#### ANNUAL REPORT

#### Operating result in 2010

Medika d.d. ("the Company") realized unconsolidated revenue in the amount of HRK 1,978,680 thousand, an increase of 1.6% in comparison to prior year. Unconsolidated operating profit of HRK 51,755 thousand grew by 27.4%.

Unconsolidated profit before tax amounts to HRK 24,739 thousand and net profit HRK 18,439 thousand, being 19.1% more than in 2009.

If analysing operating segments (note 6 in financial statements), 71.4% of total unconsolidated income was generated through "pharmacies" segment, and 23.0% through "hospitals" segment. In comparison to previous year, the "pharmacies" segment experienced growth of 10.3%.

Total unconsolidated assets amount to HRK 1,618,441 thousand, an increase of 1.2% in comparison to prior year. Unconsolidated current assets comprise 84.7% of total assets. Trade and other receivables remained unchanged in comparison to the previous year.

Equity to assets ratio is 19% which shows that 19% of total unconsolidated assets are financed through own resources.

Total unconsolidated credit indebtedness is in the amount of HRK 298,392 thousand, of which HRK 104,847 thousand relates to short-term loans and finance leases, while the remainder in the amount of HRK 193,545 thousand relates to long-term loans and finance leases (note 24).

Unconsolidated operating results are presented in the statement of comprehensive income, page 7 of the financial statements.

#### Subsequent events

In February 2011, the loan in the amount of EUR 22,613 thousand was reprogrammed to a lower interest rate. Concurrently, part of the respective loan in the amount of EUR 6,743 thousand was converted to a short-term loan in Croatia kuna, which reduced the Company's currency risk exposure.

## The vision of company development

Medika d.d. business plan for next 2011 stipulates annual growth of sales of 1%, with further growth potential in following years. In accordance with the growth of sales, a higher market share is expected. The Company will continue with its core business: distribution of medications and medical products and will strongly develop operations with products that make the core business of the firm.

Number of employees is planned to remain at the current level, with increase of productivity.

# ANNUAL REPORT (continued)

### Treasury shares

In May 2010, the Company granted 281 of its treasury shares to key management.

In December 2010, the Company released 693 of treasury shares as an interim dividend. The dividend was paid partly in shares and partly in cash (note 20 and 22). Shareholders were given one share for every 40 shares they own and the remainder in cash.

Medika d.d. owns 759 shares, which is 2.51% shares issued.

#### Subsidiaries and associates

Medika d.d. subsidiaries are Primus Nekretnine d.o.o., registred in Zagreb and Zdravstvena ustanova Ljekarne Prima Pharme, registered in Split. Both subsidiaries are wholly owned by Medika d.d.

Zdravstvena ustanova Ljekarne Prima Pharme has subsidiaries: Zdravstvena ustanova Ljekarne Delonga (Okrug Gornji), Ljekarna Ines Buhač (Zagreb) and Ljekarna Mladenka Čobanov (Šibenik). These subsidiaries are wholly owned by ZU Ljekarne Prima Pharme.

Zdravstvena ustanova Ljekarne Jagatić (Zagreb) is 49% owned by ZU Ljekarne Prima Pharme.

#### Risks

The most significant market risk for Medika d.d. is a long collection period of receivables, especially HZZO and HZZO related receivables. Therefore, a significant amount of working capital is not available with strong influence on cash flows and timely settlement of Medika d.d. liabilities.

As these receivables are either dependent from or owned by State institutions, risk of bad debt is not high. However, this increases the need for additional financing, which increases finance expenses.

Significant risk for Medika d.d. operations is a continuous decrease in the price of prescription medication found on HZZO list and administrative approach in determining prices and margins of medication. To lower this risk, Medika d.d. has focused on increasing products which are not limited by law in respect of the price of the product.

Currency risk is a significant financial risk. Majority of inventories are purchased from foreign suppliers in foreign currencies. One short-term and one long-term loan have exchange rate clauses. The Company does not use financial instruments to protect itself from currency risk.

Interest risk of the Company arises from received short-term and long-term borrowing, with variable interest rate.

Majority of the credit risk relates to trade receivables. Credit risk is higher when dealing with pharmacies, which have potential going concern issue. Hospitals which have longer collection period do not have a collection issue and going concern issue.

