Title: Announcement Concerning Commercial Court's Resolution

Zagreb, 17 September 2013 – Dalekovod's management is intensively considering all legal options and will act in company's best interest, while recognizing and protecting the interests of its employees, creditors, shareholders, as well as those of the greater social community.

We believe we will be successful and will find the best solutions considering the fact that, despite these difficulties, Dalekvod has remained one of the most important exporters in the Republic of Croatia with a longstanding business tradition and a strong brand position on the international market.

Despite its current difficulties, Dalekovod continues to enjoy trust among major investors in world's most demanding markets and is negotiating new contracts in the area of energy, which is of special strategic interest to each country.
