KEY MESSAGES

BUSINESS RESULTS

Due to the seasonal nature of Croatian tourism, the share of the first quarter in the total annual revenues is commonly very small. After multifold increases in electricity costs and other inflationary pressures, in the autumn of 2022, Valamar decided to shorten the number of operating days at most hotels and campsites for the last quarter of 2022 and the first quarter of 2023. This has impacted revenue generation and the number of realised overnights. On the other hand, very good trends in bookings are encouraging and they indicate a possibly very good tourist season. We are pleased that, compared to last year, this improvement is particularly pronounced in the current status of bookings for our southern destinations, Makarska and Dubrovnik.

In the first quarter of 2023 operating revenue amounted to EUR 7.2 million, which is 8.8% less than for the same period in 2022. Almost 100 thousand overnights were realised, which represents a decrease of 25.9%, with an increase in the average price of 21.1%. Following a significant increase in electricity costs and increased investments in employees, an operating profit (adjusted EBITDA) of EUR -18.9 million was realised (Q1 2022: EUR -12.0 million).

INVESTMENTS

Investments for the 2022/23 season in Group's hotels, resorts and campsites amount to EUR 58 million. They represent an important further step in improving service quality and enabling the Group's growth.

The investments in Istra Premium Camping Resort are aimed at further quality increase and improvement of the premium segment through an expansion of various types of accommodation units in the camping zone Orlandin (10 new mobile homes). They also cover an expansion of Zone C

with 18 new villas with a swimming pool, a new restaurant called Tuna Bay Grill, the finalisation of Fonte restaurant, an upgrade of the supermarket and outdoor wellness and an expansion of the parking and charging stations for electric vehicles.

The project of reconstructing and repositioning Valamar Tirena Hotel foresees the renovation of this hotel to raise its quality and upgrade its premises. Worn-out equipment elements will be refurbished and working processes will be modernised. After these investments, the hotel's category will be raised to four stars, i.e. the hotel will be repositioned to Valamar Hotels & Resorts 4*. This will include a complete renovation of all 208 accommodation units and public spaces.

With respect to Valamar Lacroma Hotel, ongoing investments are aimed at improving its quality and doing an interior redesign of the hotel. The investments will cover 48 hotel's accommodation units, its public spaces with an emphasis on the F&B segment, an indoor pool and wellness zone, the new outdoor Mezzino bar, and a swimming pool complex with slides and a sunbathing area.

The investment in Valamar Club Dubrovnik Hotel has been completed. It included a complete renovation of 102 accommodation units and a partial renovation of 199 accommodation units. The entrance to the hotel and the driveway have been also been renovated. The hotel reception, lobby and entire restaurant have been refurbished. With this investment, the hotel has been repositioned to Club Dubrovnik Sunny Hotel by Valamar.

HUMAN RESOURCES

In 2023, Valamar, as the most desirable employer in the Croatian tourism industry, plans to invest an additional EUR 20 million in the remuneration of its workers. In agreement with its social partners, Valamar is increasing the salaries in its hotel operations. The salaries in Valamar to be paid for the high season are thus being adjusted to European salaries. The salaries for professional jobs - cooks, waiters and receptionists at Valamar's hotels, campsites and resorts, which will be paid in the high season, i.e. in June, July and August, will thus range from EUR 1,200 to 1,800 net. The salaries in the high season for housekeepers, assistant chefs, assistant waiters, kitchen workers, waiters and many others will range from EUR 1,000 to 1,200 net. Valamar continues with a number of its reward programmes that are particularly designed for rewarding excellence, commitment and outstanding results.

GENERAL ASSEMBLY

The General Assembly of the Company was held on 24 April 2023. It passed the decision on the distribution of profit realised in 2022, the decision on giving the approval of actions to members of the Management Board and Supervisory Board, and approved the remuneration report for members of the Management Board and Supervisory Board for 2022. Also, Auditors Ernst & Young d.o.o. za reviziju and UHY RUDAN d.o.o. were appointed to do the audit of the company Valamar Riviera d.d. in 2023.

Besides the stated decisions, the General Assembly adopted the decision on the alignment of the share capital which now amounts to 221,915,350.00 euro and the decision on amendments to the Articles of Association of the Company. These two decisions are connected with the introduction of the euro as the official currency of the Republic of Croatia. The General Assembly also passed the decision on the pay-out of the dividend in the amount of EUR 0.20 per share (dividend yield of 4.5%), or a total of EUR 24,377,581.40. The dividend will be paid out on 10 May 2023 from retained earnings in 2019. Ex-date, i.e. the date from which the Company's shares are traded without the right to dividend pay-out, was 27 April 2023.

In the fall of 2022, Valamar made the decision to reduce the number of working days in most hotels and campsites for the last quarter of 2022 and the first quarter of 2023 due to increase in electricity costs and other inflationary pressures. Average operating days were thus reduced from 11 in the first quarter of 2022 to 7 in the first quarter of 2023. This, of course, affected revenue and the number of achieved overnights. However, current booking trends encourage and point to a possibly very good tourist season.

REVENUES

In the first quarter of 2023, total revenues amounted to EUR 7.6 million, a decrease of 23.0% (EUR 2.3 million). The total realized revenues were affected by:

a) sales revenue growth of 5.6% (EUR 0,4 million) to the amount of EUR 6.8 million, of which EUR 3.6 million are board revenues. There has been a slight change in the structure of revenues; domestic sales revenues amount to EUR 3.3 million with a share of 49.1% in sales revenues (53.8% in the same period in 2022) and are down by EUR 119 thousand as regards to the comparable period in 2022. With a share of 50.9% in sales revenues (46.2% in the same period 2022), sales revenues on foreign markets amount to EUR 3.4 million, an increase of EUR 479 thousand.

b) decrease of other operating revenues of 71.9% compared to the same period in 2021 to EUR 413 thousand mainly due to lower revenues from the sale of assets.

c) financial revenues amount to EUR 324 thousand and are 83.7% lower than those realized in the same period in 2022, mostly due to the absence of unrealised gains from financial assets (based on the fair value of interest swaps).

TOTAL OPERATING EXPENSES

Total operating expenses amount to EUR 42.1 million and are up by 16.3% from last year's. Breakdown of operating expenses:

a) material costs amount to EUR 9.2 million and are higher by 39.8% mainly as a result of increased costs of raw material, electricity and promotional activities

b) staff costs increased by 25.3% and amount to EUR 13.2 million, after additional investments in salary increases and employee rewards

c) depreciation amounts to EUR 15.9 million, which represents a decrease of 2.3%

d) other costs increased by 45.1% to the amount of EUR 3.5 million. The increase is mainly due to increased costs for food and employee accommodation, costs of work through the agency, utility charges and travel expenses

e) other operating expenses amount to EUR 254 thousand, which represents a decrease of 31.5%.

¹² Classified according to Annual Financial Statements standard (GFI POD-RDG).

¹³ Operating costs include material costs, staff costs, other costs, and other operating costs reduced by extraordinary expenses and one-off items.

