

ERICSSON NIKOLA TESLA AND HT ERONET SIGN A NEW CONTRACT

Ericsson Nikola Tesla and HT Eronet have signed a new contract related to Evolved Packet Core system. The contract signatories were Vilim Primorac, President of HT Eronet Management Board, Tomislav Ruk, HT Eronet Management Board member for fixed network and Gordana Kovačević, the President of Ericsson Nikola Tesla.

Evolved Packet Core system is a modern technology solution that ensures greater network capacity and new services development. The development of new services will further expand the offer of quality services to HT Eronet's mobile network users. Furthermore, the implementation of this contract will ensure that all technical preconditions for access via other technologies such as 4G and WiFi are met. Evolved Packet Core system enables significantly better network performance for the continuous growth trend in the use of data services in the mobile network.

Gordana Kovačević pointed out „I am glad that we have continued with our successful cooperation. This makes a great foundation for continued work on modernization of HT Eronet's network.“

Ericsson is the driving force behind the Networked Society - a world leader in communications technology and services. Ericsson long-term relationships with every major telecom operator in the world allow people, businesses and societies to fulfil their potential and create a more sustainable future.

Ericsson services, software and infrastructure - especially in mobility, broadband and the cloud - are enabling the telecom industry and other sectors to do better business, increase efficiency, improve the user experience and capture new opportunities. With more than 115,000 professionals and customers in 180 countries, Ericsson combines global scale with technology and services leadership. Ericsson supports networks that connect more than 2.5 billion subscribers. Forty percent of the world's mobile

traffic is carried over Ericsson networks. And Ericsson investments in research and development ensure that his solutions and customers stay in front. Founded in 1876, Ericsson has its headquarters in Stockholm, Sweden. Net sales in 2014 were SEK 228 billion (USD 33.1 billion). Ericsson is listed on NASDAQ OMX stock exchange in Stockholm and the NASDAQ in New York.

Ericsson Nikola Tesla, as an integral part of the Ericsson Group, supports the modern ways of communicating. The company's activities include marketing and sales, research and development, design of the total communications solution, services in the multi-service and mobile networks area including the mobile Internet and complex system integration in all business areas. The company provides innovative ICT solutions that constantly improve people's life and create new value. Shares of Ericsson Nikola Tesla are traded in the Regular Market of the Zagreb Stock Exchange under the stock exchange symbol ERNT-R-A.
