BUSINESS RESULTS

1/1/2021 - 31/3/2021

LIBURNIA RIVIERA HOTELI D.D.

Subject to the provisions of the Companies act (hereinafter: CA) and the Accounting act, the Management Board of Liburnia Riviera hoteli d.d. (hereinafter referred to as: the Company), with head office in Opatija, Maršala Tita 198, whose main activities are accommodation and hospitality services, travel agencies and tour-operator services, presents the quarterly non-audited financial reports for the period from January 1st, 2021 to March 31st, 2021.

I/ Key messages of the Company's operations during the first quarter of 2021

During the first quarter of 2021, the Company continued to actively manage the COVID-19 crisis by means of implemented action plans in order to stabilize the business that was successfully adapted to extraordinary circumstances, with the aim of protecting the health of guests and employees, ensuring sufficient liquidity, employment protection and normalization of business.

Business operations in the reporting period took place under unfavourable market circumstances, and continued pandemic in the first quarter of 2021 resulted in almost completely closed tourist capacities resulting in HRK 1,9 million of sales revenue (-82% as compared to the same period of 2020, considering that on March 11th, 2020, the world Health Organization declared COVID-19 a global pandemic). Namely, apart from the hotel Amassador 5^{*}, which was open during the New Year's holidays, by March 2021 all tourist facilities were closed in accordance with low demand, and business was restarted during March with the opening of 3 tourist facilities. Simultaneously with the operational pressures, operational and investment savings policies were extended and the measures of the government of the Republic of Croatia were used to preserve jobs, thus ensuring the required liquidity level. The improvement of tourist products and services continued with the aim of increasing the quality and safety of guests and employees for the 2021 tourist season.

The Company, supported by all stakeholders, actively manages the crisis and the possibility to realize the 2021 tourist season in order to ensure a stable position for expected business normalization during 2021 - 2023.

II/ Significant business events

Impact of the COVID-19 pandemic on the Company's operations

Considering the continued negative impact and the problems caused by the further unforeseeable spread of the COVID-19 virus on the Company's operations, the actions and events related to the pandemic are further clarified in Chapter III/Business management during the COVID-19 pandemic, in the report below.

III/Business management during the COVID-19 pandemic

The Company actively monitors the development of the situation related to the negative impact of the COVID-19 pandemic on market trends and dynamically analyses the necessary changes in operational business. Extraordinary measures of movement restriction, including restrictions on gatherings, partial restrictions on the operation of hospitality facilities and shops, as well as restrictions on border crossings and passenger border controls, continue to negatively affect the tourism industry by reducing the demand for travel. Therefore, the Company has taken preventive measures to protect the health of guests and employees, activated crisis management procedures and maintenance of business continuity while preserving jobs, thus successfully achieving a partial normalization of business operations.

Modification of tourist products and services and demand

In order to improve the quality of services and the safety of guests and employees, the Company has implemented a comprehensive package of activities that included the implementation of crisis procedures, together with providing general information on the spread of the COVID-19 and measures to prevent the occurrence and to control the spread of the respiratory viruses, buffet service by waiters, limiting the number of seating places in restaurants according to the prescribed measures, mandatory wearing of masks of all employees who are in contact with guests, the possibility of testing guests and test results delivery, mandatory measurement of employees' temperature, and in certain facilities of guests' temperature before entering the restaurant. Disinfection procedures of all public spaces and accommodation units were introduced and improved, as well as additional disinfection measures after the guest departure.

Disruptions in European and world tourist flows negatively affected guest arrivals during the first quarter of 2021, and reduced business and revenue volumes are expected, as well as increased volatility of booking requests in the remainder of 2021. In order to dynamically adapt business operations to the impact of the pandemic and increase the demand for the Company's tourist capacities, the "non-refundable" price list was abolished, the policy of active management and adjustment to daily prices of tourist facilities has been intensified, as well as the creation of packages with included additional services. In current circumstances of uncertainty related to the further development of the pandemic and freedom of movement of people, it is not possible to predict with certainty the final negative effect of the slower trend of new booking requests on business operations, especially given the pronounced trend of "last-minute" bookings and the simplified booking cancellation policy.

Economic support and aid measures

Competent state and local authorities have adopted economic support and aid packages to mitigate the effects of the special circumstances caused by the COVID-19 pandemic in order to overcome short-term liquidity challenges and ensure the preservation of jobs. The Company has undertaken a comprehensive package of activities to minimize the negative effects on its own operations, including among other, aid for jobs preservation (HRK 4.000 for salaries during the first three months of 2021) and exemption from tax obligations, thus relieving the cost of employees during the first quarter of 2021 by a total of HRK 4,3 million.

Liquidity protection

In order to ensure liquidity and solvency, the Company continued with financial austerity measures during 2021, mostly in the part of direct and operating costs savings due to reduced volume of operations while at the same time ensuring a smooth continuation of business operations. Cash outflow plans remain adjusted to crisis management measures and include a high level of savings in direct and operating costs due to reduced business volume and minimizing otherwise fixed costs by partially opening tourist facilities, while rationally using the labour force. Rationalization of operating costs included savings on energy costs, direct food and beverage costs, system and processes maintenance costs through negotiations with suppliers over lower prices, as well as minimization of the costs of employees through active management of the number of employees according to the needs.

In 2020, moratoriums on loan repayments were successfully contracted in accordance with the applicable measures. Thus, in agreement with commercial banks, the repayment of the principal in the total amount of HRK 89,2 million was postponed until June 30th, 2021.

Reduced capital expenditures during the first quarter of 2021, amounting to HRK 5,8 million, included improvement and preparation of the facilities for the season (primarily hotels Ambassador and Excelsior). In addition, the modification of tourist products and services has continued to improve the quality and safety of services for the tourist season 2021. The intensity of the next investment cycle depends on the dynamics of the recovery of tourist flows, while prioritizing the maximization of free cash flow.

The Company, as a company of a strong positive net asset value and, at the same time, the owner and manager of valuable hotel and tourist facilities and content, with contracted credit lines and moratoriums on credit liabilities, does not anticipate any challenges in bridging the potential further reductions of business activities.

IV/ Results of the company Liburnia Riviera hoteli d.d.

In the first quarter of 2021, the Company's business revenues amounted to HRK 8,7 million (-33% as compared to the same period of the year in 2020). The operating revenues were primarily affected by an 82% drop in sales revenues (HRK -8.8 million) to the amount of HRK 1,9 million as a result of a reduction in the business volume in the observed period of 2021 compared to the same period of the previous year considering that World Health Organization declared a global COVID-19 pandemic on March 11th, 2020.

The main sales revenue consists of guesthouse revenues, which amounted to HRK 1,2 million during the first quarter of 2021 (-85% as compared to the same period of 2020). Apart from the opening of the hotel Ambassador 5* during New year's holidays, the closure of all tourist facilities was reached by March 2021, according to low demand. Hotel Bellevue 4* was opened at the beginning of March, villa Abbazia 4* was opened in the middle of the month, and Hotel Imperial 4*at the end of March.

Other operating revenues amounted to HRK 6,8 million (HRK + 4,4 million as compared to the same period of 2020) as a result of the use of measures by the government of the Republic of Croatia, including aid for the preservation of jobs (HRK 4,000 per employee) and exemption from related tax liabilities (total revenue of HRK 4,3 million).

Operating expenses amount to HRK 47,3 million with a drop of 8% (HRK 51,5 million in the first quarter of 2020). Material costs amount to HRK 6,0 million with a decrease of the share in total operating expenses to 13% (19% in the first quarter of 2020). The decrease of HRK 3,9 million is a consequence of a lower business volume. Staff costs amount to HRK 12,4 million with a share of 26% in operating expenses (21% in the first quarter of 2020). Compared to the same period last year, they have increased by HRK 1,7 million due to the improvement in organization of central services and related employment. Other operating expenses amount to HRK 3,5 million with a share of 7% in operating expenses (8% in the first quarter of 2020). The 19% drop in other operating expenses is primarily due to reduced utility charges.

The financial result in the first quarter of 2021 is HRK -0,9 million (HRK -0,6 million in the same period of 2020). The main reason for the worse financial result is the increased interest expenses on loans.

The loss before tax during the first quarter of 2021 amounts to HRK 39,4 million, while in the comparable period of the previous year the loss amounted to HRK 39,1 million.

The recorded loss, as well as negative operating earnings (EBITDA), in the amount of HRK 13,1 million (HRK 11,7 million in the first quarter of 2020), are the result of continuous disturbances on the tourism market, and disruptions of European and world tourist flows, and the partial closure of facilities caused by the COVID-19 pandemic.

VI/ Risks of the Company

The tourism industry is within its scope globally oriented and very closely linked to the real and financial economy, the geopolitical environment and environmental sustainability. Thus, the Company proactively monitors and assesses risks, at a micro and macro level, considering the impact of each individual risk. The objective of risk management is to further encourage the creation of sustainable value and offer confidence to many shareholders of the Company. The risk management process consists of the following steps: a) identification of potential risks in business, b) analysis and assessment of identified risks, c) definition of activities and responsibilities for effective risk management, d) monitoring and follow-up of initiatives to avoid risk events, and e) exchange of information on the results of risk management

In its daily operations, the Company is exposed to a number of financial risks, including currency, interest rate, credit, price and liquidity risk. As the Company operates internationally, it is exposed to currency risk, mostly arising from changes in the nominal exchange rate of the euro / kuna. Currency risk arises from future commercial transactions and recognized assets and liabilities. Most foreign sales revenue is generated in euros, the currency in which most of the long-term credit debt is denominated. Consequently, the Company is partially hedged against currency risk. Due to the occurrence of extraordinary circumstances caused by the COVID-19 pandemic in 2020 and 2021, potentially strong depreciation pressures on the kuna against the euro affect the value of long-term credit debt denominated in euros. In the event of an exceptional reduction in euro inflows, the Company and the Group will use existing euro liquidity reserves to service long-term debt repayments and access adequate hedging financial instruments, in accordance with the current situation and future assessment of the Company's foreign exchange position, expectations of value movements of the currency pair kuna / euro as well as other intercurrency relations between world currencies. Furthermore, part of the indebtedness with banks contracted at variable interest rates partially exposes the Company to cash flow interest rate risk, while credit risk arises from cash, time deposits and trade receivables. Credit risk is minimized by contracting transactions with customers who have an appropriate credit history, by arranging prepayments or payments through security deposits and credit cards for individual customers. The Company also obtains security instruments for receivables (bills of exchange, promissory notes and guarantees), thus reducing the risks of uncollectibility of its receivables for services rendered. Given the negative consequences of COVID-19 on the Company's customers, especially on tour operators and travel agencies, the Company continuously monitors the adverse impact on related parties while actively checking their creditworthiness. The Company is not an active participant in the capital market in terms of trading with equity and debt securities. The Company prudently manages liquidity risk and, at any time, controls and ensures a sufficient amount of cash through operating cash flows and adequate amounts of contracted credit lines to meet liabilities, as well as ensuring the availability of credit lines in the future. Credit lines for 2021 have been contracted with reputable financial institutions, while loan repayments, in general, have been aligned with periods of significant cash inflows from operating activities. The Company and the Group monitor the level of available sources of cash on a daily basis through reports on the balance of cash and liabilities. The COVID-19 pandemic, as an external stressor to the Company's business, has created strong pressures on the operating cash flow.

In accordance with prudent management of the now increased liquidity risk, escalation plans have been developed and activated to minimize costs, preserve liquidity, solvency of companies and maintain business continuity together with applications for support and aid measures to the economic and tourism sector, including deferral of payment of due long-term loan principals in line with the possibility of placing moratoriums on the repayment of loan liabilities (in more detail in the chapter III/ Business management during the COVID-19 pandemic).

The Company is exposed to business risk related to competitiveness and business stability. Since the Company owns real estate, this business model requires intensive capital investment to maintain high quality products and services. Capital-intensive investment projects to increase the quality of services and products may exceed budget expectations, construction may not be completed on time, and in the meantime changes to urban regulations, other laws and fiscal policy may take effect. These risks may adversely affect the increase of the Company's and Group's costs, as well as lower cash flow and lower revenues.

Given that in a stable market, beyond the impact of the pandemic, more than 90% of the Company's guests are foreign guests, the stability of macroeconomic indicators in their domicile countries is very important where the exchange rate and prices of goods and services directly affect the purchasing power of guests.

The pronounced seasonality of Croatian tourism as an economic branch represents a significant risk and impact on business results, as it leads to insufficient use of available tourist capacities and resources. The Company strives at all levels of management to develop its tourist offer using comparative advantages and expertise know-how by strategic considerations of the development of the tourist product.

Without a qualitative human resources management, the development of the Company is not possible, and the expansion of the labor market in recent years has identified risks related to scarce positions, the development of new knowledge and specific skills. The Company continuously works on a dialogue with social partners and ensures a high level of workers' rights in terms of salary competitiveness, motivation and reward systems, as well as career development, health care and cooperation with educational institutions.

The Company is exposed to operational risk, ie direct and indirect losses arising from incorrect internal and external processes of the Company. Given the complexity of the system, the Company is systematically working on the analysis of data that actively monitors the business trends of the Company in order to make timely fair business decisions.

Aware of the risk of reliability of IT business solutions and cyber security of business, the Company is continuously working on their further development with an emphasis on data protection projects and the improvement of existing and development and implementation of new, modern business systems.

VII/ Corporate management

The Company is continuously, to the greatest extent possible, developing and operating, in accordance with the good corporate governance practice prescribed by the Croatian Financial Services Supervisory Agency (HANFA) and the Zagreb Stock Exchange d.d. Zagreb. By its business strategy, policy, key acts and business practice the Company has established management standards that seek to contribute to transparent and efficient business operations.

In first quarter 2021, the Company followed and applied the recommendations set out in the Code, publishing all the information whose publishing is anticipated by positive regulations and the information that is in the best interests of the Company's shareholders.

In accordance with a requirement of the Code and with the directives of the CA, the Supervisory Board conducts internal control of the Company through regular audits of the presented reports. The members of the Supervisory Board are regularly provided with detailed information on the management and operations of the Company. At the Supervisory Boards meetings, all the matters within the competence of that body, prescribed by the CA and the Company's Articles of Association, are discussed and the decisions are made. The Supervisory Board's report on the conducted supervision of the management is a part of the Company's Annual Report, submitted to the General Assembly. In addition, the Supervisory Board performs internal control and oversight through the Audit Committee which provides professional support to the Supervisory Board and the Management Board in the effective performance of corporate governance, risk management, financial reporting and control of the Company. The Management Board is responsible for monitoring that the Company runs its business and other records and documentation, complies the accounting documents, evaluates assets and liabilities and prepares financial and other reports in accordance with accounting rules and standards, as well as applicable laws and regulations.

The Company does not have a formal diversity policy in place with respect to gender, age, education or profession for its executive, management and supervisory bodies. The Company's policy of appointment to executive bodies is carried out in accordance with the needs of specific business activities in terms of knowledge, qualifications and competence on the part of potential executives, without taking into account gender or age. The Company's management and oversight bodies also require certain knowledge, education and competence on the part of potential executives in these bodies, in accordance with the criteria and decisions of the Supervisory Board and the Company's Assembly.

VII/ Corporate management (continued)

1. Ten main shareholders as at March 31^{st} , 2021:

In accordance with the Company's Articles of Association, the voting right of a shareholder is neither limited to a certain percentage or number of votes, nor are there time constraints to gain voting rights. Each regular share entitles to one vote at the General Assembly.

The Company's rights and obligations arising from the acquisition of its own shares are achieved in accordance with the directives of the CA. During first quarter 2021, the Company did not acquire own shares.

The members of the Company's Management and Supervisory Board are not, either directly or indirectly, owners of Company shares in terms of the provisions of CA, thus they do not represent material shareholders of the Company in terms of the provisions of CA and the Corporate Governance Code, enabling their independence in terms of the regulations of applicable legislation.

The management board of the Company is nominated and revoked by the Supervisory Board and is composed of two members.

As of March 4th 2021 the Management Board consisted of two members, the president of the Board, Mr. Agron Beriša who resigned in the first quarter of 2021, and the member of the Board, Mr. Johannes Böck. On March 5th, 2021, the Supervisory Board nominated Mr. Vladimir Bošnjak as a new president of the Management Board.

