Technical maintenance before plant overhaul

In accordance with the Capital Market Act and the Rules of the Zagreb Stock Exchange, the Management Board of Petrokemija d.d. is issuing the following notice:

Last night, the ammonia production plant started a planned shut down for carrying out preparations current maintenance of the plant before the scheduled summer overhaul. In accordance with the maintenance plans the plant is expected to restart on Friday, 20 April. Mineral fertilizer production plants operate as planned and provide sufficient volumes of all mineral fertilizers needed for top dressing of autumn crops and for spring sowing, which is in full intensity in Croatia and the region.
