Unaudited financial statements of the Erste&Steiermärkische Bank d.d. and subsidiaries (the Group) for period January 1st - June 30th 2019

Content:

- 1. Management report for the first half of the year 2019
- 2. Declaration of key personnel responsible for creation of financial statements
- 3. Balance sheet as at 30.06.2019
- 4. Statement of profit or loss for the period 1.1.2019 30.06.2019
- 5. Statement of cash flow for the period 1.1.2019 30.06.2019
- 6. Statement of changes in equity for the period 1.1.2019 30.06.2019
- 7. Notes to the half year financial statements

Management report 31 July 2019

Erste Bank Croatia's operating business remains stable in H1 2019

"Further interest margin decrease, upward trends in transaction business, continuation of the risk cost reduction and substantial focus on operational efficiency as a response to the growing market challenges of the digital age, are the four basic trends that mark the banking business in the current year," said Christoph Schoefboeck, Chairman of the Management Board of Erste Bank Croatia, commenting on the business results for H1 2019 and added: "Despite the one-time costs, which have a significant impact on the achieved financial result, in H1 2019 Erste Bank achieved a stable operating result, focussing on the strategic goals. These are: sustainable and long-term business success, based on following of sound and profitable projects, strong focus on digital innovations and maintenance of a partnership relation with clients and all stakeholders in the social community. Our goal is the growth of the Croatian economy as well as stimulation and expansion of the prosperity of society in Croatia as a whole, and we want to contribute to this with the quality of our financial as well as non-financial business segment, based on an open communication and mutual understanding."

IN BRIEF

According to the non-consolidated financial report for Erste Bank Croatia (the Bank), without subsidiaries, the Bank's net profit in 2019 was HRK 332.0 million, down 34.3% from HRK 505.0 million in the same period last year. One-time provision costs, which arose from a litigation case which is still ongoing and was filed by a creditor of one of the contracting parties in a deposit contract, had the most significant impact on the net profit decrease.

Net interest income decreased by 4.8%, from HRK 849.0 million in H1 2018 to HRK 809.0 million in H1 2019, primarily as a result of further interest margin reduction. Net fee and commission income was up 9.6%, primarily led by upward trends in the transaction banking segment, and in H1 2019 it reached HRK 230.0 million in comparison with HRK 210.0 million in H1 2018. Net trading and fair value result increased by 14.0%, from HRK 100.0 million in H1 2018 to HRK 114.0 million in H1 2019, boosted by upward trends of the foreign exchange transactions.

At the end of June 2019 the Bank's total assets were HRK 64.2 billion, up 4.6% from HRK 61.4 billion at 2018YE. As of 30/06/2019, total loans were HRK 40.3 billion, up 1.4% from HRK 39.8 billion at 2018YE. Total deposits as of 30/06/2019 were HRK 46.8 billion, down 0.3% from HRK 47.0 billion at 2018YE.

EBC Group's* net profit in H1 2019 was HRK 428.0 million compared to HRK 596.0 million in H1 2018. EBC Group's net interest income was down 3.3%, from HRK 1.06 billion in H1 2018 to HRK 1.02 billion in H1 2019. Net fee and commission income was up 8.0%, from HRK 342.0 million in H1 2018 to HRK 369.0 million in H1 2019.

EBC Group's total assets in late June 2019 were HRK 73.5 billion and were up 5.5% from HRK 69.7 billion at 2018YE. Total loans as of 30/06/2019 were HRK 44.1 billion, up 2.1% from HRK 43.2 billion at 2018YE. EBC Group's total deposits at the end of June 2019 were HRK 49.6 billion and were up 0.8% from HRK 49.2 billion at 2018YE.

OUTLOOK

"We assess the continuation of the fiscal consolidation process as positive, which resulted in an upgrade of the credit rating of the Republic of Croatia to an investment level, as well as continuation of the Croatian path to the Eurozone, which was confirmed by acceptance of Croatia's letter of intent to enter the European Exchange Rate Mechanism (ERM2). The recent issue of state bonds at a record-low price additionally points to the importance of a responsible fiscal policy and achievement of a stable economic growth and, especially, implementation of structural reforms so that the growth would be sustainable over the long run. Apart from finding an adequate response to the current migration trends, work on strengthening of the legal and investment safety still calls for further efforts," Schoefboeck underlined.

"Acceleration of the so-called time-to-market, more frequent changes and adjustments of existing products, i.e. a sort of a comprehensive digital transformation of the banking business, will continue its process in the remainder of this year, as well as in the coming years. It is important to stress that banks are increasingly converting from traditional providers of financial products and services into institutions of financial knowledge which provide their clients with a comprehensive counselling service and take care of their financial health. The smart finance school or free educational workshops on personal finance management, which have been attended by more than 3,000 Croatian citizens so far, is one of the example how banks can contribute to the segment. This is an important precondition for a successful and sustainable business in the future," Schoefboeck concluded.

EBC Group's consolidated financial statement includes the following subsidiaries in addition to Erste & Steiermärkische Bank d.d.: Erste Nekretnine d.o.o., Erste & Steiermärkische S-Leasing d.o.o., Erste Bank a.d., Podgorica, Erste Card Club group, Erste Factoring d.o.o., Erste Group IT HR d.o.o. and Izbor Nekretnina d.o.o.

Risk management

Risk management is a set of procedures and methods established for identifying, measuring, assessing, controlling and monitoring of risks, including reporting of risks to which the credit institution is or might be exposed in its operations. The Bank is obliged to regularly measure and assess the risks identified in its business. Methods of measuring and assessing risk must include appropriate quantitative and/or qualitative measurement methods and risk assessment that will enable the observation of changes in Bank's risk profile, including the emergence of new risks.

The most significant risks that affect Bank's business operations are credit, market, operational and liquidity risk.

Credit risk is the risk of potential loss due to a debtor's non-payment of obligations towards the Bank, and it arises from the possibility that the Bank's credit claims and related fees and interest will not be repaid in the foreseen amount and timeframe. The Bank identifies, measures, follows up on, controls, i.e. actively manages the credit risk as one of the most important risks and determines existence of appropriate capital level for covering of such risks. Risks related to credit risk are: default risk, migration risk, counterparty credit risk, settlement risk, equity risk, free delivery risk, currency induced credit risk, residual risk, country and political risk, and dilution risk.

Market risks represent the risk of loss in open position stemming from the change in the movements of the market prices and rates (including interest rates, equity prices, foreign exchange rates and commodity prices), the correlations among them and their levels of volatility. In this sense, market risk include: position risk,, interest rate risk, currency risk, commodity risk, credit spread risk, equity/price risk and volatility risk.

Operational risk is defined as the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events, including in particular legal, regulatory, compliance, outsourcing, staff, security, fraud, vendor, execution and processing and financial statement risk.

Liquidity risk is a risk of loss stemming from an existing or expected inability of a credit institution to settle its monetary obligations upon maturity. Liquidity risk arises from maturity mismatch between assets and liabilities. Liquidity risk contains (i) funding liquidity risk which is then divided into insolvency risk and structural liquidity risk and (ii) market liquidity risk.

Except above mentioned risks the Bank manages and all other risk that could affect their business operations such as: risk concentrations, business/strategic risk, systemic risk, management risk etc.

NOTES TO THE HALF YEAR FINANCIAL STATEMENTS (PFI)

Name of issuer: **ERSTE & STEIERMARKISCHE BANK DD**OIB: **23057039320**

Reporting period: 1.1.2019 - 30.06.2019

The half year financial statements are prepared in accordance with the Ordinance on the structure and content of periodic financial reports for issuers during the year prescribed by Croatian Financial Services Supervisory Agency, International Financial Reporting Standards, as well as the instructions from Annex V of the Commission Implementing Regulation (EU) No 680/2014 of 16 April 2014 laying down implementing technical standards with regard to supervisory reporting of institutions according to Regulation (EU) No 575/2013 of the European Parliament and of the Council.

Half year financial statements are prepared in accordance with the same accounting policies, as in the latest annual financial statements, with additional adjustments that are made in accordance with the accounting standard IFRS 16 "Leases" that came into force on 01 January 2019.

The application of accounting standard IFRS 16 "Leases" did not have any impact on the Group's capital.

The latest annual financial statements are available on the Bank's official website.
