Notice pursuant to the Capital Market Act

### Production stoppage

In accordance with the Capital Market Act and the Rules of the Zagreb Stock Exchange, Petrokemija, d.d. is issuing the following announcement:

Late afternoon on Monday, there was an interruption of electricity supply due to the drop-out of the 110/10 kV transformer at the Electricity Distribution plant, which caused the shutdown of all production facilities.

Repairing the failure is in progress and a part of the production facilities has started up. Petrokemija will report on the restart of the entire production later.

The temporary stoppage of the mineral fertilizer production plants will not negatively affect the end-users in agriculture since Petrokemija has sufficient reserves of mineral fertilizer to supply the domestic and regional markets with all types of fertilizers until the production is resumed.
