Solin, March 12, 2020

Response on the ZSE inquiry

As a response to your inquiry about the decline in ADPL share price that triggered the volatility interruption, we hereby inform you that we are not aware of any new circumstances or facts that affect or could affect the share price, and which do not arise from information previously provided to the Stock Exchange.

The situation caused by the spread of the COVID-19 virus caused panic in the capital market, as evidenced by the decline in the price of all shares and CROBEX. Nevertheless, our operations at all sites of the AD Plastik Group have so far been in line with business plans and we have no customer announcements of changes.

More recent information is a press release from the FCA Group which, due to the situation in Italy and the measures taken by the Italian Government, has decided to temporarily close (from two to three days) its factories in Italy, which has no material impact on our business.
