SUBJECT: Information for investors and the public

Luka Ploče d.d., as the issuer of the above-mentioned shares listed on the Official Market of the Zagreb Stock Exchange, informs investors and the public that one of the most important business partners, ArcelorMittal Zenica, has shut down the coking plant, which operated as part of the steel factory in Zenica, which is continuing with work.

For many years, ArcelorMittal Zenica imported large quantities of coal through the port of Ploče, which was used as a raw material to produce coke.

The consequence of this circumstance is that ArcelorMittal Zenica will no longer import coal through the port of Ploče but will purchase coke partly on the market of Bosnia and Herzegovina, and partly imported.

In 2023, ArcelorMittal Zenica imported a total of 403,570 tons of coal through the port of Ploče, while a total of 38,000 tons of coal was imported in the first five months of 2024.

The management of Luka Ploče d.d. makes maximum efforts to deal with the new situation as successfully as possible.
