All production plants operational

Pursuant to the Capital Market Act and the Rules of the Zagreb Stock Exchange, the Management Board of Petrokemija Plc issues the following notice:

Ammonia production plant as well as all other mineral fertilizer production plants have resumed operation following shutdown in September and October caused by technical failure, and extended downtime for the purpose of optimising and aligning business activities with the conditions on the gas market and high prices of gas and CO2 in Europe.

After successful restart of the production plants, operation has resumed according to production plans.
