VARTEKS

Varaždin, April 30th, 2020

In accordance with the provisions of the Capital Market Act, the Management Board of Varteks d.d. based in Varaždin submits:

MANAGEMENT INTERIM REPORT

For the first quarter of the year 2020 (cumulative period 01.01. -31.03.2020/unaudited)

Indications of significant events that occurred during the reporting period and the impact of these events on the condensed set of financial statements

In the first quarter of 2020 Varteks Group had revenue of HRK 29.4 million which is 5.3% less than first quarter of 2019. Varteks d.d. had revenue of HRK 28.9 million which is 2.3% less than first quarter of 2019.

However, it is important to note that in March 2020, the Group and the Company were hit hard by the crisis caused by the coronavirus pandemic. The following is a chronology of important events caused by a coronavirus pandemic:

- March 9th as of this date revenue in the Retail segment is plummeting in comparison to the week before by 32%, and it continues to fall from 50% to 80%
- March 19th we are forced to close all stores with the exception of web-shop
- Mid-March and End-March negotiation for the new credit facilities to finance working capital, which was in the late stage of realization, had not been concluded due to the financial market crisis caused by the coronvirus epidemic
- March 23rd an online application was sent for Government grant in the form subsidy for 3 minimum monthly salaries for each employee for months of March, April and May. Getting this measure was crucial to the survival the Company. On March 31st we were granted the measure to protect jobs in the amount of HRK 9.2 million for Varteks d.d. and HRK 0.3 million for Varteks Pro d.o.o.
- Mid-March and beginning of April the largest customers in the Contract manufacturing segment are reducing orders by 50% and there are announcements that reduced demand may continue until the end of the year
- March 24th Contract manufacturing has been halted for safety reasons and from this day until April 1st only washable face masks are being produced with significantly reduced number of production workers. First 70.000 produced masks valued at more than HRK 700 thousands were donated to the Civil protection of the Republic of Croatia and Ministry of the Interior of HR19 2360 0001 1013 3948 3 the Republic of Croatia

Zagrebačka banka d. April 1st – Contract manufacturing production was restarted with limited capacity for safety Zagreb reasons; however with significantly reduced orders

VARTEKS

For the above reasons, the Group's operating income was down HRK 7.1m in March (HRK 5.3m compared to last year's HRK 12.4m) which is a drop of 57.2%, while the Company's revenue was down HRK 5.5m which is a drop of 53.5%. Additionally, during January and February, the Varteks Group recorded a revenue growth of HRK 4.1m or 21.3%, while Varteks d.d. had a revenue growth of HRK 4.6m, or 24.3%. The performance in January and February was in line with our ambitious business development plan for 2020 before the impact of the corona-crisis.

The extent of the impact of the coronavirus pandemic on our most profitable Retail segment (dominated by our own brand retail) is also quite pronounced. In January and February, we achieved growth of 50% over the previous year, which was even higher than the budget by 1%, while in March it dropped by 47% compared to March last year and 60% compared to the budget.

Regarding Contract manufacturing segment, revenue drop in March was 70% as compared to the same period last year, while cumulatively in the first quarter it decreased by 18% compared to the previous quarter.

In the business of the Varteks Group, the EBITDA movement is highly seasonal in nature and the budgeted EBITDA for the first quarter of 2020 was at the level of negative HRK 1m, while a positive HRK 11.2 million is budgeted for 2020 full year. The table below shows that the normalized EBITDA of the Varteks Group in the first quarter of 2020 was negative HRK 5.8 million which is below budget by HRK 4.8 million. Entire variation came from March as a result of the coronavirus pandemic.

^{*} IFRS 16 effects were not reported in the financial statements for Q1 2019

With regard to financial activities, in the first quarter of 2020 a net cost was HRK 4.3m which is HRK 3.6m more than in the same period last year. There are three reasons for this change. Firstly the increase in the negative unrealized foreign exchange differences arising on long-term bank loans in the amount of HRK 2.4m (an increase in the exchange rate from March 31st as compared to December 31st), secondly an increase in the financial cost of HRK 0.6m as a result of change in the accounting for revised club loan (restatement of misclassification corrected in the 2019 annual statements) and thirdly application of IFRS 16 and the posting of a financial expense of HRK 0.3m that had not yet been applied in the first quarter of 2019.

The most significant risks and expectations for the future

In 2019, the full effects of the restructuring activities were achieved and the extraordinary revenue growth in the Retail segment was an important step in further development and stabilization of the business. In March and April 2020, the business of the Company and the Group was severely affected by the coronavirus pandemic.

Several possible scenarios have been made for business development in 2020. According to the optimistic scenario (shorter pandemic period and faster recovery of the economy), the Company is capable of operating from its own business, using the Government's measures for protecting jobs and expected sale of inactive real estate by the end of 2020. According to the pessimistic scenario (longer pandemic period and slower economic recovery), additional liquid funds will be needed to maintain business liquidity, which is why we expect to have HBOR and commercial bank loans available as part of the Government's "April" measures.

In optimistic scenario Management is considering following facts:

- although our retail sale is temporarily suspended, we received significant compensation measures of HRK 9.5m (granted salary payment measure for March, April and May; write-offs and granted delayed rent payments by some lessors, etc.);
- although orders by foreign customers decreased, at the same time we focused on the
 production of washable cotton face masks, for which there is great demand and our capacities
 are currently fully used;
- currently web-shop sales as the only working store (in the period after March 19th to April 27th 2020) is performing significantly better than last year and we believe that this will strengthen our online position in the period after the crisis caused by the coronavirus pandemic;
- potential customers are still very interested in purchasing non-operating real estate, at values
 which are not lower than initially estimated, whose sale will help stabilize the company in the
 medium and long term; and
- although the post-crisis crisis is likely to make the fashion industry one of the more affected, since Varteks is one of the few vertically integrated fashion houses (with its own production, both within the EU), in the long run, we believe that the megatrend bringing back production to the EU is conducive to our further development.

Description of the financial risk management policies and exposure of the Group and the Company to those risks

The Group's 2019 annual financial statements contain the required disclosures regarding the Group's management and exposure to financial risks. The management of liquidity risk and cash flow risk is described in the consolidated financial statements for 2019 in Note 38 b).

In this interim report, we would like to highlight liquidity risk as still the most significant business risk which is now being further impacted by the management of the coronavirus crisis. As of March 31st 2020, the Group and the Company continue to have a significant amount of overdue liabilities. The Management is undertaking financial restructuring measures to provide the means to meet these arrears. We expect that additional cash inflows could be generated during 2020 from the sale of the Company's PPE (not used in production operations), some of which should be used to reduce outstanding trade payables and financial debt.
