Notice pursuant to the Capital Market Act

Repair of failure at Urea and Ammonia production plants

Pursuant to the Capital Market Act and the Zagreb Stock Exchange Rules, the Management Board of Petrokemija Plc hereby issues the following notice:

The technical failure at Urea and Ammonia production plants has been successfully repaired. The plants will remain shut down until further notice in order to optimise and align business operations to the conditions on the gas market and the record-high prices of natural gas and CO₂ in Europe. Pursuant to the regulations, the Company will report on the trends and further adjustments to its business operations, as well as the duration of production downtime. Sufficient mineral fertilizer quantities have been secured to maintain the supply of domestic and regional markets during downtime.
