

Varaždin, February 28th, 2022

In accordance with the provisions of the Capital Market Act, the Management Board of Varteks d.d. based in Varaždin submits:

MANAGEMENT INTERIM REPORT

For the fourth quarter of the year 2021 (cumulative period 01.01. – 31.12.2021/unaudited)

Indications of significant events that occurred during the reporting period and the impact of these events on the condensed set of financial statements

In 2021, Varteks Group (hereinafter: the "Group") had operating income of HRK 156.9 million, which is HRK 37.6 million or 32% more than in the previous year. The Group's income from sales amounted to HRK 106 million, which is HRK 7.6 million or 7% less than in the previous year. Lower sales revenues are a direct result of the impact of the crisis due to the coronavirus pandemic.

The total operating result of the Group before taxation in 2021 amounts to HRK -5.3 million, while in 2020 it amounted to HRK -31.2 million. The application of IAS 40 - adjustment of the value of tangible fixed assets to fair market value in the amount of HRK 29 million had a great impact on the result in 2021.

In the Production for Others segment in 2021, revenue decreased compared to 2020 due to a significant reduction in orders from existing key customers (Hugo Boss, Lindeberg). Revenues in the fourth quarter were 51% lower than in the same quarter last year.

In 2021, revenues in the Retail segment recorded an increase compared to the previous year, which is the result of a more intensive return of customers to stores and investments in retail outlets and additional development of its own fashion brand. Revenues in the fourth quarter were 78% higher than in the fourth quarter of 2020. During the year, four new stores were opened in Croatia - in the Lumini Shopping Center in Varaždin, in the Mall of Split, then an outlet store in Horvaćanska street 21 in Zagreb and a tailoring salon in Cesarčeva street 5 in Zagreb. In addition, investments were made in the adaptation of stores and repositioning in new business premises.

Sales in Slovenia, in stores in Ljubljana and Maribor opened earlier in the year, were strongly influenced by Slovenian epidemiological measures, and therefore the expected sales results were lacking.

In the Special Clothing segment in 2021, we recorded a slight decline in revenue compared to 2020. In the fourth quarter, approximately the same revenues were realized compared to the observed period of the previous year. Given that this is a business model that is largely related to public procurement, the segment is subject to changes in the dynamics of orders and deliveries.

Varteks Group used measures to preserve employment and financial support provided by the Government of the Republic of Croatia for the coronavirus pandemic in 2021 in the amount of HRK 8.3 million.

The impact of the coronavirus pandemic is visible through the Group's normalized EBITDA result. The Group's normalized EBITDA in 2021 amounts to HRK -42.4 million, which is HRK 18.5 million less than last year.

In 2021, the Varteks Group recorded a net effect from financial activities of HRK -8.3 million, primarily on the basis of interest and fees.

The most significant risks and expectations for the future

The Company's management continues to place great emphasis on controlling all expenses and managing cash flow during the fourth quarter. Meetings were held with most suppliers in an effort to define in advance the prices for the next period, ie for 2022, especially in relation to the prices of energy sources (electricity, gas) as well as the prices of fabrics and materials. Business in the fourth quarter was affected by the emergence of a new strain of coronavirus, which significantly affected the decline in sales and reduced liquidity than planned. Through intensified marketing and sales activities, the Company's Management Board sought to ensure a sufficient level of liquidity to continue operations.

Business restructuring and further negotiations on the sale of inactive fixed assets continued. The process of creating a new organizational structure has been completed, as well as a proposal for a new systematization of jobs, which will enable transparent, simpler and fairer calculation of salaries, in order to increase business efficiency and increased employee satisfaction.

The following is a chronology of important events in 2021:
