Comment by Marinko Došen, President of the Management Board

The focus of our business is still on the growth in the existing markets, management of operational and financial risks and optimization of business operations. In the first quarter of 2016 the generated revenues of AD Plastik Group amount to 258 million kunas and are at the level of the planned operating income, and in comparison to the same period of the last year they have decreased by 1.3%.

Stable production and achieved operational plans of all key customers are the main reason for the realized sale which is practically at the level of the previous year.

The fact that the results achieved in the aforementioned period are in accordance with the defined business plan, gives us a reason to be pleased, but doesn't allow us to relax.

Operating expenses registered a continuous decline so net profit of AD Plastik Group is higher compared to the same period of the last year. One of the main goals in 2016 is to further increase the effectiveness of production and optimization of operating efficiency, which will ensure the continuity of the growth of EBITDA margin and enable continuing reduction of credit obligations.

The first quarter showed growth in operating margins on all sites compared to the same period of the last year, but also in regard to the set business plan. They are also the main engine of growth of EBITDA margin.

We believe in achieving our business plans and goals to the satisfaction of all our stakeholders.

Marinko Došen

President of the Management Board

Financial results in the first three months

In the reporting period AD Plastik Group, which consists of AD Plastik d.d. Croatia, ADP d.o.o. Serbia, AD Plastik d.o.o. Slovenia, AO AD Plastik, Russia, ZAO AD Plastik Kaluga, Russia (hereinafter: AD Plastik Group) in spite of challenging operating conditions in Croatia and the region, and especially in the market of Russian Federation, recorded total operating revenue in accordance with the defined business plan. In comparison to the same period of the previous year operating results of AD Plastik Group are lower by 1.3%, and for the Company AD Plastik d.d. by 6.7%.

In the first quarter of 2015 Project Edison has largely been the reason of the increased revenue, and in 2016 the project has stabilized at slightly lower levels than they were at the start of the serial production.

Generated revenues of AD Plastik Group in the first quarter of 2016 amounted to 258 mil kn, and are at the level of the planned operating income. Operating expenses record continuing decline which affects the growth of the variable gross margin.

EBITDA in the amount of 35.9 mil kn has been achieved and is at the planned level. It is increased by 12.3% compared to the same period of the previous year (32.0 mil kn). Despite somewhat lower sales volume, EBITDA growth indicators show constant improvement of cost efficiency of the Group, and the Group's profit shows a further increase in profitability despite lower realization.

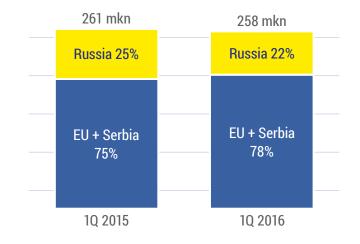

Net profit of AD Plastik Group was realized in the amount of 14.6 million kunas, which is in line with the business plan, and is despite somewhat lower realization better than the realized profit in the same period of the last year. For the remaining part of the year the focus remains on further improvement of the cost efficiency, so this trend in the result can be expected to continue.

Key indicators of AD Plastik Group 01.01.2016 - 31.03.2016.

Sales revenue per sales markets of AD Plastik Group, without affiliated companies

- Revenue increase of AD Plastik Group on the market of EU and Serbia by 3.8%,
- Revenue decrease of AD Plastik Group in Russia by 16.02%.

Financial position of AD Plastik Group

The trend of improvement of the financial position of AD Plastik d.d. and AD Plastik Group which started in 2015 has continued in the first quarter of 2016. Cash flows and liquidity of the Company are stable. During 2016 we do not expect any significant investments, except for the improvement of efficiency which has a very quick return on investment.

During 2015, considerable efforts have been made in reduction of indebtedness of AD Plastik Group and restructuring of short-term financial liabilities into long-term liabilities.

During 2015 AD Plastik d.d. restructured a part of current liabilities to the banks into long-term liabilities and thus improved the structure of the balance sheet. In 2016 further activities are planned for the optimization of financial expenses. Compared to 31.03.2015. credit indebtedness is reduced by 60 mil kn.

Sales revenue per sales markets of AD Plastik Group, without affiliated companies

EU and Serbian markets

Solin, Zagreb, Mladenovac

For EU market and the Serbian market we produce at the sites in Solin and Zagreb in Croatia and in Mladenovac, Serbia. Operating activities in Croatia and Serbia for the third year in a row significantly contribute to the operating results of AD Plastik Group.

In the first quarter of 2016 realized operating income on sites in Croatia and Serbia is higher by 3.8% compared to the same period of the last year. The increase in production is the result of raising capacity utilization and the beginning of serial deliveries of new projects in Serbia. Realized sales is at the level of the planned sales.

Russian market (subsidiaries)

Vintai (Togliatti), Kaluga

Total production and sales of the factories in Vintai and Kaluga are intended for the market in Russia. The sales realized in the first three months of 2016 on the Russian market is achieved at somewhat higher volume than planned, although the total revenues compared to the first quarter of the last year have decreased by 16.0%.

The realization of the planned EBITDA margin and slightly improved net results of the factories is the result of permanent savings on operating costs and monthly adjustments of selling prices with changes in the euro exchange rate to the Russian ruble.

In the first three months of 2016 companies of the AD Plastik Group operating in the Russian Federation have achieved positive business results and revenues higher than planned, which indicates the stabilization of business in this market, although still at a low volume of production and insufficient level of utilization of production capacity.
