INTERIM MANAGEMENT REPORT
for the 2nd quarter of 2024

- The **throughput for the period** ended 30 June 2024 amounted to 2,227,315 tons, evidencing a **decrease of 14%** in comparison to the same period in the prior year (2023: 2,578,741 tons).

- The total decrease in throughput is primarily attributed to a decline of 23% in bulk cargo throughput when compared to quarter 2 of 2023. This is the result of a 35% decrease in coal handling when compared to the same period in the prior year.
 - This is as a result of the decision made by our business partner ArcelorMittal, Zenica to shut down its coking plant that operated as part of the greater steel factory operations in Zenica, and which will continue to operate. (For many years ArcelorMittal Zenica imported large quantities of coal through the port of Ploče which was used as a raw material in the production of coke.) The consequence of this decision made by ArcelorMittal Zenica is that it will no longer import coal through the port of Ploče but will rather purchase coke partly in their domestic market of Bosnia and Herzegovina and in part they will import coke from the global market using vessels - indirectly or directly through the port of Ploče.
 - General cargo throughput evidenced an increase of 13% primarily attributed to the increase of throughput relating to steel coils. Liquid cargo throughput evidenced an increase of 3% when compared to the same period in the prior year.

- It is necessary to note that the Russian-Ukrainian crisis which emerged in 2022 has contributed positively to the Company's operations as a result of the disruption noted across global logistics flow chains and it continues to contribute positively during 2024 albeit to a significantly lesser extent. The total throughput of the Company continues to evidence high growth when compared to the levels of throughput prior to the crisis (**28% growth** when compared to the same period in 2021 (2021: 1,737,788 tons)).

- Income from sales** amounted to 16,955 thousand euro, evidencing a **decrease of 6%** in comparison to the same period in the prior year (2023: 18,068 thousand euro). The decrease in throughput is not aligned to the decrease in income from sales, given sales price growth for handling services. Income from warehousing evidences a decrease of 26% when compared with same period in prior year and is the consequence of decreased throughput relating to bulk cargo.

Luka Ploče d.d.
INTERIM MANAGEMENT REPORT
for the 2nd quarter of 2024

- **Income from trading** amounted to 41,560 thousand euro, evidencing a **197% increase** when compared to the same period in the prior year (2023: 14,003 thousand euro). This can be attributed to the increase the quantities of goods sold: during the second quarter of 2024 throughput from trading activities amounted to 185 thousand tons while for the same period in the prior year throughput from trading activities amounted to 55 thousand tons.
- **Operating expenses excluding depreciation and amortisation** amounted to 51,023 thousand euro (2023: 23,725 thousand euro), of which 40,611 thousand euro relates to the cost of goods sold (2023: 13,452 thousand euro). **Operating expenses excluding the cost of goods sold** evidence a **1% growth** in comparison to the same period in the prior year. This slight increase can be attributed primarily to the growth in utilities costs (49%), security costs (32%), and water and drainage costs (148%).
- **EBITDA margin excluding the impact of trading** for the period ended 30 June 2024 amounted to **39%** while the EBITDA margin for the same period in 2023 amounted to 45%.

INTERIM MANAGEMENT REPORT
for the 2nd quarter of 2024

The Russian-Ukrainian crisis and impact of sanctions imposed against Russia on the business

Taking into consideration the previous two years, we note that the Russian-Ukrainian crisis has contributed positively to the Company's operations as a result of the disruption noted across global logistics flow chains. Namely, intensified congestion was noted in the northern ports with the Black Sea being positioned close to the warzone. This resulted in a heightened increase in vessel insurance costs which further contributed to the growth in overall costs of logistics across that route, coupled with already prominent congestion present. Consequently, the challenges redirected additional business by means of driving additional throughput to the Company. This can be seen when comparing current period throughput to the period prior to the crisis - an increase of 28% in throughput was noted when comparing quarter 2 of 2024 to quarter 2 of 2021.

The Company did not execute any financial transactions with any Russian financial institution and does not have financial exposure to same. There were no transactions with Russian goods during 2024, rather the Company substituted the same with American coal.

The Company has assessed the associated risks arising from the aforementioned as follows:

- Increase in the cost of transport, raw materials and supplies, energy and fuel (when compared to previous years before the conflict), which is further transferred to other costs.
- Given the significant increase in costs and compounded by logistical challenges faced, the Company has noted a significant increase in requests for advance payments by suppliers while the delivery time for receipt of goods from suppliers has been prolonged.

Although the above-mentioned risks still exist, a reduced inflationary pressure on the Company's operations compared to 2022 and 2023 has been observed (e.g. in terms of commodity prices). However, the pressure of heightened macroeconomic factors is still visible when considering the Company's operations, and that of our business partners'.

The Company continues to maintain a satisfactory level of liquid assets sufficient to meet all liabilities as they fall due.

Trade receivables, financial indebtedness and the Company's liquidity outlook

- **Trade receivables** as at 30 June 2024 amounted to **27.4 million euro**, which evidences an increase of **24%** when compared to the same period in the prior year. This can be attributed to the increase the quantities of goods sold: during the second quarter of 2024 throughput from trading activities amounted to 185 thousand tons while for the same period in the prior year throughput from trading activities amounted to 55 thousand tons. **76%** of the total trade receivables are **not yet due**, of which **63%** relate to **trading goods not yet dispatched**. 86% of overdue receivables have a maturity of less than 30 days.

Liabilities to banks amounted to 19,363 thousand euro on 30 June 2024. These relate to:

- Long term HBOR loan which was contracted in 2018 at a fixed interest rate, amounting to 10.2 million euro.
- Long term HPB loan which was contracted at a variable interest rate linked to the EURIBOR amounting to 4.2 million euro.
- Short term HPB loan, which was contracted at a variable interest rate linked to the EURIBOR amounting to 5 million euro. The Company repaid this loan in full during the 3rd quarter of 2024.

The Company has no other liabilities to banks.

INTERIM MANAGEMENT REPORT
for the 2nd quarter of 2024

Trade receivables, financial indebtedness and the Company's liquidity outlook (continued)

Cash and cash equivalents **increased** by **79%** from 17,114 thousand euro on 31 December 2023 to **30,709 thousand euro** on 30 June 2024. **Irrevocable letters of credit** amounted 164 thousand euro at 30 June 2024. These relate to the purchase of equipment.

The Company continues to maintain a satisfactory level of liquid assets sufficient to meet all liabilities as they fall due.

Human resources

Employee headcount has **decreased** from 412 employees as at 30 June 2023 to **389** employees as at 30 June 2024. **Staff costs** have **increased** by **4%** when compared to the same period in the prior year. The **average gross salary per employee** amounts to 1,632 euro in quarter 2 of 2024, while the same amounted to 1,592 euro during the same period in the prior year, evidencing an increase of **2,5%**.

Company acquisition – New Concrete Technologies d.o.o.

Luka Ploče d.d. signed a contract dated 22 May 2024, for the purchase of 100% of the shares in the company New concrete technologies d.o.o., Zagreb (hereinafter referred to as "NCT"). The estimated value of the transaction amounted to 3 million euro.

NCT is company that has a long-term sub-concession for cement mixing, testing and grading plants. With this acquisition Luka Ploče d.d. achieves the unification of the entire cement infrastructure.

NCT also owns a vessel registered with the Croatian Ship Register for carrying out dredging activities in the Republic of Croatia.

The acquisition of NCT demonstrates the Company's strategic focus on furthering its growth and reach through diversification of its business activities into new markets - such as the cement market and the market for technical maintenance of waterways.
