

Management Board interim report for the temporary unaudited annual financial statements for 2023

Medika d.d.

Management interim report

Comment on temporary unaudited unconsolidated financial statements for the fourth quarter of the year 2023

In accordance with the prescribed deadlines for submitting financial statements for the fourth quarter of the year 2023, Medika d.d. (the Company) has prepared temporary unaudited financial statements which present approximate balance sheet as at 31 December 2023, approximate profit and loss statement for the fourth quarter of 2023, approximate statement of changes in equity and approximate statement of cash flow. We point out that these financial statements are temporary and as such are not approved by the Supervisory Board. Furthermore, financial statements are unaudited and investors should not take them as a basis for their investment decisions, but they should merely use them as approximate info until the publishing of the final results, since there may be differences between temporary and final results.

Publishing of the final results (annual audited financial statements) for the Company and the Group is expected by 31 March 2024.

With the above stated, Management Board does not comment financial statements, but only presents key events for the Company in 2023.

Key events

The total pharmaceutical market in 2023 has increased by 12,28% compared to the previous year. At the same time, sales of Medika d.d. have increased by 24,91% compared to the previous year, which resulted in an increase in the market share by 3,84 percentage points and it is 38,04%.

Total credit indebtedness has decreased for EUR 22,0 million compared to the beginning of the year.

At the General Assembly meeting held on 02.05.2023, decisions were passed to pay out the dividend from the retained earnings of the Company to the amount of EUR 6,2 million. The dividend amounted to EUR 215.00 per share.

The Government of the Republic of Croatia adopted the Decision on the announcement of the introduction of the euro as the official currency in the Republic of Croatia (published in "Official Gazette" No. 85/22). With the aforementioned decision, the euro becomes the official monetary unit and legal currency in the Republic of Croatia on 1 January 2023. The fixed conversion rate is set at HRK 7.53450 for one euro.

The summary financial statements were prepared on the basis of the same accounting policies, views and calculation methods used in the preparation of the annual financial statements as at 31 December 2022, with the conversion of the reporting currency for the comparative period at the conversion rate of 7.53450.

Expected future development of the Company

The Company will continue with its core business: distribution of medicinal products and medical devices and strongly develop operations with products that make the core business of the Company.

Treasury shares

As at 31.12.2023, the Company holds 1,240 treasury shares.

Subsidiaries and associates

The Company has 100% ownership in subsidiaries Ljekarne Prima Pharme and Primus nekretnine d.o.o.

Ljekarne Prima Pharme has 100% ownership in subsidiary ZU Ljekarna Šeremet and an associate ZU Ljekarne Jagatić in which it holds 49% of ownership.

In the last quarter of 2023, the Group private practise Ljekarna Milanka Ivandić i Ana Ivandić was bought and merged to Ljekarne Prima Pharme.

Related parties

The company with major voting rights, Auctor d.o.o. owns 48,04% of the Company and has 50,10% of shares with voting rights.

Pliva Hrvatska d.o.o., Zagreb owns 25.32% of the Company and has 26.41% of the voting rights. Given the share in the ownership and business transactions with the Company, Pliva Hrvatska has significant influence on the current operations of the Company.

Financial risks and exposure to price risk, credit risk, liquidity and cash flow risk

The most significant market risk for the Company is the long collection period for trade receivables, especially HZZO (Croatian State Health Insurance) related receivables. Therefore, a significant amount of working capital is not available, which strongly affects the cash flow of the Company and timely settlement of its liabilities.

As the receivables represent, directly or indirectly, amounts owed by state institutions, their collection should not be regarded as probable of default risk. This indirectly increases the need for additional funding, which means additional business costs.

Credit risk arises primarily from trade receivables. The risk is higher when dealing with privately owned pharmacies. Hospitals, on the other hand, have extended collection periods, but there is no risk of non-settlement.

OB

A part of the Company's assets are interest-bearing assets, as a result of which its revenue and investing cash flows depend on fluctuations in market interest rates.

The Company's interest rate risk arises from its short-term and long-term borrowings at variable rates. Variable-rate borrowings expose the Company to the interest-rate cash flow risk. Fixed-rate borrowings expose the Company to the interest-rate fair value risk.

Price risk arises from continuous decrease in the prices of prescription medicinal products on the HZZO list and administrative approach in determining the prices and margins of medicinal products. To lower this risk, the Company has focused on expanding the lines of products that are not limited by law in respect of the price of the product.

In accordance with the Decision on the announcement of the introduction of the euro as the official currency in the Republic of Croatia (published in the "Official Gazette" No. 85/22), the euro becomes the official monetary unit and legal tender in the Republic of Croatia on 1 January 2023, and consequently the Company has no significant currency risk.

Regarding EU restriction measures, which refers to the consequences of exposure and the impact of the Russian invasion of Ukraine, Medika d.d. declares that it does not have a direct business relationship with entities from Russia or Ukraine, nor it is otherwise directly exposed to those entities in its business.

Nevertheless, the Company's Management Board estimates that a direct impact on the Company operations is possible due to the impact of the entire economy on global level, mainly due to the increase in the price of the products, both raw materials, interest rates and inflation that have increased further with the Russian invasion of Ukraine. Given the uncertain extent of the impact of the economy, the Company monitors developments and assesses the impact on business financial situation and cash flows.

Regarding EU restriction measures, which refers to the consequences of exposure and the impact of the Russian invasion of Ukraine, Company declares that it does not have a direct business relationship with entities from Russia or Ukraine, nor is it otherwise directly exposed to those entities in its business.

Nevertheless, the Company's management estimates that an indirect impact on the Company's operations is possible due to the impact on the entire economy on global level, mainly due to the increase in the price of energy products, both raw materials, interest rates and inflation that have increased further with the Russian invasion of Ukraine. Given the uncertain extent of the impact on the economy, the Company monitors developments and assesses the impact on business, financial situation and cash flows.
