The business activities of the Company and its foreign subsidiaries in the period from January to June 2019 were orderly, with the vessels fully employed and the management system highly functional. The instability associated with the introduction of customs barriers and additional

charges, which directly affected the global commodity exchange and the reduction of transport activities particularly in the United States, China, Canada and the EU, continued in the second quarter of 2019. The recovery of this market began in the second half of June 2019, and according to the BSI index, the daily revenue of Supramax ships of 58,000 DWT in the period from mid-June to mid-July increased by slightly less than USD 3,000 per day, to almost USD 11,000 per day. Full recovery is expected only after the positive outcome of the US-China trade negotiations, and judging by the trend, these negotiations are heading in the right direction.

In the transport of petroleum products, oil and chemicals, the observed period marked the continuation of the volatility trend in the spot market, as well as the stabilization of the freight rates for period time charter contracts, with a slight growth trend. According to earlier announcements, a continuation of the positive trend is expected towards the end of 2019 and in 2020.

The business activities of the Company in the period January – June 2019 were characterized by the following:

- a) Positive consolidated EBITDA of the Group in the amount of 34.5 million HRK;
- b) Net consolidated loss of 14,401,221 HRK, compared to the net consolidated profit of 2,168,956 HRK in the same period of the previous year;
- c) Decrease of total revenue as a result of operating with a smaller number of vessels in fleet and lower freight rates;
- d) Decrease of the total operating expenses of vessels with continuation on rationalization policy introduced in previous years;
- e) Full employment of vessels with the continued trend of high efficiency of the Company's fleet,
- f) Aggravated solvency and liquidity and consequently continued restructuring of loan obligations with banks;

## 1. COMMERCIAL OVERVIEW

In the observed period, the total consolidated operating revenue of the Group amounted to 76,998 thousand HRK, compared to 99,728 thousand HRK realized in the observed period in 2018 as a result of lower freight rates and lower number of vessels in operation. Besides, the additional reason for achieving a much better result in the first six months of 2018 was the extraordinary income from the write-off of the part of the loan, which is why the position of other operating income for the first six months of 2018 was considerably higher than in the first six months of 2019. The major part of the second quarter was characterized by a weak market and low level of freight rates in the bulk cargo sector, which showed signs of growth in the last fifteen days of the reporting period. In the tanker sector, stable revenues were generated since the vessels were employed on a time charter basis. Both fleets of the Company during the period provided the neat performance of contracted obligations with negligible content and employment at a very high level of almost 99%.

## **2. HUMAN RESOURCES OVERVIEW**

On the day of 30 June 2019, the Company employed 29 employees.

## **3. TECHNICAL OVERVIEW**

This represents more than 30% of the total amount of the issue, fulfilling the requirements to increase the share capital of the Company. The share capital of the Company was increased from the amount of 232,000,000.00 HRK, for the amount of 7,721,200.00 HRK, to the amount of 239,721,200.00 HRK, by issuing a total of 77,212 preferred registered non-voting shares, with nominal value of 100.00 HRK each, along with payment of shares in cash. These shares give the following preferred rights to the owners: (i) right to annual dividend in the amount of 5 % (five percent) of the nominal share value, (ii) right to the difference to the full amount of dividend belonging to the owners of ordinary shares for the individual financial year, (iii) right to collect cumulative outstanding dividends through a 3 (three) year period before the payment of dividends to the owners of ordinary shares, (iv) priority right related to the payment of the balance remaining from winding-up or insolvency.

In the period from 22 February to 14 March 2019, the business bank account of the Company was blocked for the amount owed by 3. MAJ Brodogradilište d.d. to the Ministry of Finance, Tax Administration for taxes and other public levies. The Ministry of Finance, Tax Administration, attempted to enforce the collection of the debt from the Company as the debtor of 3. MAJ Brodogradilište d.d., the existence and the maturity of which debt are the subject matter of the initiated court proceedings and are still to be determined. Immediately upon receipt of the decision on enforcement issued by the Ministry of Finance, Tax Administration, the Company has taken all necessary legal steps to protect its interests. All necessary appeals were promptly lodged and the proceedings were initiated to declare the seizure and the transfer ordered by the Ministry of Finance, Tax Administration, illegitimate, as well as the proceedings to postpone the implementation of the order to the banks to transfer the seized funds, in which legal matters the court has to act urgently. At first, the Municipal Court in Pula-Pola, on 8 March 2019 adopted a decision to postpone the implementation of the order to the banks to transfer the seized funds of the

Company. Thereafter, on 13 March 2019, the same court declared the seizure and transfer of monetary funds of the Company attempted by the Ministry of Finance, Tax Administration, illegitimate. Pursuant to such decision of the court, the Company's account was deblocked on 14 March 2019, considering the absence of other reasons to block the Company's account. Due to the short period in which the account was blocked and prompt legal activities of which the Company notified its creditors, the blocked account had no significant influence on the business activities of the Company. Namely, all current contractual relations, both with creditors and with business partners, were maintained and are still in force, while the current expenses of the Company's business activities were settled in an orderly and timely matter after the account was deblocked, considering that the total amount of the seized funds was insignificant compared to the monthly revenue of the Company.

MAJ Brodogradilište d.d. Currently, the negotiations regarding the amicable settlement of the dispute are ongoing.

MAJ Brodogradilište for Domestic Buyers, resulted in the Company allegedly obtaining illegal proceeds in the total amount of 57,960,520.00 kn. The investigation was initiated against the Company as a legal person only for the reason that the same investigation was initiated against the person who was formerly acting as a responsible person in the Company, and it is the direct consequence of this. Any alleged illegal proceeds in any amount are explicitly disputed by the Company, considering that the Company is seeking damages in the amount of 80,082,182.03 HRK based on the same above mentioned Agreement.
