Stanovi Jadran

MANAGEMENT REPORT

STANOVI JADRAN d.d. SPLIT

01.01.2020. to 31.03.2020.

Split, April 27th, 2020.

Introduction

Stanovi Jadran plc. continues its outstanding results in the first quarter of 2020. The main reason

for the outcome is the sale of stake in Winter ltd. which resulted in a financial income of HRK

11,791,284.00.

At the same time, the Management Board have been contacted for the penthouse S3 in Šibenik and

believes that it could be sold in the second quarter of 2020.

Although the results were remarkable at the time of the COVID-19 pandemic, business revenue is

expected to decline in 2020.

Furthermore, the construction site for the reconstruction of the Armerun Hotel in Šibenik is still

active having dynamics slowdown due to measures set by Government in order to stop the

expansion of COVID-19 Therefore, the opening of the Armerun Hotel is expected next year.

The Management Board of the Company is actively engaged in the sale of real estate that is not in

focus or in line with the Company's development strategy. Accordingly, apartments in Šibenik and

properties in Zagreb and Dubrovnik are listed for sale.

Kind regards,

STANOVI JADRAN d.d.

I. COMMENTS ON BUSINESS DOING

Stanovi Jadran plc. (the Company) sold 89% of its subsidiary Winter ltd. in February, earning a financial income of HRK 11,791,284.00. In addition, operating income in the first quarter of 2020 increased by 97% compared to the same period of the previous year, mainly due to the new tenants for real estate which were not in use previous year, such as office space in the residential and business complex of Peškarija and dental offices in the center Ploka.

At the same time, material and staff costs have been reduced, while other costs have increase mainly related to brokerage fees when purchasing securities in March 2020 in Bosnia and Herzegovina.

Material expenses 12.391.261 HRK 289.079 HRK

Net profit 11.267.617 HRK

Assets 97.466.022 HRK

22.281.373 HRK

Stanovi Jadran plc. (the Group) achieved worse results in 2020 than in the previous year for the same time period. Logically, the reason is the sale of the subsidiary Winter ltd., which generated most of the Group's revenue. The Company's management believes that, given the limitations associated with the COVID-19 pandemic, the sale of the Winter ltd., which manages Hotel Blanca Resort & Spa, was done at perfect timing under extremely good conditions. Consequently, costs have been reduced and the Group's profit amounts to HRK 11,255,935.00.

Net profit 11.255.935 HRK

Assets 98.075.664 HRK

II. IMPORTANT BUSINESS EVENTS

Stanovi Jadran plc. concluded the sale of shares in the subsidiary Winter Ltd. and purchased securities in Bosnia and Herzegovina. The Company continued with investment activities in the Hotel "Armerun" in Šibenik and by the day of writing the report, all concrete works and a large part of roofing, installation, plastering and insulation works were done. The Management of the Company believes that the opening of the hotel should be in spring of 2021 because of all the restrictions on movement caused by the COVID-19 pandemic and the financial crisis that is expected due to the shutdown of the economy globally.

Properties wholly or majorly owned by the Company were put up for sale and the Management Board held several meetings with potential buyers.

Nova Nekretnine ltd has started remodelling of the project due to new homogenization of cadastral plans in Dubrovnik and plans to start obtaining a building permit by the end of the year.

III. EXPECTED BUSINESS DEVELOPEMENT

Due to the COVID-19 pandemic, the Management expects a decrease in sales revenue. Specifically, it is expected that the demand for daily rental properties will drop as well as revenue from the lessees who are forbidden to perform business activities from the Civil Protection of the Republic of Croatia should be reduced. Also, the planned revenue from the Armerun Hotel will not be realized in 2020, and expected revenues in 2021 will be less than projected.

Furthermore, the Management expects fewer inquiries for real estate in Zagreb due to the March earthquake and a decline in advertised prices in the wake of the financial crisis.

The liabilities of the Company and its Subsidiaries relate mainly to investments activities in projects that are ongoing.

The subsidiary VILE ORAŠAC ltd. submitted permit extension in this quarter. The management believes after getting an extension, it should make it easier to find a potential buyer and will be easier to sell the shares in the same subsidiary.

Because of the reduced demand for daily rent as well as the financial crisis, the Company's Management believes that it should be easier to find properties for potential hotels in the city historic centres at more affordable prices.

In the first quarter, the Company acquired securities in Bosnia and Herzegovina which the Management Board believes to be liquid securities, as an essential asset class for the Company's liquidity.

IV. R&D ACTIVITIES

Improving the real estate market requires regular monitoring of the market, which is mostly done through our own research and through discussions with agents who are daily confronted with the real estate supply and demand.

V. TREASURY SHARES INFORMATION

Stanovi Jadran plc. do not own treasury shares, and the existing ownership structure and is subject to more frequent changes in the Stock Exchange Market. At this moment, there are neither treasury repurchase program nor employee stock purchase plan.

VI. BRANCH OFFICES

The company has no open subsidiaries. This also applies to the subsidiaries that are part of the Group.

VII. IMPORTANT FINANCIAL INSTURMENTS

Financial instruments that the Company has in its portfolio are:

- shares of the subsidiaries Villa Orasac ltd. and Nova Nekretnine ltd.,
- shares of companies listed on Zagreb Stock Exchange such as Varteks d.d. and Proprius d.d. in liquidation. The company holds 10.57% of Proprius d.d. in liquidation share capital, where the Company's holding company Jadran Kapital d.d. is the largest single shareholder of Proprius d.d. in liquidation.
- securities of BH Telecom plc. and Elektroprivreda Sarajevo plc., both listed on the Sarajevo Stock Exchange and securities of Telekom Srpske plc. listed on the Banja Luka Stock Exchange

In view of the above, it is important to evaluate the financial position and performance of the Company as an Issuer and the parent of its subsidiaries, it can be concluded that the business interests held by the Company in its subsidiaries form a significant part of the basis for assessing the financial position and the success of the Company's operations as an Issuer.

VIII. AIMS AND POLICY

The Company is exposed to basic business risks which are set out in n Chapter IX. of this Report.

All employees of the Company, including the Management Board and the Supervisory Board, participate in the implementation of the internal control and risk management system.

The Company manages risks, especially financial ones, monitoring and compliance with significant regulations and through internal control that is performed by monitoring the operations in all organizational units through the activities of the Company and especially the control of ancillary services.

IX. RISK EXPOSURE

The Company's management believes that the risks have significantly changed from the end of 2019 to the end of the reporting period.

Real Estate Market Risk

By the end of this reporting period, the real estate market in the Republic of Croatia was recovering in terms of growth in the number of building permits issued and price movements of residential and commercial real estate, especially in coastal regions, cities and towns that generate tourist consumption. Since March 19, 2020, when the Civil Protection of the Republic of Croatia introduced measures related to COVID-19, the completion of construction works has been slowed down and construction permits issuance is expected to slow down. Since joining the European Union, the price on the real estate market has been formed mainly due to the lack of real estate supply for daily rental in the market and excess demand from population from economically more powerful western countries. Due to the shortage of real estate for daily rent and rising prices, a large number of real estates were redeveloped from residential to commercial, it also reduced the supply of residential real estate and increased prices. Having restrictions on movement and doing business due to COVID-19 and the expected global financial crisis, real estate prices are likely to fall due to reduced demand, which is a very high risk at present.

Tourism market risk

Tourism, as a very specific industry, connects several other industries by generating tourism spending, currently carries a higher risk score, all given the level achieved, but also the challenges posed by the current global situation. The Company believes that at present the most important risk is related to tourism because of recreation of tourism spending, inability to move and enter the country, as well as social distance.

Industry risk in construction

The management believes it has found a partner for future projects, but at the same time believes that in 2020 will be a lot of construction companies out of work, which will lead to lower prices in construction.

Personnel risk

The Company has 9 employees as of the date of this report. Due to the financial crisis, the global health crisis and the closure of borders, the Management believes that talented staff will be available in the next two years.

Exchange rate risk

Foreign exchange differences are charged to operating expenses or credited to the income statement, but do not affect the cash flow. The Company is currently exposed to currency risk on the basis of changes in the EUR / HRK exchange rate.

Financing risk

The Company estimates that at present the financing risk is low due to favourable conditions in the credit and money market.

Liquidity risk

The Company endeavours to put its own assets into use as soon as possible in order to obtain a continuous cash inflow to service short-term and extraordinary liabilities. All account receivables are secured by appropriate instruments to reduce the risk of non-payment. After the sale of the financial assets, the Management plans to reduce its liabilities and continue its investment activities.

Interest rate risk

Borrowings from credit institutions are generally contracted at a variable interest rate based on the reference interest rate (EURIBOR), and the Company is therefore more exposed to interest rate risk. The Company does not currently use financial instruments to hedge against adverse or unexpected movements in interest rates. Due to global trends, the Management Board believes that it is necessary to reduce this risk by closing debts, which it plans to do in 2020.

Credit risk

The Company does not credit contractors or lessees, and all contracts are secured with additional collateral. The Company itself is exposed to credit risk and it regularly payoff loans to commercial banks. The Management plans to further reduce its exposure to credit institutions by selling real estate. Due to global trends, the Management Board considers it necessary to reduce this risk by repaying part of its liabilities.
