

Varaždin, July 30th, 2021

In accordance with the provisions of the Capital Market Act, the Management Board of Varteks d.d. based in Varaždin submits:

MANAGEMENT INTERIM REPORT

For the second quarter of the year 2021 (cumulative period 01.01. – 30.06.2021/unaudited)

Indications of significant events that occurred during the reporting period and the impact of these events on the condensed set of financial statements

In the first six months of 2021, the Varteks Group had revenue of HRK 44.95 million, which is HRK 15 million or 25% less than in the comparable period last year, which is a direct consequence of the impact of the crisis due to the coronavirus pandemic. The main reasons for the significant reduction in total revenues is the suspension of orders from our largest foreign partners (Hugo Boss, J. Lindeberg), which resulted in a reduction in revenues in the Contract manufacturing segment by as much as 54%. However, in the same period, at the cumulative level, revenue growth of 13% was recorded in the Retail segment compared to the same period last year.

Revenues in the Retail segment in the second quarter of 2021 increased by approximately 12% compared to the first quarter of 2021, which is a consequence of additional investment in retail and its own fashion brand. In the first half of 2021, we opened three new stores in Croatia - in the Lumini Shopping Center in Varaždin, in the Mall of Split and Outlet in Horvaćanska Street in Zagreb, and we plan to renovate one store in the coming months and open a new store in Ljubljana in July. Also, in July, it is planned to open a sales area in Zagreb, where a tailoring service will be offered, and in this way the existing offer will be further strengthened.

In the Special Clothing segment, in the second quarter of 2021, we recorded an increase in revenue of HRK 3.4 million compared to the first quarter. Also, in the first six months, revenue decreased by 50% compared to the same period last year, primarily due to changes in the dynamics of orders and deliveries, given that this is a business model that is largely related to public procurement.

In an effort to preserve jobs, due to the adverse effects of the crisis, the cost of unfilled production capacity was partially amortized by state aid for employee salaries in the total amount of HRK 6.35 million.

The impact of the coronavirus pandemic is visible through the Group's normalized EBITDA result. The normalized EBITDA of the Group for the first six months is negative and amounts to HRK 23.9 million, which is HRK 12.8 million worse than in the same period last year.

In the second quarter of 2021, the net cost of financial operations amounted to HRK 3 million, which is HRK 3 million less than in the same period last year and HRK 0.9 million more than in the first quarter. The reason for the decrease in the net financial cost of operations is primarily due to the strengthening of the HRK exchange rate against the EUR, which is evident from the positive unrealized exchange rate differences in the amount of HRK 1.9 million.

The most significant risks and expectations for the future

Illiquidity remains the most significant risk of the Group's operations in the short term, therefore activities aimed at improving liquidity and reducing such risks have been undertaken. Liquidity was continuously monitored through the movement of cash flow at the level of planned values and operationally at the level of realized and estimated daily, weekly and monthly values. Based on that, additional activities are undertaken in order to provide the necessary financial resources. All deviations are regularly monitored and, as needed, efforts are made to provide additional resources necessary to balance inflows and liabilities, but problems remain.

The Company continues to monetize non-operating real estate at prices higher than estimates, which improves the liquidity and capital position of the Company and the Group in the short term, and stabilizes operations and reduces debt in the medium and long term, and further restructuring (which should result in increased revenues and reduced costs). The Management Board is in

continuous talks with banks regarding obtaining additional funds and / or prolongation of existing banking arrangements, and based on these talks has positive expectations that the financing that will be necessary in the current conditions to support the Company and the Group will be adequately addressed.

The following is a chronology of important events caused by a coronavirus pandemic and other important events in 2021:
