### **KEY INFORMATION FOR THE PERIOD 01/01 – 31/03/2024**

1. In the first quarter of the year, the Company successfully achieved growth in key physical and financial business indicators. Despite the usual low level of business activity in Croatian tourism in the first quarter of the business year, all tourism sectors of the Company, followed by the real estate sector, recorded an increase in business activities, which resulted in an increase in the revenue at the level of all sectors, i.e. the Company as a whole. Furthermore, the increase in revenue, which in some sectors was achieved at strong double-digit rates, was accompanied by business profitability through the achievement of all key profitability indicators compared to the same period of the previous year, when they were significantly lower, i.e. there was no profitability in some indicators. In addition to the achievement of physical and financial indicators, business in the first quarter of the year was characterised by a strengthening of the balance sheet and capital position with a reduction in total liabilities and net debt, which enabled the Company to achieve not only the increase in business activities and profitability, but also overall business stability in the first quarter.

2. In the reporting period, total revenue was generated in the amount of EUR 4,976,525.27, constituting an increase of 14.50% compared to the same period of the previous year, when it amounted to EUR 4,346,397.41, as a result of an operating revenue increase.

Operating revenue increased at the growth rate of to-

tal revenue and was generated in the amount of EUR 4,976,519.69, compared to EUR 4,346,282.86 generated in the first quarter of 2023. The increase in revenue is the result of continuous revenue growth of all sectors due to the increase in the volume of business activities in the key tourism sectors, especially the hotel sector and the destination management company, and they are also accompanied by the strong growth of activities in the camping sector, with the stable simultaneous increase in the revenue of the sectors with year-round business activity (nautical and real estate sectors). In the reporting period, the hotel sector saw an increase in revenue at a rate of 43%, while the destination management company Ilirija Travel achieved revenue growth at a rate of 80%, as a result of the growth of business activities in the hotel sector and strong growth of revenues generated in the part of the organisation of special events. Furthermore, the revenue of the camping sector with a growth rate of 14% contributed strongly to the increase in revenue, while the revenue of the nautical sector grew by 6% and the revenue of the real-estate sector by 5%, achieving continuous growth in business activities considering the year-round business.

3. Total expenses amounted to EUR 4,937,696.27, an 8.74% increase compared to the first quarter of the previous business year, when they amounted to EUR 4,540,830.40, and are the result of an increase in all expenditure items, i.e. of depreciation at a rate of 9.28%, operating expenses which are 8.87% higher and financial expenses which grew by 1.25%.

Operating expenses amounted to EUR 4,007,165.73 and, compared to the same period of the previous year, they showed an 8.87% increase and, in absolute terms, contributed the most to the increase in total expenses. Operating expenses increased primarily due to an increase in the following:

(I) increase in wage costs and other material rights of employees related to employment benefits and other rights of employees which are higher by EUR 241,275.55. The increase in wage costs and other material rights of employees is the result of the Company's continuous policy in personnel management for the purpose of improving the material position of employees, and is based on the cost of labour based on the level of the average net salary in the Republic of Croatia, maintaining and preserving the full level of employment in order to ensure a sufficient number of employees on time for the main season and maintaining a high quality service, as a result of which the Company had 1% more employees in the reporting period. Furthermore, the gross wage cost in the reporting period grew at double-digit rates and is higher by 12%, that is, it grew at a rate slightly lower than the increase in revenue, which is higher by 15%.

(II) increase in costs of facilities and equipment maintenance service which are higher by EUR 124,451.05, with the aim of improving the quality and standards of the service and maintaining the achieved level of competitiveness,

(III) increase in costs of entertainment programme which are higher by EUR 52,642.80, with the aim of developing year-round business activities realised through the destination management company Ilirija Travel, and

(IV) increase in costs related to various types of rental fees, which are higher by EUR 48,780.16.

4. In the first quarter of the business year, all key operating profitability indicators were achieved (operating profit, profit, EBITDA and EBIT), which the Company considers successful, taking into account the seasonality of Croatian tourism, characterised by extremely low business activity in the first quarter of the business year, followed by still present inflation pressures and labour force deficit, which significantly affect the increase in operating expenses. Under the mentioned circumstances, operating expenses grew at a rate of 8.74%, while at the same time, the first quarter was marked by the strengthening of business activities in all sectors of the Company, whereby revenues, total and business, grew at a rate of 14.50%, i.e. at a rate higher than the increase in expenses, which contributed to the growth of operating profitability.

Operating profit was generated in the amount of EUR 969,353.96, an 45.61% increase compared to the same period of the previous year, when it amounted to EUR 665,721.53, while the profit for the reporting period amounted to EUR 38,829.00 and is higher by EUR 233,261.99 compared to the same period of the

previous year, when no profit was recorded. EBITDA was realised in the amount of EUR 969,359.54 and was EUR 303,523.46, or 45.59% higher, while EBIT amounted to EUR 159,538.19, and was EUR 234,751.30 higher compared to the first quarter of the previous year, when no EBIT was recorded.

5. In the reporting period, capital amounted to EUR 53,153,095.63, representing a 4.31%, or EUR 2,194,046.71 increase compared to the first quarter of the previous year, when it amounted to EUR 50,959,048.92, due to the increase in profits from past years.

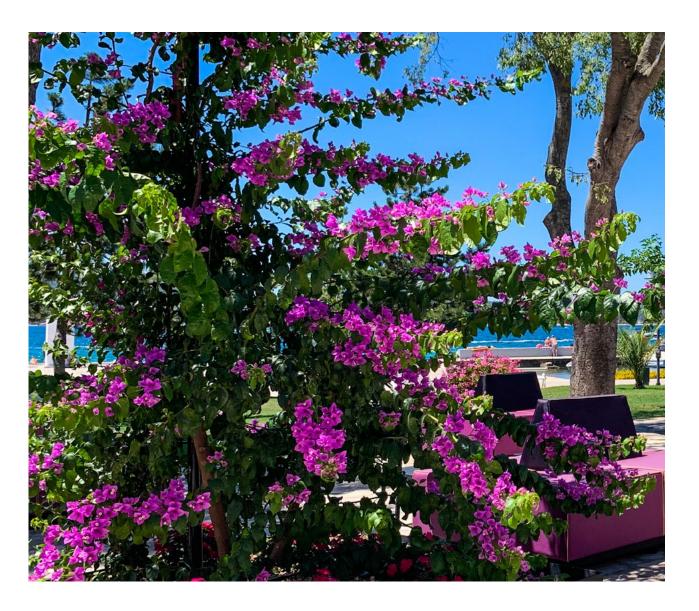

6. The value of assets amounted to EUR 71,739,475.16, showing an increase of EUR 510,946.77 in comparison with the same period of the previous year, when it amounted to EUR 71,228,528.39. The increase resulted from an increase in current assets, which was 14.36% higher.

7. Total liabilities of the Company in the reporting period amounted to EUR 18,586,379.53, decreasing by 8.30%, or EUR 1,683,099.94, compared to the same period of the previous year, when they amounted to EUR 20,269,479.47, as a result of an increase in current liabilities by 4.75%.

8. Net debt, which includes both current and non-current liabilities towards banks, minus cash at bank, in hand, and deposits, amounted to EUR 2,546,186.64 in the reporting period, representing a decrease by

56.03%, or EUR 3,244,188.65, recording the lowest net debt of the Company achieved so far in the first quarter of the year.

9. The average share price amounted to EUR 25.78, representing an increase of 5.61% in comparison to the average share price achieved in the first quarter of the previous year, which amounted to EUR 24.41. The market capitalisation of the Company thus proportionally expressed as the product of the average share price and the number of shares, amounted to EUR 62,219,720.64, representing an increase of EUR 3,306,478.56 compared to the first quarter of 2023.

### 1.7 COMPANY BUSINESS MODEL

The Company has been present on the domestic and international tourism markets for over six decades and in 2016, with the acquisition of the City Galleria Business and Shopping Centre, it became a company with a wide range of activities, the portfolio of which is composed of 5 sectors:

- Hotel sector 4 hotels, 435 rooms, 910 beds
- Nautics 805 berths, 2,000 persons
- Camping 1,130 pitches, 3,390 persons
- **Destination management company/DMC Ilirija Travel** through which 234 special events for 30,560 persons were organised in 2023
- **Real-estate segment** City Galleria Business and Shopping Centre in Zadar, one of the two largest shopping centres in the wider Zadar region

ILIRIJA d.d. is one of few tourism companies in the Republic of Croatia with such a diverse offer that includes all the segments of the Adriatic or Mediterranean tourism offer in its portfolio (hotel, nautical and camping sectors), additionally strengthened by the destination management company Ilirija Travel and the real-estate sector. With regards to such a di-

verse portfolio, it is worth noting that the Company manages all business processes (management and operations) within the sector or facility.

Diverse tourism and real-estate portfolios are based on the resources of the region and on a continuous investment in the improvement of the existing contents and products as well as the development of new ones, which is also the foundation of the Company's business and development policy. The presence on the market spanning more than six decades as well as knowledge and experience gained, enable the Company to maximize its economic, financial, market and human resources potential. By developing a complementary and integrated product through the destination management company, the Company strives for achieving one of its strategic goals - year-round business operations of its tourism sectors, with an emphasis on the hotel and camping sectors, through high-standard extension of the high season to pre-season and post-season and creating added value for both the Company and the destination, or the wider community. Through the destination management company, the Company also contributes to the development and recognizability of the destination by organizing events and by offering contents and programs it organises in its own facilities.

### 2.2 ORGANIZATIONAL STRUCTURE

### 2.3 RISKS AND RISK MANAGEMENT

The Company assesses risks at all levels of significance to the Company, i.e. at the macro and micro levels and according to the criterion of likelihood of their occurrence. The Company assesses the risks for each of the business sectors according to the criterion of likelihood of risk occurrence and consequences or impact of each individual risk on the Ilirija d.d. business processes and system as a whole.

The Company's risk management process involves the following essential steps:

- identification of potential risks;
- assessment of the likelihood of occurrence of the Company's risk;
- assigning responsibilities and taking actions in order to eliminate and/or reduce risks;
- monitoring and reassessment of risks in order to avoid their negative impacts;
- exchange of information on the activities undertaken and the results of actions between the business process managers and the Company's Management Board through the lines of communication established by the stipulated procedures.

The company recognizes the following types of risks in its operations:

- 1) Economic and financial risks
- 2) Regulatory risks:
- 3) Tourism activity risks
- 4) Global risks and risks of the macroeconomic environment

### 1 Economic and financial risks

On 12 July 2022, the Council of the European Union adopted the Decision on the adoption by Croatia of the euro on 1 January 2023, establishing that the Republic of Croatia fulfils all the requirements for the introduction of the euro as the official currency in the Republic of Croatia, as well as Council Regulation (EU) of 12 July 2022 regarding the euro conversion rate for Croatia, establishing that the conversion rate shall amount to HRK 7.53450 for one euro. In accordance with the aforementioned Decision and Regulation, the Government of the Republic of Croatia adopted the Decision on the announcement of the introduction of the euro as the official currency in the Republic of Croatia, setting out that the euro shall become the official monetary unit and legal tender in the Republic of Croatia on 1 January 2023. The introduction of the euro as the official currency in the Republic of Croatia significantly affects the Company's exposure to currency and price risks. More precisely, with the adoption of the aforementioned decisions/regulations at the level of the European Union and the Republic of Croatia, the Company is no longer exposed to currency and price risks.

In terms of credit risk, i.e. the obligation to repay loans used by the Company, taken out with a currency clause, which were dependent on the movement of the Croatian kuna exchange rate against the euro, the introduction of the euro as the official currency eliminates the said risk. Indebtedness of

the Company with the commercial bank is for the most part subject to fixed interest rates. Taking this into consideration, the Company is not exposed to interest rate risk on that basis. For the purpose of reducing credit risk, the Company strives to reduce its overall credit liabilities to an adequate, i.e. a optimal level in order for them to be lower than its own sources of funds. In its operations, as one of the foundations of its business and financial security, the Company strives to have as little net debt as possible, thus significantly reducing the existing credit risk. Financial assets that may potentially expose the Company to credit risk are cash and trade receivables. Trade receivables pertaining to certain customers may entail credit risk, depending on the level of turnover realised with certain customers and the general state of liquidity in the country. Trade receivables are reported with reference to real values. The Company actively monitors and manages trade receivables, at the same time taking especially into account the difficult macroeconomic situation, and applying measures of collection in instalments; and, if necessary, eventually undertaking measures of enforced collection, including by activating security instruments for the purpose of collection of its claims. An adjustment of the value of trade receivables is indicated when there is objective evidence that the Company will not be able to collect all of its claims in accordance with the agreed terms. Apart from the aforementioned, the Company has no exposure to any other significant credit risk.

Liquidity management implies maintaining a sufficient amount of money in order to settle the Company's liabilities. One of the primary Company goals in the challenging business environment caused by unfavourable macroeconomic environment is to maintain its current liquidity. The Company is, therefore, undertaking activities to diversify its existing and secure new financing sources (if necessary), it is trying to minimize and optimize all of its operating costs, and is willing to and capable of actively cooperating with all significant creditors by settling the liabilities they had at the time when challenging business conditions materialised.

The significant and unpredictable growth of strong inflationary pressures primarily caused by increases in the prices of energy products (oil, gas, electricity), which subsequently spread to consumer goods and services (especially food and beverages), with current geopolitical instability led to strong inflation impacts not only on business entities of European Union countries, but also on their society in general. If they remain strong, inflationary pressures could affect purchasing power and new demand generation, and slow down economic activities in the euro area. In the Republic of Croatia, the average annual inflation rate, measured by the Consumer Price Index, in March 2024 was 4.1% higher compared to March 2023. The Company is mostly exposed to inflationary pressures through the increase in food and beverage prices and the purchase of other goods. As for the increase in energy costs (primarily the cost of electricity as the primary energy product), the Company managed to protect itself from significant increases in electricity prices in time, namely with a multi-year contract, which mitigated the impact of the increase in electricity prices on total operating costs. The very intense increase in food and beverage costs constitutes a strong generator of inflation growth and at the same time accounts for a significant share of the operating expenses and significantly affects the prices of services in the hospitality and tourism industry. Therefore, by actively monitoring food and beverage prices and cooperating with key suppliers, the Company strives to minimize such prices as much as possible, i.e. ensure stability and security of the supply along with the highest possible procurement cost control. On the other hand, through dynamic daily management of accommodation unit prices, it aims to achieve the maximum level of competitiveness possible, as well as intense and systematic demand monitoring, and a quick and strong response to market trends, while at the same time striving for a timely response to potentially negative challenges and impacts such as inflation.

Bookkeeping values of the following items of financial assets and financial liabilities reflect their respective fair values: money, investments, trade payables, other receivables and other liabilities, loans granted to employees, long-term liabilities.

### 2 Regulatory risks:

As one of the most significant risks in business operations of tourism companies, Ilirija d.d. included, the Company points out **unresolved property rights issues concerning tourism land and legal investments in the maritime domain** and the related issues of protection of acquired rights based on legitimate investments and legitimate expectations of companies performing their activities on the maritime domain or tourism land.

The Company is exposed to changes in tax and other regulations within the legal system of the Republic of Croatia. In particular, this applies to the regulations pertaining to the maritime domain and tourism land, in which domain the company has made significant investments crucial for its business, while not all rights guaranteed by the Constitution in the field of acquired rights before, during and after conversion, the protection of legal capital investments, and the legitimate expectations regarding legal investments have been fully realised under Articles 48 and 49 of the Constitution of the Republic of Croatia.

#### Tourism land - unresolved issue

Pursuant to the Act on Tourism and Other Construction Land Not Evaluated in the Conversion and Privatisation Process (hereinafter: the Act), adopted in July 2010, the Company submitted to the Republic of Croatia, within the legally prescribed deadline,

i.e. in January 2011, an application for a concession on tourism land for the "Park Soline" campsite in Biograd na Moru for a period of 50 years. Due to unclear provisions of the Act, no decision has been rendered during its validity regarding the Company's application. In the meantime, in May 2020 a new Act on Non-Evaluated Construction Land was adopted, and thus the Act on Tourism and Other Construction Land Not Evaluated in the Conversion and Privatisation process ceased to have effect. The new Act provides for the right of tourism companies to submit an application for leasing construction tourism land for a period of 50 years. In March 2021 the Company submitted the appropriate application for leasing construction land in the campsite for a period of 50 years to the competent authority of the Republic of Croatia, that is, to the Ministry of Physical Planning, Construction and State Assets. Under the provisions of the Act on Non-Evaluated Construction land, a company shall become the owner of buildings, land under buildings and land in the campsite that were evaluated and entered into the value of social capital in the conversion and privatisation process, while the Republic of Croatia shall become the owner of buildings and land in the campsite that were not evaluated and entered into the value of social capital in the conversion and privatisation process (so called Parts of the campsite owned by the Republic of Croatia). In the meantime, on 1 April 2022 the Company, in accordance with Article 18 of the Act on Non-Evaluated Construction Land, obtained from the Centre for Restructuring and Sales the Certificate of Conformity of the Geodetic Survey Report, which confirms the conformity of the Park Soline Campsite Geodetic Survey Report with the decision of the Croatian Privatisation Fund of 12 July 1996, by which the real property concerned was evaluated in the process of conversion of the socially-owned enterprise "Ilirija" Biograd na Moru.

Also, the Company published on its website and on the website of the Zagreb Stock Exchange the "Study on the integrity and sustainability of the economic as well as functional and technological entity of "Park Soline"campsite in the town Biograd na Moru within the business system of ILIRIJA d.d.", which addresses all relevant issues concerning the "Park Soline" campsite in the context of the application submitted by Ilirija d.d., in accordance with the Act on Non-Evaluated Construction Land, for exercising the right to a longterm lease of the "Park Soline" campsite for a period of 50 years. The purpose of the aforementioned Study is to enable all stakeholders, entities and public bodies that are directly or indirectly involved, within their respective spheres of competence, in resolving the issue of campsite land that was not evaluated in the process of conversion and privatisation of socially-owned enterprises, an integral and comprehensive overview of all aspects of the existing "Park Soline" campsite in Biograd, from complex relations regarding property rights, issues of spatial planning and the need to respect the campsite as an integrated business and functional unit of tourist land and buildings. The Company maintains that, in accordance with the

Act on Non-Evaluated Construction Land, it meets the requirements stipulated by the Act for exercising the right to lease construction land in the Campsite for a period of 50 years.

#### Maritime domain

The Company is a concessionaire of the Kornati nautical tourism port in Biograd na Moru (hereinafter: Marina Kornati) for a period of 32 years, counting from 13 January 1999, and in accordance with Article 22 of the Act on Maritime Domain and Seaports (Official Gazette Nos 153/2003, 100/04, 141/06, 38/09, 123/11 and 56/16, hereinafter referred to as: ZPDML 2003) on 17 October 2017 the Company submitted to the Government of the Republic of Croatia, through the competent Ministry of the Sea, Transport and Infrastructure of the Republic of Croatia, a request for modification and amendment of the Decision on Concession and the Concession Agreement, that is, for extending the term of the concession by a period of 50 years, i.e. until the year 2049 (extension of the concession term if new investments are economically feasible for it), primarily considering the same or similar cases from the recent Croatian practice where, upon an application for the extension of the concession term submitted by other companies engaging in nautical tourism and competing with Ilirija d.d., the concession term for marinas was extended to them by a period of 50 years.

As no meritorious decision was made on the said request, on 11 July 2018, Ilirija d.d. delivered to the Ministry of Maritime Affairs, Transport and Infrastructure a letter informing them of having procured an amendment to the construction permit for the reconstruction of the marina, as part of the new investment included in the application for an extension of the concession licence validity. Moreover, on 6 October 2021, the Company delivered a letter to the Ministry of Maritime Affairs, Transport and Infrastructure and the Ministry of Finance of the Republic of Croatia, so as to initiate the adoption of the decision regarding an extension of the concession licence validity.

In the meantime, on 02 November 2021, the Company received a statement from the Ministry of Finance of the Republic of Croatia, as a body which, along with the competent Ministry of the Sea, Transport and Infrastructure of the Republic of Croatia, is involved in the procedures for extending the terms of concessions, in which they essentially point out that in order to conduct the procedure for extending the concession agreement, the competent Ministry of the Sea, Transport and Infrastructure, while looking at the problems of the nautical tourism system, needs to establish whether the decision on the concession or the agreement related to it may be changed without conducting a new procedure for granting the concession, in order not to violate the principle of market competition with other concessionaires in the Republic of Croatia.

Considering the statement of the competent authorities and the expressed views, in order to successfully complete the procedure for extending the concession licence for Marina Kornati, Ilirija d.d. sent a supplement of the existing request for extension of the concession licence validity for Marina Kornati to the Ministry of the Sea, Transport and Infrastructure on 28 December 2023, in which it essentially offered: a new increased amount of investment in the maritime domain, new increased investments in the green transition, including the decarbonization and digital transformation in accordance with Regulation (EU) 2020/852 of the European Parliament and Council of 18 June 2020, on establishing a framework for facilitating sustainable investments and amending Regulation (EU) 2019/2088 EU OJ, L 198/13, suggested new amounts of concession fees with reference to the previously revalued investments in Marina Kornati with the end of 2023, in order to express the real, absolute value of investments so far, and also explained the legal matters that are important for making a positive decision, all in accordance with transitional and final provisions of the new Maritime Domain and Seaports Act (Official Gazette No.: 83/2023, hereinafter: ZPDML23), which entered into force on 29 July 2023, so that the procedures for granting and modifying concessions that were started according to the provisions of ZPDMLO3 have to be completed in accordance with the provisions of that Act. No decision has been rendered yet on the alleged supplemented request for an extension of the concession licence validity for Marina Kornati.

As regards the Ilirija-Kornati Hotel Port in Biograd na Moru, the Company delivered to the Republic of Croatia (Zadar County) on 19 January 2011 a request with detailed explanations for an extension of the concession licence validity for a period of 20 years, but the competent authority of the regional self-government unit has not reached a decision on this Request by Ilirija d.d. Furthermore, and with regard to the above, in February 2015, the Company once again, pursuant to Article 22 of the Maritime Domain and Seaports Act (new investment), submitted a request to the Zadar County regarding an extension of the concession licence validity for the Ilirija-Kornati Hotel Port, for a period of 30 years in total, but a decision has not been made regarding this request by Ilirija d.d.

As regards a beach facility with an outdoor swimming pool in Biograd na Moru, the Company submitted to the concession licence grantor, Zadar County, a request for an extension of the concession licence validity for a total of 30 years (until 2028) with all the necessary documentation, back on 20 October 2008 (before the expiry of the concession licence validity). The competent authority still has not decided on this request. The company has been paying the concession fee in the agreed amount for all of the aforementioned facilities this whole time.

On 24 June 2022, the Company published on its website and on the website of the Zagreb Stock Exchange the research paper of Assoc. Prof. Iva Tuhtan Grgić, PhD, from the Faculty of Law in Rijeka "Acquired

rights and legitimate expectations of former holders of the right to use the maritime domain with unlimited duration and duration limited "as long as the business activity is performed", which precisely on the example of Ilirija d.d. addressed the issues of legal capital investments on the maritime domain, conversion of socially-owned enterprises that had part of their assets on the maritime domain, issues of acquired rights and legitimate expectations of former holders of the right of use of the maritime domain, and conversion of the right of use into a time-limited concession. In particular, as it is stated in the aforementioned research paper, the companies that had the permanent right of use of the maritime domain, acquired on the basis of final administrative decisions of municipal assemblies, had indisputably acquired rights and legitimate expectations that they would be able to use these rights in the future under the same conditions under which they were acquired. However, by decisions adopted on the basis of the legislation in force at the time, the aforementioned right of permanent use of the maritime domain was subsequently converted into the right of economic exploitation of the maritime domain based on a time-limited concession. This violated the interests of companies, shareholders and acquirers of shares in these companies, by grossly encroaching on the acquired rights and legitimate expectations that they will be able to use the acquired rights within the same scope as when they acquired them, and those same rights are protected by the provisions of the Constitution of the Republic of Croatia (Articles 48.(1) and 49.(2) and (4) and Article 1 of Protocol No. 1 to the Convention for the Protection of Human Rights and Fundamental Freedoms.

On 14 July 2023, the Croatian Parliament adopted a new Maritime Domain and Seaport Act, which entered into force on 29 July 2023. It is evident that the new Act has a series of new provisions, and a certain amount of time will need to pass before we are able to fully assess its effect on complex matters in the area of legal investments in the maritime domain before and after the conversion, evaluation and entering in the share capital of former social enterprises, as well as on acquired legal and legitimate expectations of companies who perform legal activities in maritime domains.

### 3 Tourism activity risks

In addition to the listed and described potential and possible risks in the Company's business operations, we believe that it is of the utmost importance to give a systematic overview of other key obstacles or restrictions with regard to the development of Croatian tourism in general, and thus of tourism companies, Ilirija d.d. being one of them.

With regard to the forgoing, we present an overview of the key obstacles, that is, of the risks and restrictions with regard to development of and investments in Croatian tourism:

- (I) the unresolved issue of ownership since the moment of conversion, that is, property rights issues, issues regarding physical planning / urban development, and issues pertaining to the economic use and utilisation of the construction tourism land in campsites and around hotels.
- (II) inadequately resolved or unresolved issue of conversion on the maritime domain, i.e. issues regarding acquired rights, legitimate investments and legitimate expectations in the maritime domain, having in mind, in particular, the contracted permanent right of use of the maritime domain, while companies which took part in the conversion process, as is the case with our Company, carry out economic activity on the maritime domain, contrary to the provisions of Article 49 and Article 50 of the Constitution,
- (III) VAT rate on services in tourism and hotel industry is much higher than in competitive countries, which consequently makes Croatian tourism less competitive, hinders and slows down further investments both in the construction of new accommodation facilities and in improvement of the existing services and standards, affects new employment and salaries in tourism and hospitality,
- (IV) insurmountable obstacles regarding existing bureaucracy, administrative barriers, frequent changes of regulations,
- (V) complex and time-consuming procedure of issu-

ing spatial plans and issuing building and operating permits,

- (VI) inadequate management of the area by regional or local self-government,
- (VII) cancellation of previously acquired rights in urban and spatial plans through conversion of use primarily of construction and tourism land for other non-commercial and non-economic purposes,
- (VIII) fiscal and parafiscal charges unsuitable to seasonal business activities with frequent changes in fiscal regulations.
- (IX) skilled labour shortages were significantly pronounced in 2024 in the Republic of Croatia, namely at the level of most economic activities, and with a special emphasis on hospitality and tourism taking into account the seasonal nature of Croatian tourism, as well as the fact that it is an extremely labour-intensive industry; therefore, skilled labour shortages (with a special emphasis on occupations in high demand) could affect the success of the peak season, and thus ultimately of the entire business year.

Bearing in mind all of the above, the Company has recognized risks pertaining to the said skilled labour shortages, and it undertakes a series of activities to retain working-age, highly qualified and professional employees at all levels for business operations, namely with the aim of retaining full employment,

raising the level and quality of services, and achieving smooth operation of business processes through activities aimed at improving the financial standing of employees, investing in their education, and further developing human resources by hiring young, highly educated persons from different professions.

#### 4 Global risks and the macroeconomic environment

Considering the global nature of the hospitality and tourism industry, different events and activities at the global level can significantly affect the operations of tourism companies. As such, the said industry is influenced by geopolitical risks with strong implications for security and stability at the global level, the security, political and economic instability of the region, i.e. of the countries in the immediate vicinity of the Republic of Croatia, the global economic crisis, global health threats such as pandemics and epidemics, as well as the climate impact risk.

In today's globalised world, the said risks affect the free movement of people, goods and capital, i.e. national economies and operations of economic entities.

In addition to the aforementioned risks referred to in points 1 – 3, the most significant global risks for the Company's operations are: the health risk, the geopolitical risk, the climate impact and the macroeconomic environment.

#### Health risk

Since 2020, the world faced an unpredictable, serious and extremely dynamic risk related to the epidemiological situation, i.e. the global COVID-19 pandemic, which has had an extremely negative impact on business entities in almost all industries, albeit the most severely affected ones are certainly the travel industry, tourism and hospitality, all of which form an integral part of the Company's core business. The COVID-19 risk is also the biggest and most serious risk that the Company has faced so far, to which the Company responded with a number of measures and activities by reorganising its business processes and operations in order to safeguard the health and well-being of guests and employees, maintain financial stability and current liquidity for the duration of the COVID-19 pandemic, preserve assets and capital as well as business operations and activities, and retain full employment. The Company has successfully achieved all of its goals. The Company continues to implement different preventive activities within its business processes and operations in order to reduce and always be able to control health risks, just like it did during the COVID-19 pandemic. However, the Company is also aware of the related limitations and the unpredictability of easily transmissible infectious diseases and the threatening consequences of their spread.

### Geopolitical risk

Due to the war in Ukraine, geopolitical risk with strong implications for European and global security and the macroeconomic environment has been present since February 2022. Therefore, the Company also reports on such risks and their consequences on its operations. The Company does not have any kind of an ownership relationship with entities from Russia and Ukraine. Moreover, it does not have any assets in Russia and/or Ukraine, and it has not made any investments in entities from Russia and Ukraine or entities materially related to entities from Russia and Ukraine. Thus, the Company is neither exposed nor are there any potential consequences in this respect. Moreover, the Company has no exposure to entities from Russia or Ukraine since it does not do business with legal entities from Russia or Ukraine. The Company does business as a company specialised for hospitality and tourism has a business relationship with natural persons from Russia and Ukraine using the Company's services such as accommodation in its facilities (hotel, camping and nautical sectors). The share of guests from Russia and Ukraine in the Company's total turnover is insignificant, and losing it does not represent a risk to the Company. Should the crisis, that is, the war, spread from Ukraine to other European countries or lead to destabilisation of the countries in the Balkans, this would surely have a negative effect on Croatian tourism as a whole, and thus also on the Company. Croatian tourism generates most of its turnover from the European outbound

market, the share of which additionally increased in the last two years due to the global COVID-19 pandemic and a lack of tourism turnover from remote markets (America, Asia). This turnover could be significantly reduced in case the Russian-Ukrainian crisis, that is, the war, spreads across Ukrainian borders and causes major instability in the wider European region. The Company will counteract any potential negative effects of the Russian-Ukrainian crisis by adjusting its business processes and activities to the new circumstances, with the aim of strengthening the resilience of its business system.

### Climate impact risk

The Company bases its business policy on management in line with the principles of sustainable and responsible development, with particular focus on environmental protection, as the environment is the fundamental resource of the tourism industry. Environmental protection represents a significant segment of the Company's integrated management systems and is a part of its strategic decisions and business processes.

The consequences of climate change are becoming increasingly influential when it comes to almost all activities. In the tourism sector and within the Company, they have been recognized as climate impact risks requiring an interdisciplinary approach and management. The Company continuously monitors its impact on the climate, i.e. its greenhouse gas

emissions and other environmental impacts, namely in accordance with all applicable legal regulations and prescribed limit values.

The Company has previously recognized its impact on the environment and decided on a systematic approach with a series of activities it carries out. They mainly pertain to the preservation of natural resources (water, air, soil, and coast), biodiversity, energy management, and waste management, which ultimately confirms the Company's focus on sustainable development and growth. The identified risks included the dangers brought on by climate change both at the global level and at the level of the Company's operations. We also noticed that extreme weather conditions can affect tourist demand and cause direct material damage to the Company's assets.

Climate change, which has a significant impact on the tourism industry globally, also poses a potential risk to the Company in terms of significantly increasing the incidence of extreme weather conditions (storms, hurricanes, etc.), as well as strengthening their intensity and unpredictability, and can cause extraordinary and unpredictable damage and threats for its business. Temperature variability, i.e. dangerous heat waves, reduce the attractiveness of our offer in holiday capacities. This directly affects arrivals and quality of stay. Rising sea levels put the infrastructure in the immediate vicinity of the coast at risk. The same also applies to the marina, arranged

beaches, and beach facilities. Unpredictable windstorms or hurricane-force winds can cause direct damage to almost all our capacities. The Company pays maximum attention to overcoming such sudden and extreme climate and weather conditions by ensuring preventive, technical and spatial, as well as functional and organisational elimination of sudden and accidental risks of any nature to the highest degree possible. Other business risks, such as largescale fires, , accidental pollution of the coastal and marine aquarium, which are all beyond the Company's control but may potentially jeopardise the Company's business safety, are the circumstances which the Company attends to insofar as it can actively contribute to lowering their impact on the Company's long-term business viability as much as possible, being aware of the fact that the Company's impact here is reduced to measures which cannot be of key importance for the elimination of all the risks posed to the Company.

#### Macroeconomic environment

The unfavourable macroeconomic environment, i.e. significant economic uncertainties resulting partially from the global pandemic that affected supply chains, and partially from the Russian-Ukrainian war, led to disruptions in the supply of basic energy products in the euro area and resulted in a significant increase in the prices of all energy products (oil, gas, electricity), and ultimately strong inflationary pressures. An uncertain macroeconomic environment can affect

the Company's business activities by reducing the demand for its services as it significantly contributes to the deterioration of the business climate in the key outbound markets for Croatian tourism. This could also result in a slowdown in economic activities and a decrease in purchasing power and standards, as well as, ultimately, in a decrease in travel demand, which would definitely affect the achievements of Croatian tourism companies, including our Company. The company is aware of the challenges and risks arising from the unfavourable macroeconomic environment. and it undertakes a number of activities aimed at preserving its core business objectives (economic viability and security, financial stability, preservation of the Company's fixed assets and capital, and preservation of the Company's business operations and activities), as it did in previous years, namely based on: (I) commercial resilience - based on the Company's ability to quickly and efficiently adapt to the current market circumstances of doing business by adjusting its marketing and sales activities in all Company sectors, (II) operational resilience - based on the ability to adjust operational business processes to the current circumstances whilst maintaining maximum service and amenity quality and minimising possible negative effects, and (III) financial resilience - based on the Company's ability to maintain financial stability of the business system by maintaining liquidity, assets and business activity through the realisation of revenue ensuring the Company's business stability until key global and macroeconomic uncertainty factors end.

# 3 BUSINESS CAPACITIES OF THE COMPANY AND ADDITIONAL FACILITIES

The portfolio of ILIRIJA d.d. consists of four hotels and a villa, Marina Kornati with the Ilirija-Kornati Hotel Port, the "Park Soline" Camp, destination management company Ilirija Travel with its own capacities (Arsenal in Zadar, the "Nada" event boat, agritourism and Villa Primorje), City Galleria Business and Shopping Centre, Tennis Centre, Aquatic Centre and hospitality facilities.

The **Villa Donat Hotel** is located in the town of Sv. Filip i Jakov, and it consists of a villa with 16 superbly and modernly furnished rooms. It is a four-star hotel, and it has a three-star annexe. Its total capacity includes 72 rooms and 144 beds, a restaurant with 120 seats, a terrace for 50 and an aperitif bar for 20 persons, as well as an outdoor pool. The hotel is located near the main beach and the town centre, and it is reminiscent of the rich history of the area.

#### 3.2 NAUTICAL SECTOR

The Company began developing its nautical sector in 1976 when it concluded a contract on the purchase of 40 ELAN vessels from Slovenia, that is, in 1977 with the construction of the first nautical marina in Croatia (Kornati Hotel Port) with 100 berths and the organisation of the first private charter fleet on the Adriatic with more than 40 vessels for the needs of boaters. Therefore, ILIRIJA d.d. is rightly considered to be a pioneer of nautical tourism on the Adriatic. The Company's current nautical sector consists of Marina Kornati and the Kornati Hotel Port, with a total of 805 berths at sea and on land, which can accommodate up to 2000 boaters in one day, and its number of berths, modern technical equipment, quality of service and cleanliness (blue Flag) make Marina Kornati one of the three leading Croatian marinas, visited by over 60,000 boaters a year.

In 2020 the Ministry of Tourism and Sport carried out the procedure of recategorisation of the Marina Kornati Nautical Tourism Port in which it established that Marina Kornati meets the requirements prescribed for the four-anchor category. Subsequently, the Marina Kornati Nautical Tourism Port received the four-anchor (star) category rating.

Marina Kornati has received numerous awards, notably the Special Award as part of "XVI Tourism Flower – Quality for Croatia 2012", organised by the Croatian Chamber of Commerce and Croatian Radiotelevision, for the best marina in the category of marinas with over 450 berths. In 2013, in "XVII Tourism Flower – Quality for Croatia 2013", it received

an award in the category of the largest marinas, while in 2014 and 2015, as part of the same project, it ranked second in the "Best Large Marina" category. In 2017, in "XXI Tourism Flower – Quality for Croatia" it ranked third in the category "Large Marina". In 2018, Marina Kornati was granted two acknowledgements: (I) a special acknowledgement from the Jutarnji list Nautical Patrol for the greatest progress achieved in the tourism season 2018 and for outstanding contribution to the development of Croatian nautical tourism and (II) in the "XXII Tourism Flower – Quality for Croatia" it ranked third in the category "Large Marina".

In 2019, it was awarded recognition as part of the "XXIII Tourism Flower – Quality for Croatia" competition, IZ by the Croatian Chamber of Commerce and Croatian Radiotelevision, it ranked 2rd in the category of large marinas. The Jutarnji list Nautical Patrol awarded Marina Kornati a special recognition for its outstanding contribution to the organorganisedation and success of the nautical patrol, while in 2021 it recognised the marina for its outstanding contribution to the development of nautical tourism during the COVID-19 pandemic. In 2023, the Company won the Zadar County Tourist Board annual award "For its contribution to nautical tourism and for having been organising the Biograd Boat Show for 25 years".

Ilirija d.d. is also the organiser of the leading nautical fair in Croatia, "BIOGRAD BOAT SHOW", which has been continuously held in Marina Kornati for 25 years in a row.

#### 3.3 CAMPING SECTOR

The four-star "Park Soline" campsite is located in Biograd na Moru within the borders of the populated area, but as a separate physical planning-urban and economic entity in the south-east part of the town of Biograd na Moru, right by the main beach in the coastal length of approx. 1.5 km, with a 450-meter beach positioned right in front of the campsite.

The campsite covers an area of 20.00 ha and includes 1,130 accommodation units with a total capacity for up to 3,390 persons. It is situated in an outstanding natural environment of a predominantly high pine forest which provides shade to 90 % of the campsite. By adhering to the principles of sustainability and environmental protection and considering the natural features of the area by using indigenous plant species, the horticultural landscaping of the campsite has been completed to the level of an arboretum, which is a remarkable and rare example in Croatia of creating added value for a tourism camping product.

With its enriched offer of restaurants, a newly built promenade along the entire campsite and a beach leading to the centre of Biograd, the "Park Soline" camp is the right choice for a family holiday. In addition to entertainment activities for children and evening entertainment, as well as an attractive sports offer guaranteeing active holidays, you can relax on long promenades and recreational trails in a healthy environment, which makes the camp a great choice for all nature lovers.

The "Park Soline" campsite is the largest and the only high-quality four-star campsite in Biograd na Moru, which accounts for 77 % of the total campsite accommodation capacities and sets the highest standards of equipment and landscaping in the destination. Since this campsite is the most valuable part of the camping offer in Biograd na Moru, it directly influences the image of this destination and its positioning on the domestic and foreign tourism market.

The value of investments made in the "Park Soline" campsite from 2000 until the end of business year 2023 amounted to approximately EUR 31.7 million and owing to these investments the number of overnight stays increased from 4,556 in 1996 to 329,010 in 2023. The value of own works for the said period accounts for over 30% of the investments, meaning that the total value of investments in the "Park Soline" campsite for the said period amounted to approximately EUR 41.21 million.

#### 3.4 ILIRIJA TRAVEL

#### Ilirija Travel - destination management compa-

ny: by developing new services and amenities, a high-quality, integrated and complementary tourism product has bee created in response to the contemporary tourist demand, and driven by technological, social and market factors and trends of an increasingly demanding market. Among the most important cornerstones when it comes to the offer and implementation of these special programmes and products are business operations conducted in our own additional facilities such as the following:

Event ship "Nada" a 36-metre multifunctional yacht with a capacity for 180 persons, with a restaurant, kitchen and bar provides guests with excellent services pertaining to food and beverages during navigation. Congresses, seminars, special events, unique business meetings, gala receptions and banquets, unique weddings, exclusive day and night cruises and incentive events are only some of the exciting amenities that the "Nada" event boat offers, while adapting to the individual requirements of clients.

Arsenal is a zero-category monument and multimedia centre located in Zadar, built in the 17th century and revitalized in 2005 as an indoor city

square, or as the centre of public, cultural and entertainment life of the region, where over 100 public and private events are organized every year.

Diffuse Hotel Ražnjevića dvori AD 1307 a diffuse multipurpose functional facility located in Polača, in the municipality bearing the same name, in the heart of Ravni kotari and halfway between Biograd na Moru and Benkovac, is the first facility of its category in the Republic of Croatia. This set-up, based on the traditional farm facility, is a great example of an innovative tourism product conceived as a combination of the traditional and the contemporary.

Villa Primorje, built in the second half of the 19th century, is a typical traditional Dalmatian stone manor house with an outbuilding. Newly renovated, luxuriously decorated and equipped according to the latest standards for facilities of this type and category, it has its own restaurant offering the opportunity to organize a number of events, a Mediterranean garden with a promenade, while since the 2017 tourist season the offer also includes an outdoor swimming pool. Offers of trips, special offers according to the requirements of clients, sports programs, MICE etc.

#### 3.5 HOSPITALITY

The Marina Kornati restaurant located in the Marina Kornati, with a capacity for over 350 persons, which along with the Captain's Club having a capacity for 70 persons can receive up to 420 persons, meets the needs of boaters when it comes to hosting various and numerous events in the Marina Kornati. In addition to restaurant services, the Captain's Club also provides services for numerous presentations of nautical products and serves as an ideal place for organorganisedation of smaller conferences and events.

The restaurant Park Soline is located in the Park Soline camp\*\*\*\*, right by the sea, about a ten minute walk away from the centre of the town of Biograd na Moru, and its food offer is based on Mediterranean cuisine. This restaurant, with a capacity for 280 persons, offers the possibility of organorganiseding various events – family festivities, banquets and soirées, as well as meetings. Within the restaurant, there is also a Dalmatian tavern with a fireplace, a coffee shop and a wine bar arranged as a wine cellar, which provides you with the opportunity to buy and taste the highest quality red and white wine made from indigenous Croatian grape varieties.

The Donat beach bar is located in the build-ing-magazine within the protected cultural and historical unit of the town of Sv. Filip i Jakov, which is also entered in the Register of Cultural Goods of the Republic of Croatia. Today, it is categororganiseded as a beach bar / cocktail bar with a capacity for 140 persons.

The Lavender lounge bar located within the Adriatic Hotel located right by the beach, known for its Mediterranean design, fully adapted for relaxation, with a beautiful view of the Pašman Canal, is a place offering the possibility of organizing numerous events of different nature (MICE, weddings, banquets, cocktail bed bar, nightclub, etc.).

#### 3.6 ADDITIONAL AMENITIES

Manifestations: Biograd Boat Show is the largest international autumn nautical fair in the Republic of Croatia and the largest nautical fair held on water in South East Europe, bringing together all key representatives of the nautical industry and tourism. The nautical fair was first organorganiseded in 1999 as spring Open Days, mainly intended for companies that operate in the marina, as the first such event in Northern Dalmatia.

Given its status as the cradle of nautical tourism, the aim was to organorganisede a first-rate nautical event in Biograd na Moru at which all sectors of nautical and charter activities would be presented, whereby the Open Days grew into Biograd Boat Show. Since 2004, the event has been organorganiseded as an autumn nautical fair, which contributed to the improvement of the nautical offer and the extension of the tourist season. The Biograd Boat Show was admitted to the International Federation of Boat Show Organizers (IFBSO) at the 50th session of the Federation held in Istanbul, Turkiye, in June 2014, and in 2015 it became its gold member.

The fairs of former members of the Federation were mainly organized in major world centers, and the fact that the Biograd Boat Show is organized in a town of only 5,000 residents makes this success even greater and represents a great acknowledge-

ment not only to the Company as the organizer, but also to Croatian nautical industry and tourism. To-day the leading international autumn nautical fair has established itself as the biggest Croatian nautical event and in the last three years it has grown into a nautical industry (activity) congress in the Republic of Croatia. From its early beginnings the event has brought together all representatives of the nautical industry and tourism, government institutions, major organorganisedations in tourism and nautics as well as professional associations.

Thanks to the partnership with all relevant entities, the Biograd Boat Show has united "4 fairs in one", namely the Biograd Boat Show (an exhibition fair), Days of Croatian Nautics (a congress fair), Croatia Charter Expo (a leading charter fair), and Biograd B2B (a business fair), thus profiling itself as a national congress of the Croatian nautical industry and tourism.

In 2023, the fair, which marked its twenty-fifth anniversary, was attended by over 400 registered exhibitors, with 400 vessels at sea and on land and over 40 premier vessels, while over 150 registered charter companies, agencies and brokers actively participated in the charter fair, with over 500 accredited participants.

#### **Sports facilities:**

"Tenis centar Ilirija", located in the pine forest Soline near the old town centre, the Ilirija Tennis Centre covers a surface area of 48,000 m² and consists of 20 tennis courts and multi-purpose courts (14 ground and 6 artificial grass courts) with night lighting, a restaurant facility, locker rooms and associated facilities.

### 3.7 CITY GALLERIA BUSINESS AND SHOPPING CENTER

City Galleria Business and Shopping Centre is located in a heavily residential area in the immediate centre of Zadar. It is one of the two largest shopping centres in town and the wider Zadar region, completed and opened to the public in October 2008, with a total gross surface area of more than 28,500 m² spread over a total of six floors (two garage and four retail floors). The gross surface area of the centre consists of the associated underground garage with a total surface area of 10,863 m², 9.445,32 m² of net rentable area, as well as ancillary rooms and corridors. As at 31 March 2024, the occupancy of the centre amounted to 99.07% of total capacities.

The centre features the following facilities: an underground car garage with more than 400 parking spaces on two floors, an outdoor and indoor market, a supermarket, specialised shops, clothing and electronics stores, service amenities, restaurant facilities, office spaces and 6 multiplex cinema halls.

Unique features of the City Galleria Business and Shopping Centre were recognised on the international level during the 2010 International Property Award, the world's most prestigious competition in the real estate business, on which occasion the City Galleria Business and Shopping Centre Zadar received the prestigious five-star award in the Best Retail Development category. The unique features of the City Galleria Business and Shopping Centre, which distinguish it from the rest of the market offer can be summarised in a few examples, such as: a very attractive location within the city's pedestrian zone that provides great visibility of the building, situation of the main marketplace with accompanying facilities in the Centre and the first and only multiplex cinema in the city of Zadar.

# 4 KEY PHYSICAL PERFORMANCE INDICATORS OF THE COMPANY

In the first quarter of the year, significant business activities of the Company were realised in the nautical and real estate sectors, which are characterised by year-round operations. In the other sectors of the Company (hotel sector, camping sector and destination management), the usual lower level of business activity is recorded due to the pronounced seasonality of Croatian tourism.

In the nautical sector, i.e. Marina Kornati, in the first quarter of the business year, the growth of the financial results of business operations, i.e. operating revenue, was continued, which resulted in the highest revenue of the marina in the first quarter of the business year. Marina Kornati generated revenue of EUR 2,117,535.00, representing an increase of 6% compared to the same period of the previous year when it amounted to EUR 2,004,769.00. The largest increase in revenue, in absolute and relative amounts, was generated by the increase in other services, which increased from EUR 1,737.00 in the same period of the previous year to EUR 126,657.00. At the same time, revenue also increased in other business items, i.e. port service, daily berths and vehicle parking, resulting in an overall revenue growth at the marina level despite a lower realisation in the key physical indicators of the business, i.e. vessels at contracted berth. In the reporting period, 296 vessels were on a contracted berth compared to 317 vessels in the same period

of the previous year, which resulted in slightly lower revenue in the contracted berth item. Furthermore, in the transit berth segment, despite the lower number of vessels in transit, 468 overnight stays were realised, representing an increase of 19% compared to 392 overnight stays from the first quarter of the previous year, while port service activities with 722 operations performed remained at the level of the same period of the previous year.

In the first quarter of the business year, the real estate sector, i.e. the City Galleria Business and Shopping Centre, realised growth in the key market indicators of performance, which resulted in an increase in revenue. The real estate sector realised revenue in the amount of EUR 500,709.28, representing an increase of 5% compared to the same period of the previous year, when revenue was realised in the amount of EUR 476,814.75, most of which was generated by the increase in the revenue generated by lease of business premises, revenue from common costs and revenue from leasing parking spaces in the garage.

### 4.1 NAUTICS – MARINA KORNATI

The nautical sector, i.e. Marina Kornati, despite the usual low level of business activity characteristic of the first quarter of the business year, where, with lower realisation in some of the key physical indicators of business, continued its continuous growth of financial operating results, i.e. revenue.

The physical indicators of Marina Kornati's business are arranged by items containing the names of service groups to which they refer, namely:

#### 1 Contracted berth:

- Contracted berth individual
- Contracted berth charter
- 2 Transit berth vessel arrival
- 3 Transit berth vessel overnight stays
- 4 Port service crane operations

In the reporting period, 296 berth use agreements were concluded, of which 270 for individual vessels and 26 for charter vessels. In total, in the first three months of 2024, 7% less berth contracts were concluded compared to the first quarter of the previous year, when there were 317 vessels with contracted berths. The decrease in the number of contracts concluded for vessels on contracted berths in this part of the year did not have a significant impact on the achieved financial result, given that the contracted vessels are of longer length, and considering that a part of the contracts will be realised in the rest of the year, which will bring the number of contracts to approximately the same number as the previous year.

In the part of realised physical turnover of transit vessels, i.e. the entry of vessels in transit, it was lower compared to the first quarter of the previous year. At the same time, the overnight stays of transit vessels increased by 19%, which had a positive effect on the increase of revenue from transit berths. In the port service segment, 722 operations were realised, thereby remaining at the same level as the realisation in the same period of 2023, when the port service realised 719 operations.

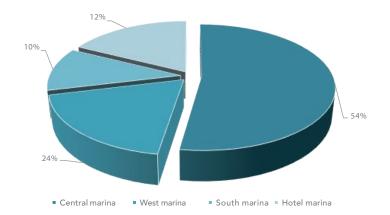

As at the end of the first quarter of 2024, Marina Kornati generated revenue in the amount of EUR 2,117,535.00, representing an increase of 6% compared to the first quarter of the previous year, when EUR 2,004,769.00 of revenue was generated. The most significant part of the revenue of Marina Kornati is the revenue stemming from the contracted berths realised in the amount of EUR 1,843,526.00 and representing 87% of its total revenue. Moreover, revenue from daily, i.e. transit berths in relation to the same period recorded an increase of 48% compared to the same period of the previous year, while revenue from port service increased by 17% in the first three months.

The first quarter of the financial year 2024 was carried out as expected, and given the usual increase in business activities in the upcoming period as well as continued announcements for bookings regarding contractual berths, the Company expects further growth of physical and, consequently, financial operating results.

### 4.2 CITY GALLERIA BUSINESS AND SHOPPING CENTER

City Galleria Business and Shopping Centre is located in a heavily residential area in the immediate centre of Zadar, just a ten-minute walk from the old town. Due to the good location of the building and the fact it is surrounded by some of the main city roads, the City Galleria Business and Shopping Centre is exceptionally easy to spot and access by a large number of local residents and foreign visitors.

The business results achieved in the first quarter of 2024 show a visible growth of key market indicators in that period. Operating revenue of the Centre, generated in the first quarter of 2024 through lease of commercial premises, common costs, use of common areas of the centre, lease of advertising space, garage revenue and lease of commercial premises in Phase 1 of the Centre, amounts to EUR 498,945.46. Other operating revenue relating to insurance claims amounted to EUR 1,763.82 in the relevant period, which brings the total generated revenue in the first quarter of 2024 to EUR 500,709.28. Total revenue generated in the same period of the previous year amounted to EUR 476,814.75, representing an increase of 5.01% in the current year.

In the category of revenue from the lease of commercial premises in the observed period of 2024, in comparison to the same period of 2023, an increase of 3.86% was recorded, while revenue from common

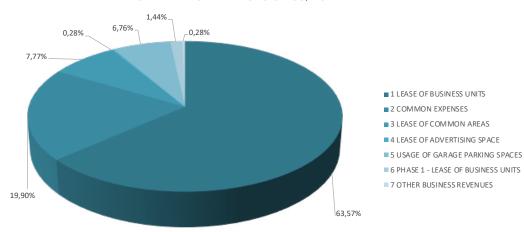

costs recorded an increase of 8.74%. The category of revenue from the use of common areas of the Centre decreased by 19.45% compared to the results achieved in the same period of 2023. Revenue from the rental of advertising space remained at the same level compared to the same period of the previous year, while the category of parking revenues recorded a significant increase of 27.18% in the current year. Operating revenue from the lease of business premises in the neighbouring Phase 1 of the Centre in the first quarter of 2024 recorded an increase of 17.04% compared to the first quarter of 2023.

In the first quarter of 2024, the number of vehicles using the public underground garage of the Centre amounted to 181,667 vehicles, while in the same period of 2023 the number amounted to 158,331 vehicles. The said result constitutes a 14.74% increase in the reporting period. In addition to the increase in revenue and the number of visitors of the garage in the reporting period of 2024 relative to the previous business year, there was also an increase in the time spent by the users in the garage of the City Galleria Centre.

#### **OPERATING AND OTHER COSTS**

Operating expenses for the first quarter of 2024 amounted to EUR 4,007,165.73 and are higher by 9% compared to the same period of the previous business year, when they amounted to EUR 3,680,561.33, due to an increase in operating expenses caused by an increase in the gross salary cost and outsourcing costs.

#### FINANCIAL EXPENSES

Financial expenses in the period observed amount to EUR 120,709.19, and they have increased by 1.25% compared to the first quarter of 2023, when they amounted to EUR 119,219.88.

#### LIQUIDITY

In the reporting period, the Company fully and properly maintained current liquidity and settled its liabilities towards the suppliers, the bank, the state, the employees, etc. in a timely manner and within the deadlines. The Company secured a sufficient amount of liquid assets to settle its liabilities, having in mind the complex business circumstances due to a disrupted macroeconomic environment and strong inflation pressures.

In July 2023, the Company concluded a Short-Term Limit Agreement with the commercial bank Erste&Steiermarkische Bank d.d. for the amount of EUR 2,000,000.00, which will secure a short-term credit limit for the duration of 2023 and the first half of 2024 for the purpose of maintaining current liquidity.

### COLLECTION OF FUTURE REVENUE

With regard to the active collection of trade receivables, the Company will seek to collect them in the most appropriate manner and within the most appropriate deadlines, taking into account the aggravated circumstances of collection and implementation of the measures of payment in instalments where possible, and also undertaking compulsory collection measures if needed.

# 6 ADDITIONAL INFORMATION ON THE STATUS AND BUSINESS OPERATIONS OF THE COMPANY

- EUR 1,685,911.50 for dividend distribution.

The dividend per share amounts to EUR 0.70.

# **6.3 LEGAL MATTERS**

- The Ilirija Tennis Centre real property in Biograd na Moru, under the cadastral plot no. 3232, in the Cadastral Municipality of Biograd na Moru, surface area of 48705 m<sup>2</sup> was allocated in 1988 by the Municipal Assembly of Biograd na Moru to the predecessor of the Company for the purpose of building a complex of tennis courts. By 1990, Ilirija had built 20 tennis courts with changing rooms and a restaurant facility, auxiliary roads, parking spaces and complete infrastructure on the property, and the land was subsequently evaluated and entered in the share capital of the Company within the national conversion process. Pursuant to the lawful conversion of the Company and the Act on Ownership and Other Real Rights, the Company had been registered as the sole owner and legal holder of said property until 2006, when, in the process of transforming the land registry for the Cadastral Municipality of Biograd na Moru in 2006, the entry in the land registry was changed for unknown reasons and 1/2 of the co-ownership share of Ilirija d.d. was removed, and the Town of Biograd na Moru was entered as the co-owner of the share in question for the first time. Consequently, Ilirija d.d. initiated civil proceedings for the establishment of the right of ownership and, under the 2012 ruling of the Commercial Court in Zadar, which was upheld by the 2016 ruling of the High Commercial Court of the Republic of Croatia, Ilirija was established as the owner of the entire real property Ilirija Tennis Centre. Under the decision of the Supreme Court of the Republic of Croatia following the review initiated by the Town of Biograd na Moru, with which we were made aware of on 18 Jan-
- uary 2022, first-instance and second-instance rulings were set aside and the case was remanded for a retrial, during which it shall be determined whether amenities have been constructed, i.e. "more comprehensive works" have been performed on the real property at issue. In the repeated court proceedings, the Commercial Court in Zadar issued a first instance ruling on 24 May 2023 in favour of Ilirija d.d., which stipulated the Company as the owner of the Tenis centar Ilirija in its entirety. Against the said first instance ruling, the Town of Biograd na Moru filed an appeal, which was rejected by the ruling of the High Commercial Court of the Republic of Croatia as unfounded. Thereby, Ilirija d.d. was once again legally established as the land registry owner of the entire real property Ilirija Tennis Centre. On 30 November 2023, The Town of Biograd na Moru also filed a motion to the Supreme Court of the Republic of Croatia for permission to review this legal matter, which was refused by a decision of the Supreme Court of the Republic of Croatia dated 17 January 2024.
- By the Decision of the Constitutional Court of the Republic of Croatia No. U-III-4392/16 of 5 July 2017, the Constitutional Complaint of the Company was adopted, and the ruling of the Supreme Court of the Republic of Croatia was set aside. The ruling set aside rejected the review initiated by Ilirija d.d. in the case pertaining to the compensation of damages against the Town of Biograd na Moru, for the purpose of conversion of the real property "Primorje" from a construction area into the so-called "area with landscape features", and the

76

case was referred back to the Supreme Court of the Republic of Croatia. In the repeated proceedings, the Supreme Court of the Republic of Croatia in its ruling number: Rev-x 688/2017 of 27 April 2022 rejected the review initiated by Ilirija d.d. as unfounded. The Company filed a constitutional complaint to the Constitutional Court of the Republic of Croatia against the aforementioned ruling of the Supreme Court of the Republic of Croatia within the legal deadline.

The ruling of the County Court in Zadar No. 6 Gž-751/16-2 of 13 June 2017 reversed the sentence of the Municipal Court in Zadar, Permanent Service in Biograd na Moru, of January 2016, and rejected the claim of the town of Biograd na Moru as unfounded. By said claim, the town of Biograd na Moru requested that the Forest Land Lease Agreement concluded between Ilirija d.d. and Hrvatske šume d.o.o. Zagreb, Forest Administration, Split Branch, be declared null and void. Thus, the dispute was finally disposed of in favour of Ilirija d.d., and given the fact that the land in question is tourist land not assessed in the process of conversion and privatization, Ilirija d.d. has already, within the legal deadline, submitted a request to the Government of the Republic of Croatia through the Ministry of Tourism of the Republic of Croatia, for a concession on the co-owned part of the Republic of Croatia, for the use of the "Park Soline" campsite for 50 years. In the meantime, in May 2020, the new Act on Non-Evaluated Construction Land came into force, thus repealing the Act on Tourism and Other Construction Land Not Evaluated in the Conversion and Privatisation Process.

The new Act on Non-Evaluated Construction Land provides that buildings and land in a campsite which are estimated in the value of the capital, are owned by the company, whereas the campsite land not estimated in the value of the capital is owned by the Republic of Croatia. On 5 March 2021, Ilirija d.d. submitted, within the legal deadline, an application for a decision to the competent Croatian Ministry of Physical Planning, Construction and State Assets, under Article 17 of the Act on Non-Evaluated Construction Land, that is, for the determination/identification of the scope, evaluated and unevaluated parts and owners of the Park Soline campsite in Biograd na Moru and consequently for the conclusion of a lease agreement between the Republic of Croatia and Ilirija d.d. for a period of 50 years. The procedure is pending.

In the meantime, on 1 April 2022 the Company, in accordance with Article 18 of the Act on Non-Evaluated Construction Land, obtained from the Centre for Restructuring and Sales the Certificate of Conformity of the Geodetic Survey Report, which confirms the conformity of the "Park Soline Campsite Geodetic Survey Report with the decision of the Croatian Privatisation Fund of 12 July 1996, by which the real property concerned was evaluated in the process of conversion of the socially-owned enterprise "Ilirija" Biograd na Moru. Furthermore, in April 2023, based on the ruling of the Commercial Court in Zadar, adopted in the procedure of correcting the registration of ownership rights, which was confirmed by the ruling of the High Commercial Court of the Republic of Croatia, the Republic

- of Croatia was registered in its entirety as the owner of the land plot with a surface area of 41 537 m<sup>2</sup> which is located within the Park Soline campsite. Namely, until that time, the Town of Biograd na Moru was registered as the land registry owner of the said land plot within the campsite.
- The predecessor of the Company was allotted the maritime domain for permanent use by the Municipal Assembly of Biograd na Moru for the purpose of constructing a sport port or marina (1976) and an outdoor swimming pool with a beach facility (1986) in Biograd na Moru. In accordance with the valid building and operating permits, the Company built the Ilirija-Kornati hotel port (1977–1979) and an outdoor swimming pool with beach facilities (1988), and these investments were evaluated and entered in the value of the capital of Ilirija d.d. during the conversion process. The aforementioned permanent right to use the maritime domain was replaced in 1998 with a limited period concession, and in accordance with the Decisions of the Zadar County on the award of the concession on the maritime domain, the Maritime Domain Concession Agreement was concluded for the purpose of commercial use of the special purpose port - nautical tourism port for a period of 12 years (until 2011) as well as the Maritime Domain Concession Agreement for the purpose of commercial use of the outdoor swimming pool for a period of 10 years (until 2008). Prior to the expiry of the concession for the nautical tourism port - the Ilirija-Kornati hotel port and the outdoor swimming pool with a beach facility, Ilirija d.d. submit-

ted the applications for the extension of the term of the concession by 20 years, i.e. to a total of 30 years. The competent authority has not decided on these applications to this day. Until the decision on the applications for the extension of the term of concession Ilirija d.d. has been regularly paying the fee for the use of maritime domain to the budget of the Republic of Croatia.

- During the conversion process, the property Dražice

   Mini Golf was evaluated and entered in the value of the capital of the Company for the part with a surface area of 9,752 m², the part which Ilirija d.d. has been using uninterruptedly for the purposes of a parking lot and an entertainment and animation centre, and accordingly holds in its possession, while for the rest of the land of approximately 46,000 m2 an application for a concession has been submitted. The dispute between Ilirija d.d. and the Town of Biograd na Moru before the Commercial Court in Zadar regarding the right of ownership is pending. The Republic of Croatia has joined the proceedings. No first-instance ruling has been rendered in this case.
- In the land registry renewal procedure for the Cadastral Municipality of Biograd na Moru, Ilirija d.d. was registered as the owner of the entire real property with an area of 1416 m2, which essentially represents the land around the hotels Ilirija and Adriatic in Biograd na Moru, considering that these land plots were evaluated and entered in the share capital of Ilirija d.d. in the process of conversion and privatisa-
- tion of the Company. The Municipal Court in Zadar, in a proper procedure, rejected the objections of the Town of Biograd na Moru regarding the registration of the ownership rights of Ilirija d.d. After the objections of the Town of Biograd na Moru to the registration of ownership rights on real property, which essentially represents the land around the hotels Ilirija and Adriatic, were rejected as unfounded, the Town of Biograd na Moru filed a lawsuit against Ilirija d.d. before the Commercial Court in Zadar for the purpose of correction and registration, asking to be established as the owner of the said real estate with a total area of 1,416 m2. The first-instance ruling of the Commercial Court in Zadar rejected the claim of the Town of Biograd na Moru, and the said ruling was upheld by the ruling of the High Commercial Court of the Republic of Croatia of 16 May 2022. Against the ruling of the High Commercial Court of the Republic of Croatia, the Town of Biograd na Moru filed a motion for permission to review, which was rejected by the Supreme Court of the Republic of Croatia as inadmissible. Therefore, the ownership rights of Ilirija d.d. over the property in question as a whole remained unchanged.
- As for the disputes in which the Company participates, both actively or passively, we estimate that such disputes cannot significantly disrupt the Company's business, nor can they cause significant financial expenses for the Company or have a significant effect on the Company's current and future financial results.

## 6.4 INVESTMENTS IN 2024

Investments in the first quarter of the business year in the amount of EUR 579,637.79 mostly related to the camping, real estate and hotel sectors, part of which was already started in the fourth quarter of the previous business year, with the aim of further improving the quality and standard of service.

The largest portion of the investments was related to the camping sector, where investments were made in the further renovation of the campsite through the construction of the internal roads in the third zone, the reconstruction and installation of additional LED lighting within the entire campsite, the development of special locations for waste disposal, additional investments in improving the quality of campsite accommodation and further landscaping work in the campsite up to the level of a campsite-park. In the real estate sector, i.e. the City Galleria Business and Shopping Centre, the investments were related to the relocation and adaptation of public sanitary facilities on the second floor of the Centre and the complete refurbishment and adaptation of the main communication corridor. Furthermore, with regard to the hotel sector, investments were made in the redecoration and additional furnishing of the restaurant of Hotel Kornati\*\*\*, as well as in the improvement of the quality of accommodation in Hotel Ilirija \*\*\*\* and Hotel Adriatic\*\*\*.

## **6.5 NON-OPERATING ASSETS**

An additional impact on the value of Company shares comes from non-performing assets, which are owned by the Company, but they are neither used for core activities of the Company, nor do they provide economic benefits to the Company. The most important non-performing assets owned by the Company are unused land plots (9 acres in total) at highly attractive locations:

Land plot, Sv. Filip i Jakov: The Company owns a building site of approximately 2.5 acres in Sv. Filip i Jakov, of which only a smaller portion is used (Villa Donat), while approximately 20,000 m² of the site is unused. According to the preliminary design, the Company plans to build 8 detached villas with apartments at the unused portion of the land plot, and expand the existing accommodation and service facilities. The Municipality of Sv. Filip i Jakov adopted a Detailed Plan for the Development of a Mixed Hospitality and Tourism Zone (TI-hotel).

Land plot, Villa Primorje: The Company owns approximately 2.5 acres of land near the Villa Primorje Hotel, of which only a smaller portion is used (approximately 10% of the total surface area). Apart from the existing physical plan, there is a possibility of building a settlement of traditional Dalmatian villas at the unused portion of the plot. The unused part of the plot is in direct contact with a building site.

Land plot, Polača: The Company owns a building site of approximately 2.5 acres in Polača, located along the state road, which connects Biograd with the local motorway (regional importance). The site is equipped with basic communal infrastructure and Ilirija d.d. plans to use it to build a dry marina, which would be functionally connected with the existing nautical capacities owned by Ilirija d.d.

Land plot, Sv. Filip i Jakov: In December 2021, the Company bought a land plot with a surface area of 9,600 m² in Sv. Filip i Jakov in the crafts and services zone, within the area of the newly planned industrial zone, with the intention of building a central warehouse, distribution and service facility for the needs of the Company, which would include laundry service, central warehouse of assets, equipment and inventory, central warehouse of food and beverages, technical service workshops, storage of machines, dry berth, ancillary mobile storages, office space for the needs of the storage and distribution facility, as well as traffic and parking areas.

## 6.6 OTHER

# BUSINESS MONITORING AND REPORTING ON A DAILY, WEEKLY AND MONTHLY BASIS

At the level of all sectors and the Company as a whole, a supervision, control and monitoring system for all business segments was established, namely for monitoring on a daily, weekly and monthly basis in accordance with the applicable Croatian and world reporting standards for the tourism industry. This enabled timely and quality monitoring of achieved operating and planned results, as well as the development of quality forecasts and business plans throughout the business year, which created the foundations for a more efficient and rational management of the entire business process, as well as improved and accelerated the overall reporting process at all levels, and especially in the operational part of the Company's business.

On a daily basis, the Company records and enters accounting and bookkeeping documentation in a timely manner, within 24 to 48 hours of its receipt at the latest. This ensures up-to-date and accurate daily reporting at the level of the Company and its sectors, which includes: a daily balance sheet at the Company level, trade receivables and trade payables, short-term liabilities, a income statement at the level of the Company and profit centres, reports on daily financial and physical turnover for all profit centres, sectors and at the Company level, reports on daily operating revenue and cumulative operating revenue for the period by profit centres and sectors, i.e. at the Company level and a series of operational daily reports. This method of reporting enables detailed planning and monitoring of the achievement of financial performance indicators and the Budget, both at the level of an individual profit centre and at the same time at the level of sectors and the Company as a whole. In addition to daily reports, the Company prepares various weekly and complete monthly financial and accounting statements, including the income statement for all sectors and profit centres of the Company, as well as the Company's balance sheet on the last day of the current month, and the cash flow for the current month, i.e. cumulatively from the beginning of the year to the end of the reporting period, which are elaborated in more detail and analytically structured, which enables efficient business management.

Also, in addition to accounting and financial statements on a daily, weekly and monthly basis, reports are prepared on the status of sales of accommodation capacities (hotel sector and camping), the status of sales of berths (nautical sector) and the status of DMC Ilirija Travel sales (accommodation and special events) with all key physical, market and financial data by profit centres (accommodation facilities) and at the level of the sector itself. In addition to its own reporting system, for many years the Company has also been implementing the USALI reporting system, an international reporting system for the tourism industry, as well as a system for daily management of prices, and consequently also of the accommodation units revenue in the hotel and camping sector.

### **MERGERS AND ACQUISITIONS**

There were no mergers and acquisitions.

# 7 BUSINESS EXPECTATIONS IN 2024

In 2023, the first year of normalised travel conditions after the pandemic, tourism was characterised by the recovery and full opening of tourist markets paired with a high demand for travel, as well as strong resiliency, considering the geopolitical instabilities and macroeconomic circumstances. In Europe, the world's largest tourist region, there was a continuation of the trend of growing demand and the recovery of key European tourist destinations, especially in holiday tourism, accompanied with the growth of international tourist arrivals from long-haul markets.

Mediterranean destinations facilitated the recovery of the European tourist market, generating a powerful increase compared to the previous year – some of them also achieving an increase compared to 2019. As a result, it is expected that despite the complex geopolitical situation, the slowdown in inflation and the slight economic recovery, European tourism will also see an increase in tourist demand in 2024. Considering the fact that in 2023, Croatian tourism came closer to the achievements from 2019, the best Croatian business year in terms of tourism, this means that 2024 is met with a positive outlook and expectations of persistent growth in tourist demand at the level of the entire business year.

Based on the expected positive tourist trends in 2024, rooted in the still-present desire for travel in key Croatian tourist markets, the increase of demand from

distant markets, which are significant for the pre- and post-season, and the expected lowering of inflation at the European Union level, i.e. the consequent growth of personal consumption, the Company bases its business expectations on the lack of limiting circumstances for conducting year-round business at the level of all sectors and profit centres, i.e. the hotel, nautical and camping sectors, Ilirija Travel and the real-estate sector.

The main determinants of the 2024 Business Plan are aimed at:

- preservation of the Company's long-term economic viability, security and sustainability,
- preservation of the Company's stable financial position,
- preservation of the Company's fixed assets and capital,
- preservation of the Company's business operations and activities, and
- enhancing the Company's competitiveness, improving and developing products and services.

Also, the Company is aiming to ensure and carry out activities and actions in 2024 that are essential for maintaining the current status and operations of the Company, as follows:

• preservation and improvement of the achieved level of facility development and equipment mainly at the 4-star level ensuring market competitiveness,

- development of new products, services and content with the aim of increasing the competitiveness of the Company and further developing its year-round business activities,
- ensuring the optimal number of employees for the smooth running of business activities and the quality of service in high season,
- preservation of the achieved financial position from employee labour corresponding to the average net salary in the Republic of Croatia in order to ensure the competitiveness of the Company on the labour market while facing a labour shortage,
- fulfilment of obligations towards Company's creditors, i.e. suppliers, payment of tax liabilities and contributions, as well as regular fulfilment of its liabilities towards the bank in respect of the principal of loans and interest

In addition to the above-mentioned determinants and preconditions, we believe that it is realistic for the Company to achieve the following business goals in 2024:

- a) increase in demand evidenced by the growth in terms of all key physical business performance indicators at the level of all sectors of the Company,
- b) significant increase in operating revenue at the level of all sectors and profit centres, i.e. at the level of the entire Company,
- c) generating EBITDA, or its share in the total revenue, in line with the tourism industry standards; and
- d) growth of other profitability indicators (profit, EBIT).

By achieving the stated business goals that are considered as the maximum business limit, and under the assumption of a year-round business activity in its full scope, i.e. at the level of all sectors and profit centres, as well as providing for the absence of limiting factors, we believe that the Company has ensured long-term economic sustainability and security, a stable financial position, fixed assets and capital, as well as ensured its business activity in 2024.

Moreover, the Company stresses that it is aware of objective and actual limiting circumstances and challenges that could to a certain extent affect the realisation of business expectations for 2024, including the existing global geopolitical instability as a direct consequence of the Russian invasion of Ukraine and the spreading of instabilities to the area of Eastern Mediterranean. the continuation of an unfavourable macroeconomic environment, labour shortage, and an intense increase in labour costs, as well as food, beverage, and energy costs as the main generators of inflation. The aforementioned circumstances and challenges (most of which are of a global nature) can affect tourism-related transactions, namely by reducing them due to a limited possibility of smooth year-round business activities in the tourism sectors of the Company, as well as a decrease in demand and purchasing power.

# 8 NOTES

The Company has all the permits required for the performance of its activities, such as the decisions on categorisation and on the meeting of the minimum technical work requirements, as well as water rights permits, etc.
