the real estate business, on which occasion the City Galleria Business and

Shopping Centre Zadar received the prestigious five-star award in the Best Retail Development category.

The unique features of the City Galleria Business and Shopping Centre, which distinguish it from the rest of the market offer can be summarised in a few examples, such as: a very attractive location within the city's pedestrian zone that provides great visibility and easy accessibility of the building, situation of the main marketplace with accompanying gourmet food shops in the Centre and the first and only multiplex cinema in the city of Zadar.

4 KEY PHYSICAL PERFORMANCE INDICATORS OF THE COMPANY

In the reporting period, almost all Company sectors achieved revenue growth or, at least, revenue at the same level as in the corresponding period of the previous year. The Company considers these results a success given that for a significant part of the business year (the pre-season) the tourism sectors were characterised by stagnating demand for accommodation capacity from key outbound markets of Croatian tourism and by pronounced macroeconomic and geopolitical instability. Furthermore, the Company reorganised its operations in the camping sector, which significantly affected its physical and financial performance results, particularly given that Croatian camping tourism is of a highly seasonal nature. The sectors with year-round business activity (nautical, destination management and real-estate sectors) achieved strong growth in revenue and made a significant contribution to the Company's overall performance results, reinforced by the growth in revenue of the hotel sector.

The hotel sector recorded 35,740 arrivals and 123,152 overnight stays, representing a decrease of 4.3% in arrivals and 1.8% in overnight stays compared to the same period of the previous year, when 37,364 arrivals and 125,457 overnight stays were recorded. De-

spite a decline in the physical volume of business, financial results remained stable, with a slight increase in revenue and growth in key market performance indicators, primarily the average daily rate per accommodation unit and revenue per sold accommodation unit. Revenue for the entire hotel sector amounted to EUR 9,797,481.59, including revenue of the separate profit centres, and was 1% higher compared to the same period of the previous year, when it amounted to EUR 9,706,463.26. Revenue growth was primarily achieved by an increase in demand during the peak season (July–August) and post-season (September), which resulted in an increase in the average daily rate per accommodation unit (ADR) to EUR 152.09, a rise of 3.03% compared to the same period of the previous year, when it amounted to EUR 147.62. Furthermore, growth in total revenue per sold room was also achieved, which across the entire hotel sector, including separate profit centres, amounted to EUR 182.09 compared to EUR 175.91, which is an increase of 3.51%. Also, the hotel sector recorded 124 days of occupancy with an occupancy rate of 45.31%, which is slightly lower compared to the same period of the previous year, primarily due to a lack of demand in the pre-season.

In this reporting period, the nautical sector (Marina Kornati) continued to expand its business activities through growth in financial indicators and revenue, achieving its best results to date for the nine months of the business year. Revenue amounted to EUR 9,042,913.00, representing a 10.34% increase compared to the same period of the previous year, when revenue amounted to EUR 8,202,797.00 which represents the highest revenue of Marina Kornati in a reporting period. Revenue was mostly generated by growth of revenue in the accommodation segment, contracted and daily berths, as well as by revenue growth across other operating items such as other services, port services and nautical events. The most significant part of revenue of Marina Kornati was generated from contracted berths, which account for 70% of the marina's revenue, realised in the amount of EUR 6,316,603.00. This is an increase of 7.38% compared to the same period of the previous year, when it amounted to EUR 5,882,660.00, while revenue from daily berths increased by 2.92% to an amount of EUR 415,773.00. Revenue in the vessel accommodation segment, the marina's most important operating item, grew despite the fact that the physical performance indicators in that segment were at the same level as in the corresponding period of the

previous year. In terms of contracted berths, the marina's key physical performance indicator, 732 berth use contracts were signed, compared to 736 in the same period of the previous year. Meanwhile, in the transit segment, 2,281 vessel arrivals were recorded, a 2% decrease which was offset by longer stays of vessels in the marina, recording 7,515 overnight stays, or 19% more than in the same period of the previous year, when 6,300 vessel overnight stays were recorded. Also, the double-digit revenue growth of Marina Kornati was significantly boosted by the growth in revenue of other items, including an increase in revenue from other services by 132.24%, from nautical fair and events by 44% and from port services by 12.03%, which ultimately contributed to strong revenue growth of Marina Kornati and the best performance results to date.

In the reporting period, the camping sector in the accommodation segment (the "Park Soline" campsite) recorded 47,669 arrivals and 285,017 overnight stays, compared to 53,667 arrivals and 331,459 overnight stays recorded in the same period in 2025, which represents a decrease by 11.18% in arrivals and 14.01% in overnight stays. The decrease in key physical performance indicators, arrivals and overnight stays, was

largely the result of the campsite business reorganisation, i.e. the cessation of operations under the fixed lease model (agencies), the realisation of which in terms of physical and financial performance indicators was entirely absent. In addition to the absence of fixed lease payments (agencies), the decline in demand for Croatian camping destinations in key European outbound markets, particularly pronounced in the pre- and post-season (May, June and September), also contributed to the decrease in terms of physical performance indicators, which ultimately resulted in a significant decrease in physical performance indicators. Despite the expected reduced realisation of physical indicators, the absence of revenue from fixed lease payments (agencies) and lower tourist traffic in the pre- and post-season, this did not affect the financial performance indicators or revenue. The "Park Soline" campsite generated revenue in the amount of EUR 7,812,102.60, at the same level as in the corresponding period of 2025. In other words, the campsite successfully offset the loss of revenue from fixed lease payments (agencies). This is partly the result of revenue growth in other business segments, i.e. the lump sum segment by 12%, mobile homes segment by 3%, individual guests segment by 1%, along with revenue from glamping tents, as a new market seg-

ment, and partly due to active day-to-day revenue and pricing management and a sales and marketing focus on higher value-added segments, resulting in campsite revenue being realised at the same level as in the corresponding period of the previous year.

The destination management company Ilirija Travel, with 265 special programmes and events realised for a total of 30,734 people, achieved significant growth in both key physical indicators, i.e. a 13.73% increase in the number of events and a 9.78% increase in the number of participants. The increase in key physical indicators is due to a strong increase in demand, resulting in significant revenue growth to EUR 1,495,715.14, partly generated by the Company's other profit centres, with a growth rate of 16.45% compared to the same period of the previous year, when revenue amounted to EUR 1,284,418.76. DMC Ilirija Travel recorded strong growth in business activities, not only through growth in physical indicators, number of events and participants, but also through organising events of higher added value, which enabled the Company to develop, through its destination management company, year-round business activity across its other tourism sectors, with a particular emphasis on the pre- and post-season.

The real-estate sector, i.e. City Galleria Business and Shopping Centre, continued to grow its business activities in the reporting period, accompanied by growth in key market and financial indicators. Operating revenue amounted to EUR 1,819,817.18, representing an increase of 6.17% compared to EUR 1,714,098.48 in operating revenue realised in the same period of the previous year. The increase in operating revenue is the result of increased revenue in the key operating items (lease of commercial premises, common costs, the garage, other revenue and common areas) and of growth in key market indicators. In addition to the growth in key physical indicators, with the exception of the number of vehicles in the garage, there was also an increase in the average rent per m² of commercial premises, which amounted to EUR 110.07 in the relevant period, a 1.33% increase compared to EUR 108.63, while the average monthly rent per m² of commercial premises (AMR) amounted to EUR 12.23, a 1.33% increase compared to EUR 12.03 from the same period of the previous business year. Also, average garage revenue per parking space for the relevant period amounted to EUR 557.09, which is an increase of 21.80%.

4.1. HOTEL SECTOR

During the first nine months of 2026, the hotel sector recorded a total of 35,740 arrivals and 123,152 overnight stays, representing a decrease of 4.3% in arrivals and 1.8% in overnight stays compared to the same period of the previous year, when 37,364 arrivals and 125,457 overnight stays were recorded. Despite a decline in the physical volume of business, the sector's financial results remained stable, with a slight increase in total revenue.

Hotel revenue amounted to EUR 9,258,054.73, which is 0.3% higher than the EUR 9,232,602.49 recorded in the same period of 2025. Including revenue from the separate profit centres – Beach Club Ilirija and the Tennis Center – total revenue amounted to EUR 9,797,481.59, representing a 0.9% increase compared to the EUR 9,706,463.26 in revenue recorded during the same period of the previous year. The positive financial result was supported by the maintenance of price levels, alongside an increase in the average revenue per sold room. This indicator stood at EUR 150.96 for the first nine months of 2026, compared to EUR 147.62 for the same period in 2025, representing an increase of 2.3%.

The average length of stay for guests was 3.45 days, an increase compared to 3.36 days in the same period of the previous year. The increase in the average length of stay partially offset the impact of a lower number of arrivals, which had a positive effect on the total number of overnight stays. During the reporting period, hotels recorded a total of 124 days of occupancy, with a capacity occupancy rate of 45.31%.

Domestic guests continued to dominate the structure of overnight stays, accounting for 45,179 stays, or 36.7% of the total, representing a 10.3% increase compared to the same period of the previous year. Among foreign markets, Slovenia, Bosnia and Herzegovina, Austria, and Germany accounted for the most significant shares. Slovenia accounted for 12,364 overnight stays, representing 10.0% of the total, with an increase of 16.9%. Guests from Bosnia and Herzegovina accounted for 9,878 overnight stays, or 8.0% of the total, reflecting a decrease of 15.3%. Austria accounted for 7,758 overnight stays (a 6.3% share, 21.2% decrease), while Germany accounted for 6,729 overnight stays (5.5% of the total, 2.9% increase).

Among other significant markets, Slovakia recorded 5,183 overnight stays, representing a 25.2% decrease, while South Korea recorded 3,390 overnight stays, a figure roughly on par with the previous year. Hungary recorded an increase of 7.0%, and the Czech Republic recorded growth of 54.0%, with a total of 2,700 overnight stays. Growth was also recorded in the markets of Sweden, Italy, Switzerland, China, and Serbia, while Poland, France, the Netherlands, and Estonia saw a decline in the number of overnight stays. These developments indicate varying trends across individual outbound markets. Growth from the domestic market and Slovenia, along with a recovery in certain other markets, partially offset the decline in overnight stays from Austria, Bosnia and Herzegovina, and Slovakia.

Hotels - grand total

Note: In 2025, a change occurred in the methodology for hotel revenue statements. The aforementioned change consequently also affects the revenue statement of the hotel sector.

REVENUE BY ACTIVITIES

Revenue from hotel services amounted to EUR 9,258,054.73, representing a slight increase compared to the same period of the previous year, when revenue amounted to EUR 9,232,602.49.

Other revenue of the hotel sector including the revenue generated from selected profit centres, amounted to EUR 539,426.86 recording a 14% increase compared to the EUR 473,860.77 generated in the same period of the previous year.

In total, revenue of the hotel sector amounted to EUR 9,797,481.59 compared to EUR 9,706,463.26 generated in the same period in 2025, representing a 1% decrease.

Summary of key market indicators of the Ilirija d.d. hotel sector

The operations of the hotel sector during the first nine months of 2026 were characterised by a decline in physical indicators, while financial results remained stable. In terms of physical performance indicators, a total of 123,152 overnight stays were recorded, a decrease of 1.84% compared to the 125,457 overnight stays in the same period of the previous year, while hotels in the destination of Biograd na Moru performed at the same level as the previous year.

The decline in physical performance indicators was accompanied by a 2.49% decrease in the number of accommodation units sold, as well as a decrease in the occupancy rate of accommodation units (based on total available days), which amounted to 45.31% of capacity for the reporting period.

Regarding financial performance, growth was sustained due to more effective day-to-day management of

pricing, sales channels, and market segments, as well as increased demand during the peak season (July–August), which offset the decline in demand during the pre- and post-season periods. Consequently, the hotel sector recorded a 3.03% increase in the average daily rate per accommodation unit, reaching EUR 152.09, and the revenue per accommodation unit (RevPAR) on the basis of days of availability recorded a 4,53% increase, reaching EUR 97.87.

Number of overnight stays and average daily rate of the accommodation unit (ADR) in the hotels of Ilirija d.d. in the period I-IX 2026 and I-IX 2025

4.2 NAUTICAL SECTOR – MARINA KORNATI

In the reporting period, Marina Kornati achieved the best financial operating results to date, generating revenue in the amount of EUR 9,042,913.00, i.e. 10% higher compared to the same period in 2025 when revenue amounted to EUR 8,202,797.00. Revenue growth was recorded across nearly all operating items, including contracted berth, nautical fair and events, other services, and daily berth.

The revenue growth at Marina Kornati is the result of well-organised business activities and processes, combined with price increases. The revenue breakdown by category is as follows:

- 1 Contracted berth:
 - Contracted berth – individual
 - Contracted berth – charter
- 2 Transit berth – vessel arrival
- 3 Transit berth – vessel overnight stays
- 4 Port service – crane operations

By far the largest revenue growth in absolute terms was generated by contracted berth service, which brought in EUR 6,316,603.00, up from EUR 5,882,660 in the same period of the previous year, – accounting for 70% of the marina’s total revenue. The second

item in terms of revenue growth compared to the same period in 2025 was nautical fair service, which saw an increase of 44%, with revenue reaching EUR 719,724.00 compared to EUR 499,693.00; meanwhile, revenue from other services increased by 132%, and amounted to EUR 262,248.00. Furthermore, revenue from port services also increased by 12%, reaching EUR 481,040.00, compared to EUR 429,372.00 recorded in the same period of 2025. Transit berth revenue amounted to EUR 415,773.00, an increase of 3% compared to EUR 403,958.00 recorded in the same period of 2025, while revenue from business cooperation and parking decreased by 3%.

In the nine months of 2026, in the part of the vessels at contracted berths, the most significant physical performance indicator of Marina Kornati, a total of 732 contracts on the use of berths were concluded, of which 385 for individual vessels and 347 for charter vessels, which is almost at the same level compared to the same period of the previous year when 736 berths were contracted. A total of 2,281 arrivals of transit vessels was recorded, which is 2% less than in the same period of the previous year. Also, 7,515 overnight stays by vessels in transit were recorded, a 19% increase compared to the 6,300 overnight stays

in the same period of 2025, while in the port services segment, 3,341 port service operations (vessel lifting, lowering and washing) were performed, a figure nearly identical to the 3,427 operations recorded in the same period of 2025.

Summary of key market indicators of Marina Kornati performance

Nautical sector, which consists of three business segments: Marina Kornati, the restaurant and the nautical fair. In the reporting period, Marina Kornati, the most significant profit centre of the nautical sector, achieved the best financial operating results to date with regard to revenue. Total revenue of Marina Kornati was generated in the amount of EUR 8,323,189.00, representing an increase of 8.05% compared to the same period of the previous year, when it amounted to EUR 7,703,104.00. The most significant growth in the Marina Kornati revenue in the reporting period was generated from accommodation of vessels or contracted berth vessels and other services and port service.

The market segment of contracted berth vessels in the part of physical indicators, i.e. the number of contracted vessels, is almost identical to that of last year, while the financial operating results, i.e. contracted berth revenue, realised in the amount of EUR 6,316,603.00, grew by 7.38% compared to the same period in 2025, when the revenue amounted to EUR 5,882,660.00, and made up 75.9% of the revenue of Marina Kornati. Furthermore, the average revenue per contracted berth amounted to EUR 8,629.24, which is an increase of 7.96% compared to the same period in 2025, when it amounted to EUR 7,992.74. Furthermore, in the part of the accommodation of

vessels, the revenue from vessels in transit increased and amounted to EUR 415,773.00, a 2.92% increase compared to the same period of the previous year, when it amounted to EUR 403,958.00, while the average revenue per night of transit berth recorded a

decrease of 13.72%. Also, the best operating result in the revenue of Marina Kornati was significantly contributed by the increase of revenue in other market segments, i.e. the service, where revenue increased by 12.03% and amounted to EUR 481,040.00.

4.3 CAMPING SECTOR – CAMPSITE “PARK SOLINE”

In the first nine months of 2026, the “Park Soline” campsite recorded 47,669 arrivals, which represents 88.82% of arrivals in same period in the previous year. At the same time, 285,017 overnight stays were realised, or 85.99% of overnight stays realised in the first nine months of 2025. The average length of stay in the reporting period amounted to 5.98 days, almost the same as in the previous year, when it amounted to 6.18 days.

The decrease in physical turnover is primarily a result of the complete cessation of operations under the fixed lease model (agency guests), which in previous years accounted for a significant share of total arrivals, overnight stays, and revenue. At the same time, market demand during the reporting period was somewhat weaker compared to the previous year, which also affected the results of other market segments. This decrease in physical turnover is consistent with current trends in the Croatian tourism market, specifically reflecting reduced demand from the German and Dutch outbound markets.

In terms of market segments relating to operations, all segments recorded a high level of realisation compared to the same period in the previous year, despite changed market circumstances and reorganisation of the campsite business model. Compared to the first nine months of 2025, the lump sum segment recorded 100.61% of arrivals and 100.62% of overnight stays, individual guests recorded 92.03% of arrivals and 91.35% of overnight stays, and mobile homes recorded 100.24% of arrivals and 98.31% of overnight stays. In the total number of arrivals and overnight stays, the allotment segment was entirely lacking, recording 11% of arrivals and 13% of overnight stays in 2025. Simultaneously, with the aim of diversifying and expanding the existing campsite offering, a new market segment of glamping tents was introduced; by the end of the third quarter, this segment recorded 747 arrivals and 2,831 overnight stays.

The decrease in physical turnover is also reflected in generated operating revenue, but its negative impact has been systematically mitigated and compensated through sound revenue management, pricing policy adjustment and focus on segments with greater

added value. In the first nine months of 2026, total revenue amounting to EUR 7,812,102.60 was generated, representing a revenue performance on par with the same period of the previous year. When analysing by market segment, lump sum revenue amounted to EUR 2,175,076.90, a 12.00% increase compared to the same period of the previous year. Revenue from individual guests amounted to EUR 1,156,686.330, a 1.00% increase compared to the same period of the previous year. Revenue from mobile homes amounted to EUR 4,020,549.89, a 3.00% increase compared to the same period in 2025, while revenue from glamping tents amounted to EUR 82,141.43.

In the structure of realised overnight stays, among the five leading outbound markets is (I) the Slovenian market with a 25.49% share of overnight stays, (II) the Croatian market with a 19.66% share, (III) the German market with a 10.63% share, (IV) the Czech market with an 8.74% share, and (V) the Polish market with a 6.88% share of total overnight stays. In terms of market segments, the lump sum segment prevails in the structure of overnight stays, while mobile homes account for the second largest share in total overnight stays.

Despite the decrease in physical turnover, the camping sector generated operating revenue in the reporting period equal to that of the same period in the previous year. These results are primarily a consequence of the complete cessation of operations under the fixed lease model (agency guests), which in previous years accounted for a significant share of total arrivals, overnight stays, and revenue.

At the same time, a somewhat lower market demand compared to the previous year was recorded during the reporting period, and the achieved results are in line with current trends in the Croatian tourism market, reflecting current market circumstances. However, thanks to efficient revenue management, systematic pricing and timely adjustment of sales activities, the negative impact of lower physical turnover was significantly mitigated, which helped generate high revenue compared to the previous year. The reporting period also represents the phase of the business model consolidation after the complete exit from the fixed lease system. Operations are aimed at further strengthening of direct sales, sales channel optimisation and increasing shares of market segments generating greater added value in the long term.

Summary of key market indicators of the “Park Soline” campsite

The Company’s camping sector, which includes the “Park Soline” campsite and the “Park Soline” restaurant, generated slightly lower revenue in the nine months of 2026, i.e. 0.65% less. Revenue amounted to EUR 8,416,530.84, compared to EUR 8,471,961.17 in the same period of the previous year. The slightly lower revenue in the camping sector are primarily attributable to a 6.95% decrease in revenue from the “Park Soline” restaurant, which totalled EUR 604,933.44, compared to EUR 650,101.45 in the same period of 2025, while revenue from the accommodation segment, i.e., the “Park Soline” campsite, remained on par with the previous year, recording a decrease of 0.13%.

The most significant segment of the camping sector, the “Park Soline” campsite, generated revenue amounting to EUR 7,811,597.40, compared to EUR 7,821,859.72 generated during the same period in 2025. Although revenue trends remained positive, there was a decline in physical operating indicators, including a 28.75% drop in the relative occupancy rate of total accommodation capacity; this was influenced by a new categorisation of the campsite, which increased the total number of pitches, as well as the fact that the campsite operated for 14 fewer days during the reporting period compared to the previous year, both of which impacted the campsite’s performance.

Compared to the same period of the previous business year, the “Park Soline” campsite recorded a decrease in guest arrivals and overnight stays. This was primarily the result of the complete discontinuation of the fixed lease business model, which had accounted for a significant share of the total physical performance indicators in previous years. At the same time, the average accommodation price increased by 23.95%, while revenue from accommodation per camping unit, calculated based on the occupancy of camping units during

the days the campsite was open, decreased by 11.68%.

The results achieved in terms of key market indicators stem from changes in key outbound markets, a new categorisation of the campsite, intensified marketing activities, and strategically planned investments in key sales channels. Furthermore, investments aimed at enhancing the quality of accommodation units have contributed to achieving better financial performance indicators.

4.4 CITY GALLERIA BUSINESS AND SHOPPING CENTRE

The City Galleria Centre is located in the immediate city centre of Zadar, just a ten-minute walk from the old town. The facility's location along major city thoroughfares ensures high visibility and easy access for both the local population and visitors to the town.

The total gross area of the facility exceeds 28,500 m² and is distributed across six levels: two levels comprise an underground garage, while four levels house commercial and retail premises. The underground garage covers 10,863.50 m², and the Centre's net rentable area amounts to 9,443.62 m². As at 30 September 2026, there were 37 active lease agreements for commercial premises, with an occupancy rate of 99.76%. In Phase 1 of the Zadar Shopping Centre facility, ILIRIJA d.d. has an additional 289.96 m² of commercial premises for lease, with 6 active agreements and 100% occupancy. Consequently, the total net rentable area of all commercial premises owned by the Company amounts to 9,733.58 m², with an overall occupancy rate of 99.77%.

In the first nine months of 2026, City Galleria generated total operating revenue of EUR 1,782,519.14, encompassing revenue from the lease of commercial premises, common area charges, the use of the cen-

tre's common areas, business cooperation based on turnover, the lease of advertising space, garage operations, and the lease of commercial premises within Phase 1. Other operating revenue amounted to EUR 37,298.04, bringing the total revenue generated during this period to EUR 1,819,817.18. In the same period in 2025, total revenue amounted to EUR 1,714,098.48, which represents a growth of 6.17%.

Broken down by category, revenue from the lease of commercial premises increased by 2.42%, while revenue from common area charges increased by 3.88%. Revenue from the use of the centre's common areas increased by 0.80%, and revenue from the lease of advertising space remained virtually unchanged, showing a slight increase of 0.63%. Revenue from business cooperation linked to turnover decreased by 12.46%, whereas the garage recorded significant revenue growth of 21.80%. Revenue from commercial premises in Phase 1 also increased, rising by 10.92% compared to the same period of the previous year.

In the first nine months of 2026, the number of vehicles using the public underground garage of the centre amounted to 552,459 vehicles, while in the same period in 2025 the number amounted to 552,809 ve-

hicles. This result represents a minimum decrease in turnover, with a significant increase in revenue in the reporting period. In addition to the shown increase in revenue, there was also an increase in the length of parking time in the garage of the City Galleria Centre.

Summary of key market results of the City Galleria Business and Shopping Centre

In the first nine months of 2026, the City Galleria Business and Shopping Centre recorded its best financial results since its establishment, with revenue increase and a high occupancy rate of almost 100%. Despite the challenging macroeconomic environment, the Centre maintained business stability and profitability, with the key performance drivers being the growth of rents, efficient premises management and an increase in revenue from garage services.

The total rentable area of the facility is 9,443.62 m². By purchasing the commercial premises in the neighbouring Phase 1 of the Zadar Shopping Centre facility, the Company secured an additional 289.96 m², which increased the total rentable area of all commercial spaces owned by ILIRIJA d.d. to 9,733.58 m². As at 30 September 2026, the Centre had 37 active lease agreements, resulting in an occupancy rate of 99.76% in the main facility, while the occupancy rate in Phase 1 was 100%.

Most of the revenue of the City Galleria Business and Shopping Centre comes from commercial leasing. The average lease per square metre of active commercial premises during the period observed was EUR 12.23/m² per month. Other revenue was based on calculating common costs (calculated for the area of 6,647.03 m²), leasing and commercial

use of common areas of the Business and Shopping Centre (1,512.50 m² in total), collection of single parking fees and leasing of parking spaces in the underground garage of the Centre (total area of 10,863.50 m²), leasing of business premises in Phase 1 of the facility (total area of 289.96 m²), and, in the smallest share, leasing advertising space on the façade of the Centre (total area of 138.98 m²). Total revenue generated during the first nine months of 2026 increased by 6.17% relative to the same period of the previous year.

The segment of managing the public underground garage, which has 410 parking spaces, recorded a turnover of 552,459 vehicles, compared to 552,809 vehicles recorded during the same period in 2025. The garage revenue from single parking fees; monthly, weekly, and daily tickets; annual subscriptions and leased parking spaces in the reporting period of 2026 amounted to EUR 228,407.98, and an average garage revenue per parking space amounted to EUR 557.09, representing an increase of 21.80% compared to the same period of the previous year.

4.5 ILIRIJA TRAVEL

As a destination management company, Ilirija Travel continued to develop the Company's integrated and complementary tourism product throughout the first nine months of 2026 by organising events, excursions, and other specialised programmes.

During the reporting period, 265 separate events were organised by Ilirija Travel, representing an increase of 13.73% compared to the 233 events held during the same period of the previous year. The number of participants increased by 9.78%, rising from 27,995 to 30,734. In the relevant period, total revenue, including revenue from the Company's other profit centres, amounted to EUR 1,495,715.14, representing a 16.45% growth compared to the EUR 1,284,418.76 in revenue generated during the same period of the previous year. Revenue growth outpaced the increase in the number of participants, indicating a rise in the average revenue per programme and per participant.

The multi-purpose facility Arsenal in Zadar, along with the Company's other profit centres, made a significant contribution to the overall results. During the reporting period, Arsenal hosted 37 events, up from 29 in the same period of the previous year, with the number of participants increasing from 12,197 to 12,818. Revenue of the Arsenal venue amounted to EUR 721,092.28, representing an increase of 15.3% as

compared to EUR 625,401.66 realised in the same period of the previous year.

Revenue growth was also recorded in other profit centres. The Marina Kornati restaurant profit centre generated EUR 285,224.40 in revenue through event organisation, nearly double the figure from the same period of the previous year. Revenue growth was also recorded in selected profit centres within the hotel and camping sectors, with some of their business activities channelled through Ilirija Travel. The agritourism segment recorded a 22.5% increase in revenue, reaching a total of EUR 135,360.92, while revenue for the event boat Nada and Villa Primorje were lower compared to the previous year.

The overall results for the destination management company and other participating profit centres for the first nine months of 2026 show growth in both revenue and the number of participants, alongside shifts in the composition of activities. The growth in revenue from organised events, bolstered by particularly strong performance from the Arsenal facility and certain hospitality facilities, underscores the importance of developing year-round programmes, congress and business events, weddings, incentive programmes, excursions, and other offerings used by the Company to expand its tourism portfolio and reduce its reliance on seasonal operations.

In the period from 1 January to 30 September 2026, the hotel segment of ILIRIJA d.d. generated EUR 9,797,481.59 in operating revenue, representing a 1.35% increase compared to the EUR 9,666,760.00 recorded during the same period in 2025. At the same time, operating costs decreased by 8.45%, falling from EUR 6,624,223.00 to EUR 6,064,618.00.

This combination of revenue growth and reduced operating costs resulted in a significant increase in Gross Operating Profit (GOP). For the hotel segment, GOP amounted to EUR 3,732,864.00, an increase of 22.69% compared to the same period of the previous year, when it amounted to EUR 3,042,538.00.

GOP per accommodation unit amounted to EUR 8,581.30, representing an increase of 22.69% compared to the EUR 6,994.34 recorded in the same period of 2025. At the same time, the GOP margin increased from 31.47% to 38.10%, confirming an improvement in operational efficiency and the profitability of the hotel segment during the observed period.

Notes:
* TRevPAR denotes the total operating revenue of the hotel industry divided by a number of physical accommodation units.
GOP denotes a gross operating profit of the hotel industry before the allocation of costs of common services, and is calculated in the following way: operating revenues – operating expenses (before allocation, without depreciation and fixed costs).

5.1 KEY FINANCIAL OPERATING RESULTS BY SECTORS

5.1.2 NAUTICAL SECTOR

The Company's nautical sector consists of three business segments, or profit centres: Marina Kornati, "Marina Kornati" restaurant and the nautical fair.

Revenue by profit centre for the 2026 reporting period amounted as follows:

- Marina Kornati: EUR 8,322,455.35
- "Marina Kornati" restaurant: EUR 589,498.38
- Nautical fair: EUR 719,724.39

In the nine months of 2026, the nautical sector realised operating revenue in the amount of EUR 9,631,678.12, a 10.40% increase compared to the same period of the previous year, when it amounted to EUR 8,724,670.87.

In the reporting period, Marina Kornati, the most significant profit centre of the nautical sector, achieved the best financial operating results to date with regard to revenue. Operating revenue of Marina Kornati was generated in the amount of EUR 8,322,455.35, representing an increase of 8.04% compared to the same period of the previous year, when it amounted to EUR 7,703,103.55. The most significant growth in the Marina Kornati revenue in the reporting period was generated from accommodation of vessels or contracted berth vessels and other services and port service. Revenue from contra-

cted berth amounted to EUR 6,316,603.00, a 7.38% increase compared to the same period in 2025 when it amounted to EUR 5,882,660.00, and accounted for 75.9% of the total revenue of Marina Kornati.

Moreover, other profit centres of the nautical sector also recorded growth in business activities. The "Marina Kornati" restaurant generated revenue in the amount of EUR 589,498.38, representing a revenue increase of 12.96% compared to the EUR 521,874.06 in revenue generated during the same period in 2025. The nautical fair profit centre achieved strong revenue growth of 44.03%, generating EUR 719,724.39 in revenue, compared to EUR 499,693.26 in the same period of the previous year.

Strong growth in operating revenue across all profit centres was accompanied by an increase in gross operating profit, which reached EUR 6,493,527.56, a growth rate of 12.08%, resulting in a gross operating margin of 67% for the nautical sector during the reporting period.

Notes:

The campsite includes the accommodation and restaurant in the Park Soline Campsite.

* TRevPAR - Total revenue per camp unit denotes total operating revenue of the camping (or the campsite) divided by a number of physical camp units.

** Operating costs include the costs of raw material and material, costs of services, gross pays and other operating costs, not including the depreciation, financial expenses and extraordinary expenses.

*** GOP (Gross Operating Profit) denotes a gross operating profit of the camping/ campsite / restaurant before the allocation of costs of common services, and is calculated in the following way: operating revenues - operating expenses (before the allocation, without depreciation and fixed costs).

**** GOP margin is calculated by correlating the amount of GOP of camping / campsite / restaurant before the allocation of costs of common services and operating revenues.

In the nine months of 2026, the Company's Camping sector generated operating revenue of EUR 8,417,036.04, which is 0.65% less than in the same period of the previous year, when revenue amounted to EUR 8,471,961.17. Despite a relatively slight decrease in operating revenue, there was a more pronounced 7% decline in restaurant revenue, which had a negative effect on the sector's total financial performance.

Regarding the camping sector, specifically concerning accommodation at the "Park Soline" campsite, revenue growth was recorded in the following categories: 3% for mobile homes, 1% for individual pitches, 12% for lump-sum leases, and 5% for other services. Driven by revenue growth in key market segments, the "Park Soline" campsite generated revenue totalling EUR 7,811,597.40, a figure on par with the same period of the previous business year, thereby successfully offsetting the loss of revenue from fixed-lease arrangements.

Operating expenses in the camping sector were 2% lower compared to the same period in 2025. This reduction is primarily the result of lower costs for raw materials, materials, and energy (down by 9%), a 3% decrease in other costs, and a 2% reduction in gross salaries.

The decrease in operating expenses, combined with a marginal decrease in revenue and a slight increase in gross operating profit, which reached EUR 5,226,073.08, resulted in a gross operating margin of 62.09% for the camping sector.

*** GOP denotes a gross operating profit of the campsite before the allocation of costs of common services, and is calculated in the following way: operating revenues - operating expenses (before the allocation, without depreciation and fixed costs).

Furthermore, capital investments totalling EUR 517,844.84 were made during the nine months of 2026, aimed primarily at improving the campsite's competitiveness, raising the quality of services, and strengthening its market position.

1

Total revenue up to and including the third quarter of 2026 amounted to EUR 30,973,218.12, representing an increase of 3.71% compared to the same period in 2025, when it amounted to EUR 29,866,273.38, and is the result of growth in operating revenue.

Operating revenue for the reporting period amounted to EUR 30,760,687.59, representing a 3.90% increase compared to the same period of the previous business year when it amounted to EUR 29,605,398.77. This growth was driven by an increase in operating revenue across nearly all of the Company's sectors, i.e. hotel, nautical, DMC Ilirija Travel, and real estate sector, with the exception of the camping sector, where revenue remained at the same level as the previous year.

Revenue from sales amounted to EUR 30,452,557.14, a 3.22% increase compared to the same period of the previous financial year, when it amounted to EUR 29,501,959.13. Revenue from sales represented 99.00% of operating revenue and 98.32% of total revenue.

2

Total expenses amounted to EUR 20,682,036.42, a 2.84% decrease compared to the same period of 2025, when they amounted to EUR 21,286,256.18, due to a 3.17% decrease in operating expenses and a 15.80% decrease in financial expenses.

Operating expenses for the reporting period amounted to EUR 17,958,919.57, a decrease by 3.17%, or EUR 588,583.52, compared to the same period of the previous business year when they amounted to EUR 18,547,503.09. This decrease is the result of lower operating costs, achieved through timely management and maximum optimisation of operating costs, specifically regarding other costs (down by 6.75%), gross salaries (down by 5.89%), and costs for raw materials, materials and energy (down by 3.48%).

3

Operating profit from the Company's business activities amounted to EUR 12,801,768.02, representing an increase of 15.77%, or EUR 1,743,872.34, compared to the same period in 2025, when it amounted to EUR 11,057,895.68.

Profit amounted to EUR 10,291,181.70, representing an increase of 19.94%, or EUR 1,711,164.50, compared to the same period in 2025, when it amounted to EUR 8,580,017.20.

EBITDA, i.e. earnings before depreciation, interest and taxes, was generated in the amount of EUR 13,014,298.55, and showed a 14.98% or EUR 1,695,528.26 increase compared to the same period in 2025, when it amounted to EUR 11,318,770.29.

EBIT, i.e. earnings before financing expenses was realised in the amount of EUR 10,560,984.95, recording an increase of 18.66 %, or EUR 1,660,520.96 compared to the same period of 2025, when it amounted to EUR 8,900,463.99.

The Company achieved growth across key performance indicators (revenue, profitability, and financial position indicators), recording the best performance results to date, as at the end of the third quarter of the business year. The growth in both total and operating revenue was accompanied by strong, double-digit growth in business profitability across all key indicators (operating profit, profit, EBITDA and EBIT), the best results to date for the reporting period. This increase in profitability is the result of rising revenue combined with a reduction in total operating expenses; specifically, a decrease in both operating and financial expenses. The reduction in operating expenses was the outcome of timely planning and the maximum optimisation of operating costs; consequently, expenses were lower than in the same period of the previous year, which led to a significant growth in profitability. Furthermore, the Company continued to strengthen its financial position and balance sheet position by significantly reducing its total liabilities. It also maintained a net-debt-free status, while simultaneously recording a strong increase in net financial assets, which amounted to EUR 7,465,567.66 as at 30 September 2026. Additionally, during the reporting period, the Company achieved growth in both its equity and the value of its assets.

Taking into account the circumstances throughout the business year, including broad geopolitical instability, rise in inflation, a global economic slowdown, and slowing down in tourism demand in key outbound markets for Croatian tourism, alongside growth in business activities across nearly all sectors, the Company considers its business results to be successful.

REVENUE BY ACTIVITIES:

Hotel sector revenue amounted to EUR 9,797,481.59, an increase of 1% compared to the same period in 2025, when it amounted to EUR 9,666,760.41. This is the result of an increase in business activity during the high season (July – August), coupled with strong growth during the post-season (specifically in September), which allowed the hotel sector to successfully offset the sluggish demand experienced in the first half of the financial year.

Nautical sector revenue amounted to EUR 9,631,678.12, representing a 10% increase compared to the same period in 2025, when it amounted to EUR 8,724,670.87, and were the result of growth in operating revenue across all profit centres within the nautical sector: an 8% increase for Marina Kornati, a strong 44% rise in revenue from the nautical fair, and a 13% increase in the hospitality segment.

Camping revenue amounted to EUR 8,416,530.84, a decrease of 1% compared to the same period in 2025, when it amounted to EUR 8,471,961.17. This is the result of a 7% drop in revenue from hospitality services, while revenue from accommodation, specifically at the “Park Soline” campsite, remained on par with the same period of the previous year. It is important to point out that the Company, despite operational changes resulting from the new campsite categorisation and amendments to the legal regulations governing campsite operations, managed to maintain its accommodation revenue at the previous year’s level, even in the absence of revenue from the fixed-lease market segment.

Real-estate sector revenue, specifically from the City Galleria Business and Shopping Centre, amounted to EUR 1,819,817.18, representing an increase of 6% compared to the same period in 2025, when it amounted to EUR 1,714,098.48. This increase is the result of revenue growth in absolute amounts, mostly from: parking, other operating revenue, lease of commercial premises and common expenses.

Revenue from other sectors, specifically DMC Ilirija Travel and the Company’s other profit centres, amounted to EUR 1,095,179.86, representing a 7% increase compared to the EUR 1,027,907.84 recorded during the same period in 2025. The growth in revenue, both in absolute and relative terms, was primarily driven by a strong expansion in the business activities of the destination management company and its year-round operations.

GRAND TOTAL: Operating revenue per activity amounted to EUR 30,760,687.59, representing an increase of 4% compared to the same period in 2025, when it amounted to EUR 29,605,398.77.

OPERATING AND OTHER COSTS

Operating costs for the reporting period in 2026 amounted to EUR 17,958,919.57, a 3.17% decrease compared to the same period of the previous business year, when they amounted to EUR 18,547,503.09. This is the result of timely planning of operating costs and their maximum optimisation at all levels of the Company; consequently, other costs decreased by 7%, labour costs by 6%, and costs for raw materials, materials and energy by 3%.

FINANCIAL EXPENSES

Financial expenses in the reporting period amounted to EUR 269,803.25, and they decreased by 15.80% compared to the same period of the previous year, when they amounted to EUR 320,446.79.

LIQUIDITY

In the reporting period, the Company fully and properly maintained current liquidity and settled its liabilities towards the suppliers, the bank, the state, the employees, etc. in a timely manner and within the

deadlines. The Company secured a sufficient amount of liquid assets to settle its liabilities, having in mind the complex business circumstances due to a disrupted macroeconomic environment and strong inflation pressures.

In December 2025, the Company entered into a one-year short-term loan facility agreement with the commercial bank Erste&Steiermarkische Bank d.d. to ensure current liquidity.

COLLECTION OF FUTURE REVENUE

With regard to the active collection of trade receivables, the Company will seek to collect them in the most appropriate manner and within the most appropriate deadlines, taking into account the aggravated circumstances of collection and implementation of the measures of payment in instalments where possible, and also undertaking compulsory collection measures if needed.

6 ADDITIONAL INFORMATION ON THE STATUS AND BUSINESS OPERATIONS OF THE COMPANY

6.1 SIGNIFICANT EVENTS

At its session held on 26 February 2026, the Company Management Board adopted the Q4 2025 financial statements (unaudited, unconsolidated), the Annual Report and the 2025 Annual Financial Statements (audited, unconsolidated), and a draft decision on dividend distribution was prepared. Also, at its session held on the same day, the Supervisory Board adopted the Company's 2025 Annual Report and 2025 Annual Financial Statements (audited, unconsolidated), and a draft decision on dividend distribution in the amount of EUR 0.84 per share was prepared.

The General Assembly, held on 22 April 2026, took note of the Company's Annual Report for 2025 together with the Audit Report for 2025, Report of the Supervisory Board on the Performed Supervision of the Company's Operations for 2025, and the Management Board's Report on the Acquisition of Own Shares in 2025. The General Assembly adopted the Decision on the Approval of the 2025 Report on the Remuneration of Management Board and Supervisory Board Members, the Decision on Confirmation of the Previously Approved Decision on the Remuneration of Supervisory Board Members, the Decision on Granting Discharge to the Company's Management Board for the financial year 2025, Decision on Granting Discharge to the Members of the Supervisory Board for the financial year 2025, and the Decision on the Appointment of the authorised auditing company "UHY RUDAN d.o.o.", Ilica 213, Zagreb, PIN (OIB): 71799539000 as the Company's Auditor for 71799539000.

Also, the Decision on the Use of Company Profit for the 2025 Financial Year was adopted at the General Assembly, according to which the achieved net profit in the 2025 financial year (after tax) in the amount of EUR 3,722,948.30, is distributed as follows:

- EUR 1,699,579.82 into the retained profit, and
- EUR 2,023,368.48 for dividend distribution.

The dividend per share amounts to EUR 0.84.

During the reporting period, the Company acquired 1,503 of its own shares, constituting 0.062% of the share capital; following this acquisition, the Company holds 6,219 of its own shares, constituting 0.257% of the share capital.

6.2 LEGAL MATTERS

• Ilirija d.d. has, within the legal deadline, submitted a request to the Government of the Republic of Croatia through the Ministry of Tourism of the Republic of Croatia, for a concession on the part co-owned by the Republic of Croatia, for the use of the "Park Soline" campsite for 50 years. In the meantime, in May 2020, the new Act on Non-Evaluated Construction Land came into force, thus repealing the Act on Tourism and Other Construction Land Not Evaluated in the Conversion and Privatisation Process. The new Act on Non-Evaluated Construction Land provides that buildings and land in a campsite which are estimated in the value of the capital, are owned by the company, whereas the campsite land not estimated in the value of the capital is owned by the Republic of Croatia. On 5 March 2021, Ilirija d.d. submitted, within the legal deadline, an application for a decision to the competent Croatian Ministry of Physical Planning, Construction and State Assets, under Article 17 of the Act on Non-Evaluated Construction Land, that is, for the determination/identification of the scope, evaluated and non-evaluated parts and owners of the Park Soline campsite in Biograd na Moru and consequently for the conclusion of a lease agreement between the Republic of Croatia and Ilirija d.d. for a period of 50 years. The procedu-

re is pending. In the meantime, on 1 April 2022 the Company, in accordance with Article 18 of the Act on Non-Evaluated Construction Land, obtained from the Centre for Restructuring and Sales the Certificate of Conformity of the Geodetic Survey Report, which confirms the conformity of the "Park Soline Campsite Geodetic Survey Report with the decision of the Croatian Privatisation Fund of 12 July 1996, by which the real property concerned was evaluated in the process of conversion of the socially-owned enterprise "Ilirija" Biograd na Moru, and on 9 April 2026 Certificate of Conformity for the Geodetic Survey Report was obtained from the competent Ministry of Physical Planning, Construction and State Assets of the Republic of Croatia. The said geodetic survey report was submitted on 22 April 2026 for inspection and approval by the competent cadastral department for Biograd na Moru. Furthermore, in April 2023, based on the ruling of the Commercial Court in Zadar, adopted in the procedure of correcting the registration of ownership rights, which was confirmed by the ruling of the High Commercial Court of the Republic of Croatia, the Republic of Croatia was registered in its entirety as the owner of the land plot with a surface area of 41 537 m² which is located within the Park Soline campsite. Namely, until

that time, the Town of Biograd na Moru was registered as the land registry owner of the said land plot within the campsite.

- The predecessor of the Company was allotted the maritime domain for permanent use by the Municipal Assembly of Biograd na Moru for the purpose of constructing a sport port or marina (1976) and an outdoor swimming pool with a beach facility (1986) in Biograd na Moru. In accordance with the valid building and operating permits, the Company built the Ilirija-Kornati hotel port (1977–1979) and an outdoor swimming pool with beach facilities (1988), and these investments were evaluated and entered in the value of the capital of Ilirija d.d. during the conversion process. The aforementioned permanent right to use the maritime domain was replaced in 1998 with a limited period concession, and in accordance with the Decisions of the Zadar County on the award of the concession on the maritime domain, the Maritime Domain Concession Contract was concluded for the purpose of commercial use of a special purpose port – nautical tourism port for a period of 12 years (until 2011) as well as the Maritime Domain Concession Contract for the purpose of commercial use of the outdoor swimming pool for a period of 10 years

(until 2008). Prior to the expiry of the concession for the nautical tourism port – the Ilirija-Kornati hotel port and the outdoor swimming pool with a beach facility, Ilirija d.d. submitted the requests for the extension of the term of the concession by 20 years, i.e. to a total of 30 years. No decision has been reached regarding the requests submitted by Ilirija d.d. for the extension of the concession. The Company also submitted a request for obtaining a concession upon request for a period of 5 years for the commercial use of the beach in front of the Ilirija, Kornati and Adriatic hotels, the beach facility and the outdoor swimming pool in Biograd na Moru, in accordance with the Maritime Domain and Seaports Act. The Zadar County Assembly accepted the application by Ilirija d.d. and on 3 March 2026 adopted the Decision on Awarding Ilirija d.d. a Concession on Maritime Domain for the Purpose of Commercial Use of a Public Beach with Facilities. The Contract on the Maritime Domain Concession was concluded on 18 May 2026 for a period of 5 years.

- During the conversion process, the property Dražice – Mini Golf was evaluated and entered in the value of the capital of the Company for the part with a surface area of 9,752 m², the part which Ilirija d.d.

has been using uninterruptedly for the purposes of a parking lot and an entertainment and animation centre, and accordingly holds in its possession, while for the rest of the land of approximately 46,000 m² an application for a concession has been submitted. The dispute between Ilirija d.d. and the Town of Biograd na Moru before the Commercial Court in Zadar regarding the right of ownership is pending. The Republic of Croatia has joined the proceedings. No first-instance judgment has been rendered in this case.

- As for the disputes in which the Company participates, both actively or passively, we estimate that such disputes cannot significantly disrupt the Company's business, nor can they cause significant financial expenses for the Company or have a significant effect on the Company's current and future financial results.

6.3 INVESTMENTS IN 2026

Investments up to and including the third quarter of 2026 amounted to EUR 1,893,129.77, and referred mostly to the hotel and camping sectors and catering facilities with the aim of continuously raising the standards and quality of service and products, especially of accommodation capacities and public amenities of accommodation facilities, with further investments made in catering amenities.

Within the hotel sector, significant investments were directed toward Hotel Ilirija; in addition to further refurbishment of accommodation units, investments were made to upgrade the design and functionality of public areas, including restrooms and the hotel lobby. Furthermore, investments were made in the continued modernisation and strengthening of the Wi-Fi network across the entire hotel sector, as well as in the development of the beach in front of the hotel and the horticultural areas.

Also, additional investments continued in a beach facility at the Biograd na Moru destination, with a focus on increasing capacity, expanding the kitchen, and further developing and equipping the terrace, all aimed at elevating the standard of hospitality services and additional amenities.

In the camping sector, investments were directed toward the new pitch division of the campsite, the further development of accommodation units and sanitary facilities, the reconstruction of core infrastructure, the development of internal roads at the campsite, and further horticultural development of the campsite.

6.4 NON-OPERATING ASSETS

An additional impact on the value of Company shares comes from non-performing assets, which are owned by the Company, but they are neither used for core activities of the Company, nor do they provide economic benefits to the Company. The most important non-performing assets owned by the Company are unused land plots (9 acres in total) at highly attractive locations:

Land plot, Sv. Filip i Jakov: The Company owns a building site of approximately 2.5 acres in Sv. Filip i Jakov, of which only a smaller portion is used (Villa Donat), while approximately 20,000 m² of the site is unused. According to the preliminary design, the Company plans to build 8 detached villas with apartments at the unused portion of the land plot, and expand the existing accommodation and service facilities. The Municipality of Sv. Filip i Jakov adopted a Detailed Plan for the Development of a Mixed Hospitality and Tourism Zone (T1-hotel).

Land plot, Villa Primorje: The Company owns approximately 2.5 acres of land near the Villa Primorje Hotel, of which only a smaller portion is used (approximately 10% of the total surface area). Apart from the existing physical plan, there is a possibility of building

a settlement of traditional Dalmatian villas at the unused portion of the plot. The unused part of the plot is in direct contact with a building site.

Land plot, Polača: The Company owns a construction land of approximately 2.5 acres in Polača, located along the state road which connects Biograd with the nearby motorway (regional importance). The site is equipped with basic municipal infrastructure and Ilirija d.d. plans to use it to build a dry marina, which would be functionally connected with the existing nautical capacities owned by Ilirija d.d., but only if the existing concessions and the right of economic exploitation of the maritime domain within the existing nautical tourism ports owned by the Company are extended beforehand.

Land plot, Sv. Filip i Jakov: In December 2021, the Company bought a land plot with a surface area of 9,600 m² in Sv. Filip i Jakov in the crafts and services zone, within the area of the newly planned industrial zone, with the intention of building a central warehouse, distribution and service facility for the needs of the Company, which would include central warehouse of assets, equipment and inventory, central warehouse of food and beverages, technical service

workshops, storage of machines, dry berth, ancillary mobile storages, office space for the needs of the storage and distribution facility, as well as traffic and parking areas.

Land, Biograd na Moru In 2025, the Company purchased land with an area of 3,728 m² in Biograd na Moru, within the area of the industrial zone, with the intention to build a modern central laundry room, as well as accompanying storage and distribution spaces which are currently dispersed across several facilities within the hotel resort.

6.5 OTHER

Business monitoring and reporting on a daily, weekly and monthly basis

At the level of all sectors and the Company as a whole, a supervision, control and monitoring system for all business segments was established, namely for monitoring on a daily, weekly and monthly basis in accordance with the applicable Croatian and world reporting standards for the tourism industry. This enabled timely and quality monitoring of achieved operating and planned results, as well as the development of quality forecasts and business plans throughout the business year, which created the foundations for a more efficient and rational management of the entire business process, as well as improved and accelerated the overall reporting process at all levels, and especially in the operational part of the Company's business.

On a daily basis, the Company records and enters accounting and bookkeeping documentation in a timely manner, within 24 to 48 hours of its receipt at the latest. This ensures up-to-date and accurate daily reporting at the level of the Company and its sectors, which includes: a daily balance sheet at the Company level, trade receivables and trade payables, short-term liabilities, a income statement at the level of the Company and profit centres, reports on daily financial and physical turnover for all profit centres, sectors and at the Company level, reports on daily operating revenue and cumulative operating revenue for the period by profit centres and sectors, i.e. at the Company level and a series of operational daily reports. This method of reporting enables detailed planning and monitoring of the achievement of financial performance indicators and the Budget, both at the level of an individual profit centre and at the same time at the level of sectors and the Company as a whole. In addition to daily reports, the Company prepares various weekly and complete monthly financial and accounting statements, including the income statement for all sectors and profit centres of the Company, as well as the Company's balance sheet on the last day of the current month, and the cash flow for the current month, i.e. cumulatively from the beginning of the year to the end of the reporting period, which are elaborated in more detail and analytically structured, which enables efficient business management.

Also, in addition to accounting and financial statements on a daily, weekly and monthly basis, reports are prepared on the status of sales of accommodation capacities (hotel sector and camping), the status of sales of berths (na-

utical sector) and the status of DMC Ilirija Travel sales (accommodation and special events) with all key physical , market and financial data by profit centres (accommodation facilities) and at the level of the sector itself. In addition to its own reporting system, for many years the Company has also been implementing the USALI reporting system, an international reporting system for the tourism industry, as well as a system for daily management of prices, and consequently also of the accommodation units revenue in the hotel and camping sector.

7 BUSINESS EXPECTATIONS IN 2026

In 2025, the global tourism industry was dominated by strong growth in travel demand, the discovery of new destinations and the recovery of distant destinations, especially in Asia and the Pacific, which was also reflected in the increased volume of tourist traffic in Europe and its subregions, which grew at slower rates than other tourist regions in the world. Europe, the world's largest destination region, recorded stable growth in international tourist arrivals, including the Mediterranean as its most significant subregion. In 2025, Croatian tourism recorded a slight increase in physical business operation at rates lower than the average for Europe and the Mediterranean, i.e. business operation stabilised after several years of strong demand growth. Following the challenges that Croatian tourism faced in the peak season, the decrease in tourist demand and the perception of Croatia as an expensive destination, which strongly reflected on the competitiveness of the Croatian tourist offer, 2026 is therefore looked on with moderate optimism and additional caution in terms of price competitiveness and recognition of Croatia as a tourist destination that fosters value for money.

Consequently, the company ILIRIJA d.d. expects sustainable growth in tourist demand in 2026 with a special focus on further strengthening demand

in the pre-season and post-season, i.e. extending business activities for the entire business year, while in the peak high season (July – August) it plans to achieve key performance indicators at the level of Croatian tourism standards for high-category accommodation facilities. The Company's business expectations for 2026 are based on the fact that there are no limiting circumstances for carrying out year-round business activities across all its sectors and profit centres.

The main determinants of the 2026 Business Plan are aimed at:

- preservation of the Company's long-term economic viability and security
- preservation of the Company's stable financial position
- preservation of the Company's fixed assets and capital
- preservation of the Company's business operations and activities,
- enhancing the Company's competitiveness, improving and developing products and services.

Also, the Company is aiming to ensure and carry out activities and actions in 2026 that are essential for maintaining the current status and operations, as follows:

- preservation and improvement of the achieved level of facility development and equipment mainly at the 4-star level to ensure market competitiveness
- development of new products, services and content with the aim of increasing the competitiveness of the Company and further developing its year-round business activities,
- ensuring the optimum number of employees for uninterrupted business activities and the quality of service in high season,
- preservation of the achieved financial position from employee labour corresponding to the average net salary in the Republic of Croatia in order to ensure the competitiveness of the Company on the labour market while facing a labour shortage,
- optimisation of all operating costs, especially labour costs, based on timely planning and personnel management,
- fulfilment of obligations towards Company's creditors, i.e. suppliers, payment of tax liabilities and contributions, as well as regular fulfilment of its liabilities towards the bank in respect of the principal of loans and interest

In addition to the above-mentioned determinants and preconditions, we believe that it is realistic for the Company to achieve its business goals in 2026:

- a) sustainable growth in demand volume evidenced by the growth in terms of key physical and market business performance indicators at the level of all sectors of the Company,
- b) increase in operating revenue at the level of all sectors and profit centres, i.e. at the level of the entire Company,
- c) generating EBITDA, or its share in the revenue, in line with the tourism industry standards; and
- d) growth of other profitability indicators (profit, EBIT).

By achieving the stated business goals, and under the assumption of a year-round business activity in its full scope, i.e. at the level of all sectors and profit centres, as well as providing for the absence of limiting factors, we believe that the Company has ensured long-term economic sustainability and security, a stable financial position, fixed assets and capital, as well as ensured its business activity in 2026.

Furthermore, the Company is aware of the existence of objective and real limiting circumstances and challenges that could, to a certain extent, affect the realisation of the 2026 business expectations, including global geopolitical instability with

consequences not only for European but also for the threat to world stability and security, as well as negative implications for the economy, disturbed macroeconomic climate characterised by continued strong inflationary pressures, as well as a significant lack of labour in almost all economic sectors in the Republic of Croatia and a continuous increase in salary costs. All of the above can significantly affect the realisation of planned business expectations in 2026.

8 NOTES

The Company has all the permits required for the performance of its activities, such as the decisions on categorisation and on the meeting of the minimum technical work requirements, as well as water rights permits, etc.
