Subject: Time charter employment secured for our ECO tanker Dalmacija

Tankerska Next Generation has secured a 4-year time charter employment for its ECO tanker Dalmacija with charterers' option to extend for an additional year. The contracted employment is with delivery scheduled in early March 2022.

The tanker will be chartered out to a global energy and commodities firm at approximately USD 16,000 per day (approximately USD 19,000 per day for the option) under standard market terms.

The negotiated deal thoroughly represents the company's strategic concept that focuses on the determination to secure a strong asset base and stable cash flow. Tankerska Next Generation aims to minimize the risk of its business operations by means of balancing the employment of the fleet on voyage charters while consistently focusing on the significance of time charters.
