KEY MESSAGES

Liburnia Riviera Hoteli recorded significant sales revenue growth of 8% in the third quarter of 2026, driven by successfully executed sales and marketing initiatives aimed on converting tourism demand into overnight stays and optimising revenue structure. As a result, sales revenue for the first nine months of 2026 increased by 3%, or EUR 1.3 million, compared with the same period of the previous year, despite the adverse impact of the unfavourable timing of public holidays and school breaks in key source markets, as well as major international sporting events, on revenue performance in June.

During the reporting period, the Company's cost base continued to be affected by inflationary and macroeconomic pressures on the prices of materials and services, alongside a EUR 1.3 million (+7%) increase in staff costs. The increase in staff costs primarily reflects continued investment in improving working conditions, enhancing the competitiveness of employee remuneration, and attracting and retaining a skilled and stable workforce, all of which are essential to maintaining high service standards and guest satisfaction. Against this backdrop, adjusted EBITDA for the first nine months of 2026 amounted to EUR 14.8 million, representing a decrease of EUR 1.1 million compared with the corresponding period of the previous year.

Through prudent balance sheet and cash flow management, together with the successful refinancing of existing long-term borrowings on significantly more favourable terms, Liburnia Riviera Hoteli further strengthened its financial stability and liquidity position. During the first nine months of 2026, net debt decreased by 49%, accompanied by a substantial increase in cash balances. The Company's strong balance sheet provides a solid foundation for future growth and the continued development of its ambitious business transformation and hotel portfolio modernisation plans, aimed at achieving the highest standards of excellence in hospitality.

RISKS IN BUSINESS

The tourism industry has been changing rapidly over recent years. This is a result of changes in travel patterns, the emergence of low-cost airlines and various online agencies, new technologies and changes in booking trends, as well as in the very expectations of guests. Considering that the tourism industry represents a business of global proportions, it is very closely linked to the real and financial economy, macroeconomic and geopolitical aspects, and environmental sustainability, the Company and the Group assess the probability of the occurrence of a particular risk at the macro and micro level for each segment of the business and its potential consequences, or impact on the business processes and systems of Liburnia.

Risk management aims to further encourage the creation of sustainable value and to assure the Company's and the Group's many stakeholders. The risk management process consists of the following steps: a) identification of potential risks in the business, b) analysis and assessment of the occurrence of identified risks, c) defining activities and responsibilities for effective risk management, d) supervision and monitoring of measures taken to eliminate and/or reduce the occurrence of risk events, and e) exchange of information on risk management results.

The Company and the Group, like most companies in the tourism sector, are exposed to several risks in daily business that can be divided into the following categories:

1) FINANCIAL RISKS

Financial risks include interest rate, credit, price and liquidity risk.

Part of the debt with banks contracted at variable interest rates exposes the Company to the risk of changing interest outflows at cash flow, while credit risk arises from money, term deposits and trade receivables. Credit risk is

minimized by arranging deals with customers who have an appropriate credit history, arranging prepayments or payments through security deposits and credit cards for individual customers. The Company and the Group also acquire insurance instruments for receivables (bills of exchange, promissory notes and guarantees) thus allaying the risks of non-performing of its claims for the services provided. The Company continuously monitors tour operators and travel agencies with which it does regular business, while actively checking their financial competencies, and in the end, it implements forced collection by activating insurance measures to collect its receivables.

The Company and the Group are not active participants in the capital markets in terms of trading with equity and debt securities, and therefore they are not significantly exposed to price risk.

Sound liquidity risk management ensures that the Company and Group maintain day-to-day control and provision of sufficient amounts of free cash through operating cash flows and adequate amounts of currently agreed and future credit lines to meet its obligations. Credit lines for 2026 are contracted with reputable financial institutions, while in general credit repayments are aligned with the period of significant cash inflows from operational activities. The Company and the Group monitor the level of available funds through daily cash and debt reports. Long-term cash flow forecasts, as well as annual (monthly) forecasts, are based on the set budget. After meeting the needs of working capital management the surplus is deposited in the treasury. From there the funds are invested in interest-bearing current accounts, time deposits, money market deposit accounts and marketable securities. Only instruments with suitable maturities and sufficient liquidity are selected, according to the forecast needs for liquid funds.

2) BUSINESS RISKS

The Company and the Group are exposed to business risks related to competitiveness and business stability. Since the Company and Group own real estate, this business model requires intensive capital engagement to maintain high-quality products and services. Capital-intensive investment projects in increasing the quality of services and products may exceed budget expectations, construction does not have to be completed on time, in the meantime, changes to urban planning regulations, other laws and fiscal policy may take effect and may lead to the opening of litigations with suppliers and contractors or inconsistent quality of work. These risks may adversely affect the Company's and Group's cost increase, as well as weaker cash flow and lower revenues.

Given that in conditions of a stable market almost 90% of the Company's guests are guests from abroad, the stability of macroeconomic indicators in their domicile countries is very important, where the price of goods and services that directly affect the purchasing power of guests play a significant role. The extreme seasonality of Croatian tourism as an industry poses a significant risk and impact on business results, as it leads to insufficient use of available tourist capacities and resources. Therefore, the Company and Group at all levels of management strive to develop the tourist offer, using its comparative advantages and expertise while pondering strategically about the development of the tourist product.

Without high-quality human resources management, the development of the Company and the Group is not possible, and the expansion of the labor market in recent years has identified risks related to deficit positions, the development of new knowledge and specific skills. The Company's and the Group's ability to provide support to its business may be impaired if the Company and the Group are unable to hire, train and retain the sufficient number of workers necessary for the realization of its business strategy and sustainable growth

and development, especially during the high demand period from June to September. Therefore, the Company and the Group continuously engage in a dialogue with social partners and ensure a high level of workers' rights, starting with wage competitiveness, motivation and reward systems, career development, health care programs and numerous training programs.

3) OTHER RISKS

The Company and the Group are exposed to operational risk, i.e., direct and indirect losses arising from the Company's and the Group's flawed internal and external processes. An incorrect assessment of a development opportunity may affect the Company's and the Group's ability to deliver business growth and long-term value for shareholders. Given the complexity of the organization, systematic work is being done on the analysis of data that actively monitors the Company's and the Group's business actions, thus providing a timely work frame for valid business decisions.

The Company and the Group are aware of the risk of exposure to cyber-attacks which may result in significant disruptions to operations and financial losses due to declining revenues, costs of repairing damage from attacks, and significant fines in the event of data security breaches, as well as the reliability of IT business solutions. Hence, the Company and the Group continuously work on their further development with a focus on data protection projects, improvement of existing and development and implementation of new business systems.

CORPORATE GOVERNANCE

The Company and the Group continuously, to the greatest extent possible, develop and operate, in accordance with the good practice of corporate governance prescribed by the Croatian Financial Services Supervisory Agency (HANFA) and the Zagreb Stock Exchange d.d. Business strategy, policy, key acts and business practices have established governance standards, aimed at contributing to transparent and efficient business.

In addition, the Supervisory Board performs internal control and oversight through the Audit Committee, which provides expert support to the Supervisory Board and the Management Board in the effective performance of corporate governance, risk management, financial reporting and control obligations of the Company and the Group.

Management ensures that the Company and the Group keep business and other books and business documentation, draw up bookkeeping documents, realistically assess assets and liabilities, compile financial and other reports in accordance with accounting regulations and standards and applicable laws and regulations.

The Company does not have a formal diversity policy in place regarding gender, age, education or profession in executive, managerial and supervisory bodies. OTHER BUSINESS EVENTS

STRENGTHENING THE COMPANY'S LIQUIDITY POSITION

In September 2026, the Company entered into a EUR 31 million long-term loan agreement with Zagrebačka banka d.d., with a ten-year repayment term. The financing arrangement is primarily intended to refinance existing long-term borrowings on significantly more favourable terms, while further demonstrating the banking sector's confidence in the Company's financial stability and strength.

GENERAL ASSEMBLY OF LIBURNIA RIVIERA

On 22 July 2026, the General Meeting of the Company was held, at which the following resolutions were adopted: (i) the Remuneration Report of the Management Board and Supervisory Board of the Company for the financial year 2025, together with the auditor's report on the review thereof, was approved; (ii) the Company's profit for 2025 in the total amount of EUR 4,769,673.26 will be used to cover losses from previous periods; (iii) discharge was granted to the members of the Management Board for managing the Company's affairs in 2025 and to the members of the Supervisory Board for performing their supervisory duties over the management of the Company's affairs in 2025; (iv) Grant Thornton revizija d.o.o. from Zagreb was appointed as the Company's auditor for the audit of the financial statements for 2027; (v) the amendment to Article 4 of the Company's Articles of Association was approved in order to align the registered business activities; and (vi) the Remuneration Policy for the Management Board and Supervisory Board for the period 2026–2030 was approved.

ACQUISITION OF SHARES AND ASSET TRANSACTION

The Company completed the acquisition of a 100% ownership share in Liburnija Inžinjeri d.o.o. from Gitone Kvarner d.o.o. Through this transaction, the Company acquired additional accommodation capacities located in the immediate vicinity of Hotel Kvarner and Hotel Palace Bellevue, comprising two buildings with a total of 16 apartments, which are planned to be used for employee accommodation purposes. Given the significantly limited availability

of suitable accommodation facilities in the area in which the Company operates, representing one of the key challenges in attracting and retaining qualified workforce, the acquisition represents a strategic investment with long-term sustainable value for the Company. Simultaneously with the acquisition of the ownership share in Liburnija Inžinjeri d.o.o., an asset purchase and sale transaction was also completed with Gitone Kvarner d.o.o., resulting in a total transaction value of EUR 5.6 million. Through this transaction, the Company acquired financial and tangible assets of strategic importance, while at the same time disposing of non-commercial and non-operational properties and movable assets that are not aligned with its strategic development objectives and would require significant financial investments to achieve optimal functionality through adaptation and renovation. This approach reduced cash outflows related to the transaction while preserving the Company's leverage level and balance sheet strength to support future investment growth and the further development of its hospitality portfolio.

CONSOLIDATION

Following the acquisition of a 100% ownership interest in Lido Opatija d.o.o., through which the Company also obtained control over its subsidiaries Kvarner Lido d.o.o. and Projekt Zapad d.o.o., consolidation and Group-level reporting commenced as of 1 June 2025. The consolidated financial statements for the reporting period include the financial information of the following companies: Liburnia Riviera Hoteli d.d. (parent company), Lido Opatija d.o.o. (100%-owned subsidiary, consolidated from 1 June 2025), Kvarner Lido d.o.o. (100%-owned subsidiary, consolidated from 1 June 2025), Projekt Zapad d.o.o. (100%-owned subsidiary, consolidated from 1 June 2025), Aeris d.o.o. (100%-owned subsidiary, consolidated from 1 January 2025), and Liburnija Inžinjeri d.o.o. (100%-owned subsidiary, consolidated from 1 June 2026). Considering the seasonal nature of operations and the non-operating status of certain subsidiaries, their impact, including intercompany eliminations, on the consolidated financial statements for the first nine months of 2026 amounted to EUR +402 thousand on operating revenue, EUR -167 thousand on EBITDA, and EUR -668 thousand on profit/loss before tax.
