Comment by Marinko Došen, President of the Management Board

We present you the business results of AD Plastik Group for the first nine months of 2018 which clearly show continuation of the positive trends of our business. We have achieved operating revenue growth of 20.51 percent compared to the same period last year, thus achieved operating revenue at the Group level amounts to HRK 939.39 million. Due to realization of new projects and sealed deals revenue growth will be continued in the medium term and provide us with good results.

Net profit for the first nine months amounts to HRK 60.09 million at the Group level and compared to the observed period of the last year it has significantly increased, namely by 44.24 percent. This is above all due to revenue growth, operational efficiency of our production sites and lower financing costs. EBITDA has also increased by 9.75 percent and amounts to HRK 128.94 million.

During the reporting period we also became 100% owner of one of the leading Hungarian companies for the production of plastic components Tisza Automotive. With this acquisition we have achieved the key goals of our growth strategy and medium-term development plan. Some of the most important reasons for choosing this company were its very good geographical location in respect of car manufacturers in that part of Europe, experience in the automotive industry, good customers portfolio and compatibility of technologies the company uses and develops.

The increase in indebtedness and net financial debt is a result of aforementioned acquisition that we financed by means of bank loan. In the medium term we expect a 10 percent revenue growth at the Group level as the result of Tisza Automotive acquisition impact.

The EBITDA margin of AD Plastik Group is still at high levels, although the margins are somewhat lower compared to the same period last year. This is the result of longer regular shutdowns of our customers' factories during the third quarter.

The high level of capacity utilization of our factories provide us with uninterrupted further development and growth of the Group. Increment of our customers' orders and new deals sealed are further motive for progress. We are a part of industry that constantly demands additional investments and development of technologies, processes and materials as well as improving the quality of the final product in order to maintain competitiveness. We meet all market and customers requirements and that is the foundation of further business progress. Prerequisites for future growth and development have been successfully set and it is up to us to accept new challenges and continue in the direction we have determined.

Financial results

for the first nine months of 2018

AD Plastik Group is comprised of the following companies during the reporting period:

- AD Plastik d.d., Croatia
- AO AD Plastik Togliatti, Russia
- ZAO AD Plastik Kaluga, Russia
- ADP d.o.o., Serbia
- Tisza Automotive d.o.o, Hungary
- AD Plastik d.o.o., Slovenia

(hereinafter: **AD Plastik Group**)

From July 26th, 2018 AD Plastik Group grew by means of acquisition Hungarian company Tisza Automotive d.o.o. when AD Plastik d.d. became the owner of one hundred percent of that company's shares. The results of Tisza Automotive have been consolidated from the date of acquisition.

During the reporting period the trend of growth of revenue, EBITDA and net profit has continued, thus AD Plastik Group has achieved operating revenue in the amount of HRK 939.39 million, representing a growth of 20.51 percent compared to the same period last year. Operating revenue of the parent company AD Plastik d.d. is higher by 17.68 percent and amounts to HRK 692.53 million.

Compared to the same period last year, revenue growth of the parent company in the reporting period to a greater extent results from realization of new Renault, Fiat, Volkswagen and Ford projects. An additional AD Plastik's growth generator is the recovery of the Russian market despite the weakening of the Russian ruble. During the past months of 2018 the euro exchange rates in relation to the kuna and the euro in relation to the ruble have had negative effect on the revenue level that, despite such trends, has been growing. Strong kuna compared to the euro has negative effect on the revenue level achieved in the parent company, while weak ruble when converting to kuna has negative effect on the revenue level achieved in Russian companies.

➔ Earnings before Interest, Taxes, Depreciation and Amortization (EBITDA) of AD Plastik Group in the reporting period amounts to HRK 128.94 million, representing a growth of 9.75 percent compared to the same period last year. In AD Plastik d.d. EBITDA has grown by 1.75 percent and amounts to HRK 67.60 million. Longer summer shutdown of main customers' factories has negatively affected the EBITDA margin level, which is slightly lower in the third quarter than the rest of the year.

Net profit of AD Plastik Group in the first nine months amounts to HRK 60.09 million, which is by 44.24 percent higher than achieved net profit in the same period last year. Parent company has achieved net profit in the amount of HRK 63.18 million, that is by 74.93 percent higher compared to the same period last year. Since the beginning of the year, over EUR 135 million has been agreed on new deals for known customers.

Acquisition of Tisza Automotive d.o.o.

At the end of July AD Plastik d.d. has become one hundred percent owner of company Tisza Automotive d.o.o., a Hungarian limited liability company headquartered in Tiszaújváros. The acquisition was financed by means of bank loan.

With the acquisition of Tisza Automotive, AD Plastik Group has entered a new, fast-growing automotive market, has expanded its customers portfolio and ensured its further growth. In such a manner it accomplishes key goals of business strategy and medium term development plan.

Tisza Automotive is a plastic components manufacturer with more than 15 years of experience in the automotive industry. It is a leading supplier for Suzuki factory in Hungary and, apart from Suzuki, their most important customers are Bentley and Volkswagen, for which the company is Tier 1 supplier. Injection moulding and blow moulding are key technologies of Hungarian factory, and they are compatible with the existing technologies of AD

Plastik Group. Company has more than 300 employees and the land of production halls, warehouses and offices amounts to 22.400 square meters. As a Tier II supplier, Tisza Automotive produces for other car manufacturers, such as Rehau, APCB, Reydel, Hanon Systems, Mitsuba, Heycooustics and others. Very good geographical location in relation to other car manufacturers in that part of Europe, experience in the automotive industry, good customers portfolio and technologies the company uses and develops are some of the most important reasons for this acquisition.

In the reporting period balance sheet of Tisza Automotive d.o.o. has been consolidated and the results have been consolidated from the date of acquisition. Operating revenue of Tisza Automotive for aforementioned period amounts to HRK 22.7 million.

A 10 percent revenue growth in the medium term is an expected impact of Tisza Automotive on Group's revenue.
