# Comment by Marinko Došen, President of the Management Board

It is my pleasure to present results of AD Plastik Group for the first six months of 2018 which show further enhancement of our business efficiency and financial position improvement. Group's operating revenue has grown by 19.47 percent compared to the same period last year and amounts to HRK 634.73 million.

Despite the further adverse impact of the exchange rate on our revenue, due to quality cost management, optimal capacity utilization and sales growth, EBITDA in the first half-year period amounts to HRK 99.92 million, representing a growth of 17.05 percent compared to the same period last year. The realized net profit is higher by 44.69 percent compared to the first half-year period of 2017 and amounts to HRK 56.3 million.

We sealed new deals in the second quarter of this year for European and Russian market with a total value of more than EUR 35 million, which gives us additional reason for satisfaction. In our business this year will be marked primarily by realization of new projects, that will ensure us continuation of good results achievement and further revenue growth in the medium-term period. The Russian market is recovering and car sales on the European market are continuously growing, which is best manifested through the increase in orders of our customers and sealing new deals.

AD Plastik Group on a daily basis confirms its position on the market as a quality and reliable partner, which is a prerequisite for achieving our planned goals of further growth and development of the company. We have set good foundations for quality long-term and stable business performance, which is confirmed with achieved results.

Although You're reading report for the first six months, i would like to take this opportunity to emphasize that in July we became 100% owner of the company Tisza Automotive d.o.o., one of the leading manufacturers of plastic components for the automotive industry in Hungary. In that manner we achieve key goals of our strategy growth and medium-term development plan.

# Financial results

## for the first six months of 2018

AD Plastik Group is comprised of the following companies during the reporting period:

- AD Plastik d.d., Croatia
- AO AD Plastik Togliatti, Russia
- ZAO AD Plastik Kaluga, Russia
- ADP d.o.o., Serbia
- AD Plastik d.o.o., Slovenia

(hereinafter: **AD Plastik Group**)

Business results of AD Plastik Group and joint-stock company AD Plastik, achieved in the first half-year period of 2018, indicate that strong focus on customers' needs with whom the partnership is developed, together with investments in research and development result in sales growth. Along with optimal capacity utilization, quality cost management and financial expenses, a further net profit growth has been realized.

In the first six months of 2018, compared to the same period last year, operating revenue of AD Plastik Group grew by 19.47 percent and amounts to HRK 634.73 million. Operating revenue of the parent company AD Plastik d.d. grew by 24.02 percent and amounts to HRK 497.22 million. The main revenue growth generator, apart from the recovery of the Russian market, are new deals for Fiat, Volkswagen and Ford, whose share in revenue of AD Plastik Group is becoming increasingly significant.

The effect of the exchange rate has adversely reflected on revenue again in this reporting period. Strong kuna compared to the euro has negative effect on the amount

of revenue realized in the parent company, as well as the strong ruble when converting to kunas has negative effect on the amount of revenue realized in Russian companies.

Earnings before Interest, Taxes, Depreciation and Amortization (EBITDA) of AD Plastik Group in the observed period amounts to HRK 99.92 million, representing a growth of 17.05 percent compared to the same period last year. In AD Plastik d.d. EBITDA has grown by 22.36 percent and amounts to HRK 60.11 million. Although slightly lower EBITDA margins have been announced, in the first six months of 2018 realized margins are at approximately same level as those realized in the first half-year period of 2017, which indicates high efficiency and good cost management.

Net profit of AD Plastik Group in the first half-year period of 2018 amounts to HRK 56.30 million, which is by 44.69 percent more than realized net profit in the same period last year. In the parent company net profit amounting to HRK 51.99 million has been realized.

The strengthening of the kuna continues to have negative effect on revenues from this market.
