SUBJECT: Response to the request from the Zagreb Stock Exchange received on 28.02.2022.

LUKA PLOČE d.d. with its headquarters in Ploče, Trg kralja Tomislava 21, OIB: 51228874907 (hereinafter "the Issuer"), received a request for response from the Zagreb Stock Exchange on February 28, 2022 regarding the impact on our business activities due to the Russian – Ukrainian crisis and the sanctions levied against Russia.

The Issuer confirms that financial transactions are not carried out through any Russian financial institution and that it has no financial exposure to same.

For the year ended 31.12.2021, the throughput associated with Russian coal in the trading segment amounted to 62.693 tons, which comprises 33% of the overall throughput of the trading segment and 1,60% of the total throughput at the port of Ploče. Russian coal contributes less than 20% to total income for FY21. We do not have access to the information of our customers regarding their business activities with Russia and as such we are not able to assess the effect of the same.

No transactions have been realised in the current year relating to throughput of Russian coal.

Yours sincerely,

Management Board
