**SUBJECT: Notice on material facts**  
**INGRA successfully completed project on the HPP Haditha in Iraq**

---

Pursuant to the provisions of the Capital Market Law (Official Gazette 88/08, 146/08 and 74/09) and Rules of the Zagreb Stock Exchange Inc., INGRA Inc. (ZSE: INGR-R-A), Zagreb, Alexander von Humboldt street 4/b, hereby notifies the public that the company has successfully completed project worth EUR 5.8 million, which included rehabilitation of the turbines, the generator and the associated hydro mechanical equipment on Unit number one on the Haditha Hydroelectric Power Plant in Iraq.

During the 1980s INGRA was the main contractor for the construction of the entire Haditha Hydroelectric Power Plant (6 x 110 MW), which enabled the setting up of this business deal. This Unit was out of service for twelve years and thanks to INGRA's specific and expert knowledge, it has been successfully put into operation and commercial operation at full power of 110 MW.

INGRA expects more good news on the signing of new contracts in the markets of Iraq and the Middle East. After the rehabilitation of the first unit, INGRA plans to continue with construction works i. e. the rehabilitation of the remaining five units of the Haditha Hydroelectric Power Plant.

INGRA operates in Iraq since 1964 and is one of the few companies that did not close its office even during the fiercest conflicts. This is certainly one of the reasons why INGRA enjoys the favour of Iraqi investors.
