In Varaždin, 16<sup>th</sup> October 2013.

**In accordance with regulations of the Capital Market Act, Varteks d.d.  
Management Board headquartered in Varaždin submitted:**

**MANAGEMENT INTERIM REPORT FOR VARTEKS GROUP**

**For the period of 1<sup>st</sup> January to 30<sup>th</sup> September 2012.**

**Indication of important events that have occurred during the reporting  
period of the business year and the impact of these events on the abridged  
set of financial statements**

The report relates to the Group's business operations in 2012, i.e. in the time period I – IX/2012, with separate data for the third quarter. Parent company data also constitutes an integral part of the overall documentation which had to be drawn up and submitted during pre-bankruptcy settlement proceedings, which were officially initiated for Varteks d.d. on February 5, 2013. In accordance with the Financial Transactions and Pre-Bankruptcy Settlement Act, the report for Varteks d.d. was revised by a certified auditor, and the data was published together with other documents from the pre-bankruptcy settlement proceedings on the official website of the financial agency FINA, whereby the provisions of the Capital Market Act were met.

The total loss in the relevant time period amounted to HRK 89.4 million, of which HRK 58.6 million relates to the third quarter. Since parent company reports were revised, all elements were fully aligned with the annual report. Especially in terms of the evaluation of current assets, where value adjustments which are carried out annually according to accounting policies were carried out in the third quarter, which had an adverse effect of HRK 24.4 million on the result.

The Group's operations in the examined period and in Q3 2012 continued amidst the further continuation of the economic crisis and growing illiquidity, which particularly affected revenues and financing costs, especially when it comes to interest, which amounted to HRK 33.2 million for Group operations in the examined time period. In terms of business activities, revenues of HRK 202.4 million were generated, which is 20.6 percent less than in the same time period in 2011.

With regard to the issue of illiquidity, operations took place amidst extreme difficulties in the procurement of raw materials, production materials and merchandise, along with the inability to utilize part of the production capacity and a lack of timely season financing. Aforementioned elements suggest that in current business conditions the operations of the entire Group need to be restructured, while maintaining business activities only in those member companies which can operate positively after restructuring. The effects of activities which must be implemented are evident in the adopted pre-bankruptcy settlement proposal and broken down in detail in the company's Business and Financial Restructuring Plan.

**Most significant risks and expectations for the remaining business year**

In 2013, pre-bankruptcy settlement proceedings were successfully implemented and the required creditor majority adopted the Financial Restructuring Plan of the parent company Varteks d.d. A pre-bankruptcy settlement was reached on July 11, 2013 before the

Commercial Court in Varaždin. For the Group to successfully implement restructuring and to continue business operations, all elements of the concluded pre-bankruptcy settlement and the adopted Financial Restructuring Plan for Varteks d.d. must be implemented, which also includes the conclusion of an agreement on mutual relations with creditors holding separate satisfaction rights and additional funding for Varteks.

Varteks d.d.
