## 2. FINANCIAL RESULTS

During year 2019, the company adopted and implemented the international Financial Reporting standard IFRS 16 lease.

The impact of the application of the new standard on consolidated and non-consolidated financial reports of the company is significant since the new standard also treats the existing concession contract for the performance of port services on the concession area of the port of Rijeka as a contract. Contains the components of the lease.

Following the application of IFRS 16, the company applied the new accounting treatment of the concession contract, and certain components of the concession contract payment were recognised as an obligation in its statement of financial position. On the same basis, at the same time company recognised property with the right of use, which constitutes the concession area and the associated infrastructure. Due to consistent reporting, the company IFRS 16 decided to apply retrospectively.
