Subject: Response concerning material facts

Concerning your inquiry in relation to the article published in Poslovni Dnevnik on August 08th 2012. with the title: "KAP from Podgorica redirected the export of aluminium from port of Bar to the Ploče Port" hereby we provide information:

Ploče port is a port of public and international importance and it is opened for traffic and operations to all clients in domestic and international market.

Luka Ploče (Port of Ploče) performs port handling services of the aluminium ingots for various clients for a long term periods, presumably also for needs of KAP Podgorica. However, Luka Ploče is not in direct and separate contractual relation with above mentioned factory or its representative, but the work is organized through forwarding agent- freight forwarder which, in such case, acts as an ordering party and paying party for rendered services.

It must be noted that Luka Ploče is focused on the performance of port operations, handling of cargoes, therefore the data on origin or destination of the cargo that we handle is of less significance.

With respects,

President of the Board:

Capt. Ivan Pavlović
