Stoppage of fertilizer production plants

According to the Capital Market Act and Rules of the Zagreb Stock Exchange, the Management of Petrokemija has made the announcement as follows:

All fertilizer production plants were shut down at 21.45 hours yesterday (March 27, 2014) due to a fault on the 220 kV transmission network of HEP which supplies fertilizer production with electricity.

The preparation for the startup of individual plants is underway and full production is expected by April 1, 2014.
