

ERICSSON NIKOLA TESLA AND BECLOUD PROVIDE BELARUSIAN USERS WITH LTE SERVICES

Ericsson Nikola Tesla, in cooperation with beCloud company, will provide Belarusian users with LTE services. The contract is worth over MHRK 76.

It concerns the second phase of introducing LTE technology in three regions of Belarus, and the project will be implemented till the end of 2017. In cooperation with beCloud, Ericsson Nikola Tesla will deliver and put into operation LTE network, as well as ensure related services.

“Ericsson is our strategic partner in the implementation of major innovative projects in the Republic of Belarus. During last year beCloud brought to Belarus many unique solutions which have no analogues in the country, and the success of many projects wouldn't be possible without such a reliable partner as Ericsson. We appreciate our cooperation and we are aimed at long-term partnership. LTE technology is already in high demand in the capital, therefore its implementation in regions is more than timely. And thanks to Ericsson this project will be possible.” - stated Sergey Poblaguev, CEO beCloud JLLC.

President of Ericsson Nikola Tesla, Gordana Kovačević, MSc, commented on the new contract: “I am glad that Belarus users will be provided an access to this powerful mobile technology. Ericsson actively participates in LTE development, which is acknowledged by continuous improvements regarding the new possibilities this technology offers, thus responding to the needs of the growing number of users using smartphones and other smart communication devices. The significant experience of our experts and their dedicated work on LTE projects worldwide, is a guarantee that the citizens across Belarus will soon use many LTE advantages.”
