
ERICSSON NIKOLA TESLA AND CRNOGORSKI TELEKOM SIGNED MORE THAN MHRK45 AGREEMENT

Rüdiger Schulz, Chief Executive Officer of Crnogorski Telekom and Gordana Kovačević, MSc, the president of Ericsson Nikola Tesla in Podgorica signed on Nov. 10, a frame agreement, defining the cooperation in the radio access network for the next five years. The contract value amounts to more than MHRK 45. As of the contracted business, the realization some 40 per cent is planned for the 12 months to come.

Within this agreement, Crnogorski Telekom will be supplied Ericsson EVO RAN solution, which enables a multi-standard radio transmission that will cover the second and the third generation of mobile telephony and LTE technology, too. The agreement also covers the new equipment implementation service and the removal of the old one, measurements “drive” tests and continuous monitoring of the key network performance indicators.

"Our users have already got used to enjoy the most innovative services and the superior network quality. This project will enable them the access to even wider scope of modern services and technologies, since the equipment is ready for 4G technology. By selecting Ericsson for the partner, we shall be provided with the state-of-the-art technology that enables further improvement in performance, efficiency growth and the considerable energy savings. The final goal is to set up a future proof network, which will meet T-Mobile users' needs in the best possible terms. Being a socially responsible company, when concluding an agreement we had in mind not only the quality and reputation of the partner, but we especially took into account that the new equipment should meet the environment protection highest standards" said Rüdiger Schulz .

Gordana Kovačević, MSc, gave a comment on the deal: "It has not been long since putting 3G services into the commercial operation in Montenegro, and Crnogorski Telekom, in cooperation with our company, may be proud of the highest speed of mobile network access in Montenegro. Thus, the rate of even 42 Mbps has been recently available to its users. The

new agreement is a guarantee for further implementation of modern technologies, in compliance with needs of Crnogorski Telekom, which is a leader in offering new functionalities to Montenegro users. The “green technology” by Ericsson offers considerable power savings and low carbon emission. Thus, the innovative approach and leading market position of Crnogorski Telekom goes on”.