The powers of the members of the Management Board are entirely harmonized with the provisions of the CA and are described in more detail in the Company's Articles of association.

VII/ Corporate management (continued)

The Supervisory Board of the Company is nominated and revoked by the General Assembly of the Company in accordance with the Company's Articles of Association and the CA and it is composed of the following members as at 31 March 2021:

- Klaus Riederer, president,
- Alexander Paul Zinell, vice president,
- Philip Goeth, member,
- Thomas Mayer, member,
- Branimir Žarković, member,
- Andreja Rudančić, member,
- Barbara Mesić, member
- Helena Masarić, member and
- Domijan Mršić, member.

The Management Board and the Supervisory Board work normally in meetings, by correspondence in accordance with the provisions of positive regulations.

The General Assembly is convened, works and has powers in accordance with the provisions of the CA and the provisions of the Company's Articles of Association, while the call and proposed decisions, as well as decisions made are published in accordance with the provisions of the CA, the Capital Market Act and the Rules of the Zagreb Stock Exchange d.d.

The rules on the appointment and revocation of members of the Management Board and members of the Supervisory Board are determined by the Articles of Association, in accordance with the provisions of the CA. The rules of appointment do not contain any restrictions on diversity with regard to gender, age, education, profession and similar restrictions.

The Company has an Audit Board, and the Supervisory Board appoints and revokes the Audit Board in accordance with the Company's Articles of Association and the CA. As at 1 January 2021 members of the Audit Board were: Branimir Žarković, president, Philip Goeth, member, Domijan Mršić, member.

NOTES TO FINANCIAL STATEMENTS - TFI (drawn up for quarterly reporting periods)

Name of the issuer: ___<u>Liburnia Riviera Hoteli d.d.</u>

Personal identification number (OIB): ___15573308024____

Reporting period: ____01.01.-31.3.2021.__

Notes

Subject to the provisions of the Companies act (hereinafter: CA) and the Accounting act, the Management Board of Liburnia Riviera hoteli d.d. (hereinafter referred to as: the Company), with head office in Opatija, Maršala Tita 198, whose main activities are accommodation and hospitality services, travel agencies and tour-operator services, presents the quarterly non-audited financial reports for the period from January 1st, 2021. to March 31st, 2021.

Key messages of the Company's operations during the first quarter of 2021

During the first quarter of 2021, the Company continued to actively manage the COVID-19 crisis by means of implemented action plans in order to stabilize the business that was successfully adapted to extraordinary circumstances, with the aim of protecting the health of guests and employees, ensuring sufficient liquidity levels, employment protection and normalization of business.

Results of the company Liburnia Riviera Hoteli d.d.

In the first quarter of 2021, the Company's business revenues amounted to HRK 8,7 million (-33% as compared to the same period of the year in 2020). The operating revenues were primarily affected by an 82% drop in sales revenues (HRK -8.8 million) to the amount of HRK 1,9 million as a result of a reduction in the business volume in the observed period of 2021 compared to the same period of the previous year considering that World Health Organization declared a global COVID-19 pandemic on March 11th, 2020.

The main sales revenue consists of guesthouse revenues, which amounted to HRK 1,2 million during the first quarter of 2021 (-85% as compared to the same period of 2020). Apart from the opening of the hotel Ambassador 5* during New year's holidays, the closure of all tourist facilities was reached by March 2021, according to low demand. Hotel Bellevue 4* was opened at the beginning of March, villa Abbazia 4* was opened in the middle of the month, and Hotel Imperial 4*at the end of March.

Other operating revenues amounted to HRK 6,8 million (HRK + 4.4 million as compared to the same period of 2020) as a result of the use of measures by the government of the Republic of Croatia, including aid for the preservation of jobs (HRK 4,000 per employee) and exemption from related tax liabilities (total revenue of HRK 4,3 million).

Operating expenses amount to HRK 47,3 million with a drop of 8% (HRK 51,5 million in the first quarter of 2020). Material costs amount to HRK 6,0 million with a decrease of the share in total operating expenses to 13% (19% in the first quarter of 2020). The decrease of HRK 3,9 million is a consequence of a lower business volume. Staff costs amount to HRK 12,4 million with a share of 26% in operating expenses (21% in the first quarter of 2020). Compared to the same period last year, they have increased by HRK 1,7 million due to the improvement in organization of central services and related employment. Other operating expenses amount to HRK 3,5 million with a share of 7% in operating expenses (8% in the first quarter of 2020). The 19% drop in other operating expenses is primarily due to reduced utility charges.

The financial result in the first quarter of 2021 is HRK -0,9 million (HRK -0,6 million in the same period of 2020). The main reason for the worse financial result as compared to the previous comparable period are the increased interest expenses on loans.

The loss before tax during the first quarter of 2021 amounts to HRK 39,4 million, while in the comparable period of the previous year the loss amounted to HRK 39,1 million.

The recorded loss, as well as negative operating earnings (EBITDA), in the amount of HRK 13,1 million (11,7 in the first quarter of 2020), are the result of continuous disturbances on the tourism market, and disruptions of European and world tourist flows, and the partial closure of facilities caused by the COVID-19 pandemic.

Liabilities

As of March 31st, 2021 short term liabilities amounted 117, 41 mil HRK which is lower than as of December 31st, 2020 mainly due to reduction in liabilities to suppliers that were lower for 6,5 mil HRK. Long term liabilities increased for 13% since December 31st, 2020 from 183,97 mil HRK to 206,63 mil HRK due to wokring capital loan used during 1st quarter 2021. **Collaterals**

New collaterals and insurance vehicles were given - bill of exchange for car leases.

No of employees

Average number of employees in the period was 403.

Consolidated reports

The Company is included in the consolidated financial statements of the company Gitone Beteiligungsverwaltung GmbH, with registered seat in Austria, 1030 Vienna, Am Modenapark 13/9.

Business management during the COVID-19 pandemic

The Company actively monitors the development of the situation related to the negative impact of the COVID-19 pandemic on market trends and dynamically analyses the necessary changes in operational business. Extraordinary measures of movement restriction, including restrictions on gatherings, partial restrictions on the operation of hospitality facilities and shops, as well as restrictions on border crossings and passenger border controls, continue to negatively affect the tourism industry by reducing the demand for travel. Therefore, the Company has taken preventive measures to protect the health of guests and employees, activated crisis management procedures and maintenance of business continuity while preserving jobs, thus successfully achieving a partial normalization of business operations.

Modification of tourist products and services and demand

In order to improve the quality of services and the safety of guests and employees, the Company has implemented a

comprehensive package of activities that included the implementation of crisis procedures, together with providing general information on the spread of the COVID-19 and measures to prevent the occurrence and to control the spread of the respiratory viruses, buffet service by waiters, limiting the number of seating places in restaurants according to the prescribed measures, mandatory wearing of masks of all employees who are in contact with guests, the possibility of testing guests and test results delivery, mandatory measurement of employees' temperature, and in certain facilities of guests' temperature before entering the restaurant. Disinfection procedures of all public spaces and accommodation units were introduced and improved, as well as additional disinfection measures after the guest departure.

Disruptions in European and world tourist flows negatively affected guest arrivals during the first quarter of 2021, and reduced business and revenue volumes are expected, as well as increased volatility of booking requests in the remainder of 2021. In order to dynamically adapt business operations to the impact of the pandemic and increase the demand for the Company's tourist capacities, the "non-refundable" price list was abolished, the policy of active management and adjustment to daily prices of tourist facilities has been intensified, as well as the creation of packages with included additional services. In current circumstances of uncertainty related to the further development of the pandemic and freedom of movement of people, it is not possible to predict with certainty the final negative effect of the slower trend of new booking requests on business operations, especially given the pronounced trend of "last-minute" bookings and the simplified booking cancellation policy.

Corporate governance

As of March 4th, 2021 the Management Board consisted of two members, the president of the Board, Mr. Agron Beriša who resigned in the first quarter of 2021, and the member of the Board, Mr. Johannes Böck. On March 5th, 2021, the Supervisory Board nominated Mr. Vladimir Bošnjak as a new president of the Management Board.
