10000 Zagreb

Predmet: **Dalekovod d.d. being awarded another contract in Slovenia**

Dear Sirs,

We are free to inform you that Dalekovod d.d. Zagreb has received a notice of award related to construction of 38.2 km long section of the new 2x110 kV Beri evo . Trbovlje transmission line including construction, installation and electrical installation works and supply of steel structures, while the delivery of other necessary equipment is not part of this contract. Deadline for performance of works is 18 months, and the contract value amounts to " 8.5 million including VAT.

This is a transmission line that connects the thermal power plant Trbovlje with the substation Beri evo, being the most solid and significant point of the electric power system of the neighbouring state, ensuring in this way reliable evacuation of electric current from the substation Trbovlje to the transmission system, increasing in this way the reliability of the above.

The investor of the project ELES, Elektro-Slovenija d.o.o. conducted a single-stage Public Invitation to Bid procedure for the captioned transmission line and published it on the public procurement portal of the European Union. At the public opening of bids at the time advised in the Bidding documents four bids of the following bidders had been received by the Investor: Dalekovod d.d. as a member of the Croatian-Slovenian Consortium Dalekovod d.d. Zagreb/Elektroservisi d.d.; Hungarian-Austrian Consortium OVIT Zrt. Budapest/ VLB Leitungsbau GmbH & Co. KG; Slovenian-Slovakian Consortium C&G d.o.o. Ljubljana/ SAG ELV Slovensko a.s. and the Italian-Slovenian Consortium Cestno Podjetje Ljubljana, d.d./Impresa Rodolfo de Francchi, C.S.A.A.

According to the technical and financial criteria and reference standards, the Bid of our Consortium has been declared as the most favourable Bid by the Investor.

Sincerely,

Dalekovod d.d.
