In Ukraine Dalekovod signed an agreement worth over 10 million Euro

Zagreb, 15 June 2015 – Dalekovod has signed an agreement with Ukraine's national electricity company, Ukrenergo, worth more than EUR 10 million.

It is a part of a large 'Power Transmission' project of modernization and revitalization of the Ukrainian electricity system, and includes the acquisition of high-voltage equipment for the 750 kV substation at Vinnytsia.

The modernization of this substation will strengthen Ukraine's electricity grid, which is one of the largest in Europe. Large-scale and stable electricity generation is vital for this country. The completion of the project is estimated for early 2016.