## **ANNUAL REPORT (continued)**

# Corporate governance

Medika d.d. uses corporate governance adopted by CFSSA (Croatian Financial Services Supervisory Agency) and Zagreb Stock Exchange. Corporate governance is published on the web site of Zagreb Stock Exchange.

The Company has not entered into joint venture, and it does not have securities with special rights nor securities with restriction to vote. There are no cases in which financial rights from securities are separated from ownership of those securities.

## **Management and Supervisory Board**

Management Board has one member: Mr. Jasminko Herceg, member of the Management Board.

Supervisory Board of the company during the year were as follows:

Mr. Mate Perković, president, Mr. Damjan Možina, vice-president, and members: Mr. Matko Bolanča, Mr. Tomislav Gnjidić, Mr. Mladen Kovačić, Mr. Nikica Gabrić and Mrs. Anka Tikulin-representative of workers.

# STATEMENT OF MANAGEMENT AND SUPERVISORY BOARD RESPONSIBILITIES

The Management Board is required to prepare separate financial statements for each financial year which give a true and fair view of the financial position of the Company and of the results of its operations and cash flows, in accordance with applicable accounting standards, and is responsible for maintaining proper accounting records to enable the preparation of such financial statements at any time. It has a general responsibility for taking such steps which are reasonably available to it to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

The Management Board is responsible for selecting suitable accounting policies to conform with applicable accounting standards and then apply them consistently; make judgements and estimates that are reasonable and prudent; and prepare the consolidated financial statements on a going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Management Board is responsible for the submission to the Supervisory Board of its annual report on the Company together with the annual separate financial statements, following which the Supervisory Board is required to approve the annual financial statements for submission to the General Assembly of Shareholders for adoption.

The financial statements set out on pages 7 to 47 and alternative presentation and reconciliation set out on pages 48 to 54 were authorised by the Management Board on 7 March 2011 for issue to the Supervisory Board and are signed below to signify this.

By order of the Management Board

Jaspinko Herceg

Member of the Management Board

Medika

# Independent auditor's report to the shareholders of Medika d.d.

We have audited the accompanying separate financial statements of Medika d.d. ("the Company"), which comprise the separate statement of financial position as at 31 December 2010, the separate statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

# Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Opinion

In our opinion, the separate financial statements give a true and fair view of the unconsolidated financial position of the Company as at 31 December 2010, and of its unconsolidated financial performance and its unconsolidated cash flows for the year then ended in accordance with International Financial Reporting Standards.

This version of our audit report is a translation from the original, which was prepared in the Croatian language. All possible care has been taken to ensure that the translation is an accurate representation of the original. However, in all matters of interpretation of information, views or opinions, the original language version of our report takes precedence over this translation.

Other legal and regulatory requirements

Pursuant to the Regulation on the Structure and Content of the Annual Financial Statements issued by the Ministry of Finance, the Management Board has prepared the schedules set out on pages 48 to 54 ("the Schedules"), which comprise an alternative presentation of the unconsolidated statement of financial position as of 31 December 2010, unconsolidated income statement and unconsolidated cash flow statement for the year then ended, and a reconciliation ("the Reconciliation") of the Schedules with the unconsolidated financial statements as presented on pages 7 to 47. The Management Board is responsible for the Schedules and the Reconciliation. The financial information in the Schedules is derived from the financial statements of the Company set out on pages 7 to 47 on which we have expressed an opinion as set out above.

#### FOR THE YEAR ENDED 31 DECEMBER 2010

#### **NOTE 1 – GENERAL INFORMATION**

Medika d.d. (hereinafter: "the Company") is a joint stock company incorporated in Croatia. The principal activity of the Company is the wholesale distribution of pharmaceutical products. The Company is domiciled in Zagreb, Capraška 1.

As at 31 December 2010, the Company's shares were listed on official market on the Zagreb Stock Exchange. Shareholder structure is shown in note 20.

## NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

# 2.1 Basis of preparation

The financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (IFRS). The financial statements have been prepared under the historical cost convention, unless otherwise stated.

These financial statements are a translation of the official statutory financial statements prepared in Croatian.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 4.

The Company has issued these unconsolidated financial statements in accordance with International Financial Reporting Standards (IFRS). The Company has also prepared consolidated financial statements in accordance with IFRS for the Company and its subsidiaries (the Group), which were approved by the Management Board on 7 March 2011. In the consolidated financial statements, subsidiary undertakings — which are those companies in which the Group, directly or indirectly, has an interest of more than half of the voting rights or otherwise has power to exercise control over the operations — have been fully consolidated. Users of these non-consolidated financial statements should read them together with the Group's consolidated financial statements as at and for the year ended 31 December 2010 in order to obtain full information on the financial position, results of operations and changes in financial position of the Group as a whole.

#### New standards and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations have been released and are not yet effective for the year ended 31 December 2010, and have not been applied in preparing these financial statements. None of these are expected to have a significant effect on the financial statements of the Company.

### FOR THE YEAR ENDED 31 DECEMBER 2010

# NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

## 2.2 Segment reporting

A business segment is an integral part of the business entity that engages in business activities from which revenues can be realized, by which costs are incurred and for which there are separate financial information. Its operating results are regularly reviewed and evaluated by chief operating decision maker of the business entity in order to decide on resources to be allocated to the segment.

## 2.3 Foreign currencies

# (a) Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Croatian kuna (HRK), which is the Company's functional and presentation currency, rounded to the nearest thousand.

## (b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement.

Non-monetary assets and positions, which are stated at historical cost, are not translated into functional currency using new foreign exchange rates.

Non-monetary assets and liabilities denominated in foreign currencies, which are stated at historical cost, are translated into functional currency at foreign exchange rates ruling at the dates at which the values were determined.

#### 2.4 Investments in subsidiaries

Subsidiaries are all entities over which the Company has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity. Investments in subsidiaries are carried at cost less impairment losses, if any.

#### FOR THE YEAR ENDED 31 DECEMBER 2010

## NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### 2.5 Property and equipment

Property and equipment are included in the statement of financial position at historical cost less accumulated depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Land and assets under construction are not depreciated. Depreciation of other assets is calculated using the straight-line method to allocate their cost over their estimated useful lives. Depreciation is calculated for each asset until the asset is fully depreciated or to its residual values if significant.

The estimated useful lives are as follows:

Buildings 10 - 40 years Equipment 2 - 20 years

The residual value of an asset is the estimated amount that the Company would currently obtain from disposal of the asset less the estimated costs of disposal, if the asset was already of the age and in the condition expected at the end of its useful life. The residual value of an asset is nil if the Company expects to use the asset until the end of its physical life. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 2.7).

Gains and losses on disposals are determined by comparing the proceeds with carrying amount, and are recognised within 'other gains – net' in the income statement.

#### FOR THE YEAR ENDED 31 DECEMBER 2010

# NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### 2.6 Intangible assets

#### (a) Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the Company's share of the net identifiable assets of the acquired subsidiary at the date of acquisition. Goodwill on acquisition of subsidiaries is included in intangible assets.

Separately recognised goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Impairment losses on goodwill are not reversed. Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The Company allocates goodwill to each business segment in which it operates.

Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

### (b) Licences

Acquired computer software licences are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortised over their estimated useful lives (5 to 10 years).

### 2.7 Impairment of non-financial assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation and depreciation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

#### FOR THE YEAR ENDED 31 DECEMBER 2010

# NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### 2.8 Financial assets

The Company classifies its financial assets as trade and other receivables. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

Trade and other receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the reporting date. These are classified as non-current assets.

Trade and other receivables are carried at amortised cost using effective interest method.

The Company assesses at each reporting date whether there is indication for financial asset or a group of financial assets to be impaired. Impairment testing of trade and other receivables is described in note 2.11.

#### 2.9 Leases

The Company leases certain property and equipment. Leases of property and equipment, where the Company has substantially all the risks and rewards of ownership, are classified as finance leases. Finance leases are capitalized at the inception of the lease at the lower of fair value of the leased property or the present value of minimum lease payments. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the balance outstanding. The interest element of the finance costs is charged to the income statement over the lease period. The property and equipment acquired under finance leases are depreciated over the shorter of the useful life of the asset and the lease term.

Leases where the significant portion of risks and rewards of ownership are not retained by the Company are classified as operating leases. Payments made under operating leases are charged to the income statement on a straight-line basis over the period of the lease.

## 2.10 Inventories

Inventories are stated at the lower of cost or net realisable value. Cost includes all costs attributable to the purchase of goods and is calculated based on the average purchase price. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses. At each reporting date, the Company examines if there are damaged and/or expired inventories. With respect to differences identified, a provision is made for such inventories against cost of trade goods sold.

#### FOR THE YEAR ENDED 31 DECEMBER 2010

# NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### 2.11 Trade and loan receivables

Trade and loan receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for impairment of trade receivables is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables.

Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy, and default or delinquency in payments are considered indicators that the trade receivable is impaired. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. The amount of the provision is recognised in the income statement within 'other operating expenses'.

Loans and receivables with maturities greater than 12 months after the reporting date are classified as non-current assets.

#### 2.12 Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, deposits held at call with banks and other short-term highly liquid instruments with original maturities of three months or less.

### 2.13 Share capital

Ordinary shares are classified as equity.

Where the Company purchases its equity share capital (treasury shares), the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders until the shares are cancelled, reissued or disposed of. Where such shares are subsequently sold or reissued, any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

#### 2.14 Trade payables

Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

## 2.15 Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the income statement over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

# FOR THE YEAR ENDED 31 DECEMBER 2010

## NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### 2.16 Income tax

The current income tax charge is calculated on the basis of the tax law enacted at the reporting date in Croatia. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulations are subject to interpretation and consider establishing provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax assets and liabilities are determined using tax rates (and laws) that have been enacted or substantially enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

## 2.17 Employee benefits

## (a) Pension obligations and post-employment benefits

In the normal course of business through salary deductions, the Company makes payments to mandatory pension funds on behalf of its employees as required by law. All contributions made to the mandatory pension funds are recorded as salary expense when incurred. The Company does not have any other pension scheme and consequently, has no other obligations in respect of employee pensions. In addition, the Company is not obliged to provide any other post-employment benefits.

## (b) Long-term employee benefits

The Company recognises a liability for long-term employee benefits (jubilee awards and termination benefits as defined by the collective bargaining agreement) evenly over the period the jubilee award/termination benefit is earned based on actual years of service. The long-term employee benefit liability includes assumptions regarding the likely number of staff to whom the benefit will be payable, estimated benefit cost and the discount rate. Termination benefits and jubilee awards falling due more than 12 months after the reporting date are discounted to their present value.

## (c) Short-term employee benefits

The Company recognises a provision for bonuses, unused vacation days and other considerations where contractually obliged or where there is a past practice that has created a constructive obligation.

#### FOR THE YEAR ENDED 31 DECEMBER 2010

# NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.17 Employee benefits (continued)

#### (c) Short-term employee benefits (continued)

Short-term liabilities for termination benefits are payable when employment is terminated by the Company before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Company recognises termination benefits when it is demonstrably committed to either: terminating the employment of current employees according to a detailed formal plan without possibility of withdrawal; or providing termination benefits as a result of an offer made to encourage voluntary redundancy.

Short-term employee benefits include termination benefits and jubilee awards (stated in paragraph (b) above), which will be paid within a period of 12 months after the reporting date.

#### 2.18 Provisions

Provisions for costs are recognised when: the Company has a present legal or constructive obligation as a result of past events; it is more likely than an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures that is expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The amount of provision increases in each period to reflect the passage of time. This increase is shown as interest expense.

## 2.19 Revenue recognition

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Company's activities. Revenue is shown, net of value-added tax, estimated returns, rebates and discounts.

The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Company's activities as described below.

#### (a) Sales of goods

Income from the wholesale of goods is recognised when the Company has delivered products to the customer, the customer has accepted the products and collectability of the related receivables is reasonably assured. Products are sold with volume discounts and customers have a right to return faulty products in the wholesale market. Sales are recorded based on the price specified in the sales contracts, net of estimated volume discounts and returns at the time of sale.

#### FOR THE YEAR ENDED 31 DECEMBER 2010

# NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### 2.19 Revenue recognition (continued)

#### (b) Sales of services

Service revenue mainly relates to revenue from consignment commissions and is recognised when the goods are taken from the consignment warehouse and when a calculation of the consignment service provided is prepared for the owner of the goods.

## (c) Interest income

Interest income arising from fixed-term bank deposits and given loans is recognised on a time-proportion basis using the effective interest method.

## 2.20 Finance expenses

Finance expenses comprise interest expense on borrowings, impairment losses recognised on financial assets, and foreign exchange losses. All borrowing costs are recognised in profit or loss using the effective interest method.

#### 2.21 Dividend distribution

Dividend distribution to the Company's shareholders is recognised as a liability in the financial statements in the period in which the dividends are approved by the Company's shareholders.

#### 2.22 Value added tax

The Tax Authorities require the settlement of VAT on a net basis. VAT related to sales and purchases is recognised and disclosed in the statement of financial position on a net basis. Where a provision has been made for impairment of receivables, impairment loss is recorded for the gross amount of the debtor, including VAT.

#### 2.23 Comparative information

Where necessary, comparative information has been reclassified to achieve consistency in reporting when using data from different periods.

### FOR THE YEAR ENDED 31 DECEMBER 2010

#### NOTE 3 - FINANCIAL RISK MANAGEMENT

#### 3.1 Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk and cash flow interest rate risk), credit risk and liquidity risk. The Company does not have a written risk management programme, and did not use derivative financial instruments to actively hedge financial risks. However, overall risk management in respect of these risks is carried out by the Company's Finance department.

## (a) Market risk

#### (i) Foreign exchange risk

The Company's sales are predominantly realised on the domestic market in Croatian kuna (HRK). The Company's purchase of goods is predominantly realised on the foreign market. Furthermore, a part of the borrowings is linked to foreign currencies. The Company is therefore exposed to foreign exchange risk arising from various changes in foreign exchange rates mainly linked to the EUR, which may have an impact on future operating results and cash flows. In relation to this, the Company does not use derivative instruments to actively hedge foreign exchange risk exposure.

At 31 December 2010 (notes 17, 23, 24), if the EURO had weakened/strengthened by 1.14 % (2009: 0.43%) against the HRK, with all other variables held constant, the profit after tax for the reporting period would have been HRK 4,845 thousand higher/lower (2009: 1,170 thousand), mainly as a result of foreign exchange gains/losses on translation of EURO-denominated trade payables and liabilities for issued bonds.

## (ii) Cash flow and fair value interest rate risk

As the Company has no significant interest-bearing assets, the Company's income and operating cash flows are substantially independent of changes in market interest rates.

The Company's interest rate risk arises from the borrowings. Borrowings issued at variable rates expose the Company to cash flow interest rate risk. Borrowings issued at fixed rates expose the Company to fair value interest rate risk.

The Company does not use derivative instruments to actively hedge cash flow and fair value interest rate risk exposure. However, the Company continuously monitors changes in interest rates. Various scenarios are simulated taking into account refinancing, renewal of existing positions and alternative financing.

At 31 December 2010, if the effective interest rate on borrowings (issued at variable rate) had been 0.22% higher/lower on an annual level (2009: 3.43%), the profit after tax for the reporting period would have been HRK 353 thousand lower/higher (2009: HRK 7,313 thousand).

#### FOR THE YEAR ENDED 31 DECEMBER 2010

# NOTE 3 – FINANCIAL RISK MANAGEMENT (continued)

# 3.1 Financial risk factors (continued)

#### (b) Credit risk

Current assets, which potentially subject the Company to concentrations of credit risk primarily include cash, trade receivables and other receivables. The Company has no significant concentrations of credit risk. The Company has policies in place to ensure that sales of products are made to customers with an appropriate credit history. With respect to credit risk exposure, customers are grouped into three categories: pharmacies, hospitals and other customers. Pharmacies present higher credit risk since they have potential going concern issue. On the other hand, collection period for hospitals is longer, but there are no impairment indications, namely, there is no going concern issue. Other customers are not significant because of dispersion on large number of customers, individually small balances and Company's strict measures of collection of outstanding debts and delivery of goods. The Company insures part of the trade receivables by bills of exchange and promissory notes. Detailed credit risk analysis is shown under notes 16 and 17.

## (c) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities and the ability to meet all obligations. The Company aims to maintain flexibility in funding by keeping committed credit lines available. The Finance department regularly, monthly, monitors available cash resources. The Commission in charge of monitoring the Company's liquidity prepares a payment plan on a monthly basis, and makes decisions on a daily basis with respect to payments, in accordance with the priority list received from managers who are in charge of the purchase of specific groups of products. Most of the customers are either state-owned or state-dependant, hence the Company's liquidity risk is dependant upon the state.

The table below analyses financial liabilities of the Company according to contracted maturities. The amounts stated below represent undiscounted cash flows.

| (in thousands of HRK) 31 December 2010 | Less than 1<br>year  | Between 1-3<br>years | Over 3<br>years | Total                |
|--|----------------------|----------------------|-----------------|----------------------|
| Trade and other payables<br>Borrowings | 1,013,537<br>119,594 | 200,777              | 1,783           | 1,013,537<br>322,154 |
| (in thousands of HRK) 31 December 2009 | Less than 1<br>year  | Between 1-3<br>years | Over 3<br>years | Total                |
| Trade and other payables<br>Borrowings | 996,316<br>134,185   | 26,859               | 205,080         | 996,316<br>366,124   |

During 2011, the Company will remunerate trade and other liabilities according to the collection of receivables which depends on liquidity of the whole healthcare system.

### FOR THE YEAR ENDED 31 DECEMBER 2010

# NOTE 3 – FINANCIAL RISK MANAGEMENT (continued)

#### 3.2 Capital risk management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Company monitors capital on the basis of the self-financing ratio on the non-consolidated financial statements, which should not move below the threshold of 15%. This ratio is calculated as the proportion of total equity and total assets.

The equity to assets ratio is as follows:

|                                     | 2010                 | 2009      |  |
|-------------------------------------|----------------------|-----------|--|
|                                     | (in thousands of HRF |           |  |
| Total equity (capital and reserves) | 303,282              | 283,034   |  |
| Total assets                        | 1,618,441            | 1,600,039 |  |
| Equity to assets ratio              | 19%                  | 18%       |  |
|                                     |                      |           |  |

In 2010, the ratio has increased in comparison to 2009 showing that 19% of the Company's total assets are financed from own resources. In accordance with the stated, 81% of assets is financed from other resources.

## 3.3 Fair value estimation

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the Company is the current bid price. The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. The Company uses a variety of methods and makes assumptions that are based on market conditions existing at each reporting date.

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values.

The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Company for similar financial instruments.

#### FOR THE YEAR ENDED 31 DECEMBER 2010

# **NOTE 4 – CRITICAL ACCOUNTING ESTIMATES**

Estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Assumptions to determine amount of provisions of trade receivables

Due to the materiality of the amount of trade receivables recorded in the statement of financial position, Management estimates the likelihood of the collection of trade receivables based on an analysis of such assets. Factors taken into consideration by Management include: ageing analysis of trade receivables and the financial position of customers compared to the collection history with the customer. The estimated recoverable amount of trade receivables represents the present value of estimated future cash flows, discounted at the effective interest rate of 5.91 % per year (2009: 8.02%). Should actual collections be less than management estimates, the Company would be required to record additional impairment expense.

At 31 December 2010, if the amount of uncollectible receivables in total receivables past due had been 1% lower/higher, with all other variables held constant, profit after tax for the reporting period would have been HRK 4,265 thousand higher/lower than the one recorded (2009: HRK 4,959 thousand). The effect in the hospital segment would be HRK 3,921 thousand (2009: HRK 3,068 thousand), in the pharmacy segment HRK 13 thousand (2009: HRK 1,503 thousand) and in the segment 'other' HRK 331 thousand (2009: HRK 388 thousand).

## FOR THE YEAR ENDED 31 DECEMBER 2010

- /i/ Long-term loans relate to financing from various banks for the purpose of maintaining an adequate level of working capital. Long-term loans consist of three loans; one loan is denominated in EUR with maturity within two years and a variable interest rate and the other two loans are denominated in Croatia kuna (HRK), one of which bears fixed interest rate and the other variable interest rate. Both loans have a maturity of two years.
- /ii/ Short-term loans relate to financing from various banks for the purpose of maintaining the adequate level of working capital. One loan is denominated in Croatian kuna (HRK) and the rest are denominated in EUR. Loans have maturity ranging from three months to one year and bear variable interest rate.
- /iii/ In 2010, the Company redeemed the eighth, ninth and tenth tranche of commercial bills. Redemption of commercial bills was financed through a short-term bank loan.
  - In 2009, eight, ninth and tenth tranche of commercial bills were issued and used for refinancing of seventh tranche. Eight tranche was issued in the amount of HRK 4,0 million with discount of 10.40% and maturity period of 365 days. Ninth tranche of commercial bills was issued in the amount of EUR 1,0 million with discount of 9.76% and maturity period of 274 days. Tenth tranche of commercial bills was issued in the amount of EUR 5,487 thousand with discount of 9.94% and maturity period of 274 days.
- /iv/Long-term finance lease liabilities relate to the purchase of delivery and personal vehicles. A number of leases were agreed at a fixed interest rate of 6.5%, while leases in 2010 were agreed at interest rate of 5.25% 5.75% (2009: 5.68%). The lease liabilities are repayable within four and five years and they are secured by a pledge over all cars which are subject to the finance lease (note 13). Lease liabilities are effectively secured since the lessor has the right to take over the subject of the lease if the Company stops paying of the liabilities.

### NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

|  | 193,545       | 202,705 |
|  |               |         |

The effective interest rates at the reporting date were as follows:

|                                    | 201         | 0           | 20     | 009         |
|------------------------------------|-------------|-------------|--------|-------------|
| _                                  | HRK         | EUR         | HRK    | EUR         |
| _                                  | %           | 0/0         | 0/0    | %           |
| Long-term borrowings Finance lease | _           | 5.29%-5.75% | _      | 6.50%-7.62% |
| Long-term loans                    | 3.80%-5.50% | 6.51%       | -      | 7.70%       |
| Short-term borrowings              |             |             |        |             |
| Commercial bills                   | -           | -           | 10.40% | 9.76%-9.94% |
| Short-term loans                   | 4.95%-5.20% | 5.01%       | -      | 4.40%-8.30% |

The carrying amount of liabilities for finance leases approximate their fair value.

The carrying amount of short-term borrowings approximate their fair value and the effect of discounting is not material.

### FOR THE YEAR ENDED 31 DECEMBER 2010

### NOTE 24 – BORROWINGS (continued)

The exposure of the Company's borrowings to interest rate changes and the contractual repricing dates at the reporting date are as follows:

|                | 2010          | 2009    |
|----------------|---------------|---------|
|                | (in thousands | of HRK) |
| Up to 3 months | -             | 10,593  |
| 3 - 12 months  | 282,792       | 306,079 |
| 1 - 3 years    | 15,600        | -       |
|                | 298,392       | 316,672 |

Borrowing in the amount of 15,600 thousand HRK is shown and is repayable within a period 1-3 years. As the loan's interest rate is fixed, there is no exposure to interest rate changes.

The carrying amounts of the Company's borrowings and commercial bills were translated from the following currencies:

|     | 2010         | 2009      |
|-----|--------------|-----------|
|     | (in thousand | s of HRK) |
| HRK | 93,596       | 3,797     |
| EUR | 204,796      | 312,875   |
|     | 298,392      | 316,672   |
|     |              |           |

Loans received are secured by mortgages over Company's buildings (note 13), bills of exchange and promissory notes.

### Employee benefits

This provision comprises estimated long-term employee benefits relating to termination benefits and jubilee awards, as defined by the collective bargaining agreement. The non-current portion of the provision relates to estimated acquired rights to termination benefits and jubilee awards that will be paid when one year after the reporting date has expired. The current portion of employee benefits includes jubilee awards and termination benefits which will be paid within 12 months after the reporting date.

### Legal disputes

During 2010, the Company has made provision for legal disputes on the basis of lawyer's and Management's estimation of probability of losing the dispute.

### FOR THE YEAR ENDED 31 DECEMBER 2010

### **NOTE 27 – CONTINGENCIES**

The Company issued guarantees for borrowings of its subsidiary in the total amount of HRK 11,456 thousand (2009: HRK 20,198 thousand).

The stated contingencies are not recorded in the statement of financial position as at 31 December 2010, as Management estimates that the liabilities of these subsidiaries will not become the obligations of the Parent Company, since all business transaction of these subsidiaries are under absolute control of Parent Company.

The Company entered into several legal disputes, both as plaintiff and defendant. According to the opinion of the expert legal counsellor who represents the Company in the stated disputes, Management estimates that no material losses shall arise from these disputes for the Company except for two disputes for which provision was made in amount of HRK 2,037 thousand (note 26).

### **NOTE 28 – SUBSEQUENT EVENTS**

In February 2011, the loan in the amount of EUR 22,613 thousand was reprogrammed to a lower interest rate. Concurrently, part of the respective loan in the amount of EUR 6,743 thousand was converted to a short-term in Croatian kuna, which reduced the Company's currency risk exposure.

### FOR THE YEAR ENDED 31 DECEMBER 2010

### **NOTE 29 – RELATED PARTY TRANSACTIONS**

The Company enters into transactions with related parties (entities with significant influence under common control). The related party Pliva Hrvatska d.o.o., Zagreb has a 24.71% ownership share in the Company. However, according to operating business transactions with the Company, it has a significant impact on the Company's current business operations. Balances and items resulting from these transactions are as follows:
