

# Quarterly Financial Statements for the Period from Jan 01 to Jun 30 2017

*Unaudited*

In accordance with the Capital Markets Act, HPB p.l.c. publishes unaudited quarterly financial statements for the period from Jan 01 2017 to Jun 31 2017).

This report includes:

- Management report of HPB p.l.c.,
- statement by persons accountable for compiling the report of HPB p.l.c.,
- unaudited set of unconsolidated financial statements (balance sheet, profit or loss statement, statement of changes in equity, cash flow statement), and
- notes to financial statements.

Financial statements and notes were made in accordance with the TFI-KI reporting methodology by Croatian Financial Services Supervisory Agency. Items in the profit or loss statement are compiled in accordance with IFRS.

Key highlights of 1H 2017 results are as follows:

- ✓ due to impairments recognized with regard to exposure towards Agrokor and related parties, **net loss amounting to HRK 64,5M** has been recorded, as opposed to a net profit of HRK 91,3M achieved during the same period in 2016. Had the impairment losses not been recognized, Bank's pre-tax profit would have amounted to HRK 122M (net profit = 100M),
- ✓ **growth in core operations**, wherein **net interest income (+7,3%)** as well as **net fee income (+6,5%)** have increase owing to volume growth in loan & deposit business, optimized pricing policy and client acquisition and activation,
- ✓ **operating profit amounts to HRK 172,4M**, representing a y-o-y decrease consequent to no significant one-offs in 2017, as had been the case in 2016 (VISA Europe Ltd. Transaction was closed in Jun 2016, resulting in HRK 33,5M gain for the Bank),
- ✓ **negligible decrease in assets level**, due to limited capital base,
- ✓ **market shares** in assets, loans and deposits **rising slightly** at the beginning of 2017, ,
- ✓ more than **14 thousand retail current accounts** newly opened, as well as almost **700 corporate business accounts**,
- ✓ **book-value per share** has remained unchanged on y-o-y basis, in spite of 1H 2017 loss, and amounts to HRK 900,
- ✓ own funds strengthened by retaining 2016 earnings, and decreased RWA have annuled the effect that loss had on capital adequacy. As a result **preliminary CAR equals around 17 percent**.

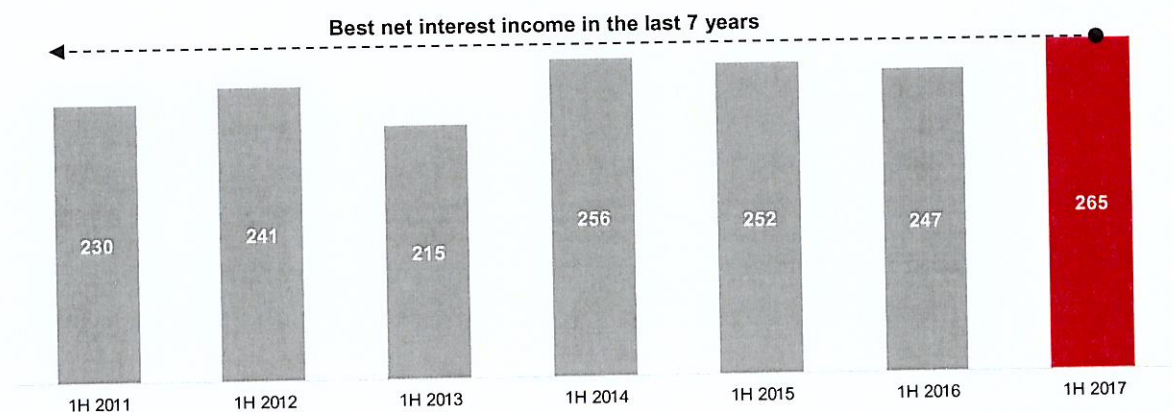

## Management report of HPB p.l.c.

Bank has recorded a **net loss** amounting to HRK 64,5M during 1H 2017, as a result of deteriorated creditworthiness of Agrokor group and related parties, and consequent impairments of these exposures that was recognized (HRK 187,0M in 1H 2017).

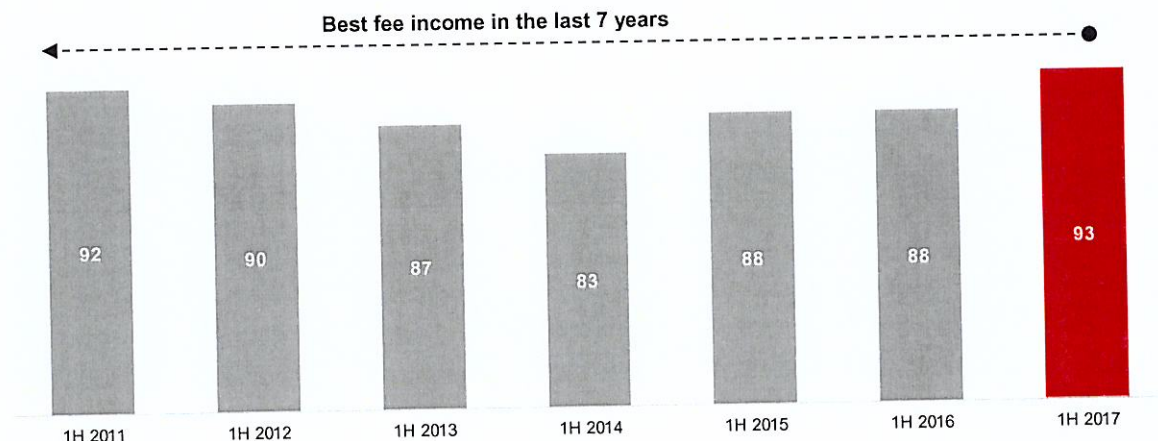

**Operating profit** amounts to HRK 172,4M, representing a decrease of HRK 20,4 million in comparison with the same period 2016 due to significantly lower one offs and non-recurring transactions with regard to AFS portfolio.

We are especially proud that endeavours we undertook to acquire new clients in 2016 are reflected in our core income growth. Accordingly, **net interest income** amounts to HRK 264,8M, and has increased by 7,3 percent y-o-y. In doing so, gross interest income decline was inevitable. However, we stood up to this challenge by simultaneous and continuous revision of the pricing policy, as well as by improved funding structure, so interest expenses have been cut by even more.

### 1H net interest income development between 2011 and 2017 (in HRK million)

Furthermore, with a y-o-y increase of 6,5 percent **net fee income** amounts to HRK 93,3 million, representing the best 1H result over the course of last seven years. As before, an increase in sustainable has been achieved – in retail segment due to higher number of newly opened accounts and HPB bundles, and in corporate segment because of higher volume of domestic payment operations, guarantees and undisbursed loan commitments. Growth was also underpinned by higher client activity in both segments, considering the strong account acquisition.

**1H net interest income development between 2011 and 2017 (in HRK million)**

**Trading gains and other non-interest income** amounts to HRK 38,6M, which is 45,3% less than in 1H 2016. Decline arises from the fact that no significant one-off effects have been recorded as in 2016 (e.g. gain from VISA Europe Ltd. transaction added HRK 33,5M to P&L in 1H 2016).

**Operating expenses** are higher by 2,9% which is mostly related to initiatives and strategic projects that have commenced, which should, apart from compliance with regulations, bring future benefits to HPB.

**Impairment losses** have more than doubled (+128,2%) as a consequence of impairments on exposures towards Agrokor and related parties. In line with guidances set by the Croatian national bank, and based on future cash flow estimates according to currently available information, which are not final nor complete for several debtors from this group, impairment losses amounting to HRK 187M have been recognized. Should new facts arise in future periods, impairments shall be changed accordingly.

**Bank's assets have decreased slightly** during 2017, and amounts to HRK 19,3B, whereby loan growth dynamics was limited by Bank's capital position. Namely, over the course of last couple of months Bank has been on the verge of 5,00 percent market share. Should this limit be exceeded in the future, additional capital requirement would be imposed, which will significantly encumber sales activities because Bank's capital adequacy would linger on the regulatory minimum. Future activities with regard to balance sheet movement will be determined by available capital. Meanwhile, Bank's management will strive to improve its structure and optimize yields.

**Deposits** have increased by 0,7%. A part of term deposits has spilled over to current accounts, with corporate term deposits increasing.

Bank had at its disposal more than enough of other sources of funding, so a portion of borrowings was has been repaid in line with repayment schedule. This has simultaneously brought down the burden on interest margin.

**Bank's capital** amounts to HRK 1,8B, representing a ytd decrease of 6,1 percent or HRK 119M. Decrease was caused, apart from the recorded net loss, by a correction in capital reserves amounting to HRK 53,3M, which is related to a deduction in retained earnings for incorrect FX translation differences in foreign payment operations, that had been booked between Jan 01 2011 and Dec 31 2016, considering that loss from FX translation differences was not recognized in the P&L for each of the years from 2011 to 2016. Amount relating to past periods has been corrected in the current reporting period, deficiency in the accounting is eliminated. Therefore, P&L for the period from Jan 01 to Jun 30 2017 is comprised of true effects of these transactions.

Owing to initiated measures of RWA optimization, and to increased own funds due to retaining earnings for 2016, preliminary data shows that capital adequacy per Jun 30 2016 equals approximately 17 percent.
