Title: Contracts to Build Transmission Lines in Ukraine Officially Signed

Zagreb, January 23, 2014 – At the ceremony held in Kiev on January 22, 2014 the contracts to build and reconstruct transmission lines in Ukraine were officially signed.

The ceremony was hosted by NEK Ukrenergo COB Petro Omelyanovskyi. On behalf of Dalekovod the contracts were signed by the President of the Management Board Goran Brajdić, who was accompanied by a member of the Board Krešimir Anušić and Croatia's Ambassador to Ukraine Tomislav Vidošević.

The first of the two contracts stipulates the construction of a 330 kV transmission line, linking the 330 kV Novokakhovska - Ostrovska line to a new 330 kV Kakhovska substation and reconstruction works on a section of the existing transmission line. The contract is worth **€11.1 million**.

The second contract is for the construction of a 330 kV transmission line, linking 330 kV Novokakhovska - Khersonska line to a new 330 kV Kakhovska substation and reconstruction works on a section of the existing line. This contract is worth **€18.5 million**.

The source of funding is the European Bank for the Reconstruction and Development.

These contracts will ensure the implementation of the Energy Strategy of Ukraine until 2030 and enable the Ukrainian power network to be connected through a 330 kV transmission line.
