Main Features

Due to overindebtedness, lack of liquidity and insolvency, pursuant to the Financial Operations and Pre-bankruptcy Settlement Act (the Official Gazette 108/2012, 144/2012, 81/2013, 112/13), OT-Optima Telekom d.d. (hereinafter: Optima) has initiated pre-bankruptcy proceedings by filing a motion to initiate the said proceedings in February of 2013, with a view to restructure its business both financially and operatively.

Through the implementation of the financial and operative restructuring plan, Optima should become liquid and solvent in the upcoming period. On April 11, 2013 Optima obtained the decision on initiation of pre-bankruptcy settlement proceedings, while on November 5, 2013 the hearing for voting on the financial and operative restructuring plan was held, where a majority of 94.6% of all creditors voted in favor of the plan. The hearing for the execution of the pre-bankruptcy settlement has been scheduled for April 30, 2014 at the Commercial Court of Zagreb.

The Company is aware of the fact that the Croatian Competition Agency rendered and on April 7, 2014 published a decree deeming the concentration of Croatian Telecom and Optima, based on the Financial Restructuring Plan within the pre-bankruptcy settlement proceedings, conditionally permitted along with imposing measures for eliminating the negative impacts of the concentration. All the information regarding the course of pre-bankruptcy settlement proceedings are published pursuant to the Financial Operations and Pre-bankruptcy Settlement Act on the Financial Agency's website, at www.fina.hr. The Company is reporting to the public on the course of the proceedings in a timely and transparent fashion, and in line with the regulations from the field of capital markets.

Business indicators

Optima concluded the first quarter with:

- total revenue has been achieved in the amount of HRK **117.6** million, which represents a **14.1%** decrease, with a simultaneous decrease of total liabilities by HRK **27.9** million or 18.8% compared to the same period of the previous year
- the achieved EBITDA of the core business in the amount of HRK **21.3** million with a decrease of the EBITDA margin by **1.2** points to **18.4%** compared to the same period of the previous year.

	Q1 2013	Q1 2014	Q1 2014 / Q1 2013
Total operating income	136,971	117,618	[14.1%]
EBITDA	26,507	21,312	[19.6%]
EBT	[11,015]	[2,499]	[77.3%]

	31.03.2013	31.03.2014/ 31.03.2013	31.12.2013	31.12.2014/ 31.12.2013	31.03.2014
Total number of OT users					
Number of voice channels	229,500	-8.2%	218,482	-3.6%	210,619
Number of users in own LLU network	117,294	-6.1%	112,896	-2.5%	110,089

South	83	2.4%	85	0.0%	85

Consolidated revenue

The total consolidated revenue at the end of the first quarter of 2014 amount to HRK **117.6** million which indicates a **14.1%** decrease compared to the results achieved in the same period of the previous year. Revenue from the wholesale segment, i.e. the interconnection revenue had the greatest impact on the decrease of total revenue. As of July 1, 2013 a regulatory decision significantly decreased the prices of international call termination in fixed networks (from HRK 1.28/min to HRK 0.45/min, or 64%), which resulted in a decrease of interconnection revenue in the observed period. Public voice service shows a decreasing tendency at a global level and the quantity of minutes realized in the voice service is showing a continued drop, which is presented through the decrease of revenue from the public voice service.

Telecommunications service income

TELECOMMUNICATIONS SERVICE INCOME

Source: Optima's internal data

Internet services revenue that increased by **13.6%** and multimedia services with a **12.9%** increase has a positive impact on the overall revenue in the first quarter. A positive trend has been achieved thanks to sales activities in both the corporate and residential segment, with emphasis on the increase of 2-play and 3-play services.

Data services revenue decreased by **59%**. This big a difference in revenue was primarily influenced by the one-time sales revenue according to the IRU15 model that had a significant impact on revenue increase in the first quarter of 2013.

Public voice service revenue amounts to HRK **53.9** million, which is **9.5%** less compared to the same period of the previous year with the simultaneous drop in the quantity of minutes realized in the amount of **17.7%** compared to the same period of the previous year, which shows the decreasing trend in the quantity of minutes realized in the national

landline network.

Interconnection revenue amounts to HRK **19.4** million and are **35%** lower due to fewer minutes and price adjustments.

TELECOMMUNICATIONS SERVICE INCOME

Izvor: interni podaci Optime

Earnings before interest, taxation and depreciation – EBITDA

The consolidated EBITDA of the core business amounts to HRK **21.3** million at the end of the first quarter, which represents a **19.6%** decrease compared to the same period of the previous year.

Earnings before taxation – EBT

At the end of the first quarter of 2014, EBT amounts to HRK – **2.5** million, which is a better result by HRK **8.5** million or **77.3%** compared to the same period of the previous year.

Infrastructural development

The total number of active collocations by the end of the first quarter of 2014 is **283**.

Along with the erection of new collocations, infrastructural development necessarily requires the construction of one's own optical network. During the first quarter of 2014, apart from regular construction of optical feeds to end users, the construction of optical network also included the realization of a significant inter-city line between Šibenik and Trogir.

In numbers, we are talking about 95.9 km of new optical network, or 66 new feeds and the previously mentioned Šibenik-Trogir line. Comparing overall lengths, this is an increase of optical network of 3.5% compared to the construction level at the end of 2013 (2,914 km compared to 2,814 km realized by the end of the fourth quarter of 2013).

Compared to the same period of 2013 (first quarter), the overall length of constructed optical feeds and lines has multiplied, considering that we also realized an inter-city line in this period, along with the regular optical feeds. The highest quantity of feeds and lines has been realized in region South (78.2 km), followed by region North (14.9 km) and regions West (1.4 km) and East (1.4 km).

Significant events in the first quarter of 2014 and expectations for future development

Significant events in the first quarter of 2014 and expectations for future development

Macroeconomic and market trends¹

Currency exchange rate trends at the beginning of February have been characterized by an intervention of the Croatian National Bank at the very end of January, through which EUR 240.2 million have been sold to commercial banks and EUR 1.15 billion of state bonds have been issued in the domestic market.

The intervention increased foreign currency liquidity, while the issuance of bonds influenced bank positioning (they were supposed to ensure a sufficient quantity of national currency), so due to high HRK liquidity and little activity in the foreign currency market in the first part of the month there were no significant oscillations of the exchange rate. In the second part of the month there was a somewhat higher demand for foreign currencies, so a slight HRK depreciation was recorded again, so that the HRK was worth 0.1% more at the end of the month than at its beginning.

The GDP drop is being recorded for five years in a row. According to the first estimates of the Croatian Bureau of Statistics, in the fourth quarter of last year the GDP was actually decreased by 1.2% at an annual level. Such a relatively high drop was expected after slightly smaller drops in the second and third quarter positively influenced by a good tourist season. With such accomplishments in the final quarter, the actual GDP decrease amounted to 1.0%, which meant slowing down the drop compared to the previous year (-1.9%), but the base decrease, hence a further decline at the low level of economic activity has to be considered.

In January the annual inflation rate (0.1%) a step away from deflation – the lowest annual increase of the general consumer prices level since the beginning of 1995. Namely, the more visible inflationary pressures disappeared from the offer side (energy and feedstock price decrease in the world market; base effect disappearance due to the increase of administrative prices of monopolistic services related to housing from 2012), and on the demand side there have been no impulses for a long time now (decrease of available income with a deterioration in the labor market).

¹ Data Source: Croatian Bureau of Statistics (DZS), Croatian Chamber of Economy (HGK)

The highest unemployment rate since the beginning of the economic crisis has been registered in January of this year (22.4%). 38,213 persons have been entered into the unemployment records, which is 5% more at an annual level. In December, the Government issued an ordinance determining the minimum wage for 2014 in the gross amount of HRK 3,017.61 (compared to the previous amount, this is an increase by approximately HRK 30.00). A slight increase of the minimum wage is a result of a long and deep recession, while the purchasing power of the citizens has decreased so much more and the increase of the VAT interim rate from 10% to 13% (from January 2014) will exert additional pressure on the purchasing power.

The decreasing trend of outstanding payment titles is slowing down, with a simultaneous large quantity of new overdrewals. At the end of January, the value of outstanding payment titles amounted to HRK 33.45 billion, which is only 249 thousand less than a month earlier. This confirms further mitigation of the decreasing trend which has been visible for some time now.

Regular environment

The Croatian Post and Electronic Communications Agency (hereinafter: HAKOM) has continued to regulate the electronic communications market in this reporting period as well and, for the purpose of adjusting wholesale offers of Hrvatski Telekom d.d. (hereinafter: HT) to the regulatory obligations imposed upon HT in the second round of relevant market analyses, pursuant to Art. 58, para. 3 of the Electronic Communications Act it carried out amendment procedure of HT's Standard offer for the wholesale broadband access service and HT's Standard offer for the singled out local loop access service. Out of the amendments expected to have a significant impact on the Company's business, we would like to point out sending of the request for wholesale services via the B2B interface without the need to enclose a copy of the unified request, shortening the deadline for performance of services to the new end user, defining obligations that HT has to fulfill in the realization of wholesale services (realization confirmation, providing pair cabling technical parameters, etc.), abolishing the differences between the narrowband and broadband pair cabling, the correction of the pair cabling technical parameters as well as test profile parameters, a significantly improved repair procedure, the possibility of migration between wholesale services. In order to equalize wholesale conditions, insofar as the same is allowed by the market itself, HAKOM also amended the HT's Standard offer for user line rental service, whereby it regulated, amongst other things, the payment of a charge for untimely realization of the complex request for the user line rental service and certain other HT's wholesale services.

Within the regular market analyses HAKOM started the process of market analysis in the relevant market of access to the public communications network at a fixed location for private and corporate users, as well as in the market of publicly available telephone service in the local and/or inter-city traffic, being provided at a fixed location for private

users and the market of publicly available telephone service in the local and/or inter-city traffic, being provided at a fixed location for corporate users. Also, in this reporting period, based on its own cost model, HAKOM has completed the process of calculating the one-time charge for singled out local loop access service that will, along with the introduction of two new charges – the one for request withdrawal and the one for administrative processing of the request – have a significant impact on the Company's financial operations in the upcoming period.

The completion of the process of determining charges for the rented electronic communication lines and the charge for the wholesale broadband access service is anticipated during the following reporting period. Namely, HAKOM initiated an additional round of public discussions in the said processes because an additional check of cost allocation in the cost model for the core network showed that the allocated amount of costs connected with the rented line wholesale service has been underestimated. Given that the same network elements of HT's core network are used for providing both the wholesale broadband access service and the line rental service, HAKOM made the necessary adjustments to the cost model, so Final decisions in this processes are anticipated during the upcoming reporting period and they are expected to have a significant impact on the Company's financial operations. In light of the above, the regulatory body is expected to continue its activities in market analyses as well as in defining wholesale conditions by applying the principle of price cost-orientation and cost models, which should be of influence to the Company's business in the periods to come.

Out of the more relevant amendments to regulations in force in the field of electronic communications, we would like to point out the entry into force of the amended and supplemented Regulation on the manner and conditions for electronic communications network activities and services, regulating the procedure for changing the public communications services carrier in the landline electronic communications network. Out of the obligations that are expected to have a significant impact on the Company's financial operations in the upcoming periods, we would like to point out the obligation to pay compensation to the end user for delays in service realization beyond the proscribed deadline and the obligation to pay another carrier compensation for delays in non-performance of obligations in the carrier change process.

In this reporting period, the Ministry of Maritime Affairs, Transport and Infrastructure initiated a public debate concerning the new draft Act amending the Electronic Communications Act. This time, the purpose of the changes is the merger of the Railroad Services Market Regulation Agency (ARTZU) with HAKOM, in order to establish a unified national regulatory body to regulate the electronic communications market, the postal services market and the railroad services market – the Croatian Network Activities

Regulation Agency. As far as the financing of the new regulator is concerned, it has been proposed that its funding be ensured out of the fee for the regulatory body's services to be paid by the participants of the railroad services market as well, according to the same principle as carriers, or postal service providers – as a percentage of the overall annual gross revenue achieved in the previous year). Concerning any surplus of the funds accumulated from the fees, it is proposed that HAKOM should, as a rule, transfer any surplus into the following year, and as an exception, it may decide to transfer this surplus into the newly established Network Activity Development Fund which should aid solely the development of electronic communications networks and services. The adoption and passing of this Act amending the Electronic Communications Act is anticipated within the upcoming reporting period.

Changes to the Company's governing bodies

There were no changes to the Company's governing bodies.

Statement of the Persons in Charge of Financial Statements

In accordance with Article 410 of the Capital Market Act, pertaining to the publication of reports concerning the issuers included in the regulated market, the members of the Board of Directors, Mr. Matija Martić as Chairperson of the Board, Mr. Goran Jovičić, as Member of the Board and Ms. Jadranka Suručić, as Member of the Board, jointly declare that, to the best of their knowledge, financial statements for the reporting period have been prepared in accordance with applicable standards of financial reporting and that they contain an overall and true presentation of assets and liabilities, losses and profits, financial status and operation of Optima. The financial report contains a true presentation of development, business results and position of Optima Telekom and its subsidiaries, as well as a description of the most significant risks and uncertainties which the group is exposed to.

Notes to the Financial Statements

According to HANFA's instructions items in balance sheet in the positions of the previous period is 31 December 2012

Gazette 108/2012, 144/2012, 81/2013, 112/13), OT-Optima Telekom d.d. (hereinafter: Optima) has initiated pre-bankruptcy proceedings by filing a motion to initiate the said proceedings in February of 2013, with a view to restructure its business both financially and operatively. Through the implementation of the financial and operative restructuring plan, Optima should become liquid and solvent in the upcoming period. On April 11, 2013 Optima obtained the decision on initiation of pre-bankruptcy settlement proceedings, while on November 5, 2013 the hearing for voting on the financial and operative restructuring plan was held, where a majority of 94.6% of all creditors voted in favor of the plan. The hearing for the execution of the pre-bankruptcy settlement has been scheduled for April 30, 2014 at the Commercial Court of Zagreb. The Company is aware of the fact that the Croatian Competition Agency rendered and on April 7, 2014 published a decree deeming the concentration of Croatian Telecom and Optima, based on the Financial Restructuring Plan within the pre-bankruptcy settlement proceedings, conditionally permitted along with imposing measures for eliminating the negative impacts of the concentration. All the information regarding the course of pre-bankruptcy settlement proceedings are published pursuant to the Financial Operations and Pre-bankruptcy Settlement Act on the Financial Agency's website, at www.fina.hr. The Company is reporting to the public on the course of the proceedings in a timely and transparent fashion, and in line with the regulations from the field of capital markets.

1. GENERAL INFORMATION

History and incorporation

The company Optima Telekom d.d. (hereinafter: the Company) was established in 1994 as Syskey d.o.o., while its principal operating activity and company name was changed to Optima Telekom d.o.o. on 22 April 2004.

The Company changed its legal status from a limited liability company to a joint stock company in July 2007. The Council of the Croatian Telecommunications Agency issued a licence for public voice service in fixed networks for the company on 19 November 2004, for a period of 30 years.

Principal Business Activities

The Company's principal business activity is the provision of telecommunications services to private and business users in the Croatian market. The Company began to provide its telecommunications services in May of 2005.

In its beginnings, Optima Telekom d.d. focused on business users, but soon after starting business operations, it began to aim for the private users market offering quality voice packages.

To its business users, Optima Telekom d.d. offers services of direct access, internet services, as well as voice telecommunication services through its own network and/or migrated previously chosen services. Along with that, the leading services which Optima Telekom d.d. provides to business users is the IP Centrex solution, among the first of this kind in the Croatian market and IP VPN Services. The existing capacities enable Optima Telekomu d.d. to provide services of collocation and hosting. To its large business clients, the Company also offers specifically designed solutions relying on its exceptional skills in the field of IT technology.

On 6 July 2006 OT-Optima Telekom d.d. acquired 100% of interest in Optima Grupa Holding d.o.o., which changed its name to Optima Direct d.o.o., on 23 September 2008.

The main business activities of Optima Direct d.o.o. are trading and providing various services which mainly relate to telecommunications sector.

In August 2008, the Parent Company increased the share capital of Optima Direct d.o.o. by HRK 15.888 i.e. the share capital was increased from HRK 3.328 to HRK 19.216.

As a sole member-founder, the Company established Optima Telekom d.o.o. Kopar, Slovenia, in 2007.

As a sole member-founder, the Company established Optima telekom za upravljanje nekretninama i savjetovanje d.o.o., on 16 Aug 2011, which currently is not operating

Investments in affiliated companies as on 31 Mar 2014

063. SUBSCRIBED CAPITAL

On 24 August 2007, the sole shareholder at that time Mr. Matija Martić paid up the amount of HRK 20 million in the Company's share capital. In that way, the share capital of the Company has been increased from HRK 201 thousand to HRK 20.201 thousand. The Company has undergone transformation from limited liability company to joint stock company. The total number of shares amounted to 2.020.070 of ordinary shares with nominal value of HRK 10 each. The sole shareholder remained Matija Martić.

In December 2007, the Company increased the share capital through initial public offering. The Company issued 800.000 shares with nominal value of HRK 10 each. In this way, the total number of shares has been increased to 2.820.070. By subscribing the new shares, the Company realized capital gain of HRK 194.354 thousand representing the difference between the nominal value and the price determined on the initial public offering.

At 31 Mar 2014, loss per share is as follows:

Net result - loss	2.498.546
Number of shares	2.820.070
Loss per share	0,89

In the same period last year, loss per share amounted to HRK 3,91

Price of shares realized on the stock exchange within the current quarter (1 Jan - 31 Mar 2014) varied from HRK 5,36 (the lowest price) to HRK 8,24 (the highest price). Market capitalization in thousands of HRK on 31 Mar 2014 amounted to HRK 16.920 thousand.

In the period from January to March 2014 the Company did not buy-out the issued shares i.e. it does not hold treasury shares.

Deferred income	12.281.250
Deferred income due to uncertainty	3.713.410
	24.887.326

3. FINANCIAL INSTRUMENTS

During the reporting period, the Company used most of its financial instruments to finance its operations. Financial instruments include loans, bills of exchange, cash and liquid assets and other various instruments, such as trade receivables and trade payables arising directly from ordinary business activities.

Currency Risk Management

Currency risk may be defined as risk of fluctuation of value of financial instruments due to changes in the exchange rates. The Company's major exposure relates to long-term borrowings denominated in a foreign currency and converted to Croatian Kunas at the exchange rate applicable on the balance sheet date. Gains and losses resulting from conversion are credited and charged to the income statement, but do not affect the cash flow.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the reporting date are given in the following table.

	Liabilities		Assets	
	31 Mar 2014	31 Mar 2013	31 Mar 2014	31 Mar 2013
	in 000 HRK	in 000 HRK	in 000 HRK	in 000 HRK
EUR	610.077	596.608	-19.100	-21.286
USD	1.322	1.367	0	0
CHF				
GPB				
	611.399	597.975	-19.100	-21.286

Foreign currency sensitivity analysis

The Company is mainly exposed to the fluctuations in the exchange rate of Croatian Kuna to Euro and US Dollar.

The following table details the Company's sensitivity to a 10% decrease of Croatian Kuna exchange rate in 2014 against the relevant foreign currency. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their conversion at the end of the period on the basis of percent change in foreign currency rates. The sensitivity analysis includes monetary assets and monetary liabilities in foreign currencies. A negative number below indicates decrease in profit and other equity where Croatian Kunas changes for above-mentioned percentage against the relevant currency. For a reverse proportional change of Croatian Kuna against the relevant currency, there would be an equal and opposite impact on the profit and other equity.

	Liabilities		Assets	
	31 Mar 2014	31 Mar 2013	31 Mar 2014	31 Mar 2013
	in 000 HRK	in 000 HRK	in 000 HRK	in 000 HRK
EUR	61.008	59.661	-1.910	-2.129
USD	132	137	0	0
CHF				
GPB				
	61.140	59.798	-1.910	-2.129

Exposure to the currency exchange for 10% mainly relates to received loans, trade payables and receivables from affiliated companies indicated in Euros (EURO) and US Dollars (USD).

Interest Rate Risk

Liabilities arising from credits and loans with variable interest rates amount to HRK 341,35 million, and therefore, the Company's exposure to the interest rate risk is significant.

Other assets and liabilities, including bonds issued, are not exposed to interest rate risk.

Credit Risk

Credit risk is the risk that the Company's customers will default on their contractual obligations causing possible financial loss to the Company. The Company has adopted procedures which are applied in dealing with customers and it requests and collects payment security instruments, where appropriate, in order to mitigate possible financial risks and losses resulting from a default in payment and fulfilment of contractual obligations.

Trade receivables are monitored continuously in order to determine their risk level and apply the appropriate procedures. Customers' credit ratings are also monitored on a continuous basis in order to establish the Company's credit exposure, which is reviewed at least once a year.

The Company operates with a large number of customers from various industries and of various sizes as well as with individuals who have a specific credit risk. The Company has developed procedures for each particular group of customers in order to ensure that the credit risk is addressed in the most appropriate way.

Liquidity Risk Management

The ultimate responsibility for liquidity risk management rests with the Management Board which is in charge of setting up the appropriate framework for liquidity risk management, all with the purpose of satisfying short-term, medium-term and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves and credit lines, by continuous comparison of planned and realized cash flows and by matching the maturity profiles of financial assets and liabilities.

Liquidity Risk and Interest Rate Risk Table Review

The following tables detail maturity of the Company's contractual liabilities indicated in the balance sheet at the end of the reporting period.

Tables have been created on the basis of undiscounted cash flows of financial liabilities on their due date. The tables include both interest and principal cash flows.

in 000 HRK

	Up to one year	From 1 to 5 years	Over 5 years	Total
31 Mar 2014				
Non-interest bearing liabilities	273.200			273.200
Interest bearing liabilities	907.615	1.884	1.418	910.917
	1.180.815	1.884	1.418	1.184.117
31 Mar 2013				
Non-interest bearing liabilities	184.443			184.443
Interest bearing liabilities	597.212	279.680	1.811	878.703
	781.655	279.680	1.811	1.063.146

The majority of non-interest bearing liabilities of the Company maturing within one year account for trade payables in the amount of HRK 270.301 thousand for the period from January to March 2014 (HRK 272.756 on 31 december 2013).

Interest bearing liabilities include short-term and long-term borrowings, bonds issued and financial lease.

The following tables detail maturity of the Company's financial assets indicated in the balance sheet at the end of the reporting period.

Tables have been created on the basis of undiscounted cash flows of financial assets on their due date. The tables include both interest and principal cash flows.

in 000 HRK

	Up to one year	From 1 to 5 years	Over 5 years	Total
31 Mar 2014				
Non-interest bearing liabilities	156.126			156.126
Interest bearing liabilities	1.244	3.493	0	4.737
	157.370	3.493	0	160.863
31 Mar 2013				
Non-interest bearing liabilities	81.777			81.777
Interest bearing liabilities	676	3.461	0	4.137
	82.453	3.461	0	85.914

The balance of cash and cash equivalents is indicated under non-interest bearing financial assets due to the low interest rate on these assets.