EBITDA AND PROFIT FOR THE PERIOD

The first quarter is generally marked by a characteristic negative EBITDA due to the decreased business volume. Thus, in the first quarter of 2023, a negative adjusted EBITDA amounted to EUR -19.1 million, which represents a decline of 46.7% (i.e. by EUR 6.1 million) compared to the negative adjusted EBITDA realized in the first quarter of 2022 in the amount of EUR -13.0 million.

The main reasons for this are the multiple increases in the price of electricity and increased investments in total employee income. Depreciation and net financial result (explained in more detail in the next paragraph) were at very similar levels over the two observed periods. Therefore, EBT generally followed the development of EBITDA and fell by EUR 5.3 million to the level of EUR -37.0 million.

The Group estimated the increase in deferred tax assets on the realized loss and new investment incentives (the latter refers in its entirety to Imperial Riviera d.d.) and recognised tax revenue of EUR 8.8 million accordingly. The net loss for the period is EUR 28.2 million.

Valamar Carolina Hotel & Villas 4*, Krk Island

RESULT FROM FINANCIAL ACTIVITIES

The result of financial activities for the first quarter of 2023 amounts to EUR -2.2 million and has improved by EUR 1.2 million compared to the same period in 2022, when it amounted to EUR -3.4 million.

The higher net financial result was mostly the result of the absence of negative exchange rate differences due to the introduction of the euro. Net exchange differences in the first quarter of 2022 amounted to EUR -2.6 million and mainly related to long-term loans denominated in euro. In the first quarter of 2023, exchange differences amount to only EUR -4 thousand and relate to operations with other foreign currencies.

However, unrealised income from financial assets was absent, which was reported in 2022 in the amount of EUR 1.2 million (based on the fair value of interest swaps), while in 2023 unrealised expenses from financial assets in the amount of EUR 256 thousand were reported. Interest expense in the first quarter of 2023 increased by EUR 269 thousand compared to 2022 due to an increase in interest rates.

Financial income and expenses

Net debt ¹⁴

¹⁴ Net debt: non-current and current liabilities to banks and other financial institutions + liabilities for loans, deposits and other + other liabilities according to IFRS 16 (leases) – cash and cash equivalents – long-term and short-term investments in securities – current loans given, deposits, etc.

ASSETS AND LIABILITIES

As at 31 March 2023, the total value of the Group's assets amounted to EUR 824.7 million and decreased by 3.2% compared to 31 December 2022. Total share capital and reserves amount to EUR 412.9 million and are lower by 6.4% as a result of the realized loss in the first quarter of 2023.

Total long-term and short-term liabilities to banks and other financial institutions as at 31 March, 2023 amount to EUR 328.4 million and are down by 5.0% compared to 31 December, 2022 as a result of repayment of short-term loans.

A large part of the loan portfolio (90.5%) consists of long-term loans with an agreed fixed interest rate, i.e. loans protected by derivative instruments (IRS) for the purpose of hedging interest rate risk.

As at 31.3.2023, the Group's cash balance amounts to EUR 52.0 million, which represents a decrease of 41.8% vs. 31.12.2022. The main reasons for the decrease in cash in the first quarter of 2023, in which high seasonal inflows are usually absent, are loan repayments, investments in long-term assets and expenses needed to prepare for the high season.

Assets and liabilities

Such high cash balance of the Group together with i) the contracted credit lines, ii) valuable tourism assets and iii) a strong operational business model made the Group's balance sheet position stable.

Results of the Company

In the first quarter of 2023, total revenues amounted to EUR 8.1 million, which is a decrease of 88.8% or EUR 64.3 million compared to the same period in 2022, when they amounted to EUR 72.4 million. The greatest contribution to the decrease in total revenues is the absence of income from the sale of assets. Namely, in the first quarter of 2022, the three hotels in Dubrovnik (Valamar Lacroma Dubrovnik Hotel, Club Dubrovnik Sunny Hotel by Valamar and Tirena Sunny Hotel by Valamar) were transferred from company Valamar Riviera to company Imperial Riviera. Consequently, Valamar Riviera d.d. generated net revenues, i.e. profit from the assets' sale in the amount of EUR 62.6 million shown in the item Other operating revenues with entrepreneurs within the group. This transaction had a significant impact on the Company's separate financial reports, while it had no impact on the Group's financial reports as it was an intragroup transaction.

Sales revenues amounted to EUR 7.3 million, increasing by 12.8 % compared to the same period last year. Domestic sales revenues were EUR 4.6 million and represented 62.7% of total sales revenues (66.7% in 2022). Foreign sales revenues amount to EUR 2.7 million with a share of 37.3% in total revenues (33.3% in 2022).

Material costs amount to EUR 7.8 million with a growth of 31.7% as a result of increased costs of raw and other materials, electricity and promotional activities. Staff costs amount to EUR 11.4 million and are 24.8% higher than last year, following additional investments in salary increases and rewards for employees. Depreciation is EUR 11.6 million and is 4.8% lower compared to last year.

In the first quarter of 2023, the net financial result was EUR -1.2 million (EUR -2.7 million in the same period in 2022). The improved net financial result was mostly the result of the absence of negative exchange rate differences due to the introduction of the euro. Net exchange differences in the first quarter of 2022 amounted to EUR -1.9 million and mainly related to long-term loans denominated in euros. In the first quarter of 2023, exchange differences amount to only EUR -3 thousand and relate to operations. Additionally, lower interest payable in the amount of EUR 191 thousand (lower loan liabilities) had an impact on the improvement

TOTAL REVENUES SIGNIFICANTLY REDUCED DUE TO THE ABSENCE OF A HIGH PROFIT REALIZED IN THE FIRST QUARTER OF 2022 FROM THE SALE OF THREE IMPERIAL RIVIERA HOTELS

STRONG CASH POSITION OF THE COMPANY AS AT 31 MARCH 2023 OF EUR 36.5 MILLION

of net financial results. However, unrealized income from financial assets was absent, which was reported in 2022 in the amount of EUR 989 thousand (based on the fair value of interest swaps), while in 2023 unrealized expenses from financial assets in the amount of EUR 42 thousand were reported.

The first quarter is generally marked by a characteristic negative EBITDA due to the decreased business volume. Thus, in the first quarter of 2023, a negative adjusted EBITDA amounted to EUR -14.5 million, which represents a decline of EUR 67.9 million compared to a positive EBITDA realized in the first quarter of 2022 in the amount of EUR 53.4 million. This is primarily the result of the absence of the aforementioned profit from the sale of assets realized in 2022 in the amount of EUR 62.6 million. Additional impact comes from multiple increases in the price of electricity and increased investments in total employee income. After 4.8% lower depreciation costs and the improved net financial result described above, EBT amounts to -27.3 million.

The Company estimated the increase in deferred tax assets on the realized loss and recognized tax revenue of EUR 5.0 million, accordingly. The net loss for the period is EUR 22.3 million.

As at 31 March 2023, the total value of the Group's assets amounted to EUR 671.2 million and decreased by 3.2% compared to 31 December 2022. Total share capital and reserves amount to EUR 385.8 million and are down by 5.5% as a result of the realized loss in the observed period. As at 31 March 2023, the Company's cash balance amounted to EUR 36.5 million, which represents a decrease of 38.5% compared to 31 December 2022.

Investment cycle 2022/23

The continuous success and growth of Valamar Riviera rest on investing in products, employees and tourist destinations. Through its commitment to reducing carbon footprint and its continued renewable energy investments, Valamar Riviera always takes care to ensure sustainable and socially responsible development. Along with enriching our tourist offer, we have developed Valamar service concepts to reach current market demands and guest expectations. We have thus respectively adjusted our planned portfolio development towards high added value offer and services, focused on the premium resorts and campsites segment, to the decreased investment intensity in the past couple of years. Simultaneously, we have prepared new growth and development projects for the future. In accordance with the harmonisation of our planned portfolio and development with the current tourist flows and a proactive approach to cash flow management and financing, we have primarily focused our investments in the 2022/2023 cycle on finalising the commenced projects and realising new investments. These investments are aimed at enhancing quality and guest satisfaction.

The approved investments for the 2022/2023 cycle at Valamar Group amount to a total of EUR 58 million. The Group has continued aligning its products and developing digitalisation projects to boost its service quality and improve guests' safety for the upcoming tourist season. These investments mostly relate to financing the improvement and quality upgrade of Istra Premium Camping Resort, the repositioning of the Valamar Tirena Hotel to the VHR 4* category, the building of the Maro World in Babin Kuk and the repositioning of the Club Dubrovnik Sunny Hotel to the Sunny Plus concept. Besides investing in hotels and campsites, Valamar has also been actively investing in digitalisation and innovation for the new growth period.

VALAMAR RIVIERA

Valamar Riviera continues its investment cycle in 2022/2023 in the amount of EUR 26.0 million. Besides continuing to invest in energy efficiency and digitalisation projects, these investments mostly relate to the projects of quality upgrade and improvement of Istra Premium Camping Resort 5*, a further upgrade and improvement of

Istra Premium Camping Resort 5*, Poreč

the Corinthia Sunny Plus Hotel by Valamar 3*, projects of investing in the maintenance of properties and guest facilities and in accommodation of seasonal employees in all destinations.

The biggest individual capital investment in 2022/2023, amounting to EUR 7.5 million, relates to Istra Premium Camping Resort, the best Family Camping Resort in Croatia and one of the best campsites in the Mediterranean. This investment is focused on additional quality upgrades and premium segment improvements. It includes an expansion of the Orlandin zone (10 new mobile houses), an expansion of the C zone including 18 new villas with a swimming pool, a new restaurant called Tuna Bay Grill, the finalisation of the Fonte restaurant, an upgrade of the supermarket and outdoor wellness, and an expansion of the parking lot and charging stations. The C zone will be expanded to an area of 9,200 m2 that will accommodate 18 brand new villas with a private swimming pool. Besides a private pool with heated water and an outdoor shower, each villa will consist of a bedroom with a double bed, a children's room with two beds, a bathroom with a shower, and a covered terrace. These investments will also ensure an additional quality upgrade of all campsite facilities and an overall service uplift. Another significant investment relates to further modernisation and upgrade of Corinthia Sunny Plus Hotel by Valamar 3*, i.e. the investment in the rooms as well as the reconstruction of Buffet and pool terrace.

Valamar Riviera is continually focused on green projects, sustainability and energy efficiency. In this investment cycle, Valamar Riviera has invested in sustainability projects almost 10% of its total current investment plan. We have upgraded our bio-waste and recycling units, reconstructed our solar panels, installed electric vehicle chargers, and planted new trees and greenery in all of our destinations. We have made an additional investment of EUR 4 million in digitalisation and innovation projects that serve to continually improve our service quality. When it comes to significant investments in sustainability and energy efficiency, we can mention the refurbishment of the recycling yard and desalination – the process of removing minerals from seawater. Besides environmental protection and energy efficiency, we pay particular attention to investing in the maintenance of all of our destinations. We do so by investing in the regular maintenance of properties and guest facilities and by investing in safety. Taking into account the 2022/2023 investment cycle only,

IMPERIAL RIVIERA

The company Imperial Riviera d.d. continues with its 2022/2023 investment cycle in the amount of EUR 31.6 million. The most important investments relate to the Dubrovnik destination, i.e. to Valamar Tirena Hotel, Valamar Lacroma Hotel, Valamar Club Dubrovnik, and to the ancillary properties of Exodus and Popiva, i.e. the future Maro World.

The most important investment is the project of reconstruction and repositioning of Valamar Tirena Hotel. This project is aimed at refurbishing this hotel to make quality upgrades and modernise the hotel premises, renovate old equipment parts and update the working processes. These investments will also be utilised to upgrade this hotel to the four-star quality level, i.e. to reposition it to Valamar Hotels & Resorts 4*. All accommodation units and all public areas are being fully renovated, and the entire outdoor hardware is being replaced. New glass balcony fences are being installed to meet the safety requirements. The reorganisation of the kitchen on the ground floor in accordance with the provisions of the HACCAP standard is also planned. The cafeteria and the backdoor space will be arranged as well. This investment will also include a redesign of the main roof cover, a remodelling of the hotel entrance, of the lobby and the reception. The planned investment amounts to EUR 14.2 million.

The investment in Valamar Lacroma Hotel is ongoing and it covers quality upgrades and a redesign of the hotel's interior, including a part of accommodation units, public areas with an emphasis on the F&B segment, the indoor swimming pool and wellness zone, a new outdoor Mezzino bar, and the swimming pool complex with water slides and the accompanying sun deck. The investment in the part of accommodation units includes a redesign of their interior with fully new furnishings, fitted and moveable furniture and hotel equipment. The planned investment amounts to EUR 5 million.

The investment in Valamar Club Dubrovnik Hotel has been finalised. It has included a complete remodelling of 102 accommodation units and a partial remodelling of 199 accommodation units. The hotel's entrance and driveway have been remodelled as well, along with the interior redesign of the reception, lobby and the entire restaurant. A new water slide has been installed in the outdoor swimming pool zone, and new equipment for the sun deck and the swimming pool zone has been procured. This investment has repositioned this hotel to Club Dubrovnik Sunny Hotel by Valamar. The investment amounted to

EUR 2.9 million.

Also, the investment relating to two existing properties, Popiva and Exodus, is also underway. After it is finalised, this area will become a large children's animation complex with various facilities for all ages under the name of Maro World. The investment will include a complete reconstruction of the property and the construction and refurbishing of new facilities within and outside the properties on the total area of 1,800 m². Maro World is designed to be a large theme playground at the disposal of all our guests in the destination of Dubrovnik. The planned investment amounts to EUR 3.9 million.

Except for investing in properties, Imperial Riviera d.d. actively invests in maintenance, furniture, IT equipment, and energy efficiency increase projects. Additional infrastructural solutions are also planned within investments in software integrations, WiFi projects, video surveillance, charging stations, adding sand to Padova beach, and planting trees in all of our destinations.

The preparation of the project documentation for the following investments is underway: San Marino Sunny Resort by Valamar, San Marino Premium Camping Resort by Valamar, Valamar Collection Suha Punta Resort, repositioning of Valamar Padova Hotel to Maro Hotel, the final phase of the refurbishment of Padova Premium Camping Resort by Valamar (Brdo Zone), improvement of the operations of Valamar Parentino Hotel through National Recovery Plan for Bike Centre Parenzana project, Riviera Sunny Resort by Valamar. ESG STRATEGY AND GOALS

At the end of June 2022, Valamar presented a new sustainability strategy and ESG targets by 2025 in an integrated report (available at the link: <https://valamar-riviera.com/pdfjs/viewer.html?file=/media/451419/integrated-annual-report-and-sustainability-2021.pdf>). It is a strategic plan that combines 12 key environmental (E), social (S) and governance (G) goals that Valamar plans to achieve through 6 strategic initiatives by 2025. The 2021 Integrated Report, which also includes a non-financial report is in accordance with the Standards of the Global Reporting Initiative (GRI) as well as the applicable regulations related to the EU taxonomy. Valamar is the first tourism company in Croatia to integrate sustainable development into business and development management and to announce sustainability goals according to the ESG framework.

The comprehensive sustainability strategy focuses on six strategic initiatives to achieve the ESG targets by 2025 and position Valamar as a sustainability leader among European hotel and tourism companies. The ESG strategy includes Valamar's entire value chain from suppliers, employees and operations, to guests and destinations. Valamar is committed to sustainable use of natural resources and a positive impact on the destinations and society in which it operates.

As the leading tourism company in Croatia, Valamar has invested almost 65 million euros in various sustainability and social responsibility programs since 2015. These programs include investments in renewable energy and energy efficiency, tourism infrastructure, as well as numerous programs for employees, social and philanthropic programs. Valamar presented a new sustainability strategy and ESG goals by 2025. Valamar Riviera plans to become a carbon neutral company in the first and second scope in the next three years and will invest EUR 50 million in destination development and sustainability projects.

ESG STRATEGIC PLAN INCLUDES 12 KEY GOALS IN THE AREA OF ENVIRONMENT (E), SOCIETY (S) AND GOVERNANCE (G) TO BE REALIZED UNTIL 2025

VALAMAR PLANS TO ACHIEVE CARBON NEUTRALITY BY 2025 (FIRST AND SECOND SCOPE)

2025 ESG GOALS

1. CARBON NEUTRALITY BY 2025 (first and second scope)

Valamar will continue to reduce its greenhouse gas emissions and achieve carbon neutrality at company and portfolio level owned and operated by 2025.

2. 15% OF SOLAR ELECTRICITY

Valamar will significantly increase the share of electricity from renewable sources, i.e. solar energy produced at Valamar properties, and will continue to invest in renewable energy sources through long-term partnerships.

3. HIGHEST SEA WATER QUALITY IN ALL VALAMAR DESTINATIONS

Valamar will continue to protect and manage the quality of the sea in all its destinations measured by the Blue Flag, the world-famous label that ensures the ecological management of beaches and marinas.

4. REFORESTATION AND 80,000 TREES

Valamar is committed to reforestation and sustainable management of 80,000 trees and hundreds of hectares of greenery in and around Valamar's properties, especially on the Adriatic coast.

5. WASTE RECYCLING RATE BETTER THAN EU AVERAGE

Valamar will continue to achieve higher recycling rates than the EU average.

6. LOW WATER WITHDRAWAL

Valamar will keep the water withdrawal intensity below 0.55 m³ per occupied room and focus on the use of treated wastewater and optimization of water consumption.

7. ZERO SINGLE-USE PLASTIC

Valamar strives to replace or dispose of single-use plastic packaging in its properties.

8. 70% OF DOMESTIC EMPLOYEES

Valamar employs and retains local employees. The company provides

numerous opportunities for personal and professional development of employees through education and training programs.

9. LOCAL FOOD SHARE 80%

Valamar has a high share of domestic production and local products in the food and beverage segment. By promoting indigenous products, Valamar provides authentic experiences and develops long-term partnerships with local producers.

10. EUR 50 MILLION INVESTED IN ESG

Valamar will continue to invest in carbon neutrality, biodiversity, employees, destination development, tourism infrastructure and local communities for the benefit of all stakeholders.

11. RESPONSIBLE SUPPLIERS' VALUE SHARE 80%

In order to have a greater positive impact on the environment and the destinations in which it operates, Valamar engages and motivates its strategic suppliers to transition towards sustainable business practices.

12. 100% OF PROPERTIES WITH SUSTAINABILITY CERTIFICATES

Valamar's commitment to sustainability is recognized by professional organizations and a large number of Valamar properties hold these certificates.

During 2022, Valamar has taken certain steps towards achieving the set goals. Fifteen blue flags are found in Valamar destinations, and 78% of food and beverages are locally produced. Valamar will plant almost three thousand new trees in Split-Dalmatia and Karlovac County by mid-December. In 2022, 100% of Valamar's properties earned ISO 14001 and 50001 certificate, and 34 properties have sustainability certificates.

VALAMAR RIVIERA AND IMPERIAL RIVIERA ENVIRONMENTAL AND SUSTAINABLE CERTIFICATES IN YEAR 2022

Valamar's commitment to sustainability has been confirmed by certification bodies and organizations that have awarded numerous sustainability certificates and labels to Valamar Group companies and tourist accommodation facilities.

Sustainability certificates are independent confirmation that Valamar operates in accordance with high standards of environmental protection and social responsibility, i.e. that we take care about ecology, health and safety, labour and human rights, as well as the local community when making business decisions and during operations.

Below are presented the certificates and labels of sustainability pillars that are awarded to Valamar.

ESG IN 2023

Environment

Reducing greenhouse gas emissions is one of the 12 ESG objectives defined by the ESG strategy. Reducing greenhouse gas emissions is becoming increasingly important to our guests as well. Namely, many guests want to reduce and compensate for their carbon footprint during their stay at hotels or campsites. Emissions at Valamar's properties are among the lowest in the Mediterranean. We have been continuously reducing our carbon footprint by replacing fossil fuels with electricity from renewable sources, installing heat pumps, and building photovoltaic power plants on our properties in cooperation with E.ON and through other measures.

In 2023, we have continued investing in LED lighting and in the infrastructure for charging stations for electric cars and 100% of electricity at Valamar in the first quarter is coming from renewable sources.

We sustainably manage more than 80,000 trees in our tourist zones where we have planted 738 trees so far this year. We plan to continue the One, Two, Tree drive as well. Within this drive, together with our guests, we will plant over 8,000 trees in Croatia, which is almost 5,000 trees more than last year.

protection to our guests, employees and suppliers are part of the investments in waste selection and waste disposal. We participate in the pilot project Reduce Food Waste, Cook for Your Guests organised by the Environmental Protection and Energy Efficiency Fund, the Ministry of Economy and Sustainable Development, and the Ministry of Tourism and Sports.

We continue to remove single-use plastics from our hotels and campsites. Valamar properties do not use small packaging of cosmetics. Most of the other guest supplies are made of natural or biodegradable materials (wood, bamboo, cotton) and paper menus have been replaced with digital menus. Already as of 2018, all plastic straws have been replaced with environmentally friendly alternatives.

Society

We additionally invest in employee remuneration. You can read more about this in the pages under the chapter on Human Resources. This year, Valamar provided a playground for the kindergarten in Žbandaj, thus continuing Valamar's long-term cooperation with the City and kindergarten Radost.

As an employer that takes the needs of its workers in the local community into account, this summer Valamar will enable the enrollment of the children of its Poreč employees in one kindergarten group and in one children's nursery group of kindergarten Radost. This year, Valamar is once again launching the donation program 1,000 days on the Adriatic for socially, economically or health-impaired children

Governance

The prolongation of the ISO 9001 quality certificate for all Valamar properties is underway as well as the prolongation of the environmental protection certificate ISO 14001, energy management certificate ISO 50001, as well as sustainability Travelife certification for 28 hotels and EU Ecolabel for 6 campsites. This year, 17 of our beaches will be proud to display their Blue Flag certificate.

The integrated report for 2022 will be published on June 30, 2023

HUMAN RESOURCES

Valamar is one of the largest employers in Croatia. Valamar is one of the largest employers in Croatia. On 31.3.2023. The Valamar Group employed a total of 3,686 employees, of which 2,357 were permanent, and the Company employed 2,870, of which 1,842 were permanent.

The Company and the Group have been systematically and continuously investing in the development of their human resources through a comprehensive strategic approach to human resources management. This includes a transparent recruitment process, clear goals, measuring employee performance and investing in employee development and careers, and encouraging two-way communication.

In 2023, Valamar Riviera will invest an additional EUR 20 million in the remuneration of its workers. In agreement with its social partners, Valamar Riviera will increase the salaries in its hotel operations, whereby the remunerations at Valamar for the high season are adjusted to European salaries.

The salaries for professional jobs - cooks, waiters and receptionists at Valamar's hotels, campsites and resorts to be paid in the high season, i.e. in June, July and August, will range from EUR 1,200 to 1,800 net. In the high season, the salaries for housekeepers, assistant chefs, assistant waiters, kitchen workers, waiters and many others will range from EUR 1,000 to 1,200 net. Additionally, from 1 May, coefficients will increase for as many as 129 jobs, whereby the basic salary of 2,800 employees will increase.

Valamar continues with a number of its reward programmes that are particularly designed for rewarding excellence, commitment and outstanding results. Valamar Riviera thus confirms its title as the TOP employer in the Croatian tourism industry. This is the title that has been awarded to Valamar for many years now.

Except for the increase in salaries, several initiatives have been launched to improve the working conditions in tourism and align the jobs at Valmar to new trends and requirements. The 'Live the Destination' programme thus offers other benefits such as discounts at more than three hundred points of sale and flexible forms of work to best support the life-work balance.

In the last 5 years, EUR 18.5 million has been invested in the construction of quality accommodation for seasonal employees under the name of Valamar House. This investment enabled the opening of five such staff residences for seasonal employees, two of which in Poreč, one on the island of Krk, one in Rabac and one in Dubrovnik. Year after year, Valamar has been investing in that project. This concept of ensuring modern and quality accommodation and meals for seasonal employees during their stay in the destination where they work has been continuously improving. The goal of the Valamar House concept is to provide seasonal employees with excellent accommodation and meals in all of Valamar's destinations. The modern Valamar Houses offer single and double bedrooms, free internet, relaxation areas and quality meals.

In cooperation with the Croatian Employment Service, Valamar has been implementing the 'Permanent Seasonal Employee' active employment policy. It is aimed at ensuring financial support to its seasonal employees during the whole year. Valamar employees can also work during winter at Valamar's hotels in ski resorts in Austria, which enables them to have a year-round income.

Valamar has been included in the Programme of Supporting the Education of Professionals in Hospitality and Tourism, implemented by the Ministry of Tourism and Sports, from its very beginning. Through this Programme, Valamar has been co-financing the scholarships for pupils of vocational tourism schools. Valamar is the largest scholarship provider in Croatia, and it provides scholarships for 111 pupils in the school year 2022/2023.

As an employer, Valamar is included in a series of other activities to increase pupils' motivation for tourism jobs, such as holding presentations to pupils and presenting tourism jobs and career development. Valamar actively participates in increasing the quality of tourism education. Valamar's specialists and mentors hold lectures in schools, and pupils visit Valamar's hotels and campsites and thus become acquainted with the actual requirements of the job.

Valamar also participates as a partner to three regional tourism competence centres and, together with the academic community, develops new curricula and job standards.

The Risks of the Company and the Group

Tourism is a global industry, closely connected with the real and financial economy, geopolitical position and environmental sustainability. The integrity of this industry will determine its future growth. Given the importance of tourism and its overall impact on society, the Company and the Group monitor and assess risks at micro and macro levels. Moreover, when defining the strategy, particular attention is given to the short and medium-term risk impact in order to maintain business sustainability over time.

When monitoring and assessing risks the Company and Group use a proactive approach thus assessing the potential impact of each individual risk. The Company and Group consider risk management to be a key factor of differentiation among competitors. Risk management aims at creating sustainable value, thus offering reliability and security to numerous stakeholders.

5

KEY STEPS IN RISK MANAGEMENT PROCESS

There are five key steps in a risk management process:

- 1) Identifying potential risks;
- 2) Assessing identified risks;
- 3) Determining actions and responsibilities for efficient risk management;
- 4) Monitoring and overseeing preventive actions;
- 5) Exchanging information on risk management results conducted by the Management board.

The different types of risks facing Valamar can be classified into the following groups:

- Financial risks - related to financial variables, can have a negative impact on meeting liabilities for the company and the Group, liquidity, debt management etc.;
- Business risks - related to the way company business is conducted in terms of supply and demand, competition, adapting to market trends, investments, growth etc.;
- Operational risks - can arise from inadequate use of information, errors in business operations, non-compliance with internal procedures, human error, IT system, financial reporting and related risks, etc.;
- Global risks - can arise from natural disasters, pandemics, food shortage, social unrest, wars and other force majeure events beyond Valamar's control;
- Compliance risks - can arise from failure to comply with state laws and local regulations; risks related to changes in tax and other regulations.

FINANCIAL RISKS

In their day-to-day business activities, the Company and Group face a number of financial threats, especially:

- 1) Foreign exchange risk;
- 2) Interest rate risk;
- 3) Credit risk;
- 4) Price risk;
- 5) Liquidity risk;
- 6) Share-related risks;
- 7) Risk of inflation and increase in prices of purchased goods.

The Company and Group have a proactive approach in mitigating interest rate and foreign exchange risks, by employing available market instruments. Internal risk management goals and policies aim at protecting foreign currency inflows during seasonal activity and partial interest hedging of the principal loan amount.

1) Foreign exchange risk

The Company and the Group operate internationally and are exposed to currency risks. Until 1.1.2023, the currency risk was mainly due to the changes in the nominal exchange rate of euro/kuna. Namely, a large part of liabilities was expressed in euros, while most sales revenues were historically realised in euros as well. At the level of the Company and the Group, the business with other currencies accounts for less than 1% of the total turnover. After the introduction of the euro as the national currency, a significant currency risk exposure is no longer expected.

2) Interest rate risk

Variable rate loans expose the Company and Group to cash flow interest rate risk. Actively, the Company and Group resort to derivative instruments in order to hedge cash flow and interest rate by applying interest rate swaps. The economic effect of such swaps is the conversion of variable interest rate loans into fixed interest rate loans for a precommitted hedged part of the loan principal. Therefore, a major part of the loan portfolio is comprised of long-term fixed interest loans or, respectively, loans hedged by a derivative instruments (IRS). The Company and Group have interest-bearing assets (cash assets and

deposits) so their revenue and cash flow depend on changes in market interest rates. This becomes evident especially during the season when the Company and Group have significant cash surpluses at their disposal. The Company and the Group expect a limited impact from the increased interest rate volatility consequent to the recent coronavirus pandemic, since a large portion of the Group's loan portfolio (90.5%) is made up of long-term fixed-rate loans, i.e. loans protected by derivative instruments (IRS).

3) Credit risk

Credit risk arises from cash assets, time deposits and receivables. According to the Company and Group sales policy, business transactions are conducted only with customers with suitable credit history, i.e. by agreeing advances, bank securities and (for individual customers) payments made through major credit card companies. In order to reduce credit risk, the Company and the Group continuously monitor their exposure to the business parties and their creditworthiness, obtain instruments for securing receivables (bills of exchange, debentures and guarantees), thus reducing the risks of uncollectability of their receivables for the services provided. In view of the negative effects of COVID-19 on the customers of the Company and the Group, especially tour operators and travel agencies, the impact of the currently unfavorable circumstances on the related parties is being closely monitored, while actively reviewing the credit ratings and their potential to overcome current challenges.

4) Price risk

The Company and Group hold equity securities and are exposed to equity price risk due to security price volatility. Valamar is not an active participant in the market trade in terms of trading in equity and debt securities. However, with investments in buying Imperial Riviera and Helios Faros shares, the company is exposed to the said risk to a certain extent.

5) Liquidity risk

The Company and Group have a sound liquidity risk management. Sufficient funds for meeting liabilities are available at any given moment through adequate amounts from contracted credit lines and by ensuring credit line availability in the future. Liquidity risk is managed by generating strong positive net operating cash flows, while capital investments are financed by credit lines. Credit lines for 2020 and 2021 have been contracted with reputable financial institutions, while credit repayments in general are in line with the period of significant cash inflows

from operating activities. The repayment of the major credit lines coincides with periods of strong cash inflows from operations. The Company and Group monitor the level of available funds through daily cash and debt reports. Long-term cash flow forecasts as well as annual (monthly) forecasts are based on the set budget. After meeting the needs of working capital management the surplus is deposited in the treasury. From there the funds are invested in current accounts, time deposits, money market deposit accounts and marketable securities. Only instruments with suitable maturities and sufficient liquidity are selected, according to the forecast needs for liquid funds.

6) Share-related risks

The market value of shares is the riskiest asset class due to its volatility resulting from the volatile nature of the whole capital market, macroeconomic trends on markets where the Company and Group operate and discrepancies between the expectations of financial analysts and the actual results. Furthermore, other contributing factors are also changes in the dividend policy, various activities in the segment of consolidations, mergers, acquisitions and forming of strategic partnership, the instability of the business model of the Company and Group as well as the fluctuations in the financial results for the Company and Group. In case any negative implications happen to be associated with these factors there is a considerable risk of market value drop that will in turn prevent investors from selling their shares at a fair market price.

7) Risk of inflation and increase in prices of purchased goods

COVID-19 pandemic and related movement restrictions as well as supply disruptions, along with strong rising energy prices and the war in Ukraine, have induced global inflation and rising prices at the end of 2021 and throughout 2022.

The Croatian Bureau of Statistics (DZS) announced in January 2023 that, measured by the consumer price index, the prices of goods and services for personal consumption in December 2022 compared to December 2021, i.e. at the annual level, increased by 13.1% on average. In addition, in February 2023, consumer prices in Croatia were 12% higher compared to the same month of the previous year. This means that inflation was weakening for the third consecutive month.

According to CNB, it is expected that 2023 will see a slowdown of inflation in Croatia, which has already begun to decline. This is primarily due to the decrease in the base effect of energy and food prices rise driven by the aggression on Ukraine. However, core inflation and inflationary pressures (especially from growth in wages) are still present and they are quite strong.

Inflation and rising prices of purchased goods may have an effect on the purchasing power of foreign and domestic guests, as well as on the level of our selling prices. The Company and the Group have also been exposed to the impact of the changes in the purchase prices for energy products (especially electrical energy) as well as prices for food and beverages and consumables. The Company and the Group have been continually making considerable investments in energy efficiency and renewables in order to mitigate the impact of a possible increase in energy prices as well as to decrease their dependence on suppliers. The Company and the Group have a very high share of direct channels and other online channels in total sales, and sales prices are largely formed dynamically, during the year. Accordingly, the Company and the Group have the flexibility to manage selling price levels.

BUSINESS RISK

The Company and Group are constantly exposed to risks threatening its competitiveness and future stability. Since the Company and Group own significant number of real estates, this business model requires a large amount of capital in order to maintain high product and service standards. Various large capital investments in the upgrade of products and services can surpass budget expectations, delay the end of construction works, as well as the town-planning regulations and fiscal policy may be changed. These risks can increase costs for the Company and Group, and have a negative impact on the cash flow and revenues. In the previous period, the company and Group's business decisions improved their results and operating efficiency in the demanding Mediterranean market. These positive trends are expected to continue in the future through a prudent long-term strategic management.

Around 90% of Valamar's guests come from other countries and they are very

careful when choosing their vacation destination in the competitive Mediterranean environment. Stable domicile countries macroeconomic indicators are important decision-making factors especially those relating to exchange rates and the price of goods and services because they directly affect the guests' purchasing power.

However small, the share of domestic guests is also important; it is a segment directly influenced by various other macroeconomic indicators: employment/unemployment rate, GNP rise/ fall, industrial production and others. They all have a direct impact not only on the purchasing power of Croatian residents but they also determine whether they will choose to spend their vacation in one of our properties.

When considering risks related to the tourism and hospitality industry, in previous years, the Croatian economy has been afflicted by the consequences of a global financial crisis and economic standstill. In this period, the tourism and hospitality industry has been among the rare growing industries in Croatia. Moreover, the marked seasonality of this industry leads to insufficient use of the Company and Group's resources. After joining the European Union, the Croatian market became part of a large European market, while safety risks decreased after joining the NATO. Good management of human resources is vital for the future growth of the Company and Group. Risks related to shortages of specific skills, expertise and jobs are connected with the opening and expansion of the labor market. Valamar Riviera is one of the largest and most desirable employers in tourism. The active approach towards HR management develops key talents and supports investments in training opportunities. We determine the needs for new skills and expertise by following emerging global trends in tourism. In this way, we are able to respond to challenges effectively. Through a continual dialogue with our social partners, we have ensured a high level of workers' rights in terms of competitive salaries, reward systems, career development, employees' wellbeing and cooperation with training institutions from all parts of Croatia.

OPERATIONAL RISKS

Operational risks are risks connected with direct or indirect losses that arise from inadequate or wrong internal or external processes within the Company and the Group. They include the creation and analysis of financial reporting data (also known as "financial reporting risk") and also the potential insufficient

and inadequate internal and external information sharing. When implementing the system of operational risk management, the Company and Group focused on its continuity and complexity due to the size of the organization. The benefits of the system include i) defining and identifying the Company and Group risk profile in relation to the operating risk ii) identifying and managing the known risk occurrences in order to decrease the Company and Group costs and iii) data analysis which indicates the business trends for the Company and Group and trends in the domestic economy. The Company and Group are aware of the reliability of IT business solutions and safety in the cyber world. Hence, they continually upgrade, develop and implement new technologies in everyday business operations. A special focus is given to providing sufficient resources for the development and implementation of new technologies related to ICT, data protection, and upgrade of the current business systems and implementation of new ones.

GLOBAL RISKS

Despite improved security and political conditions, which have encouraged to a certain extent investments into tourism and hospitality, there are challenges that the Croatian tourism has to face, such as:

- Periods of global economic and financial crisis which reduce the purchasing power of the travelling-prone population;
- Security and political issues related to global terrorism threats;
- Security and political instability in the immediate environment of the neighbouring countries.
- geopolitical risks connected with the Russian invasion of Ukraine in February 2022.

Environmental risks can also have an adverse effect on the Company and Group's business results, primarily in terms of customer satisfaction with the whole experience while staying at one of Valamar's properties and this can affect the number of arrivals. The possible risks can include: sea pollution (caused by oil or chemical spillage), but also long-term water quality reduction and coast pollution due to inadequate waste disposal and waste water treatment as well as extensive use of agricultural fertilizers. Other environmental conditions typical for climate changes such as long drought periods or long rainy periods can directly influence the guests' length of stay in the hotels and campsites as well as increasing the operating costs. A number of other natural disasters and calamities (earthquakes, fires, floods

and rainstorms), air pollution caused by toxic gas emissions from industrial plants and vehicles, as well excessive urbanization and the introduction of plant and animal invasive species should also be taken into consideration. Likewise, disease outbreaks and pandemics can adversely affect Valamar's business results. In order to minimize their impact, Valamar is actively tracking pandemic and health risk levels worldwide, especially on its source markets, and taking proactive steps in their management. The COVID-19 pandemic is a recent example of the operational and financial disruption to the global economy, especially tourism flows, since almost all global destinations were blocked by travel restrictions. The emergence of exceptional circumstances in the Republic of Croatia and the introduction of extraordinary measures to prohibit gatherings, movements and the operation of restaurants and shops, all with the primary objective of protecting the population from the risk of contagion, resulted in the expected consequential and immediate disruption of the Company's and the Group's operations, cancellation of accommodation and other contracted services by partner agencies and guests.

The risks related to Russia's invasion of Ukraine in February 2022 are still present. The source Russian and Ukrainian markets historically made up a maximum of 2% of Valamar's turnover so their disappearance in 2022 has been compensated by other source markets.

REGULATORY RISKS

Changes in tax laws and other regulations pose a very serious threat and represent a demanding segment in risk management because in this particular situation the possibilities for the Company and Group are limited.

Frequent changes in laws regulating taxes and parafiscal charges often take place only after the business policy and budget for the next financial year have been approved and commercial terms and conditions with partners agreed. All this jeopardizes the Company and Group financial position and future investment

plans as well as credibility towards shareholders. One of the recent examples is the introduction of the Law on Additional Profit Tax from December 2022.

The Company and Group are also threatened by changes in regulations governing concession fees for maritime domain and tourism land use, the latter still presenting unresolved legal issues. Given the nature of the Company and Group's business, the right to use parts of the maritime domain as well as land for tourism purposes is of vital importance for future growth, especially for campsite-related operations.

Corporate Governance

The Company and the Group continuously strive to develop and operate according to good practices of corporate governance. The business strategy, corporate policy, key corporate regulations and business practice have set a high standard of corporate governance and are all geared towards creating a transparent and efficient business operation while forging solid bonds with the local community. The Management Board fully complies with the provisions of the adopted Corporate Governance Act. After the company was listed on the regulated market of the Zagreb Stock Exchange, the Company has also complied with the Zagreb Stock Exchange Corporate Governance Code.

The Company complies with and implements the prescribed corporate governance measures, as reported in more detail in the annual questionnaire published on the Zagreb Stock Exchange and Valamar Riviera websites as prescribed (2022 questionnaire available at <https://valamar-riviera.com/en/investors/corporate-governance/>). The Company adopted its Code of Business Conduct and policies that make an integral part of this Code, whereby it aligned its internal corporate governance rules with the Zagreb Stock Exchange Corporate Governance Code. The Code of Business Conduct is available at the Company's corporate website (<https://valamar-riviera.com/media/467902/code-of-business-conduct-valamar-riviera-dd.pdf>).

To ensure a safe consumer environment and enable a reliable and transparent introduction of the euro in the Republic of Croatia, on 19 October 2022, the Company joined the Code of Ethics – Euro – an initiative of the Ministry of Economy and Sustainable Development.

shares; the Member of the Management Board Mr. Marko Čížmek holds 68,251 shares and the Member of the Management Board Ms. Ivana Budin Arhanić holds 35,529 shares .

The Company defined the process of preparing and publishing its financial statements in a detailed internal document. Within this document, the financial reporting procedure is set within a system of internal review and risk management. Additionally, in order to monitor and mitigate the financial reporting risk, the Company uses the measures described in the chapter 'The Risks of the Company and the Group'.

The Companies Act and the Company Statute define the General Assembly's authority and prescribe how it meets and works. The meeting invitation, proposals and the adopted resolutions are made public according to the provisions of the Companies Act, Capital Market Act and the Zagreb Stock Exchange Rules. There is a time limit related to the voting right at the General Assembly: according to the provisions of the Croatian Companies Act, shareholders are required to register their participation within the prescribed time limit in order to attend the General Assembly. Under no circumstances can the financial right arising from securities be separated from holding the securities. There are no securities with special control rights nor are there any limitations to voting rights at the Company (one share, one vote).

The Company Statute complies with the Croatian Companies Act and the provisions of the Procedure of appointment, i.e. the election and profile of the Management Board and the Supervisory Board and defines the procedure of appointing and recalling members of the Management Board and Supervisory Board. There are no limitations based on gender, age, education, profession or similar. The Companies Act determines any amendments to the Company Statute, without any additional limitations. The Management Board members' authority fully complies with the regulations prescribed by the Companies Act.

The Company acquires treasury shares based on and in accordance with the conditions determined by the General Assembly's decision on acquisition of treasury shares dated on 9 May 2019 which is in force as of 17 November 2019. The Company does not have a share-buyback program or an employee share ownership plan. The Company holds and acquires treasury shares as a form of rewarding the Management and key managers pursuant to the Company

acts on the long-term reward plan and for the purpose of dividend payout in rights - Company share to the equity holders. During first quarter of 2023 Company wasn't involved in treasury shares acquisition neither disposal of its own shares.

In accordance with the decision of the Supervisory Board, the Company's shares amounting to EUR 6.5 million will be awarded to the management and key employees for exceptional business results achieved in the three-year crisis period 2020-2022. (i.e. during the COVID-19 pandemic and geopolitical tensions). Namely, in order to additionally motivate key employees, the Supervisory Board adopted the RDP Programme (the Recovery & Development Programme), which encompasses more than 230 employees. These employees were especially committed to managing and developing business operations during the crisis to enable as fast a recovery of the business operations as possible. In view of the fact a full business recovery was achieved in 2022, the Supervisory Board passed the decision to distribute company shares in 2023, and the provisions for this were made within the 2022 financial results.

THE COMPANY'S CORPORATE BODIES ARE:

The consolidated and unconsolidated financial statements for the first quarter period ended 31 March 2023 were approved by the Management Board on 28 April 2023. The consolidated and unconsolidated financial statements for the first quarter period ended 31 March 2023, have not been audited.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation

The Company's and Group's financial statements for the first quarter period ended 31 March 2023 have been prepared in accordance with International Accounting Standard (IAS) 34 – *Interim Financial Reporting*. The financial statements have been prepared under the historical cost method, except for the financial assets at fair value through profit or loss and financial assets.

The consolidated and unconsolidated financial statements for the first quarter period do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's and Group's annual financial statements as at 31 December 2022 which are available on HANFA (Croatian Financial Services Supervisory Agency), Zagreb Stock Exchange and Group's web pages.

2.2 Going concern

Company's and Group's first quarter financial statements have been prepared on a going concern basis. Based on current expectations Management believes that the geopolitical situation will not have significant negative impact on the Company's and Group's ability to fulfil its obligations nor prolonged impact on Company's and Group's revenues and overall business which can affect the Company's and Group's ability to continue as a going concern in the foreseeable future.

2.3 Critical accounting estimates

There were no changes in critical accounting estimates used for preparation of financial statements for the first quarter period ended 31 March 2023 comparing to those used for the preparation of the annual financial statements for the year ended 31 December 2022.

The Company and the Group, as the lessees as regards the tourist land

The Company and the Group need to determine the ownership status for cca 3.24 million m² and cca 3.54 million m² respectively, pursuant to the provisions of the Act on unappraised land (hereinafter: the Act), that entered into force on 2 May 2020. The Act lays down the obligation to determine and establish, within the prescribed deadlines, real estate on the assessed parts of the camp, hotel, tourist complexes and other building land as the subject matter of the right of ownership of the Company and the Group; and real estate on the parts of the camp, hotel, tourist complexes and other building land that have not been assessed as the subject matter of the right of ownership of the Republic of Croatia or local governments.

As regards the parts of land owned by the Republic of Croatia or local governments, the Company and the Group will conclude a lease agreement for a period of 50 years. The unit amount of the rent and the manner of and deadlines for the payment will be laid down by a regulation adopted by the Government. At the moment of creating this document, the regulation has not been adopted yet; therefore it has not been possible to determine right-of-use assets and liabilities.

After the adoption of the regulation on prices, the Company and the Group will revise total surface areas that will be the subject matter of the lease agreement and they will assess the value of the right-of-use assets and liabilities in accordance with the provisions of IFRS 16. In 2021, 2022 and the first quarter of 2023 the Company and the Group were not able to determine the object of the lease and the value of the lease.

Considering that no regulation on prices has been passed by the end of 2022, nor has a waiver of obligations been enacted by law, as a precautionary principle, the Company and the Group reserved the cost of lease for tourist land for the period from the entry into force of the Act, i.e. from 1 May, 2020 to the end of 2022 on the basis of the calculation of compensation under the old regulations in the amount of EUR 5,272 thousand for the Company and EUR 5,581 thousand for the Group.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES / CONTINUED

Under the assumption of the lowest/highest price spread reaching 0,8/1,59 EUR/m², lowest/highest discount rate reaching 4/8% and with the correction of surface areas that will be subject to the lease +/-10%, the Company and the Group assessed the value of the right-of-use assets and liabilities on the day of the entry into force of the Act, which would amount to a range from cca EUR 28,207 thousand to cca EUR 122,356 thousand for the Company, while the assessment for the Group would range from cca EUR 29,801 thousand to cca EUR 129,273 thousand.

NOTE 3 – FAIR VALUE ESTIMATION

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the Company and the Group is the current bid price. The fair value of financial instruments that are not traded in the active market is determined by using valuation techniques. The Company and the Group use a variety of methods and make assumptions that are based on market conditions existing at each reporting date.

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values.

Quoted market prices for similar instruments are used for long-term debt. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Company and the Group for similar financial instruments.

2.4 Significant accounting policies

The accounting policies adopted in the preparation of the financial statements for the first quarter period ended 31 March 2023 are consistent with those followed in the preparation of the Company's and Group's annual financial statements for the year ended 31 December 2022.

Fair value hierarchy

IFRS 13 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources; unobservable inputs reflect the Company's market assumptions. These two types of inputs have created the following fair value hierarchy:

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 – Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

NOTE 3 - FAIR VALUE ESTIMATION / CONTINUED

NOTE 4 – SEGMENT INFORMATION

Following the management approach of IFRS 8, operating segments are reported in accordance with the internal reporting provided to the Group's Management (the chief operating decision-makers) who are responsible for allocating resources to the reportable segments and assessing its performance. The Group records operating revenues and expenses by types of services rendered in three basic segments: hotels and apartments, camping and other business segments. Revenue was divided between

segments according to the organisational principle, where all of the income generated from camping profit centres was reported in the camping segment, and all of the income generated from hotel and apartment profit centres was reported in that segment. Other business segments include revenue from laundry services, other rentals of properties, revenue generated from the central services and central kitchens, revenue from retail, agency revenue and revenue from the accommodation of employees.

The segment information related to reportable segments for the first quarter period ended 31 March 2022 is as follows:
