The final conference was held of the project

"Improvement of the infrastructure of the port of Rijeka - Terminal for bulk cargo Bakar"

On December 21, 2021, the final conference of the project "Improvement of the Port of Rijeka infrastructure at the Bakar bulk cargo Terminal" was held, which officially ended this important infrastructure project co-financed from the program called Connecting European Facility (Connecting European Facility - CEF) established for additional investments in the construction of new and improvement of existing transport infrastructure.

As part of the conference, the activities carried out on the reconstruction of traffic areas and tracks in the area of the bulk cargo terminal in Bakar were presented. This project has improved the efficiency of cargo management in the Bakar port basin and enabled better connection with the Trans-European Transport Network.

The general objectives of the project were achieved by reconstruction of tracks, traffic and storage areas and supporting communal infrastructure in the area of bulk cargo terminal Podbok - Bakar basin, while improving the connection of the entire basin with the railway network in the hinterland and indirectly towards European corridors enabled by the removal of the existing dilapidated and operationally unsuitable railway infrastructure.

The works were performed in the amount of HRK 48.494.157,43 (including VAT), of which 85% was insured from the Financial Instrument for Connecting Europe (CEF). The contract for the execution of works was signed on 14 February 2020 between the Luka Rijeka d.d. and GP Krk d.d., Colas Rail Hrvatska and Colas Rail SASu.
