## 1. SUMMARY

---

Mon Perin d.d. is a tourism company founded on 10 December 2005 in Bale, Istria. The company was established with a unique goal of developing and revitalising the local community, while encouraging progress and development through the use of existing cultural, historical and human resources. The emphasis is put on participatory, social, and sustainable entrepreneurship.

### 1.1. IN SHORT ABOUT MON PERIN D.D.

MON PERIN d.d. is a unique example of a company in which a large part of the local community, as well as its friends, participates and which since its foundation has always had more than 700 members, i.e., company shareholders.

The foundation of the Company was initiated and carried out in 2005 by the citizens' association "MON PERIN" from Bale, together with the Municipality of Bale (Valle), with the underlying idea of creating preconditions for progress and well-being of the local community through realising projects such as developing the Bale coastal area, as well as other entrepreneurial activities initiated in the Bale Municipality based on the municipality's spatial development study, participation in tenders for the allocation of land in concession, right of construction and/or ownership, preparation of necessary planning and other documents to bring land to its intended purpose, as well as the performance of hospitality, tourist, agricultural and other activities, primarily on the territory of the Bale municipality, while generating revenue.

The rules set by the Association for the procedure of company establishment contributed to the specific character of the Issuer. This primarily refers to the groups of its founders, the amounts of founding shares, and the calculation of voting rights held by business shares.

The company Mon Perin was founded in late 2005, with a unique management model and the goal of revitalising the Municipality of Bale-Valle. From the very beginning, its vision was focused on "social entrepreneurship" based on its specific ownership structure, the mode of investment in the local community and youth, and the employment of the local population.

In 2005, the Municipality of Bale-Valle adopted the Program-Spatial Municipal Development Study, which focused on the development of tourism with a recognisable identity and the brand "Bale – the region of dinosaurs, butterflies, humane accommodation (diffuse hotel), authentic olive growing and agriculture" .

Mon Perin was envisaged to become the leader in the development of tourism and the hospitality industry, with nearly all families residing on the area of the Bale Municipality investing in the Company, as well as the Municipality itself, and others, the so-called "friends of Bale", who recognised the project and wanted to participate.

On 16 December 2005, the establishment of the Company with a share capital of HRK 12,357,000.00 was entered in the court register, which was divided into 928 business shares.

After its establishment, Mon Perin d.o.o. signed a lease agreement with the Municipality of Bale-Valle for a period of 50 years for the Bale coastal area, i.e., more than 120 ha of land, which included the existing Colona and San Polo campsites, and the surrounding area. In addition, a coastal development study was adopted.

The year 2006 was the first year that the Company managed the existing campsites, which had a 1-star rating and in 2005 generated about HRK 2.5 million of revenue and realised 60,000 overnight stays.

In the first year of operation, the campsites' revenues increased to HRK 5.2 million, with overnight stays growing by 24%. On 27 December 2006, an increase in the share capital from HRK 12,357,000.00 by the amount of HRK 18,704,000.00 to HRK 31,061,000.00 was entered in the court register.

From 2006 onwards, the Issuer started to progressively invest in the campsites in order to improve their rating. As a result, a new, 2-star rating was issued for Campsite Colon and Campsite San Polo in 2012, which generated HRK 14.2 million in revenue and recorded 164,000 overnight stays.

In 2014, the company Mon Perin won the award "Poslovni uzlet (Business Take-Off) 2014" as the best small and medium-sized enterprise in Istria, the Croatian Littoral and Mountainous Croatia in the 1 January 2009 to 31 December 2014 period.

In 2015, a major investment cycle was launched with the aim of modernising the then Colona and San Polo campsites by investing in the existing infrastructure, toilets, restaurants, reception, pitches with infrastructure and mobile homes, with a broad-ranging goal of merging the two campsites into a single one with a 4-star rating.

In 2016, a new rating was issued for the Mon Perin campsite, which included the former Colona and San Polo campsites, at a 4-star level. The same year, HRK 28.8 million of revenue was generated and 216,000 overnight stays realised.

On 22 December 2017, an increase in the share capital from HRK 31,061,000.00 by the amount of HRK 64,950,000.00 to HRK 96,011,000.00 was entered in the court register.

In 2019, Mon Perin started investing outside the Mon Perin campsite, as the construction of the first duplex villa in Bale began, which was a step forward for Mon Perin in the segment of solid buildings and luxury accommodation. Also, as part of the diffuse hotel project, the first house was built in the old town of Bale. Both facilities are 5-star rated.

The offer of the Mon Perin campsite was expanded for the 2019 season with the construction of the "Paleo Park" theme water park, which complements the campsite's services and is open to external visitors.

The Paleo Park project received the "Simply the Best" award from the Association of Croatian Travel Agencies for the inventive design of the amusement park enriching the attractiveness of the tourist offer of the destination with its educational, as well as entertainment and recreational facilities.

In April 2019, the Mon Perin campsite was rated at a 4-star level, with an increase of the campsite's capacity.

In the 2019 season, the campsite received the award as the "Best Selectcamp Campsite" in Europe from the global travel agency Vacanselect, according to guest reviews.

On 20 December 2019, the transformation of the limited liability company into a joint stock company with a share capital of HRK 96,011,000.00 was entered in the court register, which was divided into 9,601,100 registered ordinary shares, in the nominal amount of HRK 10.00 each.

In 2020, due to the emergency situation caused by the COVID-19 pandemic, the Issuer's investments were reduced to a minimum, with only about 50% of revenues generated compared to 2019.

In 2021, with an increase in the rate of vaccination and the introduction of test points, the tourism sector made a fresh start, with better results achieved in the high season and postseason compared to the record year 2019. Thus, HRK 47,458 thousand was generated in accommodation revenue, with 252,154 overnight stays realised.

Based on the decision of the Company's General Assembly of 28 October 2021, the Company's share capital was increased from HRK 96,011,000.00 by the amount of HRK 10,719,270.00 to HRK 106,730,270.00. On 13 December 2021, the increase in share capital and changes in the provisions of the Issuer's Articles of Association were entered in the court register of the Commercial Court in Pazin.

From 2006 to 2019, the Company's revenues increased 11 times, and overnight stays almost 4 times, with a total of HRK 204,000 thousand invested in this period, or an average of HRK 12,750 thousand per year.

The Group consists of the parent company Mon Perin d.d., Bale, and the companies Maian d.o.o., Bale (80% share capital), Dandoli d.o.o., Bale (100% share capital) and Mon Perin Castrum d.o.o., Bale (100% share capital).

## 2. SIGNIFICANT BUSINESS DEVELOPMENTS

With COVID-19 still present, the start of 2022 was marked by the Russia's invasion of Ukraine, which created new uncertainty in terms of expected tourism flows. Despite the uncertainty caused by the war and the consequent rise in prices of energy and other commodities, the first semester of 2022 was marked by excellent results in terms of the number of overnight stays and arrivals of guests from all outbound markets.

The Company was listed on the Zagreb Stock Exchange in March, which also marked the culmination of the first developmental phase of the Company.

A total of HRK 56 million were invested to prepare for the 2022 season, primarily by improving the campsite's accommodation capacities, by refurbishing the pitches for campers and by placing luxury glamping villas with pools, which represents the first step of a new investment cycle with the aim of repositioning the Mon Perin campsite into a camping resort.

### 5.2 RESEARCH AND DEVELOPMENT ACTIVITIES

Considering the cyclical nature of its business operations, i.e., generating the largest part of annual revenues in the summer months, the Group has been exploring the possibilities of extending the tourist season by providing services in other periods of the year.

In this regard, in the 2022 and 2023 season, the Group is planning to introduce a high-quality mobile home product that provides pellet heating, which aims to ensure a comfortable stay in the colder months.

Furthermore, assuming the exclusion of extraordinary circumstances, the Group is planning to introduce a new wellness complex in the autumn of 2023 that would be complementary in nature to the above-mentioned mobile homes. The complex would include an indoor heated seawater pool, a fitness area, a spa zone, and a dedicated area for medical and therapeutic activities.

## **5.6 COMPANY AND GROUP RISKS**

### **5.6.1 Currency risk**

The Company has most of its prices expressed in euros and collects a significant part of receivables in the same currency, thus achieving price risk protection. The Group and the Company operate in the international market and are potentially exposed to currency risk as a result of changes in the nominal exchange rate of the euro and the kuna.

### **5.6.2 Price risk**

The Group and the Company are holders of equity securities and are exposed to the risk of changes in the price of listed equity securities. The Company and the Group are not active participants in the capital market in terms of trading in equity and debt securities. The investment in Adris Group d.d. shares exposed the Company to the risk of changes in the price of equity securities to some extent.

### **5.6.3 Cash flow interest rate risk**

The Group and the Company generate interest income on time deposits, thanks to surplus cash generated during the season period. Assets that generate interest income, income and cash flow from operating activities are not significantly dependent on changes in market interest rates.

The Group and the Company have the majority of loans contracted at a variable interest rate, while part of the loans received are at a fixed interest rate. This exposes the Company to cash flow interest rate risk.

### **5.6.4 Credit risk**

Assets that could potentially put the Group and the Company at credit risk include mainly cash, trade receivables and other receivables (maximum exposure to credit risk is disclosed in Note 20). The Group mainly deposits money with banks members of reputable banking groups in the EU.

The Group's and Company's sales policies ensure that sales are made to customers through advance payment, in cash or by major credit cards (individual customers, i.e., natural persons) and customers with an appropriate credit history (mainly travel agencies). The Group and the Company do not grant credit limits to customers. The management does not expect additional losses from non-performance by customers.

### **5.6.5 Liquidity risk**

Prudent liquidity risk management involves maintaining a sufficient amount of money, ensuring the availability of funds and the ability to meet all obligations. The management monitors liquidity projections on a weekly basis. At the corporate level, the Parent Company's finance department reviews internal financial statements on a monthly basis.
