Subject: Agreement signed for the Purchase and Sale of six Battery Electric Multiple Units (BEMU) and the commissioning of one hybrid stationary power connection for charging traction batteries on the railway network of the Republic of Croatia

On 16 July 2026, KONČAR – Electric Vehicles Inc. signed a contract with HŽ Passenger Transport Ltd. for the delivery of 6 (six) Battery Electric Multiple Units (BEMU) and the commissioning of 1 (one) hybrid stationary power connection for charging traction batteries on the railway network of the Republic of Croatia. The total value of the contract amounts to EUR 53.6 million (excluding VAT).

BEMU are the result of in-house development, with several Group companies participating in their production, once again confirming that KONČAR is one of the leading regional technology companies capable of competing with the world's rail vehicle manufacturers. The signed contract represents a continuation of KONČAR's successful activities on the domestic market for the customer HŽ Passenger Transport Ltd.

With the delivery of the new vehicles, KONČAR continues its trend of developing products and solutions that reduce the harmful impact on the climate, offers long-term product sustainability, and provides future-oriented digitalisation. Through the continuous advancement of technologies in the field of mobility, KONČAR contributes to one of the European Union's primary goals – the establishment of green and sustainable mobility.
